Glad you were able to steer it in their direction. It makes the most sense to try and consolidate these expenditures as much as possible.

Subject: RE: Urgent: Flint stuff

Natalie Spaniolo and I talked to Susan Kangas about a half hour ago and discussed it with her. We had been copied on an email where it was mentioned Nancy preferred that DHHS pay for it so that DTMB wasn't added as another line on the supplemental request. Thanks.

All-
Just got off the phone with Susan Kangas (CFO DHHS) and they will be issuing the purchase order for the $4.2 million per Nancy Duncan's request.

Natalie

Ok, here's the plan we must follow. Every purchase we make on behalf of DTMB or any other agency must be approved by Chris Christensen (our SEOC rep.) in advance. Chris will ensure that we don't create a situation where multiple departments pull the trigger on the same expenditure. I have communicated this plan to Shawn Sible (MSP) and Nancy Duncan (SBO).

Chris, if you have any concerns, please call me.

Brom, Phil, Natalie—My understanding is there is a PO for $4.3 million for water filters and cartridges pending funding approval. Nancy indicated DTMB has agreed to pay for this per David; however, she has a slight preference that DHHS pay for it to keep DTMB from being another line item on the supplemental. Phil, are you the right person to take the lead to identify the funding source so that the PO can be released?

Thanks, everyone!

Subject: Volunteer Opportunity in Flint

The State Emergency Operations Center (SEOC) is coordinating a response to the ongoing health and safety issues in the city of Flint's drinking water. Teams from the Michigan State Police, Genesee County Sheriff's Department, Michigan Department of Health and Human Services, and volunteer organizations have been delivering bottled water, water filters, replacement cartridges and water testing kits at homes in the city of Flint since Tuesday.

To help with this critical work, the SEOC is looking for volunteers to expand this effort and continue this distribution during the upcoming holiday weekend. Teams are being assembled for shifts on Saturday, January 16; Sunday, January 17; and Monday, January 18, 2016. If you are interested in volunteering your time for this critical work, please complete the information in one of the attached surveys (depending on which day you are volunteering).

To volunteer on Saturday, January 16, https://www.surveymonkey.com/r/28NVJBL

To volunteer on Sunday, January 17, https://www.surveymonkey.com/r/26NMJKK

To volunteer on Monday, January 18, https://www.surveymonkey.com/r/26P7P5G

Volunteers will begin their assignment at the Local Emergency Operations Center located in the Genesee County Administration Building located at 1101 Beach St, Flint at 9 a.m. and end by 4 p.m. Parking is available at the corner of Beach Street and 8th Street. Lunch will be provided. This is strictly a volunteer effort, as all three days will be unpaid. Volunteers are responsible for their own transportation; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

This opportunity is for state employees and their immediate family members 16 years of age or older only, others looking to assist should volunteer through the American Red Cross in Flint. The volunteer coordination center for the Red Cross is located at 1401 S. Grand Traverse, Flint, MI. They are open from 9 a.m. to 7 p.m.

For more information on the state's response efforts, visit www.michigan.gov/flintwater.

> > · Lt. Governor Calley visited the SEOC during today's briefing to thank everyone for their efforts and said that tension levels in Flint have lowered, this allows the state to start working on long term recovery efforts
> > · Red Cross will begin providing food Saturday to all volunteers beginning Saturday
> > · 3,208 homes have been visited as of this note
> > · DHHS conducted a short presentation on stress relief at the SEOC
> > · At time of briefing the following numbers are available for state employee volunteers: 64 Saturday, 84 Sunday and 100 Monday

- DTMB security coordinator notified that traffic at the state laboratory will increase beginning Saturday
- Guard has 34 soldiers are on active duty in the City of Flint
- DTMB assisted in procuring another 30,000 water filters and faucet units for Saturday delivery
- Capt. reminded key agencies (DTMB is one) that personnel must be present at SEOC during operation hours

DTMB resource requests include:

- Leased warehouse space for supply distribution
- Credentialing badges for volunteers
- Located JIC in Flint State Office Building with equipment
- SMART devices for water response teams (60)
- Procurement of trucks, water, water filters, cartridges and plumbing supplies for pilot water program
- Printing and delivery of water analysis test forms and informational palm cards
- Seven drivers with trucks transporting supplies throughout the city through Tuesday, January 19
- Temporary fuel cards
- 500 rain ponchos
- 40 yard dumpster for use at the warehouse
- Survey Monkey 1-month subscription for employee volunteer survey

DEQ asked DTMB about purchasing of water kit supplies once the allotted funding they received in October is reached. Who in finance do I need to reach out to to discuss?

I also need to understand if there any problems with DTMB purchasing things for Flint.

Thanks Chris

Greg,

FYI - We've set up Index 90055 for the IT Flint related costs. 90050 is no longer active.

Thanks,

Tim

Subject: FW: SEOC Billing Index
Importance: High

Just an FYI that there is not a source of funds on the MB side for the Flint related charges into Index 90050. Please compile the costs and when we are notified that reimbursement is available we will move those costs forward. I would also recommend that you have someone tracking the specifics of each cost as MSP will ask for that. Thanks.

Importance: High

I am trying to make the billing process easier for everything happening in Flint. When we had the Detroit flooding issue we set up billing index's for the emergency. We used 45405 for MB and 90050 for IT, can we set up a billing index for Flint?

If it doesn't matter I need to know that because we are trying to track things and I wanted to make sure we are on the same page.

I'm trying to get an idea of the reimbursement process for DTMB as it relates to the Flint disaster. We are incurring and tracking costs for vehicles, fuel, purchase of iPads, delivery services, warehousing, etc. Will this be reimbursed through MSP or need to be provided at some point for a piece of a supplemental? I'm not concerned about a reimbursement at this point (as we are pooling the costs on the non-appropriated side) but wanted to be able to provide information to senior management and to provide direction for the various programs providing the support. No big rush just want to make sure I'm doing things properly. Thanks.

Flint Curbs Snyder's Future

Although it's premature to call him a lame duck, Michigan Gov. Rick Snyder's political capital has clearly been diminished by the Flint water crisis. During his State of the State address on Tuesday, Snyder offered lots of apologies: "You did not create this crisis;" "Government failed you;" and, "I'm sorry."

Since winning re-election in 2014, Snyder had been mentioned as a potential presidential or vice presidential pick on the Republican side. That kind of talk, however, has abruptly ended. "Even some Michigan Republicans concede that Snyder's national prospects are toast, at least in the short term," reports *Politico*. **KEEP READING >>**

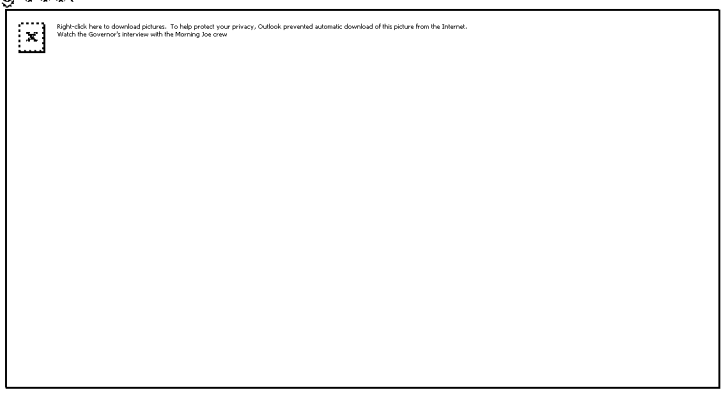
How we are fixing the Flint water crsis

Governor Rick Snyder has committed to spending the rest of his time as Governor to fixing the Flint water crisis. Over the last few days, he has sat down to explain what happened and how we're fixing the Flint water crisis. Watch the interviews below and be sure to read the Governor's Op-Ed in the USA Today.

Governor Snyder on Morning Joe

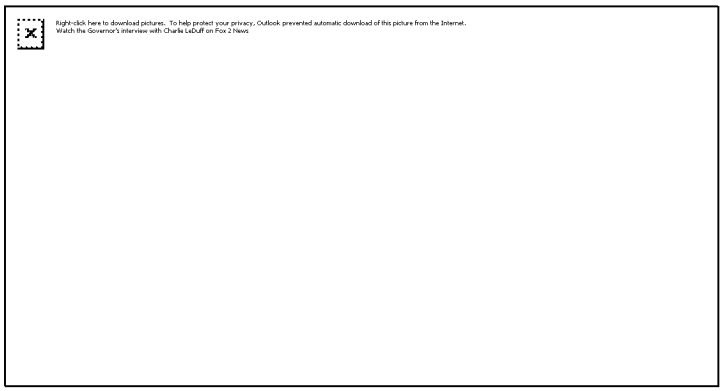
"What is so frustrating and what makes you so angry is you have a handful of experts who were career civil servants that made terrible decisions, in my view. We have to live with the consequences, and they worked for me, so I accept that responsibility. We are going to fix this problem." Watch Governor Snyder address how we are fixing the Flint water crisis on Morning Joe.



Governor Snyder with Charlie LeDuff on Fox 2 Detroit

"I feel awful about this. These are people. They've been harmed. You can't feel good about that. The people of Flint have been harmed and a major influence of that harm

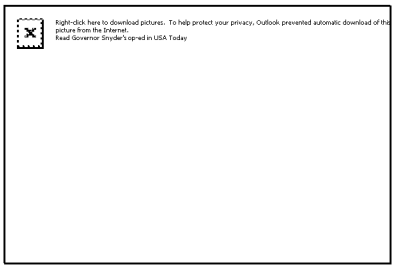
came from people who worked for me, and I feel responsible for that. But I am committed to solving the problem and addressing the damage as much as possible for the rest of the time I'm Governor." Watch Governor Snyder address the Flint water crisis with Charlie LeDuff on Fox 2 News.



Governor Snyder's 2016 State of the State

"Michiganders don't quit, we don't give up, instead we will work with even more passion and commitment to truly improve our state. For everyone who's chosen to make Michigan their home, this is more than a promise, this is my commitment." Watch Governor Snyder's full closing statement from his 2016 State of the State address.

Governor in USA Today: "I will fix this, and I mean it."



"Residents in one of Michigan's proud cities cannot drink their water. That's unacceptable. The crisis in Flint arose from missteps at all levels of government — local, state and federal. But as governor, I take responsibility for what these families are going through, and I'm holding people in my administration accountable for their failures." Click here to read the Governor's full op-ed.

Washington Post: "Michigan Gov. Rick Snyder is in a tough spot, but he's his own best spokesman"

Snyder has born the brunt of criticism in the local health crisis that has turned into a national scandal. But unlike many other politicians facing crises of leadership, Snyder may also be his own best counter-programming. Click here to read the full story in the Washington Post.

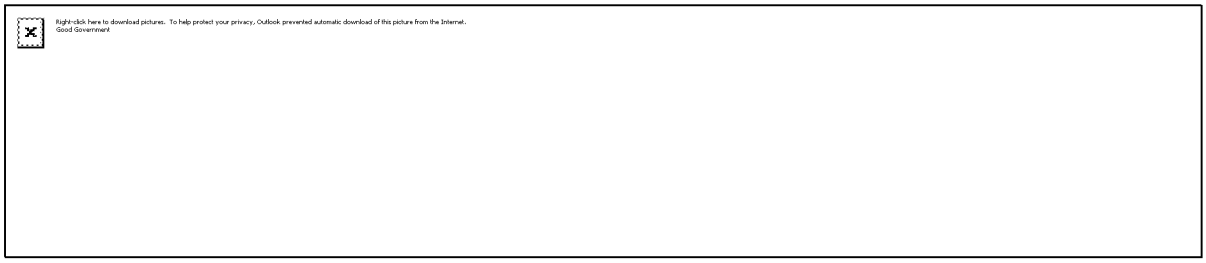
Subject: Flint Volunteer Efforts



Dear State Employees,

Gov. Rick Snyder and I want to thank everyone who donated their time during the holiday weekend to deliver bottled water, water filters, replacement cartridges and water testing kits to families in the city of Flint. We are working hard to ensure all residents are provided with the safe water resources they need, and each donation and hour of your time volunteered goes a long way.

For employees who would like to help the residents of Flint, there are several opportunities to do so. Please visit www.helpforflint.com to learn how you can help.

For additional information and updates, visit www.michigan.gov/flintwater.

Again, thank you for all your support.

Sincerely, Mike Zimmer
Office of Good Government Director
Dept. of Licensing and Regulatory Affairs Director

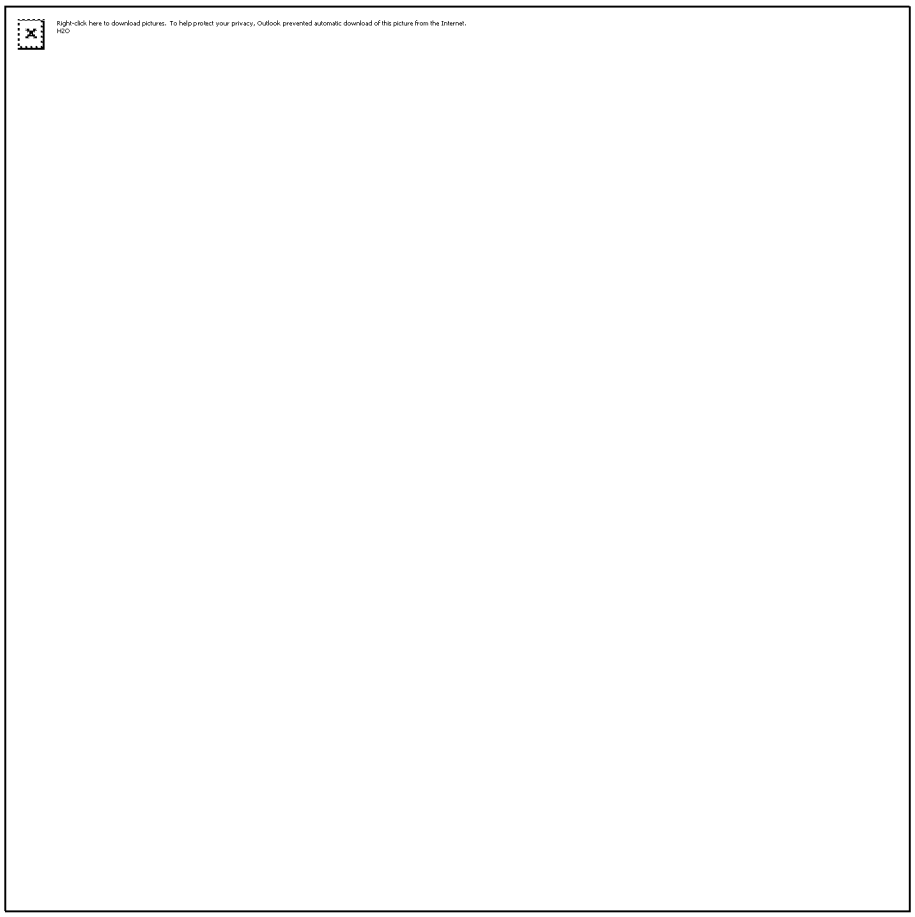
Subject: Contributing time, muscle and money

During this month's Martin Luther King Jr. holiday weekend, some state employees turned their "day off" into a "day on" in Flint. There, they delivered bottled water, water filters, replacement cartridges and water testing kits to families. The volunteers joined other Michiganders, turning Dr. King's birthday observance into a day of service.



Mike Zimmer, director of the Office of Good Government and the Department of Licensing and Regulatory Affairs, has shared a link – www.helpforflint.com – that offers other opportunities to contribute time, muscle and money to bring clean drinking water to the community.Here in DTMB, some of our employees didn't wait for an invitation to lend a hand. Office of Retirement Services staff contributed funds that were used to buy 31 cases and 23 gallons of water, which a local organization transported to Flint.

Autumn Hubbard, Ambrea Mack and Sarah Esquivel, who are in the photo at the left, nearly emptied the shelves at their local grocery store. Thanks for your efforts.

everyone.

Now work.

Last week, I signed a new policy that formalizes the annual employee review process and sets expectations for employees and managers. Administrative Policy 200.37 establishes consistent standards for implementing performance plans and reviews. Some of the standards are practices we have followed for years. Others are new. Some of particular note include:

- The mandatory use of HRMN
- A standard Feb. 1-Jan. 31 rating period for all employees
- An Individual Development Plan that specifies training or development programs for each employee
- Competencies and objectives that align to DTMB goals or scorecard metrics
- Consequences for managers and supervisors who do not complete the review process as required

A fundamental role of each DTMB manager or supervisor is to provide employees with direction and feedback on their performance. Employees also are expected to take an active role in pursuing professional development opportunities and achieving their competencies and objectives. I encourage you to review the new policy and talk with your manager or supervisor if you have questions. Of course, I welcome your questions and input as well. Please send your comments and ideas to me at behend@michigan.gov.

I know these have been busy weeks for many of you as you take on additional responsibilities and work hard to provide resources and services for our customers and citizens across the state. Please know that your hard work has not gone unnoticed. Thank you for everything you do, every day.

Have a great week,

David

JANUARY 30, 2016

Welcome to a special Saturday edition of GovTech Today, where we recap our best stories of the week — just in case you missed them. Thanks for spending a little bit of your weekend with us.

Anonymous Activates #OpFlint: According to the hacker group, OpFlint promises online attacks directed toward Michigan Gov. Rick Snyder's administration in response to the Flint water emergency, which has dominated national headlines recently. Though Vocativ.com says the video doesn't explain any specifics of Anonymous' attack plan, it does assure to those affected by the water crisis that, "We will amplify your voice where the mainstream media will surely fail you, as it has in the past." See what Michigan officials had to say about the threat.

Speed Up by Slowing Down: It's becoming increasingly difficult to stay current with emerging technologies while mitigating security vulnerabilities. So what can be done to keep up? Surprisingly, it may be best to slow down, look around and catch your breath. That's right — if you want to speed up innovation, many experts suggest slowing down first.

Emerging Tech Affects Jobs: A new study has some worrisome revelations for the future of the global job market: By 2020, more than 5 million jobs could disappear in the wake of advancing technology. And those in the public sector are not immune.

SF's Startup in Residence: Building on a program from 2014, the San Francisco Mayor's Office of Civic Innovation announced during a Jan. 28 press conference the 2016 Startup in Residence program that includes a regional partnership with the neighboring cities of Oakland, San Leandro and West Sacramento. The ultimate goal? To build toward an international program.

Flint Water Expenditure Tracking and Reporting
Agency Meeting

Agenda

I. **Introductions**

II. **Objective – Ensure proper tracking and reporting of Flint water related expenditures, outputs and outcomes.**

III. **Expenditures -Flint water expenditures to date - (Type, description, supplemental vs. non, approvals)**

IV. **Agency Coding - Flint water related expenditures – (Appn, Fund, PCA, Index, Activity Code, Multipurpose code, etc.)**

V. **Supporting Documentation – (Invoices, P-Cards, contracts, grant agreements, payroll sign in/sign out logs of times worked on Flint water activities, or other documentation).**

VI. **Grants/Contracts – signed agreements including grants with subrecipients and monitoring of the expenditures and other reporting requirements.**

VII. **Outputs/Outcomes – Establishment of output and outcomes**

VIII. **Metrics - Planned Output and Outcomes**

IX. **Tracking Template – Comments on draft tracking temp**

X. **Planned Staffing:**

a. Supervisor - Daphne Hobson
b. Staff – Carol O'Callaghan

XI. **Questions/Comments**

Happy New Year, Management Team!

Below is the first edition of a capitol update we plan to share with you on a bi-weekly basis. Knowing how busy you are, we hope these emails will be a convenient way to stay up to date on issues being discussed in the capitol related to DTMB and our customers.

Please note that while articles may be shortened for the sake of brevity, the content will not be altered, so it may contain opinions or quotes that DTMB does not necessarily endorse.

We're sending this initial update to the management team. Should there be anyone on your own team you think would benefit from being on the mailing list, please just respond with their email address. Suggestions or questions are welcomed as well.

Have a great weekend,

Matt

State's Servers Vulnerable, According To Audit

MIRS, 12/17/15

The security settings on 94 percent of State of Michigan's computer servers, the data warehouses for the state records, were not properly set, according to audit released today. The audit specifically examined a series of issues related the UNIX servers, some of which contained systems that Auditor General Doug A. RINGLER's office dubbed "critical to state government operations" and "life threatening" to citizens if they were unavailable.

The audit included a review of the security configurations of 63 servers. Of those, 59 - or 94 percent - were found to have vulnerable security configurations.

The state's Department of Technology, Management and Budget was also cited for not fully establishing and implementing effective procedures to detect and remediate security vulnerabilities.

Of the servers reviewed by auditors, 47 percent had not had a vulnerability scan in over a month. When vulnerability scans were conducted at the request of auditors, the average number of "high risk exposures" for state servers was 77. One server had 420 security incidents auditors labeled "high risk."

Other findings of the audit included:

- Failure to apply operating system patches for servers in a timely fashion;

- Need to establish a strategy to ensure only supported UNIX operating system versions are installed on servers containing state applications. Unsupported versions were operational on approximately 30 of the state's UNIX servers;

- The state did not establish and implement proper controls over who could access UNIX operating systems;

- DTMB failed to fully establish a segregation of duties over the administration of the state's UNIX servers. The DTMB Agency Services Division had too much control over key processes, which increased the risk that controls designed to secure the state's information systems could be circumvented;

- DTMB didn't maintain accurate records of UNIX server information, which is necessary to maintain server security and to ensure the ready availability of information for critical business decisions.

Audit: Guns, Propane Tank Stored With State's IT Servers

MIRS, 12/18/15

For the second day in a row, the security and stability of the state's information technology systems have come under scrutiny from an audit.

Today, the Office of the Auditor General (OAG) released an unflattering look at the physical conditions of the places that contain the state's data systems. The auditors found loose restrictions in who had control to these places. They also flagged fire and water hazards with these rooms.

The findings from today's audit and one released Thursday were enough for the state to acknowledge that they "underscore the need for constant vigilance and improvement in the arena of cybersecurity," said Caleb BUHS, spokesperson for the Michigan Department of Technology, Management and Budget (DTMB).

The state keeps its computer servers and network equipment in various switch rooms and telecommunication rooms across the state. The OAG found that DTMB didn't implement controls to limit physical access to these places.

For instance, the OAG found former employees still had access to the state's hosting centers and switch rooms.

The OAG also scoped out the environmental conditions of these places and found they weren't being kept tidy, which has safety implications.

The auditors found some of these places weren't "reasonably free from dust, food and beverages," and even included pictures to show for it.

In some of these places, the auditors found everything from a propane tank to guns and holiday decorations.

On Thursday, the OAG released an audit critical of the security controls set on the state's servers.

Buhs said many of the concerns found in the audits were known potential vulnerabilities, with solutions that are in various stages of implementation.

Gov. Rick SNYDER has always talked up improving cybersecurity as a top priority for his administration, and Buhs said, "We have made strong gains in shoring up our IT resources during the Snyder administration and will continue to adjust our actions and plans as the technology world continues to evolve."

Buhs said one area of improvement the state is working on is a single sign-on system for state employees that will tighten access controls, known as MiLogin.

Michigan to Clamp Down on Privatized Prison Deals

Detroit Free Press, 1/7/16

The Michigan Department of Corrections, which was at the center of a recent controversy over problems with its former prison food contractor, is setting up a 30-person unit to monitor the department’s private contracts for the supply of food, medical treatment and other services.

Though privatization is on the rise in state government, officials say the corrections department is the first state department to set up such a unit.

Critics say the full cost of contract monitoring, highlighted by MDOC's new 30-person unit, does not always get factored in when the state opts to replace state employees with private contractors in a bid to save money.

Department Director Heidi Washington told a House appropriations subcommittee on Oct. 29 that the department has contracted out a number of services in addition to the highly publicized food services contract, which was initially awarded to Philadelphia-based Aramark Correctional Services but after much controversy switched to Trinity Services Group of Florida. Those include certain health services, mental health services and pharmaceuticals, she said.

"We need to better coordinate our monitoring efforts" across all contracts, with uniform standards and training for staff who do the monitoring, Washington said. "We have some significant relationships with vendors."

All told, the department spent about $250 million last year on about 185 service contracts, including about 70 substance abuse contracts, more than a dozen sex offender related contracts and about a dozen prisoner re-entry contracts with community service agencies, spokesman Chris Gautz said.

Full story: http://www.freep.com/story/news/politics/2016/01/07/prison-department-sets-up-unit-monitor-contractors/75949704/

Snyder Appoints Hollins To Oversee Flint Water Efforts

Gongwer, 12/17/15

Governor Rick Snyder, in response to preliminary recommendations from the Flint Water Advisory Task Force, appointed Harvey Hollins, the director of his Office of Urban Initiatives, to oversee efforts to resolve the water issues in the city.

"Harvey is well-versed in the issues and the challenges faced by our cities and will be effective in this role," Mr. Snyder said.

He said his administration would also work on an Internet dashboard to display progress made on the water issue.

The task force is still working on its final recommendations, but members said they issued the preliminary recommendations - in a letter dated December 7 but released Thursday - to get some of the changes in place more quickly.

"We felt it was imperative to make these initial recommendations to help address the water crisis in Flint instead of waiting until our final report is submitted," Task Force Co-Chair Chris Kolb said. "We appreciate the prompt acceptance of our request for action by the governor and see it as a step forward."

Co-Chair Ken Sikkema also said the initial review presented "a distributing situation."

"While the Task Force is far from done with our work, the initial review has presented a very disturbing situation that will require many actions to help those that have suffered," Mr. Sikkema said. "We saw no

reason to wait until the final report to make these initial recommendations. We also anticipate that we will made additional recommendations prior to the final report."

Task force members said the departments of Environmental Quality and Health and Human Services needed to set goals for the various efforts underway in the city as well as contingency plans if those goals are not being met.

The task force called for a single person or entity to coordinate the efforts.

DPS debt payments mount to unsustainable levels

Detroit News, 1/4/16

The debt payments of Detroit Public Schools — already the highest of any school district in Michigan — are set to balloon in February to an amount nearly equal to the school district's payroll and benefits as the city school system teeters on the edge of insolvency.

Detroit Public Schools has to begin making monthly $26 million payments starting in less than a month to chip away at the $121 million borrowed this school year for cash flow purposes and $139.8 million for operating debts incurred in prior years. The city school system's total debt payments are 74 percent higher from last school year.

The debt costs continue to mount while Gov. Rick Snyder and the Legislature remain at odds over how to rescue Michigan's largest school district. A bankruptcy of the district could leave state taxpayers on the hook for at least $1.5 billion in DPS debt.

The school district's payroll and health care benefits are projected to cost $26.8 million in February — meaning the debt payments will be 97 percent of payroll. General fund operating debt payments that exceed 10 percent of payroll are "a major warning flag," municipal bond analyst Matt Fabian said.

"That's extremely high," said Fabian, managing director of Municipal Market Advisors in Concord, Massachusetts, who also followed the city of Detroit's bankruptcy case. "That's no longer, really, a normal school district. The school district has turned into a debt-servicing entity. It's making its own mission impossible."

As a result, the Detroit district won't have enough cash to pay any bills in four months.

Here's the email that references the DTMB PO details. Not mentioned here, but I also heard that bottled water (92 pallets delivered from South Carolina?) were ordered off a DTMB PO.

Thanks for sharing whatever you know.

I just want to make sure that everyone understands that we are only making purchases when we received a Purchase Request Form signed by Sheryl and approved by Susan. It is becoming very confusing to try and track all of the needs communicated by various individuals in e-mails so we are using the approved purchase request form as the trigger to make the purchase.

The exception to this is that Kurt Warner is using his P-card to make bottled water purchases. We are working with Kurt to get our arms around the level of his purchases as he has just requested an increase in his card limit.

I'll call shortly just trying to make sure everyone has the information

There are an estimated 40,000+ households in the city of Flint, My initial purchase was 20,000 and based on the numbers of residents coming to get filters we still had several thousand left.

The media did an article that said only 30% of the residents had received filters and the Mayor met with Snyder and declared the state of emergency. After that I was asked to step up purchasing by Richard Thelen. He sent an email to you Farah indicating how many more needed to be purchased and to expedite it no matter the cost.

I was on the phone until 10:00 last night.

I'll call Susan's office now

Subject: Re: Water filter purchase assistance needed tonite

Because of the state of emergency I have been asked to ramp up the purchases of filters and replacement filters as well as cases of water.

Because of the door to door efforts they are hitting every neighborhood. I have also been told to expedite any shipments whatever the cost by Richard Thelen.

Beginning today we will be getting 8 truck loads of water per day to Distribute. Organized by the SEOC Jeanne Doll I believe.

In addition I already had in the works a pallet of 92 coming from South Carolina.

I will have 12500 PUR filters and 20,000 PUR replacement filters on Wednesday.

They are working on also getting another 10,700 PUR filter/replacement filter combo packs for Wednesday as well and will be able to update me on Tomorrow morning.

Home Depot is working directly with Brita and PUR for inventory.

They also told me they received a call from someone in the state EOC asking about water shipments. Her name is Jeanette Doyle?

Because of the state of emergency I have been asked to ramp up the purchases of filters and replacement filters as well as cases of water.

Because of the door to door efforts they are hitting every neighborhood. I have also been told to expedite any shipments whatever the cost by Richard Thelen.

Beginning today we will be getting 8 truck loads of water per day to Distribute. Organized by the SEOC Jeanne Doll I believe.

In addition I already had in the works a pallet of 92 coming from South Carolina.

I will have 12500 PUR filters and 20,000 PUR replacement filters on Wednesday.

They are working on also getting another 10,700 PUR filter/replacement filter combo packs for Wednesday as well and will be able to update me on Tomorrow morning.

Home Depot is working directly with Brita and PUR for inventory.

They also told me they received a call from someone in the state EOC asking about water shipments. Her name is Jeanette Doyle?

Subject: RE: Water filter purchase assistance needed tonite

I just want to make sure that everyone understands that we are only making purchases when we received a Purchase Request Form signed by Sheryl and approved by Susan. It is becoming very confusing to try and track all of the needs communicated by various individuals in e-mails so we are using the approved purchase request form as the trigger to make the purchase.

The exception to this is that Kurt Warner is using his P-card to make bottled water purchases. We are working with Kurt to get our arms around the level of his purchases as he has just requested an increase in his card limit.

I'll call shortly just trying to make sure everyone has the information

There are an estimated 40,000+ households in the city of Flint, My initial purchase was 20,000 and based on the numbers of residents coming to get filters we still had several thousand left.

The media did an article that said only 30% of the residents had received filters and the Mayor met with Snyder and declared the state of emergency. After that I was asked to step up purchasing by Richard Thelen. He sent an email to you Farah indicating how many more needed to be purchased and to expedite it no matter the cost.

I was on the phone until 10:00 last night.

I'll call Susan's office now

Subject: RE: Water filter purchase assistance needed tonite
Importance: High

Dropping DTMB

Does this mean our original purchase request underestimated the area or population we were targeting? Sorry – I'll get asked these questions. The email says we'll need a total of 56,900 filters, faucet mounts, and replacement cartridges. Would you please let us know what we'll need this fiscal year and any idea for next fiscal year? This is incredibly time sensitive.

I feel like we need regular operations updates for DHHS. Things are moving too fast and right now we're trying to figure out if we have the money to support the purchases.

Subject: RE: Flint Water Emergency

Sherri – I heard you timed that cruise really well. I talked to Rob and actually Nancy Duncan was involved a little. The issue was the request that DTMB cut a PO for $4.2 million of water filters, water, etc. I didn't really have a line that I could pull that from without blowing up payroll. It ended with Nancy Duncan determining that DHHS should cut the PO in order to keep the supplemental down to a few agencies. We are tracking all cost so will have that for reimbursement at some point (including approx. 90 iPads). Thanks for getting back and hope you had a great time. May the force be with you.

Subject: Re: Flint Water Emergency

Sorry Greg, I was on the Star Wars Disney Cruise ·. Sounds like a lot happened regarding the disaster while I was gone.

Can you give me a call Tuesday unless you already spoke with someone. The expectation is that you would get reimbursed provided funding was allocated to MSP. As you know we have the disaster contingency fund so it's reasonable that you would be reimbursed. Call me Tuesday and I can give you and update.

> Sherri – As in the past, DTMB is being required to spend its own appropriation to support the emergency management declaration in Flint. We have previously discussed that it does not make sense and that this should be MSP/EMD directly funding this. DTMB does not have these types of costs built into any appropriation line within the department and would like some form of assurance that the expenditures incurred will be reimbursed. Thanks.

Importance: High

Just an FYI that there is not a source of funds on the MB side for the Flint related charges into Index 90050. Please compile the costs and when we are notified that reimbursement is available we will move those costs forward. I would also recommend that you have someone tracking the specifics of each cost as MSP will ask for that. Thanks.

Importance: High

I am trying to make the billing process easier for everything happening in Flint. When we had the Detroit flooding issue we set up billing index's for the emergency. We used 45405 for MB and 90050 for IT, can we set up a billing index for Flint?

If it doesn't matter I need to know that because we are trying to track things and I wanted to make sure we are on the same page.

I'm trying to get an idea of the reimbursement process for DTMB as it relates to the Flint disaster. We are incurring and tracking costs for vehicles, fuel, purchase of iPads, delivery services, warehousing, etc. Will this be reimbursed through MSP or need to be provided at some point for a piece of a supplemental? I'm not concerned about a reimbursement at this point (as we are pooling the costs on the non-appropriated side) but wanted to be able to provide information to senior management and to provide direction for the various programs providing the support. No big rush just want to make sure I'm doing things properly. Thanks.

Subject: SEOC Jan 25 update

Good evening,

Things continue to stay active here at the SEOC, I have also attached a copy of our finance information as of today.

- FEMA Logistics – 60,000 Pur filters arrived and 5000 23-cup pitchers arrived at staging location (Warehouse)
- MDARD – Field inspectors continue to visit food establishments.
- Education – Lt. Gov. visited Michigan School for Deaf today.
- Civil Rights – Adopted a resolution calling for public hearings regarding Flint Water Issue.
- American Red Cross – 11 teams, 33 event based volunteers
- National Guard – 65 groups in fields today.
- Finance – Working with state agencies on explaining processes for the SEOC. Working with local and State agencies on reporting expenses for the emergency.
- Recovery – Goal was 1000 homes today. 2193 homes were visited today.

DTMB Requests

- Printing pamphlets in Arabic, Spanish & Chinese
- Crystal Reports Support from DTMB
- Provide Pallet Jacks for PODS
- Additional Office Space in Flint State Office Building for Federal Partners

Thanks,

Subject: Time Sensitive: FAQs Needed

Good afternoon,

In preparation for announcing additional appropriation measures related to the Flint water emergency in the upcoming FY 17 budget presentation, we'll be preparing a briefing document for legislators. As part of this effort, we want to include a Frequently Asked Questions document. This is where we really need your help.

Your budget staff should have a breakdown of each potential spending item related to your agency (both pending FY 16 supplemental items and FY 17 items). Please work with your budget folks and your communications team to develop any FAQs that you anticipate the public or legislators might ask, related to each item assigned to your agency.

Outreach to the Legislature has already begun, so having these responses back from you quickly is very important. Please send our PIO, Kurt Weiss, and me your FAQ lists no later than 5:00 p.m. this Tuesday, February 2.

Please let me know if you have any questions or concerns, or feel free to have your communications staff touch base with Kurt. I apologize for the short time window, but we really appreciate your help.

Chris,

I asked him to send this to you as well since all requests are going through you. Have either you or Greg seen any numbers yet?

Phil

Please take a look at the request from SBO below. I don't think that we would have much at DTMB around Flint spending, but I would like to be able to contribute info on anything we are involved with. Please provide a brief overview for any spending items we will have included in a FY 16 supplemental or the FY 17 budget as it relates to Flint.

Thanks,
Caleb

Subject: Time Sensitive: FAQs Needed

Good afternoon,

In preparation for announcing additional appropriation measures related to the Flint water emergency in the upcoming FY 17 budget presentation, we'll be preparing a briefing document for legislators. As part of this effort, we want to include a Frequently Asked Questions document. This is where we really need your help.

Your budget staff should have a breakdown of each potential spending item related to your agency (both pending FY 16 supplemental items and FY 17 items). Please work with your budget folks and your communications team to develop any FAQs that you anticipate the public or legislators might ask, related to each item assigned to your agency.

Outreach to the Legislature has already begun, so having these responses back from you quickly is very important. Please send our PIO, Kurt Weiss, and me your FAQ lists no later than 5:00 p.m. this Tuesday, February 2.

Please let me know if you have any questions or concerns, or feel free to have your communications staff touch base with Kurt. I apologize for the short time window, but we really appreciate your help.

Hi Kathy,

Please see the email that provides a brief description of the purpose of the meeting and invite the appropriate DTMB staff/management that will have knowledge regarding the recording, tracking and reporting of the Flint water expenditures. Also please include, Carol O' Callaghan, SBO; Lora Mikula, OFM; Lisa Shoemaker, SBO; Ryan Doll, SBO; and Bryan Weiler, SBO is optional.

As mention per our phone discussion, we have been asked to have this meeting scheduled by noon today and held by the close of business on Friday, February 19, 2016.

Thank you for your assistance.

Daphne

Hello, Everyone.

I am following up to the email that Penny Burger, State Emergency Operations Center sent informing you that the Office of Internal Audit would be contacting you to discuss your department' s expenditures related to the City of Flint Water Emergency. We have reviewed the worksheets that you submitted to Penny which summarizes the total expenditures to date. We will use these worksheets as a starting point for reviewing the Flint Water expenditures recorded in MAIN. We will be contacting each of you to make arrangements for us to meet and obtain a description of purchases or services you incurred and the MAIN coding used to record the expenditures.

Our objective is to ensure that all agencies are consistent in tracking, monitoring and maintaining sufficient documentation for the Flint Water expenditures.

Carol O' Callaghan, Audit Specialist or myself, will be contacting you this week or early next week. If you have any questions or concerns you may email us or please feel free to contact me at (517) 285-8041 or Carol at (810) 348-4591.

Thank you,

Daphne Hobson
Audit Manager

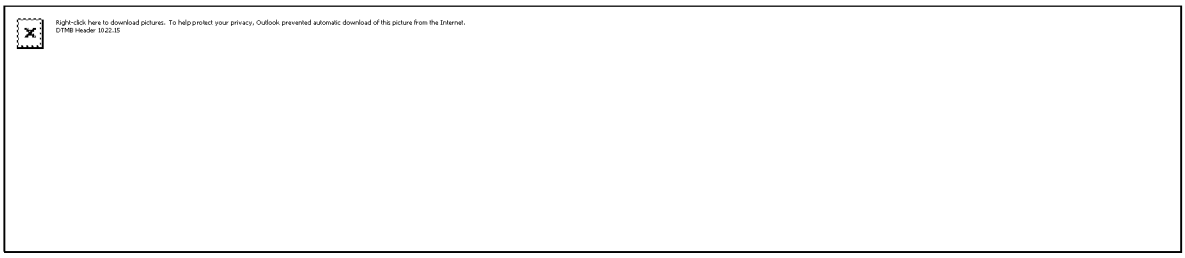
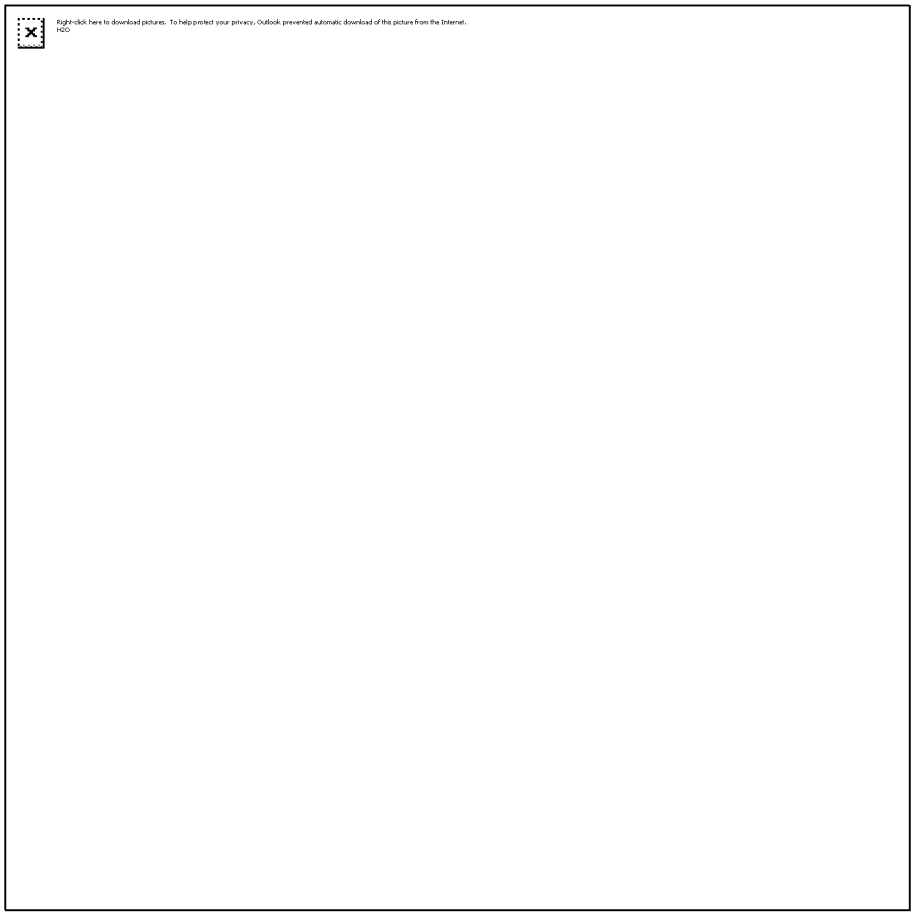
From: Dept. Technology, Management & Budget <dtmb@govsubscriptions.michigan.gov>
Sent: Tuesday, January 26, 2016 8:39 AM
To: Dickinson, Holly (DTMB)
Subject: Contributing time, muscle and money



During this month's Martin Luther King Jr. holiday weekend, some state employees turned their "day off" into a "day on" in Flint. There, they delivered bottled water, water filters, replacement cartridges and water testing kits to families. The volunteers joined other Michiganders, turning Dr. King's birthday observance into a day of service.



Mike Zimmer, director of the Office of Good Government and the Department of Licensing and Regulatory Affairs, has shared a link – www.helpforflint.com – that offers other opportunities to contribute time, muscle and money to bring clean drinking water to the community.Here in DTMB, some of our employees didn't wait for an invitation to lend a hand. Office of Retirement Services staff contributed funds that were used to buy 31 cases and 23 gallons of water, which a local organization transported to Flint.

Autumn Hubbard, Ambrea Mack and Sarah Esquivel, who are in the photo at the left, nearly emptied the shelves at their local grocery store. Thanks for your efforts.

everyone.

Now work.

Last week, I signed a new policy that formalizes the annual employee review process and sets expectations for employees and managers. Administrative Policy 200.37 establishes consistent standards for implementing performance plans and reviews. Some of the standards are practices we have followed for years. Others are new. Some of particular note include:

- The mandatory use of HRMN
- A standard Feb. 1-Jan. 31 rating period for all employees
- An Individual Development Plan that specifies training or development programs for each employee
- Competencies and objectives that align to DTMB goals or scorecard metrics
- Consequences for managers and supervisors who do not complete the review process as required

A fundamental role of each DTMB manager or supervisor is to provide employees with direction and feedback on their performance. Employees also are expected to take an active role in pursuing professional development opportunities and achieving their competencies and objectives. I encourage you to review the new policy and talk with your manager or supervisor if you have questions. Of course, I welcome your questions and input as well. Please send your comments and ideas to me at behend@michigan.gov.

I know these have been busy weeks for many of you as you take on additional responsibilities and work hard to provide resources and services for our customers and citizens across the state. Please know that your hard work has not gone unnoticed. Thank you for everything you do, every day.

Have a great week,

David

Hi Tamara,

I am scheduled for this meeting, but just received a meeting invite about the Flint Water crisis that I have to attend. It starts at 2pm and is at the Ottawa building, so I will not be able to attend the entire meeting. Is there another meeting that I could attend so I don't miss out on training?

Thanks,

Holly A. Dickinson

Hi Tamara,

I am scheduled for this meeting, but just received a meeting invite about the Flint Water crisis that I have to attend. It starts at 2pm and is at the Ottawa building, so I will not be able to attend the entire meeting. Is there another meeting that I could attend so I don't miss out on training?

Thanks,

Subject: Volunteer Opportunity in Flint

The State Emergency Operations Center (SEOC) is coordinating a response to the ongoing health and safety issues in the city of Flint's drinking water. Teams from the Michigan State Police, Genesee County Sheriff's Department, Michigan Department of Health and Human Services, and volunteer organizations have been delivering bottled water, water filters, replacement cartridges and water testing kits at homes in the city of Flint since Tuesday.

To help with this critical work, the SEOC is looking for volunteers to expand this effort and continue this distribution during the upcoming holiday weekend. Teams are being assembled for shifts on Saturday, January 16; Sunday, January 17; and Monday, January 18, 2016. If you are interested in volunteering your time for this critical work, please complete the information in one of the attached surveys (depending on which day you are volunteering).

To volunteer on Saturday, January 16, https://www.surveymonkey.com/r/28NVJBL

To volunteer on Sunday, January 17, https://www.surveymonkey.com/r/26NMJKK

To volunteer on Monday, January 18, https://www.surveymonkey.com/r/26P7P5G

Volunteers will begin their assignment at the Local Emergency Operations Center located in the Genesee County Administration Building located at 1101 Beach St, Flint at 9 a.m. and end by 4 p.m. Parking is available at the corner of Beach Street and 8th Street. Lunch will be provided. This is strictly a volunteer effort, as all three days will be unpaid. Volunteers are responsible for their own transportation; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

This opportunity is for state employees and their immediate family members 16 years of age or older only, others looking to assist should volunteer through the American Red Cross in Flint. The volunteer coordination center for the Red Cross is located at 1401 S. Grand Traverse, Flint, MI. They are open from 9 a.m. to 7 p.m.

For more information on the state's response efforts, visit www.michigan.gov/flintwater.

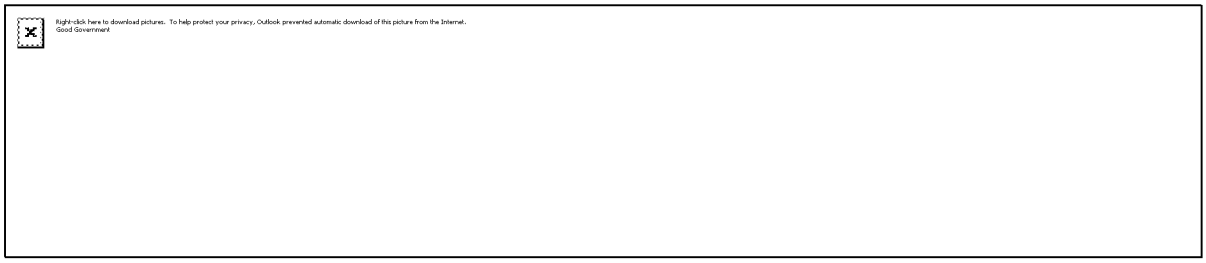
Subject: Flint Volunteer Efforts



Dear State Employees,

Gov. Rick Snyder and I want to thank everyone who donated their time during the holiday weekend to deliver bottled water, water filters, replacement cartridges and water testing kits to families in the city of Flint. We are working hard to ensure all residents are provided with the safe water resources they need, and each donation and hour of your time volunteered goes a long way.

For employees who would like to help the residents of Flint, there are several opportunities to do so. Please visit www.helpforflint.com to learn how you can help.

For additional information and updates, visit www.michigan.gov/flintwater.

Again, thank you for all your support.

Sincerely, Mike Zimmer
Office of Good Government Director
Dept. of Licensing and Regulatory Affairs Director

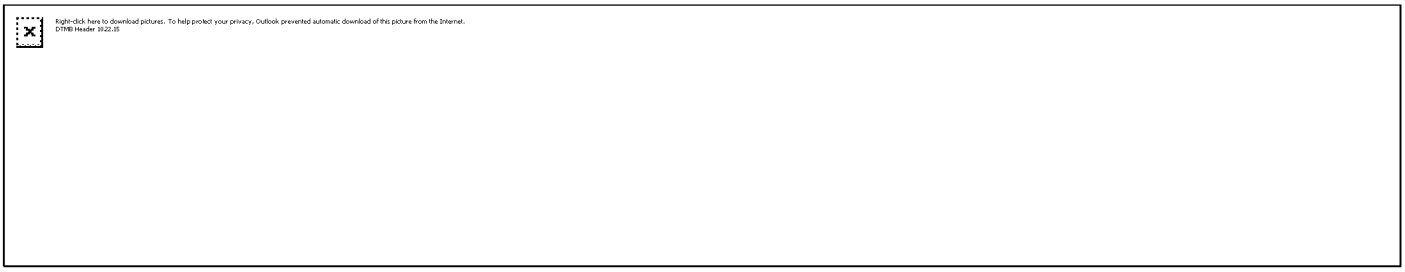
Subject: The Gov. Snyder's Budget Proposal



Good morning everyone. I hope everyone had a great holiday weekend.

I had the good fortune to travel to Marquette on Monday with Chad Laidlaw, DTMB's policy and planning analyst, to meet with city, business and university leaders and to address the Economic Club of Marquette. I told them about the many things DTMB does, placing special emphasis on our work in mobility and cybersecurity. Marquette is really developing and making its mark as an innovative and entrepreneurial community.

Now work.

The executive budget Gov. Snyder presented last week outlined his investment plan for Michigan. Yes, the proposal for fiscal year 2017-18 outlined a strategy to address the critical challenges of addressing the Flint water crisis and turning around Detroit's Public Schools, but the $54.9 billion plan also includes investment in four key areas:

- **Education.** The budget increases investment to K-12 schools, community colleges and the state's public universities. Additional funds are proposed to expand career, technical, science, technology, engineering and math programs.
- **Protecting the Public.** The governor's plan expands the Secure Cities program, which has reduced violent crime in four major Michigan cities. Funds also would support an additional trooper recruit school and an academy to train corrections officers, among other initiatives.
- **Putting People First.** The governor recommends continued expansion of the Healthy Kids Dental Program and funding efforts to ensure residents have access to affordable health care. His proposal boosts funds to help cover new higher cost specialty medications to treat conditions such as hepatitis C and cystic fibrosis, among others.
- **Investing in Infrastructure.** The proposal allocates $1.2 billion to maintain and repair Michigan roads, bridges and other critical infrastructure.

The budget proposal also includes FY 2017-18 funding recommendations for DTMB. Gov. Snyder recommends ongoing funding of $1.3 billion for department operations and a one-time allocation of $32.4 million.

A few highlights include:

- $502 million for information technology support for all state agencies and $132.8 million for

14 high-priority IT projects in seven agencies. He recommends increasing the Information Technology Investment Fund by $7 million, from $65 million to $72 million. This fund supports several major multiyear IT projects and upgrades, including the replacement of outdated legacy systems.

- An additional $5 million to support cybersecurity improvements to safeguard citizens' personal information and protect critical infrastructure and government services.
- IT support of $6.5 million to modernize the Office of Retirement Services' systems and enhance customer service for more than 530,000 current and future retirees.

You can see the full executive budget recommendations, which are posted on the Budget Office website. Details of DTMB's proposed budget begin on page B-75.

We can expect to see many changes before the budgets are signed and become effective Oct. 1. The executive budget will be used by the House and Senate Appropriations Committees as they work on their own budgets and hold committee hearings on the proposals. I'll keep you posted as the process moves ahead.

As always, I welcome your notes, whether about the budget process or any other topic. Please send them to me at behend@michigan.gov.

Thank you again for all the good work you do. I hope you have a great week ahead.

David

***This attachment was updated 2/18/16**

*See agenda below

Requested By:
DTMB Executive Staff

Location:
Ottawa Building
Upper Level – Conference Room 4
611 W. Ottawa Street
Lansing, MI 48933

Call-in: 866-390-1828
Access code: 1842654

Security:
Please have your State Employee ID showing at all times.

Parking:
Metered parking is available along Ottawa and Pine street.

Briefing:

In recent months, the State of Michigan has received a number of requests to produce documents related to the water emergency in Flint. You have been identified as a potential custodian of relevant/responsive correspondence and/or documents related to these requests. As a custodian, you are required to produce, by a certain date, any documents containing certain search terms. In this meeting we will review instructions for the process of identifying, compiling, scanning, and copying the necessary information.

Agenda

1) Kickoff – Brom Stibitz, Chief Deputy Director
2) Why you are here – Jean Ingersoll, Interim Chief of Staff
3) What you need to do (February 22, 2016 deadline) – Jean
4) What will be done for you – Jean
5) What's next – Jean
6) Public Information Reminder – Caleb Buhs, Public Information Officer
7) Questions and Answers - Group

STATE OF MICHIGAN

RICK SNYDER
GOVERNOR

DEPARTMENT OF TECHNOLOGY, MANAGEMENT & BUDGET
LANSING

DAVID B. BEHEN
DIRECTOR

February 18, 2016

TO: All DTMB Custodians of Correspondence Related to Flint

FROM: Jean Ingersoll, Interim Chief of Staff to David B. Behen, Director and CIO

SUBJECT: Flint Document Production – Search Terms and Guidance

In recent months, the State of Michigan has received a number of requests to produce documents related to the water emergency in Flint. You have been identified as a potential custodian of relevant/responsive correspondence and/or documents related to these requests. **As a custodian, you are required to produce any documents containing the search terms listed below, no later than Monday, February 22, 2016.** This memorandum contains detailed instructions for the process of identifying, compiling, scanning, and copying the necessary information.

Microsoft 365 – Outlook (*includes emails, calendar items) and OneDrive*

DTMB staff will centrally coordinate the Microsoft 365 search for all of DTMB's custodians. Therefore, DTMB's custodians *do not need to independently search any of their Microsoft 365 applications* for the search terms listed below.

Network Drives

Similar to the approach outlined above, DTMB staff will centrally coordinate the network drive search effort for all DTMB custodians. Custodians do *not* need to independently conduct a network drive search for the search terms below.

Non-Network Drives – *includes hard drives, desktop, and thumb/flash drives*

For all non-network drive types, ***each custodian will need to search every search term listed below in every non-network format, and move all relevant/related documents in to a network drive for collection. In order to move items to the network, you must be connected to the network.***

Start by conducting the search of all non-network drives, filling out the attached search term checklist as you go. If you need guidance as to how to perform this search, a step-by-step guide is included below in Appendix 1.

All relevant/responsive items that are produced as a result of your search need to be moved to a network drive. You can move your relevant/related documents to a network drive in whatever format the document is currently in. After the February 22, 2016, deadline, DTMB staff will access the network drives to collect the files.

Paper Files

Review all applicable paper files. Scan any relevant/related documents, and save them to a network drive, as described above. If this is not possible, you may provide hard copies of documents to Jean Ingersoll in the Director's Office. These documents must be received in the Director's Office by February 22, 2016, and will not be returned to you.

Home Computer

Any relevant e-mails or other documents on a personal computer also are subject to this request. Please check your personal computer for any e-mails or other documents relating to this search. If you discover any relevant/related documents, please include the phrase "personal computer" in the file name, and save them to the aforementioned network drive.

Conclusion

Thank you for your cooperation in complying with this request. Should you have any questions, please contact Jean Ingersoll at 1-8844.

- Attachment 1 – Search Guidance

Search Term Checklist

In recent months, the State of Michigan has received a number of requests to produce documents related to the water emergency in Flint. You have been identified as a potential custodian of relevant/responsive correspondence and/or documents related to these requests. As a custodian, you are required to search and copy all items that you identify to a DTMB network drive, as described above.

Please complete your search no later than close of business on Monday, February 22, 2016. Relevant/related items from the past 10 years should be included.

You should search for *each term exactly as it is shown below, and include quotation marks around each separate word.* For example, "Legionnaire", "Legionella", or "Flint" would all go into search fields. After you complete a search term, check the box beside the term.

Search Terms:

- ☐ "Legionnaire"
- ☐ "Legionella"
- ☐ "boil water order" & "Flint"
- ☐ "coli" & "Flint"
- ☐ "bacteria" & "Flint"
- ☐ "microb" & "Flint"
- ☐ "TTHM" & "Flint"
- ☐ "Lead" & "Flint"
- ☐ "emergency" & "Flint"
- ☐ "Karegnondi"
- ☐ "Genesee County Health Department"
- ☐ "Flint" & "utilities"
- ☐ "Lead and Copper Rule"
- ☐ "Detroit Water and Sewerage Department" & "Flint"
- ☐ "DWSD" & "Flint"
- ☐ "Flint River"
- ☐ "Pb" & "water"
- ☐ "KWA"
- ☐ "Flint" & "water"

Search conducted on the email account of: _____

By (your name): _____

Date completed: _____

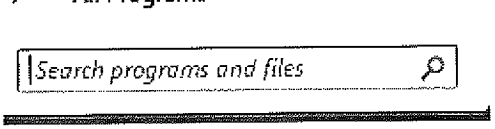
Please return this completed Checklist to DTMB Director's Office staff by Monday, February 22, 2016, at DTMB@michigan.gov, or Directors Office, Cass Building, Second Floor

APPENDIX 1 – Search Guidance

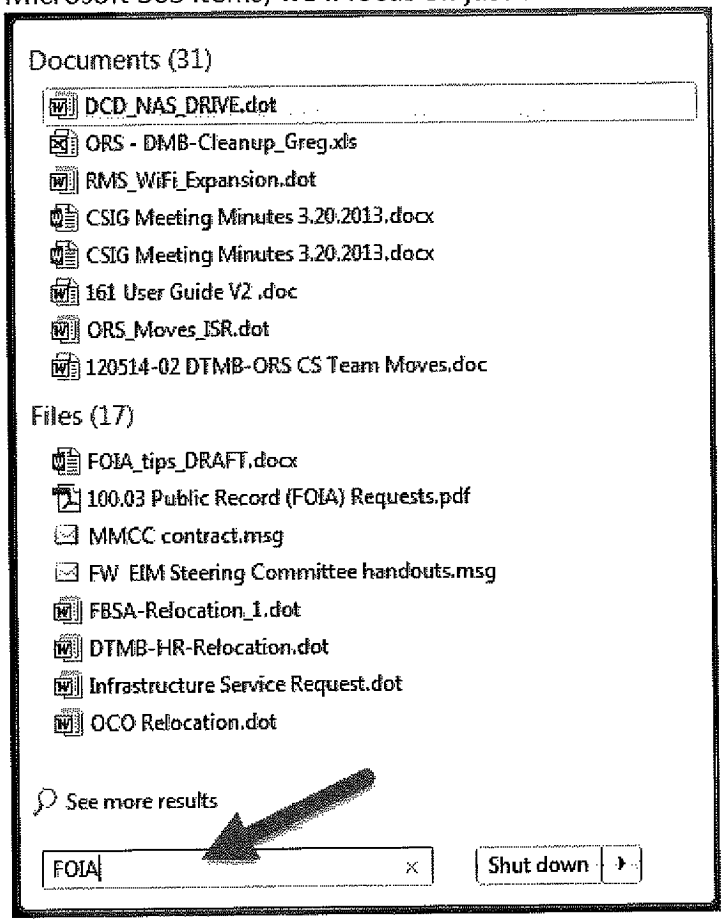
Regardless of what version of Windows you're using, each of them has a search feature built in called "Windows Explorer," you see it every time you open up a folder on a network drive, or on your own computer.

Using the search function in windows 7

Since the majority of DTMB is on Windows 7, the examples below are on that operating system. If you click on windows Start button, you'll see the search box right next to it

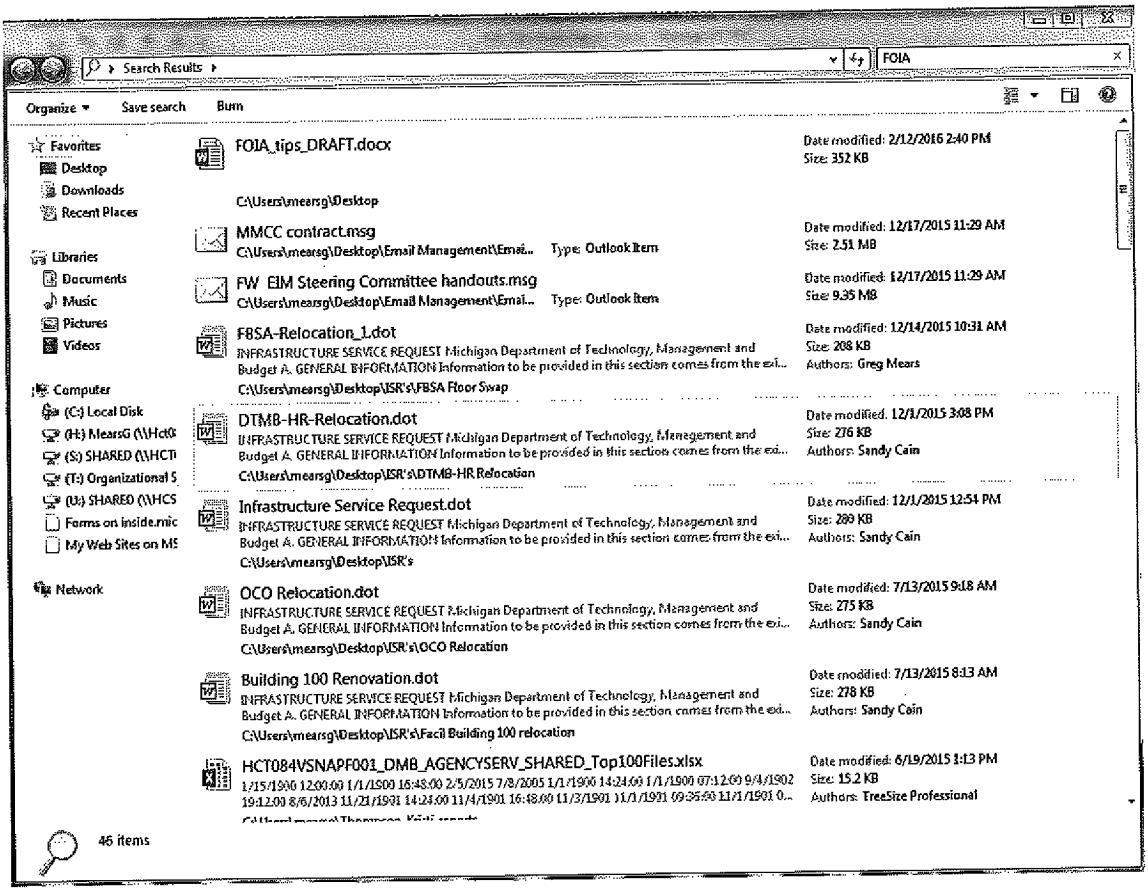


This example searches for the word FOIA. As you can see, the search yielded numerous documents including emails. Since DTMB is centrally collecting relevant emails and other Microsoft 365 items, we'll focus on just the documents.



You need to open each document to make sure that it's relevant. In this instance, the search brought up a DTMB Move form, but only because it has the word FOIA in the form.
You'll notice that the words "See more results" appears at the bottom of the list. This means that the search turned up a lot more documents than what can easily be displayed. You must

click on the link to open Windows Explorer and reveal a comprehensive list, along with their locations.



As you can see from this example the search found 46 items. We can now select them all using the "Ctrl-A method", and copy them to a network drive.

To: Koepke, Jon (DTMB)
Subject: FW: Mandatory Meeting - DTMB Custodians of Correspondence Related to Flint

Importance: High

Jon,

I have a meeting today that deals with the Flint Water Crisis. It is in the Ottawa Bldg, but I can attend via conference call. Would you like me to do the conference call or attend in person?

Thanks,

Holly A. Dickinson
Client Service Center

***This attachment was updated 2/18/16**

*See agenda below

Requested By:
DTMB Executive Staff

Location:
Ottawa Building
Upper Level – Conference Room 4
611 W. Ottawa Street
Lansing, MI 48933

Call-in: 866-390-1828
Access code: 1842654

Security:
Please have your State Employee ID showing at all times.

Parking:

Metered parking is available along Ottawa and Pine street.

Briefing:

In recent months, the State of Michigan has received a number of requests to produce documents related to the water emergency in Flint. You have been identified as a potential custodian of relevant/responsive correspondence and/or documents related to these requests. As a custodian, you are required to produce, by a certain date, any documents containing certain search terms. In this meeting we will review instructions for the process of identifying, compiling, scanning, and copying the necessary information.

Agenda

1) Kickoff – Brom Stibitz, Chief Deputy Director
2) Why you are here – Jean Ingersoll, Interim Chief of Staff
3) What you need to do (February 22, 2016 deadline) – Jean
4) What will be done for you – Jean
5) What's next – Jean
6) Public Information Reminder – Caleb Buhs, Public Information Officer
7) Questions and Answers - Group

STATE OF MICHIGAN

RICK SNYDER
GOVERNOR

DEPARTMENT OF TECHNOLOGY, MANAGEMENT & BUDGET
LANSING

DAVID B. BEHEN
DIRECTOR

February 18, 2016

TO: All DTMB Custodians of Correspondence Related to Flint

FROM: Jean Ingersoll, Interim Chief of Staff to David B. Behen, Director and CIO

SUBJECT: Flint Document Production – Search Terms and Guidance

In recent months, the State of Michigan has received a number of requests to produce documents related to the water emergency in Flint. You have been identified as a potential custodian of relevant/responsive correspondence and/or documents related to these requests. **As a custodian, you are required to produce any documents containing the search terms listed below, no later than Monday, February 22, 2016.** This memorandum contains detailed instructions for the process of identifying, compiling, scanning, and copying the necessary information.

Microsoft 365 – Outlook (*includes emails, calendar items) and OneDrive*

DTMB staff will centrally coordinate the Microsoft 365 search for all of DTMB's custodians. Therefore, DTMB's custodians *do not need to independently search any of their Microsoft 365 applications* for the search terms listed below.

Network Drives

Similar to the approach outlined above, DTMB staff will centrally coordinate the network drive search effort for all DTMB custodians. Custodians do *not* need to independently conduct a network drive search for the search terms below.

Non-Network Drives – *includes hard drives, desktop, and thumb/flash drives*

For all non-network drive types, ***each custodian will need to search every search term listed below in every non-network format, and move all relevant/related documents in to a network drive for collection. In order to move items to the network, you must be connected to the network.***

Start by conducting the search of all non-network drives, filling out the attached search term checklist as you go. If you need guidance as to how to perform this search, a step-by-step guide is included below in Appendix 1.

All relevant/responsive items that are produced as a result of your search need to be moved to a network drive. You can move your relevant/related documents to a network drive in whatever format the document is currently in. After the February 22, 2016, deadline, DTMB staff will access the network drives to collect the files.

Paper Files

Review all applicable paper files. Scan any relevant/related documents, and save them to a network drive, as described above. If this is not possible, you may provide hard copies of documents to Jean Ingersoll in the Director's Office. These documents must be received in the Director's Office by February 22, 2016, and will not be returned to you.

Home Computer

Any relevant e-mails or other documents on a personal computer also are subject to this request. Please check your personal computer for any e-mails or other documents relating to this search. If you discover any relevant/related documents, please include the phrase "personal computer" in the file name, and save them to the aforementioned network drive.

Conclusion

Thank you for your cooperation in complying with this request. Should you have any questions, please contact Jean Ingersoll at 1-8844.

- Attachment 1 – Search Guidance

Search Term Checklist

In recent months, the State of Michigan has received a number of requests to produce documents related to the water emergency in Flint. You have been identified as a potential custodian of relevant/responsive correspondence and/or documents related to these requests. As a custodian, you are required to search and copy all items that you identify to a DTMB network drive, as described above.

Please complete your search no later than close of business on Monday, February 22, 2016. Relevant/related items from the past 10 years should be included.

You should search for *each term exactly as it is shown below, and include quotation marks around each separate word.* For example, "Legionnaire", "Legionella", or "Flint" would all go into search fields. After you complete a search term, check the box beside the term.

Search Terms:

- ☐ "Legionnaire"
- ☐ "Legionella"
- ☐ "boil water order" & "Flint"
- ☐ "coli" & "Flint"
- ☐ "bacteria" & "Flint"
- ☐ "microb" & "Flint"
- ☐ "TTHM" & "Flint"
- ☐ "Lead" & "Flint"
- ☐ "emergency" & "Flint"
- ☐ "Karegnondi"
- ☐ "Genesee County Health Department"
- ☐ "Flint" & "utilities"
- ☐ "Lead and Copper Rule"
- ☐ "Detroit Water and Sewerage Department" & "Flint"
- ☐ "DWSD" & "Flint"
- ☐ "Flint River"
- ☐ "Pb" & "water"
- ☐ "KWA"
- ☐ "Flint" & "water"

Search conducted on the email account of: _____

By (your name): _____

Date completed: _____

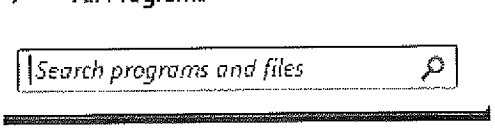
Please return this completed Checklist to DTMB Director's Office staff by Monday, February 22, 2016, at DTMB@michigan.gov, or Directors Office, Cass Building, Second Floor

APPENDIX 1 – Search Guidance

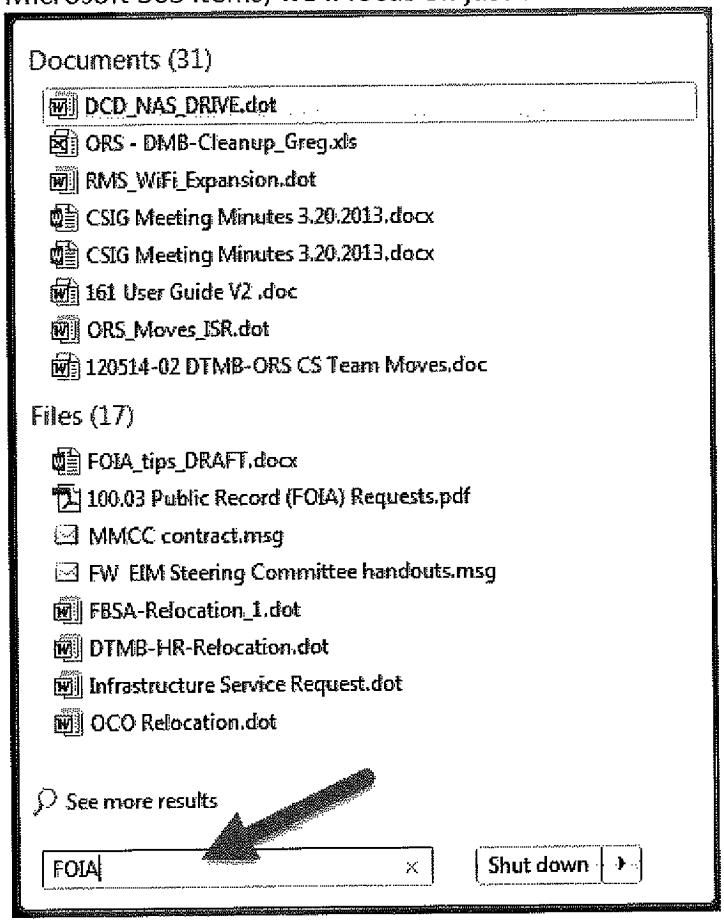
Regardless of what version of Windows you're using, each of them has a search feature built in called "Windows Explorer," you see it every time you open up a folder on a network drive, or on your own computer.

Using the search function in windows 7

Since the majority of DTMB is on Windows 7, the examples below are on that operating system. If you click on windows Start button, you'll see the search box right next to it

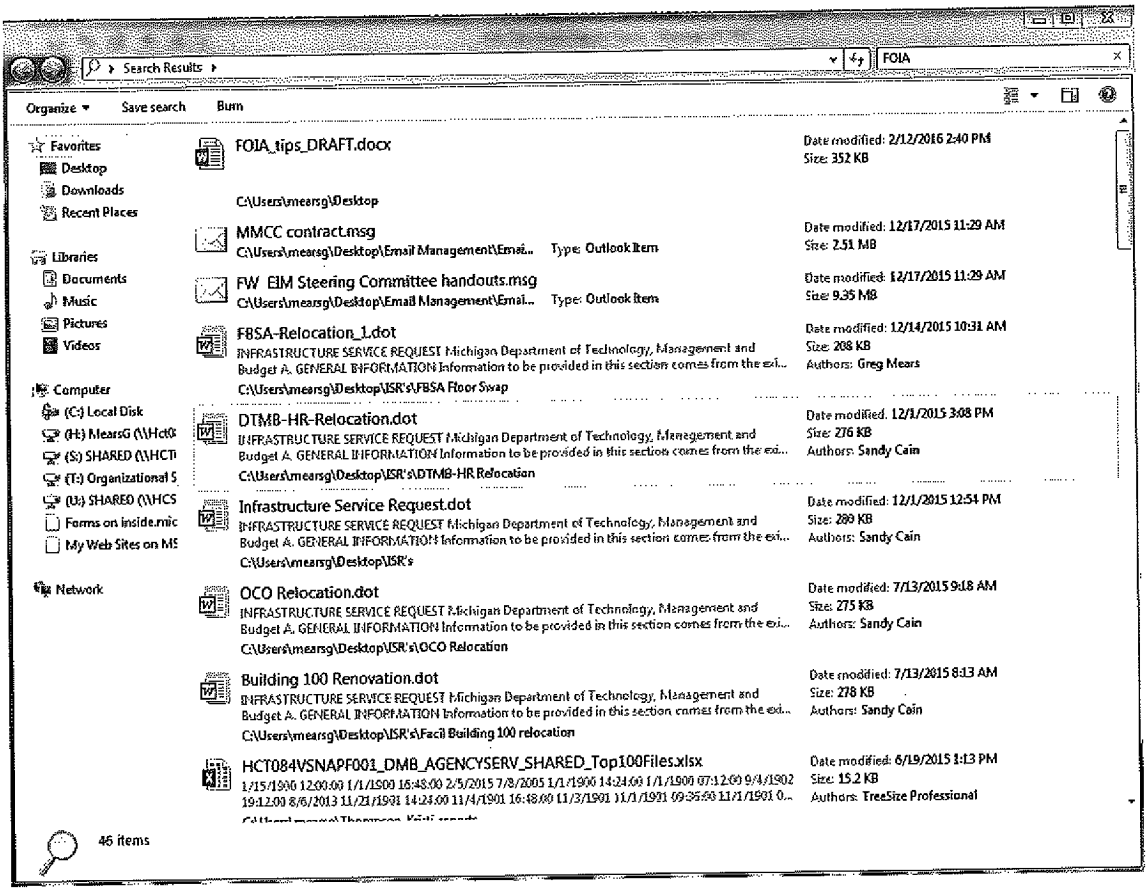


This example searches for the word FOIA. As you can see, the search yielded numerous documents including emails. Since DTMB is centrally collecting relevant emails and other Microsoft 365 items, we'll focus on just the documents.



You need to open each document to make sure that it's relevant. In this instance, the search brought up a DTMB Move form, but only because it has the word FOIA in the form.
You'll notice that the words "See more results" appears at the bottom of the list. This means that the search turned up a lot more documents than what can easily be displayed. You must

click on the link to open Windows Explorer and reveal a comprehensive list, along with their locations.



As you can see from this example the search found 46 items. We can now select them all using the "Ctrl-A method", and copy them to a network drive.

Importance: High

Jon,

I have a meeting today that deals with the Flint Water Crisis. It is in the Ottawa Bldg, but I can attend via conference call. Would you like me to do the conference call or attend in person?

Thanks,

Holly A. Dickinson

Importance: High

Jon,

I have a meeting today that deals with the Flint Water Crisis. It is in the Ottawa Bldg, but I can attend via conference call. Would you like me to do the conference call or attend in person?

Thanks,

Holly A. Dickinson

Hi Tamara,

I am scheduled for this meeting, but just received a meeting invite about the Flint Water crisis that I have to attend. It starts at 2pm and is at the Ottawa building, so I will not be able to attend the entire meeting. Is there another meeting that I could attend so I don't miss out on training?

Thanks,

Holly A. Dickinson

Where: EMHSD Presentation Room

A civil disturbance tabletop is being planned for the week of February 21-24 with final date selection based on availability of key participants. The primary objectives of the tabletop will be to:
_ demonstrate MSP preparedness for a civil disturbance event;
_ demonstrate state preparedness for a civil disturbance event;
_ educate state agencies on issues related to civil disturbance event response;
_ identify potential coordination issues between state agencies; and
_ identify key response issues and state agency resources.

Detailed objectives will be developed based on input from participating state agencies. All state agencies will be invited to participate, although some may have very limited roles. The following agencies are anticipated to play response roles:
_ Executive Office - emergency declarations, public information
_ MSP - primary response; unified command
_ MSP/EMHSD - SEOC operations, unified command
_ MSP public information staff - public information
_ MSP/EMHSD public information staff - JIC operations
_ DMVA - secondary response, unified command

_ Civil Rights - advice regarding civil rights
_ Attorney General - advice on declarations and legal issues
_ LARA/Fire Bureau - fire resources
_ Services to the Aging - shelter operations as needed
_ American Red Cross - shelter operations as needed
_ Human Services - shelter operations as needed
_ MDOT - road closures as needed
_ DTMB - logistical support
_ Corrections - temporary jail facilities
_ DCH - emergency room overflow

The scenario will focus on the response to a civil unrest event. We will not attempt to overwhelm players with sidebar issues. The general scenario time line has been established with discussion focused on the first 48 hours of response. We will discuss initial event response, then move time forward 8 hours and 24 hours to include response by participating state agencies. We are planning for the primary event to occur in Flint and will interject the potential for developing issues in Detroit.

Subject:	Masonry Work
Location:	Flint
Start:	Tue 9/18/2012 7:00 AM
End:	Tue 9/18/2012 7:30 AM
Show Time As:	Free
Recurrence:	Daily
Recurrence Pattern:	every day from 7:00 AM to 7:30 AM
Organizer:	Doll, Jeanette (DTMB)

Facility Maintenance Notification:
Flint State Office Building Masonry Work

Date:
Tuesday, September 18, 2012, - Tuesday, September 25, 2012

Details:
Masonry workers are scheduled to cut mortar joints with an electric grinder and remove exterior bricks on the fifth floor northeast portion of the Flint State Office Building on Tuesday, September 18, 2012 through Wednesday, September 19, 2012. This is being done to expose interior conditions of the building to identify the cause and effect of water leaks.

Once work on the northeast portion of the building is complete, workers will circle the rest of the building until Tuesday, September 25, 2012, to perform visual inspections and further exploratory cutting and brick removal as necessary.

A mechanical man-lift will be used throughout the project for inspections and cutting. For your safety and the safety of the workers, please do not cross any taped off areas and maintain a safe distance from work zones and equipment.

The cutting of mortar and removal of bricks will result in unavoidably loud noises in the interior sections where work is performed. We apologize for this inconvenience and will work to minimize the impact on your operations.

Flint Water Advisory

Date/Time:

Effective Wednesday, January 7, 2015

Details:

The City of Flint recently sent out the attached notice regarding violations to the drinking water standards. While the City of Flint states that corrective actions are not necessary, DTMB is in the process of providing a water cooler on each occupied floor, positioned near the water fountain, so you can choose which water to drink. The coolers will arrive today and will be provided as long as the public water does not meet treatment requirements.

	Since we spend about 40 hours a week at our workplaces, isn't the office the best place to try out some new energy-saving tricks? The Energy Information Administration estimates that if commercial and industrial buildings improved their energy efficiency by 10 percent, our economy could see yearly savings of nearly $20 billion.

Team,

I made contact with the City of Flint to get an update on the potable water issue and found that on the re-test the water met the violated MCL from the test in January. Mr. Wright with the City Water Department told me they have made several changes to their operation and are planning to add charcoal filters to the system late this summer. The department still has to meet the MCL guidelines in their quarterly sample May 16th before reporting the water is all clear but it does look like they are making progress. I thought you guys might like the information to help keep up on the issue.

Thank you,
Brian

We are more than likely going to be ramping things up soon so thanks for reaching out. If you could have ready all the info we need reference existing or potential contracts we will need to use it would be appreciated. Also, distribution of replacement filters seems like it may become an issue. Would this be something DTMB could do - shipping them to addresses or would the post office/ups be better for that?

Good evening Jeanette,

George Hilton from the Mailroom has taken on the responsibility of overseeing the Emergency Monitors for DHHS here in the Cass Building including their AED units. I'm not sure who handles the Go Kits you are referring to though. George can be reached in his office at (517) 373-6927 if you need to discuss this with him. I've also cc him on the email so he knows you will be giving him a call. Please call me if you have any other questions.

Scott:

As of right now, our truck is on I 69 passing exit 89 B. Their truck # is 447. Their trailer # is 5308. The truck logo is “Rain Dogs Trucking”. The truck and trailer are both white. Hope this helps.

Cheers,

Greg

Subject: Water Information for Flint

Hi Jennifer,
Todd Didion sent me your email regarding water for Flint, Michigan. I can talk to our team at corporate, but need a few more details.

- How much water is needed?
- What type of water? – gallon jugs, water bottles, etc.
- Is the city asking to purchase the water or have water donated?
- When is it needed?
- Where would it need to be delivered?

Thank you!

Update:

Joe is confirming the order as I type. Most things we are able to pick-up locally, but we have to get the bubblers overnighted to us. DTMB will handle that order. My plan is to go and pick-up the order so we have it in hand.

Next step will be to schedule with the school to go in and complete the work. The plan will be to do that Friday evening after hours. I will also confirm re-testing schedule with DEQ for this weekend.

As always, let me know if you have any questions or concerns.

Thank you,

Alesha

I don't have much to update...

DTMB is still working on getting us our materials. They had originally hoped to have things this morning, and they were following up with the supply rep to find out what happened.

I know that DTMB is contacting all the Home Depots in immediate Flint area and expanding out as they need to. They are also contacting smaller facilities to see if they have things that Home Depot doesn't.

Karen and I have been communicating and still feel strongly that working through DTMB at the SEOC is still the best route to go, especially knowing that DTMB is having to put feelers out to multiple suppliers.

That would be great, but I thought someone said it had to go through DTMB. It will be another example of DTMB failure when it takes weeks to get it. Let's hope it is sooner. Also, do we need to communicate to bureaus about what we are

doing and prep people that we may be looking for volunteers to help in this situation? Larry has some Flint staff wanting to help in distribution.

On Jan 13, 2016, at 10:07 AM, MSP-EOC-MDLARA <MSP-EOC-MDLARA@michigan.gov> wrote:

Good morning,

As I am sure everyone has heard, the National Guard has been activated to help with the situation in Flint. They will be helping to man the fire stations and helping to relieve volunteers as needed. The focus remains resource distribution. There are four teams out again today distributing water, filters, cartridges and test kits. They are hoping to expand the number of water distribution teams to around 15 teams.

LARA has made their resource request for materials to complete the faucet replacement program. I am just waiting to get an ETA on materials. Joe has been contacted about schedule additional school water testing. I am going to follow-up with DEQ to remind them that if LARA is able to complete the replacements at Freeman Elementary, that school needs to be pushed to the front for retesting.

I reported to the SEOC that LARA has offered to assist with lab testing utilizing the MIOSHA Lab and Scientists as appropriate in coordination with DEQ including 3 scientists and the lab manager. Also that LARA staff is available for assisting with collection of testing materials.

I will be having a meeting shorting with DHHS, MDE and MDARD regarding the healthy food option programing. I will keep you posted on this issue as I know more.

Please let me know if you have any questions or concerns.

Thanks,

Alesha

Attached is the list of filtration devices that we have provided so far for the city of Flint residents. The only outstanding order we are aware of is the 2500 pitcher replacement filters scheduled for 1/18 delivery. As of last night, resources is reporting about 60,000 faucet filters and 60,000 replacement cartridges. I believe planning or logistics has the best idea as to how long that supply should last.

Hi Jeanette

Attached is the list of 3 vendors that our lab has been ordering the sample bottles from, which includes the "product ID" number each vendor uses, along with contacts from the suppliers. Sample bottles are one vital component of the test kits. Other components are:
the sample labels, prepared by the DEQ lab, and finally
the sample request form that is attached by rubber band.

I've also attached the procedure we've established with our lab to do "lot testing", which is an important quality assurance/quality control step that will need to be continued by FEMA. The lot-testing should be completed before the kits are assembled, to assure that kits handed out to the public for submitting samples don't have any cross-contamination issues.

Do you know if FEMA plans on using the DEQ lab for sample analysis going forward? We'll need to keep our lab appraised of this so they can manage their workload. Thanks

Attached is the list of 3 vendors that our lab has been ordering the sample bottles from, which includes the "product ID" number each vendor uses, along with contacts from the suppliers. Sample bottles are one vital component of the test kits. Other components are:
the sample labels, prepared by the DEQ lab, and finally
the sample request form that is attached by rubber band.

I've also attached the procedure we've established with our lab to do "lot testing", which is an important quality assurance/quality control step that will need to be continued by FEMA. The lot-testing should be completed before the kits are assembled, to assure that kits handed out to the public for submitting samples don't have any cross-contamination issues.

Do you know if FEMA plans on using the DEQ lab for sample analysis going forward? We'll need to keep our lab appraised of this so they can manage their workload. Thanks

Attached is the list of filtration devices that we have provided so far for the city of Flint residents. The only outstanding order we are aware of is the 2500 pitcher replacement filters scheduled for 1/18 delivery. As of last night, resources is reporting about 60,000 faucet filters and 60,000 replacement cartridges. I believe planning or logistics has the best idea as to how long that supply should last.

Thanks

Subject: SEOC Update

- JIC monitoring press for accuracy on emergency declaration
- JIC has also been in contact with congressional liaison
- DEQ and DHHS conducting a meeting in Flint on Tuesday regarding health matters
- FEMA arranging for all of their staff to arrive in Michigan within the next 48 hours
- DTMB and DHHS continue to monitor water and filter supplies and deliveries
- MDOC continues to provide equipment
- 62 volunteers, 10 Red Cross Teams, and 11 MSP teams were in the field today
- LARA conducted installed at two of the water pilot test sites, will test water on Sunday
- 3,862 residents were visited today
- FEMA personnel will begin arriving tomorrow and should have all staff within 48 hours in Michigan.

FEMA personnel are due to start arriving Sunday at the SEOC. They will be working with their state counterparts. Hours should change to normal business hours once FEMA is in the state.

'360 Strategy' Tackles Heroin, Rx Drug Abuse

By Jerry Laws

The U.S. Drug Enforcement Administration has decided to make Pittsburgh the pilot city for an enforcement/prevention "360 Strategy" aiming to help cities dealing with a heroin and prescription drug abuse epidemic and related violent crimes. DEA Special Agent in Charge for the Philadelphia Division Gary Tuggle announced it Nov. 10 with U.S. Attorney David J. Hickton and several local and federal agencies and organizations working in law enforcement, pharmacology, and substance abuse prevention and treatment. Tuggle explained that it "brings together for the first time the agencies that have dealt with this problem separately into a comprehensive and sustained effort to not only fight drug traffickers, but also to make communities resilient to their return." The strategy uses a three-fold approach.

News Update

Overexertion Injuries Top Liberty Mutual's 2016 List

Liberty Mutual released summary data from its 2016 Workplace Safety Index on Jan. 14, and the top cause of disabling injury on the list -- overexertion involving outside sources -- was no surprise. The U.S. Bureau of Labor Statistics reported last November that musculoskeletal disorders (MSDs) accounted for 32 percent of all injury and illness cases in 2014 and that the MSD incidence rate that year was 33.8 cases per 10,000 full-time workers, down from 35.8 cases the year before. The occupations with the most MSD cases in 2014 were nursing assistant, laborer, and freight, stock, and material mover, according to BLS.

WHO Renews Warning on Counterfeit Meds

No country in the world is untouched by the damage caused by substandard, spurious, falsely labeled, falsified, and counterfeit medical products, the World Health Organization warns in an updated fact sheet about what it calls SSFFC medical products. These can harm patients and fail to treat the diseases for which they were intended, and they lead to loss of confidence in medicines, health care providers, and health systems, according to WHO.

President Obama Proposes Unemployment Insurance Reforms

President Obama in his Jan. 16 Weekly Address announced new proposals to provide workers with wage insurance, stronger unemployment insurance protections, and support for retraining to find another job. A summary posted on the White House website said they are "part of the Administration's broader push to strengthen and modernize our Unemployment Insurance system by closing holes in coverage and strengthening connections to work."

Federal Emergency Declaration Signed for Flint Water Crisis

President Barack Obama signed an emergency declaration Jan. 16 in response to the drinking water crisis in Flint, Mich. He issued it after Michigan Gov. Rick Snyder requested it; the order declares that an emergency exists in the state of Michigan and directs that federal aid supplement

state and local response efforts due to the area affected by contaminated water.

Subject: RE: Companies offering to help with infrastructure

I just spoke with Capt. We need to separate the donations information from the business contracted services on any email account. I would suggest that DHHS would then monitor the donations account and the other account would be setup with an autoreply → we will review the information and contact them only if we have assessed the need for their services. We can then periodically review and retain this information in this account as a reference for possible contract use if needed.

Any feedback on this?

Subject: New Cell phone request - related to State emergency

Mindy

Our cell phone coordinator Kelly is out sick today. Jeff Wellman asked me to check into getting two of our buyers State phones while they are involved in supporting the Emergency Ops Center/Flint.

Can you help me through basics to get rough numbers? Appreciate any assistance you can provide.

Subject: Order Contacts - Laboratory Water Testing Bottles and Supplies Need for Flint

Hi Jen,

As we discussed in our conference call, Melissa Sambiagio and I are the points of contact to order water testing bottles or any supplies necessary for the laboratory related to Flint. All individuals listed above are to copied on any order request. In the event of an after office hours need, we can be reached as follows:

Tara Premoe [redacted] Office hours 7:30 am to 4:00 pm

Melissa Sambiagio [redacted] Office hours 7:30 am to 4:00 pm

After office hours contact by phone will be necessary, as neither of us have a state issued phone for which we receive email communications. Once we receive a phone alert, we can access email to determine the course of action.

In order to avoid the enormous shipping costs for overnight delivery of water testing bottles, please keep us apprised on the status of inventory and anticipated need.

Thank you.

Hi Jen,

This is opposite from the phone conversation I just had with Jeanette Doll and emails that FEMA will be taking over the water bottles. We have several orders pending with VWR for bottles, some shipping Friday and another shipment next week. Should these bottles be put on hold pending discussion with FEMA?

Thank you.

Subject: Conference Call ref. Purchases

Can we have a conference call today to discuss? As far as purchasing goes. The lab is still making all of their purchases. This includes test bottles, labels, etc. as this is an activity being conducted for DEQ, not a provision of life services to the public. At times the SEOC rep is involved because it is after hours, on a weekend or like this week, a holiday where shipping needed to be expedited. We should not run into this problem again from here on out as we have provided clearer direction to Command Staff in the SEOC on our target numbers per George Krisztian.

All billing should still be going through the laboratory or RRD as always. If we need resources that our vendors cannot supply then we get with DTMB and possibly FEMA. We should be getting more direction here today on what and when FEMA will be integrating.

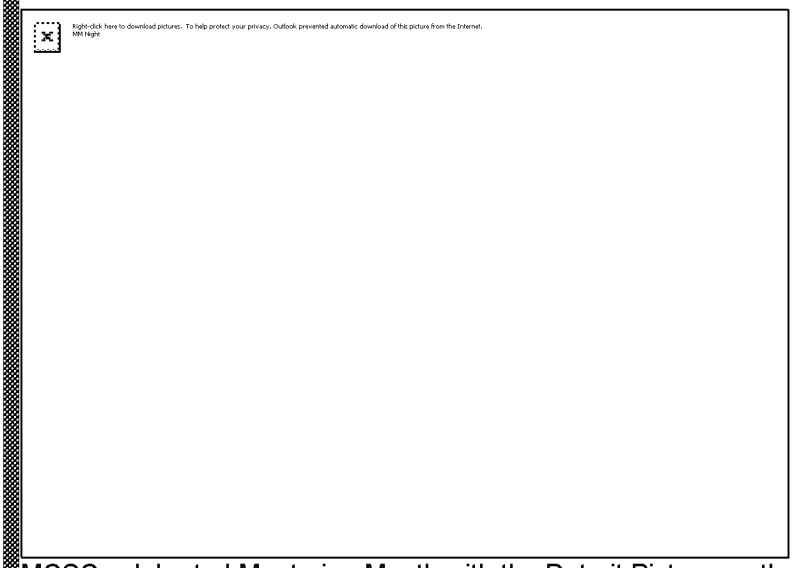
MCSC celebrates Mentoring Month with the Detroit Pistons



MCSC celebrated Mentoring Month with the Detroit Pistons as the two organizations teamed up to host Mentor Michigan Night at the Palace of Auburn Hills. More than 100 people involved with mentoring programs attended the event.

Mentor Michigan redevelops Quality Based Mentoring Standards

In September 2015, MENTOR: the National Mentoring Partnership released the 4th edition of the Elements of Effective Practice for Mentoring. In response, Mentor Michigan has redeveloped Quality Based Mentoring Standards in order to reflect the most up-to-date research in the mentoring field. This new and improved system will enable us to increase our level of engagement with mentoring programs, ensuring that all youth in Michigan receive the level of support they need. Quality Rated Programs will receive special offers and opportunities for national exposure.

Governor's Service Awards nominations now open

MCSC is now accepting nominations for the 2016 Governor's Service Awards. The form can now be filled out online. Nominate a volunteer, organization or national service program today!

Michigan's AmeriCorps

National service agency deploys AmeriCorps team to assist with Flint water emergency

The Corporation for National and Community Service (CNCS) announced it is deploying an AmeriCorps team to Flint, to support state and local efforts to protect the public health of residents facing challenges from increased lead levels in the Flint water supply.

"National service is all about getting things done to solve local problems, and we are committed to supporting Flint at this time of need," said Wendy Spencer, CEO of CNCS.

Funding Alerts

Scotts Miracle-Gro GRO1000 Grassroots Grants

The Scotts Miracle-Gro Company's GRO1000 Grassroots Grants help foster the development of gardens and green spaces in the United States. Grants of up to $1,500 are awarded to local communities throughout the country to help bring edible gardens, flower gardens and public green spaces to more neighborhoods.

Teacher Vision Grants

American Electric Power will combine your teaching talents and creativity with our resources and desire to help you make a difference in your students' lives. Available for teachers of pre-k through grade 12 with projects that have an academic focus and a goal to improve student achievement. Grants range from $100 to $500.

Kars4Kids Grants

Kars4Kids is constantly on the lookout for like-minded charities which share our values and are working hard to make a difference

in the areas of education and youth development. Grants typically range from $500-$2,000, depending on mission alignment and availability of funds.

Walmart Foundation State Giving Program
Applications will be accepted for programs within the scope of one of the following focused giving areas: career opportunity, hunger and healthy eating or disaster preparedness. Grants range from $25,000 to $250,000.

National Arts and Humanities Youth Program Awards
The National Arts and Humanities Youth Program Awards, sponsored by the President's Committee on the Arts and the Humanities, recognizes excellence in after-school and out-of-school arts and humanities programs for underserved children and youth. Twelve winners will receive a $10,000 award and an invitation to accept their award at a White House ceremony.

Volunteer opportunities

Junior Achievement of Mid-Michigan
Junior Achievement offers programs to teach young people career and life skills. JA programs are five to seven sessions usually taught over the course of several weeks to students in K-12th grade.

Willow Farm Therapeutic Riding
Willow Farm Therapeutic Riding serves as a center for continual development, implementation and evaluation of a therapeutic riding program for children and young adults between the ages of 4 and 26, all of whom have a physician-diagnosed disability. Volunteer opportunities include sidewalkers and horse leaders.

Feeding America West Michigan
Feeding America West Michigan Food Bank provides food to 492,100 people in need each year. In one hour, volunteers can help distribute 150 meals.

About the MCSC

The Michigan Community Service Commission utilizes service as a strategy to address the state's most pressing issues and empowers volunteers to strengthen communities. In 2015-2016, the MCSC is granting more than $7 million in federal funds to local communities for volunteer programs and activities. The MCSC is funding 29 AmeriCorps programs and four My Brothers Keeper grantees. The Governor's Service Awards and Mentor Michigan are also premier programs of the MCSC. www.michigan.gov/volunteer

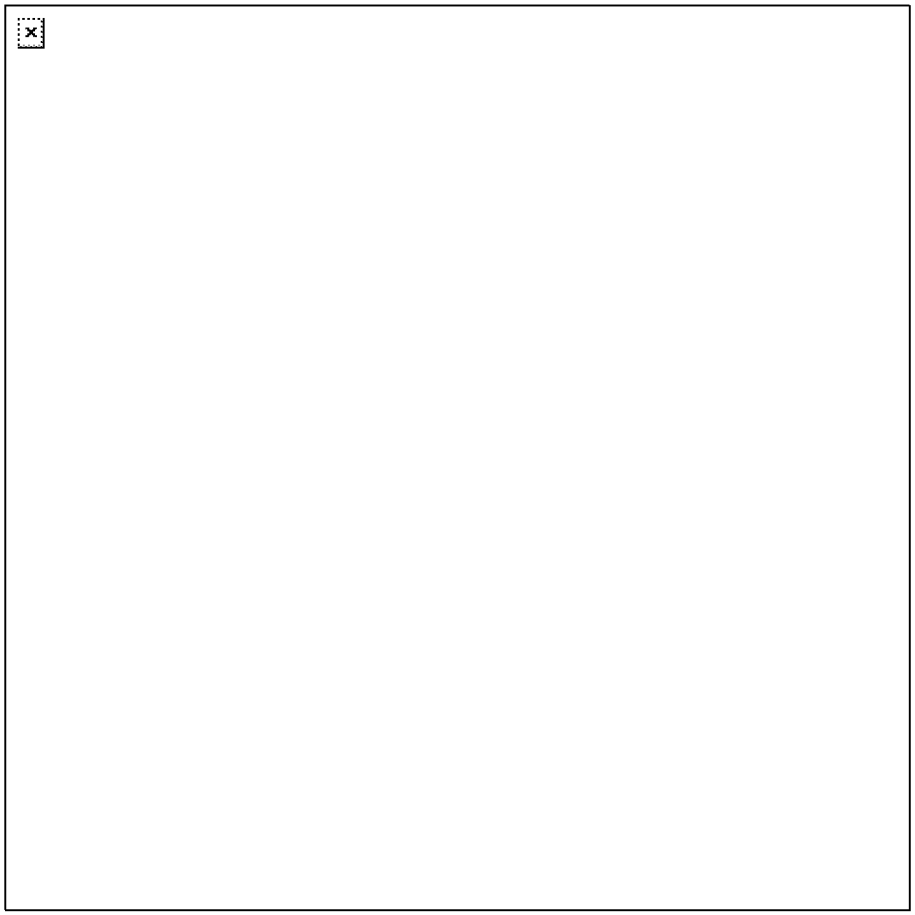
Subject: Contributing time, muscle and money

During this month's Martin Luther King Jr. holiday weekend, some state employees turned their "day off" into a "day on" in Flint. There, they delivered bottled water, water filters, replacement cartridges and water testing kits to families. The volunteers joined other Michiganders, turning Dr. King's birthday observance into a day of service.



Mike Zimmer, director of the Office of Good Government and the Department of Licensing and Regulatory Affairs, has shared a link – www.helpforflint.com – that offers other opportunities to contribute time, muscle and money to bring clean drinking water to the community.Here in DTMB, some of our employees didn't wait for an invitation to lend a hand. Office of Retirement Services staff contributed funds that were used to buy 31 cases and 23 gallons of water, which a local organization transported to Flint.

Autumn Hubbard, Ambrea Mack and Sarah Esquivel, who are in the photo at the left, nearly emptied the shelves at their local grocery store. Thanks for your efforts.

everyone.

Now work.

Last week, I signed a new policy that formalizes the annual employee review process and sets expectations for employees and managers. Administrative Policy 200.37 establishes consistent standards for implementing performance plans and reviews. Some of the standards are practices we have followed for years. Others are new. Some of particular note include:

- The mandatory use of HRMN
- A standard Feb. 1-Jan. 31 rating period for all employees
- An Individual Development Plan that specifies training or development programs for each employee
- Competencies and objectives that align to DTMB goals or scorecard metrics
- Consequences for managers and supervisors who do not complete the review process as required

A fundamental role of each DTMB manager or supervisor is to provide employees with direction and feedback on their performance. Employees also are expected to take an active role in pursuing professional development opportunities and achieving their competencies and objectives. I encourage you to review the new policy and talk with your manager or supervisor if you have questions. Of course, I welcome your questions and input as well. Please send your comments and ideas to me at behend@michigan.gov.

I know these have been busy weeks for many of you as you take on additional responsibilities and work hard to provide resources and services for our customers and citizens across the state. Please know that your hard work has not gone unnoticed. Thank you for everything you do, every day.

Have a great week,

David

Gear is on the truck. Would anyone be able to confirm an on site contact and phone number?

I've arranged for the service team to visit the device once on site in Flint. I've also included a couple of USB cables and 3 extra bottles of toner.

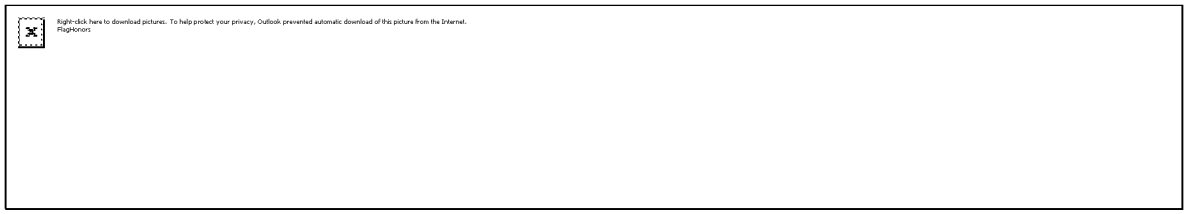
Subject: Thank you for your service



THANK YOU!

Fellow employees,

Each day, more than 46,000 state of Michigan employees come to work with the confidence and commitment to make Michigan a better place to live, work and play. I appreciate the way you care about the citizens we serve, and how it is reflected in the work that you do.

As you have heard from me and the media, our reputation and trust can be severely impacted when people do not make good decisions, or use good judgment in solving problems. That principle is universal, but never more so than when public health is at stake. What happened in Flint can never be allowed to happen again anywhere in our state.

I know that you want to work in a place where employee input is valued, efforts are recognized, and teams are always striving for continuous improvement. That's why we introduced employee surveys, Bureaucracy Busters and other reinvention initiatives. We want and deserve a culture of innovation, continuous improvement and employee engagement at every level. We can never take for granted how important the people are who depend on us to do our jobs, and I am asking you not to let the situation in Flint negatively impact your motivation to excel every day.

Many of you have taken an interest in helping the citizens of Flint on your own time, and I'd like to take this opportunity to recognize and thank those who have volunteered over the last couple of weekends. You have worked tirelessly to deliver cases of bottled water, water filters, replacement cartridges and water testing kits to the families in need. I appreciate you donating your time to help our fellow Michiganders. To date, more than 37,000 homes have been visited by one of our water resource teams.

For employees who would like to further help the people of Flint, please visit www.HelpForFlint.com to learn how you can do so. For additional information and to sign up for daily updates, please visit www.mi.gov/FlintWater. I am committed to ensuring that all residents have access to safe and clean water.

Again, I'd like to express my gratitude for the work you do every day to continuously improve our state and earn the trust of those you serve. You make a real difference.

Thanks,

Governor Rick Snyder

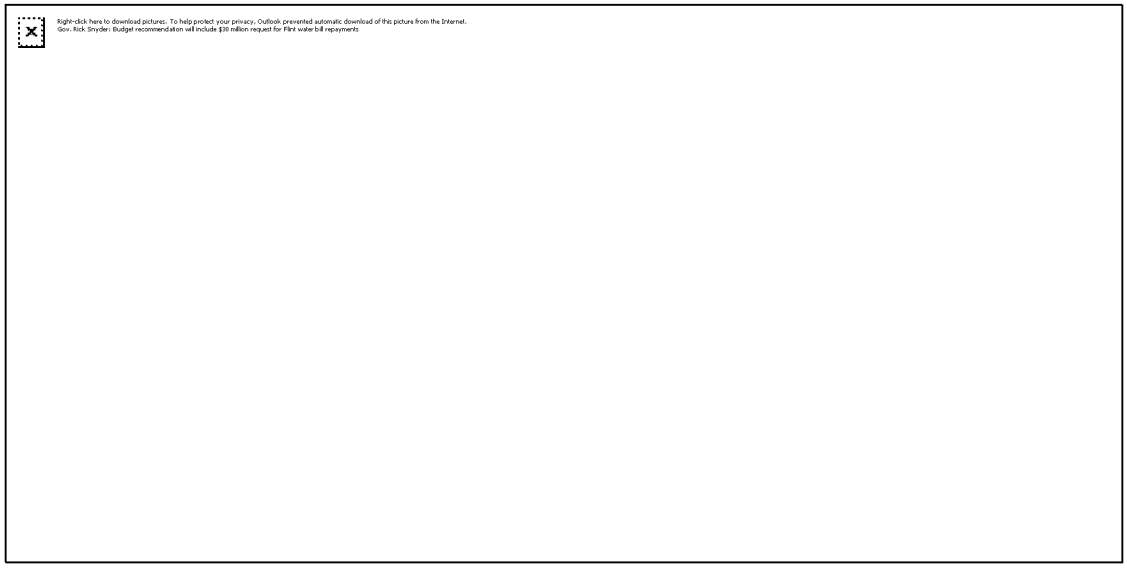
Subject: "Flint residents should not have to pay for water they cannot drink"

Budget recommendation will include $30 million request for Flint water bill repayments



When Governor Rick Snyder presents his budget recommendation next Wednesday, Feb. 10, he will include a $30 million request for the residents of Flint to keep their water service on and eliminate the need to pay for water they cannot completely trust to drink.

Under the governor's ask, the funding would enable the city of Flint to apply credits for customers on future bills. Estimates show water is roughly 47 percent of billing and sewer costs are around 53 percent. The credit would be applied to consumption usage (roughly

65 percent) of a resident's water portion of the bill, such as for bathing, drinking, cooking, and washing your hands. Residents still would be responsible for paying the sewer portion of their water bills.

Professor Marc Edwards of Virginia Tech said, "This essentially refunds all the money associated with consumption or consumer use. I think it's an amazing gesture of common sense and good will and it corrects an injustice. I don't think there's a precedent for this. I feel so encouraged by the direction this is going."

Click here to learn more about the budget request.

USE FILTERED TAP WATER

- Drinking, cooking
- Brushing teeth
- Washing fruits and vegetables
- Pet water bowls

USE UNFILTERED TAP WATER

- Cleaning
- Bathing

BLOOD LEAD LEVEL TESTING

All Flint children less than six years of age should have their blood lead levels tested. Contact your primary care provider or call 2-1-1.

NUTRITION

Did you know that some foods will help keep lead from being stored in a child's body? These are foods with a lot of calcium, vitamin C and iron.

FREE WATER TESTING

Flint residents who are concerned about their water can obtain free water testing kits at the water resource sites.

USE WATER FILTERS & CARTRIDGES

Water filters can reduce lead and other contaminants by 99 percent when installed correctly. Free water filters are available at the water resource sites.

FOR IMMEDIATE ASSISTANCE

DIAL 2-1-1

FLINT WATER RESPONSE TEAM

www.michigan.gov/flintwater

LEAD IN FLINT WATER

GENERAL INFORMATION

- The amount of lead found in some Flint homes' drinking water could affect kids' health.
  - o Even small amounts of lead can harm kids' health because they are still growing.
  - o Adults are less likely to be harmed by the levels found in the water.
- Filter your drinking water using a National Sanitation Foundation (NSF)-approved filter.
  - o You can receive a free a NSF-approved filter if you use City of Flint water.
  - o Call 2-1-1 to find out where you can pick up a free water filter.
- Some filters can remove up to 99 percent of the lead in water when used properly. To be sure your filter is removing as much lead as it can, carefully follow the instructions that came with it.
  - o Run only cold water through the filter.
  - o Change the filter cartridge as often as the instructions say.
- Even after changes to the water system, it may take a while before lead levels in your home's water drop.
- Lead is hard to avoid completely. It can be found in water pipes and brass water faucets, old paint, in dirt, at some job sites, and in metal used for some hobbies.

There are a number of steps you can take to keep yourself and your family healthy. Use the tips below to learn more about how to stay healthy:

LEAD IN WATER

Although your water may be a different color sometimes, it is not caused by lead. It's important to remember:

- You can't see, smell, or taste lead in water.
- Lead won't change the color of your water.
- The only way to know what your home's lead levels are is by having your water tested.

LEAD IN BLOOD

- If your children live in Flint or go to school or childcare in the City of Flint, their blood-lead level should be tested.
- You should contact your doctor about testing.
- Testing is available for free at the Genesee County Health Department. Call 2-1-1 if you need help getting there.
- If you are pregnant or nursing, and you have tested negative for high blood-lead levels, it is safe to breastfeed.
- If you are pregnant or nursing and have tested positive for high blood-lead levels, talk to your doctor about the safety of breastfeeding.

TIPS TO KEEP YOUR HOME SAFE FROM LEAD

WATER FILTERS

- Get your water tested. It's free. Call 2-1-1.
- Use a water filter. Call 2-1-1 for a free filter.
- If you do not have a water filter, use bottled water for drinking and mixing formula.
- Use cold, filtered water for cooking.
- Wash fruits and vegetables with filtered water.
- If you must use unfiltered water, run the water for at least five minutes before you use it. To save time and water in the future, it's a good idea to fill up as many containers as you can once you've run your water for five minutes.
- Drain and flush your water heater tanks regularly to remove any lead that has accumulated. Follow manufacturers instructions for maintenance or contact a licensed professional for assistance.

CLEANING

- Wash dishes, bottles and toys with unfiltered soapy water and dry before use.
- It is safe to use unfiltered tap water to mop floors and wipe down countertops.
- It is safe to wash clothes in your washer and dryer.
- Use door mats. Take your shoes off when indoors.
- Vacuuming carpets may pull more lead dust to the surface. Use a non-motorized sweeper to clean carpets.
- Clean windowsills and play areas often with paper towels and soapy water.

TIPS TO KEEP YOUR HOME SAFE FROM LEAD

IN THE BATHROOM

- Use filtered tap water to brush your kids' teeth.
- Adults can use unfiltered tap water to brush their teeth.
- You can use unfiltered water to shower or bathe, but don't allow water to get in kids' mouths.
- Studies reviewed by the Centers for Disease Control and Prevention show that parents can continue bathing their children in the tub but bath time should be used for bathing only, rather than allowing children to play in the water.
- Lead will not cause rashes or other skin problems. However, if levels of chlorine or other cleaners are high in the water, it may cause itchy or dry skin (similar to what can happen when you swim in a pool).

CARING FOR PETS

- Use filtered tap water for your family pets' water bowls.
- You can use unfiltered tap water to bathe your pets.
- If you notice your pet acting differently than normal, contact your vet.

HEALTHY DIET

- Eat food sources of iron, calcium and vitamin C.
- Wash hands with soap and warm water before eating.
- If you need fresh and healthy food, call the WIC office at 810-237-4537, or for SNAP food assistance apply at www.michigan.gov/mibridges or visit your local Michigan Department of Health and Human Services office.

SOURCES OF IRON INCLUDE:

- Lean red meats, fish, chicken
- Cereals with added iron
- Dried beans and lentils

SOURCES OF CALCIUM INCLUDE:

- Milk
- Yogurt
- Cheese
- Calcium fortified orange juice
- Leafy green vegetables such as kale or turnip greens

SOURCES OF VITAMIN C INCLUDE:

- Oranges, orange juice
- Grapefruit, grapefruit juice
- Tomatoes, tomato juice
- Green peppers
- Potatoes

LEAD INFO

The Flint water response team is focused on the lead in water crisis. In addition to water, scientists have long been concerned about all sources of lead including lead paint, dust, soil, etc.

LEAD PAINT

- Homes built before 1978 likely have lead paint, both inside and outside.
- Old paint is the most common way that kids are exposed to lead.

DIRT

- If you live in the city, there may be lead in the dirt outside your home.
- Before 1996, gas and the exhaust from cars contained lead. More lead will be found in dirt in busy traffic areas.

DUST

- The dust in your home can have tiny amounts of lead from paint and dirt.

HOBBIES AND JOBS

- Solder, fishing sinkers, bullets, and stained glass framing materials are some items that may contain lead. You could also track home lead dust from your job site.

HAVE QUESTIONS?

- For more information about protecting yourself and your family from lead, visit www.michigan.gov/flintwater.
- To find out where you can get a free water filter, call 2-1-1.
- For a free water test, call 2-1-1.
- For more information about lead in your home and what you can do, call the Michigan Department of Health and Human Services at 1-800-648-6942.
- For information on how to help, visit www.helpforflint.com.

FLINT WATER RESPONSE TEAM

www.michigan.gov/flintwater

PLOMO EN EL AGUA DE FLINT

INFORMACION GENERAL

- La cantidad de plomo que se encuentra en el agua potable en los hogares de Flint podría afectar la salud de los niños.
  - o Inclusa pequeñas cantidades de plomo pueden dañar la salud de los niños, ya que todavía están creciendo.
  - o Los adultos tienen menos probabilidades de ser perjudicados por los niveles encontrados en el agua.
- Filtre el agua potable utilizando un filtro aprobado por la National Sanitation Foundation (NSF).
  - o Usted puede recibir un filtro aprobado por NSF gratis, si utiliza agua de la Ciudad de Flint.
  - o Llame al 2-1-1 para averiguar adónde puede retirar un filtro de agua gratuito.
- Algunos filtros pueden eliminar hasta el 99% del plomo en el agua cuando se utilizan correctamente. Para asegurarse de que su filtro está eliminando la mayor cantidad de plomo posible, siga cuidadosamente las instrucciones enviadas con éste.
  - o Deje correr agua fría a través del filtro solamente.
  - o Cambie el cartucho del filtro tan a menudo como lo indiquen las instrucciones.
- Incluso después de los cambios en el sistema de agua, puede tomar un tiempo antes de que los niveles de plomo en el agua se reduzcan.
- El plomo es difícil de evitar por completo. Se puede encontrar en las tuberías de agua y grifos de agua de bronce, pintura vieja, en la tierra, en algunos lugares de trabajo, y en el metal usado en algunos pasatiempos.

Hay una serie de pasos que puede tomar para que usted y su familia estén saludables. Utilice los siguentes consejos para aprender más sobre cómo mantenerse saludable:

PLOMO EN EL AGUA

Aunque el agua a veces puede ser de un color diferente, esto no es causado por el plomo. Es importante recordar:

- Usted no puede ver, eler o saborear plomo en el agua.
- El plomo no cambiará el color del agua.
- La única manera de saber cuáles son los niveles de plomo en su hogar es haciendo examinar el agua.

PLOMO EN LA SANGRE

- Si sus hijos viven en Flint o van a la escuela o a una guardería en la ciudad de Flint, sus niveles de plomo en la sangra deben ser examinados.
- Debe comunicarse con su médico para realizarse un examen.
- El examen está disponible de forma gratuita en el Departamento de Salud del Condado de Genesee. Llame al 2-1-1 si necesita ayuda para llegar allí.
- Si está embarazada o amamantando, y ha dado negativo en los niveles altos de plomo en la sangre, es seguro amamantar.
- Si está embarazada o amamantando y ha dado positive en los niveles altos de plomo en la sangre, hable con su médico acerca de la seguridad de la lactancia materna.

CONSEJOS PARA MANTENER SU HOGAR PROTEGIDO DEL PLOMO

FILTROS DE AGUA

- Haga examinar el agua de su casa. Es gratis. Llame al 2-1-1.
- Utilice un filtro de agua. Llame al 2-1-1 para solicitar un filtro gratuito.
- Si usted no tiene un filtro de agua, utilice agua embotellada para beber y para mezclar fórmula.
- Use agua fría y filtrada para cocinar.
- Lave frutas y verduras con agua filtrada.
- Si tiene que usar agua sin filtrar, deje correr el agua durante cinco minutos antes de usarla. Para ahorrar tiempo y agua en el futuro, es una buena idea llenar tantos envases como sea posible, una vez que haya dejado correr el agua durante cinco minutos.
- Drene y purgue los tanques de su calentador de agua regularmente, para eliminar cualquier plomo que haya quedado acumulado. Siga las instrucciones de fabricante para el mantenimiento o póngase en contacto con un profesional autorizado para obtener ayuda.

LIMPIEZA

- Lave platos, botellas y juguetes con agua no filtrada y jabón y deje que se sequen antes de su uso.
- Es seguro usar el agua del grifo sin filtrar para limpiar pisos y mesadas.
- Es seguro lavar la ropa en la lavadora y secadora.
- Utilice un tapete en la puerta. Quítese los zapatos cuando esté dentro.
- Aspirar alfombras puede levantar más polvo de plomo sobre la superficie. Utilice una barredora no motorizada para limpiar alfombras.
- Limpie alféizares y áreas de juego a menudo con toallas de papel y agua con jabón.

CONSEJOS PARA MANTENER SU HOGAR PROTEGIDO DEL PLOMO

EN EL BAÑO

- Utilizar agua filtrada para cepillar los dientes de sus hijos.
- Los adultos pueden usar el agua del grifo sin filtrar para lavarse los dientes.
- Se puede utilizar agua del grifo sin filtrar para bañarse, pero no deje que los niños beban el agua cuando jueguen en la bañera.
- Estudios realizados por los Centros de Control y Prevención de Enfermedades muestran que los padres pueden seguir bañando a sus hijos en la bañera, pero la hora del baño se debe utilizar para el baño solamente, en lugar de permitir que los niños jueguen en el agua durante mucho tiempo.
- El plomo no causa erupciones u otros problemas de la piel. Sin embargo, si los niveles de cloro u otros productos de limpieza son altos en el agua, puede causar picazón en la piel o piel seca (similar a lo que puede suceder cuando usted nada en una piscina).

CUIDADO DE MASCOTAS

- Utilice agua filtrada del grifo para que su mascota beba en su tazón.
- Usted puede utilizar el agua del grifo sin filtrar para bañar a sus mascotas.
- Si usted nota que su mascota actúa de manera diferente de la normal, consulte a su veterinario.

DIETA SALUDABLE

- Coma alimentos ricos en hierro, calcio y vitamina C.
- Lávese las manos con jabón y agua tibia antes de comer.
- Si necesita alimentos frescos y saludables, llame a la oficina de WIC al 810-237-4537, o para la asistencia alimentaria "SNAP" aplique en www.michigan.gov/mibridges o visite su oficina local del Departamento de Salud y Servicios Humanos de Michigan.

BUENAS FUENTES DE HIERRO INCLUYEN:

- Carnes rojas desgrasadas, pescado y pollo
- Cereales con hierro añadido
- Frutas secas (pasas, ciruelas pasas)

BUENAS FUENTES DE CALCIO INCLUYEN:

- Leche
- Yogur
- Queso
- Verduras de hojas verdes (espinaca, col rizada, berza)

BUENAS FUENTES DE VITAMINA C INCLUYEN:

- Naranjas, jugo de naranja
- Toronja, jugo de toronja
- Tomates, jugo de tomate
- Pimientos verdes

INFORMACION DEL PLOMO

El equipo de respuesta de Flint esta enfocado en la crisis de plomo en la agua. Además del agua, cientificos, durante mucho tiempo, han estado preocupados por todas las fuentes de plomo, incluyendo la pintura con

PINTURA CON PLOMO

- Las casas construidas antes de 1978 probablemente tienen pintura con plomo, tanto dentro como fuera.
- La pintura vieja es la forma más común en que los niños son expuestos al plomo.

TIERRA

- Si usted vive en la ciudad, puede haber plomo en la tierra afuera de su casa.
- Antes de 1996, el gas y los gases de escape de los automóviles contenian plomo. Más plomo se encontrará en la tierra de áreas con tránsito intenso.

POLVO

- El polvo en su casa puede tener pequeñas cantidades de plomo de la pintura y suciedad.

AFICIONES Y EMPLEOS

- Las soldaduras, plomadas de pesca, balas y materiales que enmarcan los vitrales son algunos elementos que pueden contener plomo. Usted podría también llevar polvo con plomo a casa de su sitio de trabajo.

¿TIENE PREGUNTAS?

- Para más información sobre cómo protegerse usted y su familia del plomo, visit www.michigan.gov/flintwater.
- Para saber dónde puede obtener un filtro de agua gratuito, llame al 2-1-1.
- Para una examinación de su agua gratis, llame al 2-1-1.
- Para más información sobre el plomo en su casa y lo que puede hacer, llame al Departamento de Salud y Servicios Humanos de Michigan al 1-800-648-6942.
- Para obtener información sobre cómo puede ayudar, visite www.helpforflint.com.

Subject: Update

2/9/16 UCG Meeting

EPA:
• Additional data coming in that shows a non-detect in lead and copper.
• Unfiltered water showing both lead and copper but not as high as original results
• Filters effective, with copper, even though not rated for copper.
• Most residents not using their water for anything other than bathing, not running the water: this is an issue for chlorine and phosphate.
Remind people that they need to run the water
If not, the recovery will be much longer
Concerns for summer time, chlorine can cause increased bacteria
• Residents still have concerns over water bills
• Adding a line into the EPA factsheet on Copper.

• Dr. Lurie will be in Flint on Thursday, looking to have meeting with faith based organizations

HSTF:
• Closed out a few objectives
USDA:
• Request for disaster household feeding, requested additional information from MDOE
• Request for increase WIC age for children 5-10
• Request for WIC funds to assist with lead testing
• USDA reviewing these requests
HMTF:
• Teams are starting to finish up tasks. Will work with GCHD to have a clear idea of what has been completed and what additional needs to exist.
• Working on redirecting 211 calls from the state to the county so they can sustain long term.
CDC:
• Flow chart: Dr. Lurie would like a flow chart on what happens after a child get tested, including age and timeline of process. CDC making sure that this will fit realistically with what local and state are already doing.
CHECC:
• Working on plan for the expanded testing of children under 6.
MDEQ:
• Requests from Governor's office
Community members to the team
Visit every home adjacent to high lead lines
Visit all homes higher than 15 ppb
GCHD:
• Working on plans for expanded testing of under 6.

Planning Day today
o Updated objectives list – looks like a few were completed and additional added. You'll see updates in the resource request/task assignment board.

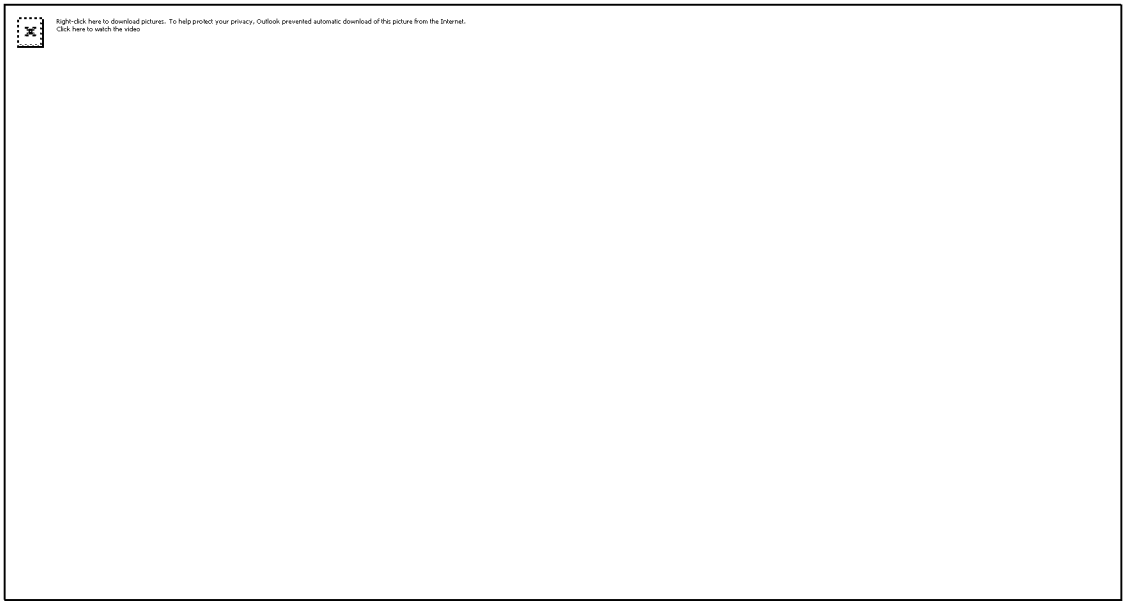
VIDEO: How volunteers are helping Flint



Volunteers at the Food Bank of Eastern Michigan are working hard to collect donations in order to help the families of Flint. Last Thursday, Governor Snyder visited with the many dedicated volunteers and helped sort cans of food.

Good nutrition is critically important for Flint's children. Foods that are high in calcium, vitamin C, and iron can help limit the effects of lead exposure. To donate or volunteer at the Food Bank of Eastern Michigan, visit www.fbem.org.

Click here to watch the video and learn more about how the Food Bank of Eastern Michigan is helping Flint's families.

Cc: Pung, Linda (DTMB) <PUNGL2@michigan.gov>; Koppsch-Woods, Kimberly (DTMB) <Koppsch-WoodsK@michigan.gov>
Subject: DIRECTION REQUESTED: DTMB approval to install software for DHHS Blood Lead staff
Importance: High

Hi Chris,

DHHS needs specific software pushed to two new staff who are working on the blood lead data for Flint as quickly as possible. The software is Lotus Approach 97 (an older relational database) and ZP4 (zip code software). DHHS is in the process of migrating to a new system but, until that migration is complete, they need to use the requested software to work with the data. We requested a standards exemption through the appropriate process; however, as I understand it, the review committee has concerns with the age of the software and the EULA. They have a meeting scheduled for tomorrow afternoon to discuss.

I'd like your direction on how to proceed. 1) receive your approval now and immediately provide the software to customers (we have the discs) or 2) wait for the meeting with the exceptions committee tomorrow afternoon and update you with the results.

Below is the an email from the customer seeking DTMB escalation.

Please let me know if you have any questions.

Susan.

From: Stanbury, Martha (DHHS)
Sent: Wednesday, February 17, 2016 10:06 AM
To: Miller, Corinne (DHHS) <MillerC39@michigan.gov>
Cc: Gates, Nicholas (DTMB) <GatesN@michigan.gov>; Dykema, Linda D. (DHHS) <DykemaL@michigan.gov>
Subject: getting DTMB to approve a software installation for new lead staff
Importance: High

I am requesting an intervention at DTMB to ensure that DTMB approves our request to have Lotus Approach and ZP4 installed on the computers of
Dan Albright and Veronica Tijerina, two new staff working on our blood lead data. This is essential for our timely an accurate response to the lead poisoning problem in Flint. The blood lead surveillance data have been managed using Lotus approach for many years, and although it will be retired once the new surveillance system goes live, in a number of months, it is essential that the new staff have access to the current data management system in order to address all our issues and needs with the Flint water/lead response. In addition we are requesting an exception to have "ZP4" installed, a national file of addresses, which are used to verify and look up addresses; it is essential that we can verify the addresses of individuals reported by laboratories with their blood lead test results.

Because Lotus and DP4 are no longer a DTMB-approved applications, our request has to go to a DTMB "Exceptions Committee" meeting tomorrow. Our request is being presented to the Exceptions Committee by a DTMB staff, Nick Gates, who has been working on this, but I am requesting that MDHHS reach out to Linda Pung (pungL2@michigan.gov)and Susan Nordyke (nordykes@michigan.gov), who are higher up than Nick at DTMB, to emphasize the importance of approving this exception and getting the installation of Lotus approach and ZP4 completed ASAP, so that we can get our new Flint lead staff on board now.

Thank you for your consideration.

Subject: Re: response

Tom

we were waiting to get numbers back from the crews going out in the fields. Jackie was tracking some of the daily water that was going out and Richard was trying to compile something on the filters since they've been purchasing all of the filters up today.

The red crosses logistics person Lauren is working with the team of us to try and come up with these numbers and we're hoping to have some information tomorrow.

Thanks Jeanette. Do you know how the truckloads translates to gallons? Have there been established any goals for total numbers of filters or daily needs of water? Summary costs for water vs. filters. Vs. cartridges?

Subject: RE: response

DTMB has been helping to procure water, filters and refill cartridges, drivers and trucks to assist with delivering supplies to PODs and assisting with neighborhood visits. [redacted]. Have setup a lease agreement for 100,000 of warehouse space in the city to use for water, filters and supplies. Provided guidance and assistance with agencies in their contracts along with IT needs.

We have purchased 32 truckloads of water and today procured:

Brita faucet filters – 27,000

Brita Replacement filters – 1,600

PUR faucet filters – 12,500

PUR 3-pack replacement filters – 40,000

How's this?

Subject: response

I'm working on the presidential. Could you provide me with a paragraph or two of DTMB's response so far and a summary of cost totals so far (a daily cost of the resources we think are GOING to be needed daily would be great). The governor wants this tonight, so 4pm would be great (or sooner of course).

Thanks Jeanette!

Subject: Food License Question

Question came as to whether the warehouse (3086 E. Cort Street in Flint) being used for temporary storage and distribution of bottled water needs an MDARD food license. After discussion with MDARD Food & Dairy Division Director Kevin Besey, under the circumstances and due to the nature of this facility no license is needed. If DTMB / Operations has any questions about sanitation, MDARD can have a food inspector available for any questions.

Attachments: LARA CustomerOrder#503896.pdf; DTMB937 Jan2015 Home Depot PO Request.rtf

Denise,

Attached is the plumbing materials quote for the items the LARA needs. Apparently they are going to need more than what was originally ordered, but I don't have that yet. Below is the filters that will be ordered to also fall under the same PO. I also attached the request for PO. Thank you.

The estimate cost of these items below is $4,215,339 and the attached quoted total is $1,875.45 for a total of $4,217,214.45.

Faucet Mounts – Delivering direct to GCCARD on 1/14/16 (Ordered against new DTMB PO)
11,000 – PUR vertical faucet mount - $29.97
1,500 – PUR Horizontal faucet mount - $29.97
5,000 – Brita faucet mount - $17.47
10,000 – Brita adv faucet mount white - $25.97
12,000 – Brita adv faucet mount chrome - $25.97

Replacement Filters – Delivering direct to GCCARD on 1/14/16 (Ordered against new DTMB PO)
15,000 – PUR replacement filter - $14.37
45,000 – PUR replacement filter - $35.97
40,000 – PUR replacement filter - $25.98
16,000 – PUR replacement filter - $16.47
1,600 – Brita replacement filter - $28.19

Hi Ryan

Please see email below re: access for our DEQ staff Jack Schinderle. This is in regards to the Flint Water situation so it is essential that we get Jack 24/7 access to our portion of the lab on MLK by this Saturday. What do you need from me to make this happen?

Thanks

MK

Mary Kay,

I need access to the DEQ Lab. I also need to make sure that I have access on weekends to drop off samples. I will be needing access on Saturday.

I understand there is also a key that I need to access the lab. Can you help with that also?

The code on the back of my ID is [redacted]

If there are any issues with this please let me know; cell is [redacted]. Jen- I am copying you in case I need SEOC involvement to make this happen.

Jack,

If you want to get your ID badge activated for the DEQ Lab get in touch with Mary Kay Hawes in the Administration Division. She will need the set of numbers on the back of your badge and can work with DTMB who can activate it remotely. Be sure that the request identifies that you want 24/7 access and not just during the 8-5, M-F range. Liz.

Ok, here's the plan we must follow. Every purchase we make on behalf of DTMB or any other agency must be approved by Chris Christensen (our SEOC rep.) in advance. Chris will ensure that we don't create a situation where multiple departments pull the trigger on the same expenditure. I have communicated this plan to Shawn Sible (MSP) and Nancy Duncan (SBO).

Chris, if you have any concerns, please call me.

Brom, Phil, Natalie—My understanding is there is a PO for $4.3 million for water filters and cartridges pending funding approval. Nancy indicated DTMB has agreed to pay for this per David; however, she has a slight preference that DHHS pay for it to keep DTMB from being another line item on the supplemental. Phil, are you the right person to take the lead to identify the funding source so that the PO can be released?

Thanks, everyone!

Importance: High

Steve,
I've been asked to find out why DTMB is involved in LARA's plumbing materials purchase for Flint. Shouldn't LARA make this $1,769.28 (minus the $106.16 sales tax) on their own? How do we know LARA hasn't already put this purchase on a procurement card?

Thank you,
Denice – 373-7567

Subject: PO request

Denise,

Attached is the plumbing materials quote for the items the LARA needs. Apparently they are going to need more than what was originally ordered, but I don't have that yet. Below is the filters that will be ordered to also fall under the same PO. I also attached the request for PO. Thank you.

The estimate cost of these items below is $4,215,339 and the attached quoted total is $1,875.45 for a total of $4,217,214.45.

Faucet Mounts – Delivering direct to GCCARD on 1/14/16 (Ordered against new DTMB PO)
11,000 – PUR vertical faucet mount - $29.97
1,500 – PUR Horizontal faucet mount - $29.97
5,000 – Brita faucet mount - $17.47
10,000 – Brita adv faucet mount white - $25.97
12,000 – Brita adv faucet mount chrome - $25.97

Replacement Filters – Delivering direct to GCCARD on 1/14/16 (Ordered against new DTMB PO)
15,000 – PUR replacement filter - $14.37
45,000 – PUR replacement filter - $35.97
40,000 – PUR replacement filter - $25.98
16,000 – PUR replacement filter - $16.47
1,600 – Brita replacement filter - $28.19

Subject: Question LARA - PO request
Importance: High

Steve,
I've been asked to find out why DTMB is involved in LARA's plumbing materials purchase for Flint. Shouldn't LARA make this $1,769.28 (minus the $106.16 sales tax) on their own? How do we know LARA hasn't already put this purchase on a procurement card?

Thank you,
Denice – 373-7567

Subject: PO request

Denise,

Attached is the plumbing materials quote for the items the LARA needs. Apparently they are going to need more than what was originally ordered, but I don't have that yet. Below is the filters that will be ordered to also fall under the same PO. I also attached the request for PO. Thank you.

The estimate cost of these items below is $4,215,339 and the attached quoted total is $1,875.45 for a total of $4,217,214.45.

Faucet Mounts – Delivering direct to GCCARD on 1/14/16 (Ordered against new DTMB PO)
11,000 – PUR vertical faucet mount - $29.97
1,500 – PUR Horizontal faucet mount - $29.97
5,000 – Brita faucet mount - $17.47
10,000 – Brita adv faucet mount white - $25.97
12,000 – Brita adv faucet mount chrome - $25.97

Replacement Filters – Delivering direct to GCCARD on 1/14/16 (Ordered against new DTMB PO)
15,000 – PUR replacement filter - $14.37
45,000 – PUR replacement filter - $35.97
40,000 – PUR replacement filter - $25.98
16,000 – PUR replacement filter - $16.47
1,600 – Brita replacement filter - $28.19

Return sample and form to either Flint City Hall or the Flint Water Plant.
Samples must be received in the laboratory within 14 days of collection.

DRINKING WATER LEAD AND COPPER SAMPLING INSTRUCTIONS

Thank you for helping to monitor for lead and copper in your drinking water.

It is important that you follow these instructions so we obtain an accurate measurement of the lead and copper in your drinking water.

Do not open the bottle until instructed in step 3. Do not touch the inside of cap or bottle.

1. **The water in the house must not have been used for a minimum of six (6) hours prior to sampling.** The best times to sample are early morning or after returning from work. **Do not flush the sample tap before sample collection.**

2. **Select a cold water faucet** in the **KITCHEN** or **BATHROOM** that is commonly used for drinking and has been used within the last 24 hours. **No other faucets are acceptable for collection.** If the faucet is connected to a faucet mount filter, water softener, iron filter or reverse osmosis system, etc. the treatment device must be removed or bypassed.

When was the faucet last used before sampling? Date _____ TIME _____ AM/PM

Is there a faucet-mount filter? ☐ YES ☐ NO If YES, was it bypassed? ☐ YES ☐ NO

Is this faucet connected to a home treatment device such as a water softener, a reverse osmosis unit, an iron removal device OR is any kind of additive used in the home? ☐ YES ☐ NO

If YES, please describe: _____

If YES, was it bypassed? ☐ YES ☐ NO

3. Open sample bottle and place below the faucet and gently open the **COLD** water tap. If you have a single handle faucet, turn it fully to the **COLD** side. Fill the sample bottle to within an inch of the top with the "first draw" of **COLD** water.

4. Tightly cap the sample bottle

If any plumbing repairs or replacement has been done in the home since the previous sampling event, please note this information here:

If YES, please describe: _____

5. Fill out the collection information on the front, answer the questions below and sign the form.

6. Attach this form to the bottle and return it to either **Flint City Hall or the Flint Water Plant**.

7. Thank you again for your help. We will send you your individual results within 30 days of receiving them from the laboratory. A summary of information on this year's lead and copper monitoring will be printed in the annual water quality report that will be made available by July 1 of this year. Contact your water supply if you have questions.

If you have any questions contact:

City of Flint Water Plant 4500 N. Dort Hwy. Phone: 810-787-6537 ext. 3501

I have read the Drinking Water Lead and Copper Sampling Instructions and have taken a tap sample in accordance with these directions.

Subject: Volunteer Opportunity in Flint

The State Emergency Operations Center (SEOC) is coordinating a response to the ongoing health and safety issues in the city of Flint's drinking water. Teams from the Michigan State Police, Genesee County Sheriff's Department, Michigan Department of Health and Human Services, and volunteer organizations have been delivering bottled water, water filters, replacement cartridges and water testing kits at homes in the city of Flint since Tuesday.

To help with this critical work, the SEOC is looking for volunteers to expand this effort and continue this distribution during the upcoming holiday weekend. Teams are being assembled for shifts on Saturday, January 16; Sunday, January 17; and Monday, January 18, 2016. If you are interested in volunteering your time for this critical work, please complete the information in one of the attached surveys (depending on which day you are volunteering).

To volunteer on Saturday, January 16, https://www.surveymonkey.com/r/28NVJBL

To volunteer on Sunday, January 17, https://www.surveymonkey.com/r/26NMJKK

To volunteer on Monday, January 18, https://www.surveymonkey.com/r/26P7P5G

Volunteers will begin their assignment at the Local Emergency Operations Center located in the Genesee County Administration Building located at 1101 Beach St, Flint at 9 a.m. and end by 4 p.m. Parking is available at the corner of Beach Street and 8th Street. Lunch will be provided. This is strictly a volunteer effort, as all three days will be unpaid. Volunteers are responsible for their own transportation; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

This opportunity is for state employees and their immediate family members 16 years of age or older only, others looking to assist should volunteer through the American Red Cross in Flint. The volunteer coordination center for the Red Cross is located at 1401 S. Grand Traverse, Flint, MI. They are open from 9 a.m. to 7 p.m.

For more information on the state's response efforts, visit www.michigan.gov/flintwater.

Richard,

Farah asked me to send you an email recapping your conversation with her. She was at her son's swim meet and it was hard for her to hear you at times.

She believes the SEOC will procure items related to the Flint water crisis through DTMB Procurement and DHHS will phase out of the procurement role. Is that correct?

Please confirm or clarify the conversation.

Thanks,

Chris

Subject: RE: Access to the DEQ Lab Off Hours

Hi Ryan

Please see email below re: access for our DEQ staff Jack Schinderle. This is in regards to the Flint Water situation so it is essential that we get Jack 24/7 access to our portion of the lab on MLK by this Saturday. What do you need from me to make this happen?

Thanks

MK

Mary Kay,

I need access to the DEQ Lab. I also need to make sure that I have access on weekends to drop off samples. I will be needing access on Saturday.

I understand there is also a key that I need to access the lab. Can you help with that also?

The code on the back of my ID is [redacted]

If there are any issues with this please let me know; cell is [redacted] Jen- I am copying you in case I need SEOC involvement to make this happen.

Jack,

If you want to get your ID badge activated for the DEQ Lab get in touch with Mary Kay Hawes in the Administration Division. She will need the set of numbers on the back of your badge and can work with DTMB who can activate it remotely. Be sure that the request identifies that you want 24/7 access and not just during the 8-5, M-F range. Liz.

"Overweight fines imposed due to customer misrepresentation of weights and/or contents being transported will be the responsibility of the customer". No brick, block, concrete, sand, dirt or asphalt is permitted without prior arrangement and approval.

TERMS AND CONDITIONS

NON HAZARDOUS WASTE MATERIALS

TEMPORARY ROLL OFF CONTAINERS SERVICES AGREEMENT

WASTE MATERIALS. Customer warrants that the waste materials delivered to Contractor hereunder will not contains any hazardous, toxic or radioactive waste or substances as defined by applicable federal, state, local or provincial laws or regulations not any special wastes, CONTRACTOR shall acquire title to the waste materials when loaded into Contractor's vehicles; provided, however, that title to and liability for the waste materials excluded from this agreement above shall remain with Customer, and Customer agrees to indemnify, defend and hold harmless Contractor against all claims, damages, suits, penalties, fines and liabilities for injury or death to person or loss or damage to property or the environment arising out of the breach of the warranty stated above.

CUSTOMER RESPONSIBILITY FOR EQUIPMENT. Customer shall be responsible for all loss or damage to the equipment, other than normal wear and tear and except for loss and damage resulting from Contractor's handling of the equipment when providing its services hereunder. Customer shall not overload or move the equipment or make any alterations or improvements to the equipment, and shall use the equipment only for the purposes for which it is intended. **Customer shall be liable for any overweight fines caused by an overload condition.**

Customer agrees to indemnify, defend and hold harmless contractor against all claims, damages, suits, penalties, fines and liability or injury or death of person or loss or damage to property arising out of Customer's use, operation or possession of the equipment.

On collection day, Customer shall provide unobstructed access to the equipment. If the equipment is inaccessible, Customer will be notified and charges for any additional collection services or attempts to provide such services.

CHARGES AND PAYMENT. Customer shall pay Contractor in accordance with Contractor's established rates for the services provided, as stated on the front page of this agreement.

Customer shall be liable for all taxes, fees or other charges imposed upon the disposal of customer's waste material by federal, state, local or provincial laws and regulations.

Payment shall be made by customer within ten (10) days after the receipt of an invoice from Contractor. Contractor may impose, and Customer agrees to pay, a late fee not to exceed the maximum rate allowed by applicable law for all past due payments.

PAVEMENT DAMAGE. Contractor shall not be responsible for damage to Customer's pavement or other surface resulting from the weight of Contractor's containers or vehicles servicing the equipment location designated by Customer.

ATTORNEY'S FEES. In the event of a breach of this agreement by either party, the breaching party shall pay all reasonable attorney's fees, collection fees and costs of the other party incident to any action brought to enforce this agreement, in addition to any uncollected balances owed by Customer to Contractor.

COMPANY'S DEFINITIONS OF SPECIAL WASTE

The following list includes, without limitations, wastes and waste types that are classified by the Company as "Special Waste".

1. Sludge waste, including those from domestic septic tanks, POTW's food processing plants, industrial wastewater treatment sludges, oil waste separators, vehicle washing facilities, etc. All sludges must pass the USEPA "Paint Filter Test".
2. Industrial Process Wastes, including foundry sands, diatomaceous earth, filter cake, etc.
3. Solid residual or debris from clean up of a spill or release of product such as petroleum contaminated soils.
4. Off-specification, contaminated, spoiled, outdated or banned products and chemicals.
5. Ash from the incineration of municipal solid waste or medical waste.
6. Grease trap wastes from restaurants, hotels, etc.
7. Print shop wastes.
8. Paint spray booth wastes, filters and paint sludges.
9. Dry cleaning wastes, such as spent filters.
10. Animal waste and grease from slaughterhouse and rendering plants.
11. Asbestos-containing waste.
12. Demolition debris from decommissioned industrial facilities.
13. Chemical process or storage plant removed from service (e.g., storage tanks, reactors, pipe work, etc.)
14. Waste produced from vehicle maintenance facilities.
15. Landfill leach ate and gas condensate removed from landfills.
16. Chemical-containing equipment removed from service, including batteries, thermometers, fluorescent tubes, etc.
17. Chemical, fuel or oil-contaminated soils.
18. Empty chemical, plant or oil containers such as drums, pails, cans, etc.
19. Used tires.

INCIDENTAL SPECIAL WASTE QUANTITY

Any "Special Waste" as defined above, or as may be defined in the future by any federal, state, or local agency, which generated as a regular by-product or a process inherent in the normal performances of Customer's business may not be considered incidental unless the process produces less then five (5) pounds per week or the "Special Waste." The term Incidental Special Waste Quantity for the purpose of this Agreement means a minor constituent of Customer's total waste stream or a non-recurring event which results in the disposal of a material defined by this Agreement as a "Special Waste."

Subject: State Water Filtration Devices.
Attachments: Copy of SOM Water filter master inventory.xlsx

Attached is the list of filtration devices that we have provided so far for the city of Flint residents. The only outstanding order we are aware of is the 2500 pitcher replacement filters scheduled for 1/18 delivery. As of last night, resources is reporting about 60,000 faucet filters and 60,000 replacement cartridges. I believe planning or logistics has the best idea as to how long that supply should last.

Hi Jeanette

Attached is the list of 3 vendors that our lab has been ordering the sample bottles from, which includes the "product ID" number each vendor uses, along with contacts from the suppliers. Sample bottles are one vital component of the test kits. Other components are:
the sample labels, prepared by the DEQ lab, and finally
the sample request form that is attached by rubber band.

I've also attached the procedure we've established with our lab to do "lot testing", which is an important quality assurance/quality control step that will need to be continued by FEMA. The lot-testing should be completed before the kits are assembled, to assure that kits handed out to the public for submitting samples don't have any cross-contamination issues.

Do you know if FEMA plans on using the DEQ lab for sample analysis going forward? We'll need to keep our lab appraised of this so they can manage their workload. Thanks

DRINKING WATER LEAD AND COPPER SAMPLING INSTRUCTIONS

Dear Resident:

Thank you for helping to monitor for lead and copper in your drinking water. This sampling is required by the federal and state Safe Drinking Water Acts, and is being accomplished with the cooperation of homeowners, residents, and water system customers.

It is important that you follow these instructions so we obtain an accurate measurement of the lead and copper in your drinking water. This sample should represent the water you would typically drink and the faucet from where you drink the water. Select a faucet for sampling that was used the day before you intend to sample. Call your water supply if you have questions.

1. Water must sit idle in the pipes for an extended length of time before sampling. Therefore, do not use any water in the house for at least 6 hours before sampling. The best times to sample are early morning or after returning from work.

2. **Select an unfiltered/untreated faucet** in the **KITCHEN** or **BATHROOM** that is commonly used for drinking. **DO NOT** sample from a laundry sink or a hose spigot as these samples cannot be used for compliance. **DO NOT** use a faucet that has a filter attached to it unless you bypass the filter. **DO NOT** use a faucet that is connected to a home water treatment device (like a water softener, iron filter, reverse osmosis) unless you bypass the home water treatment device.

3. Place the open sample bottle below the faucet and gently open the **COLD** water tap. If you have a single handle faucet, turn it fully to the **COLD** side. Fill the sample bottle to the neck with the "first draw" of **COLD** water.

4. Tightly cap the sample bottle.

5. Answer the questions on the back of this form and sign the form.

6. Attach this form to the bottle and return it to either **Flint City Hall or the Flint Water Plant**.

7. Thank you again for your help. We will send you your individual results within 30 days of receiving them from the laboratory. A summary of information on this year's lead and copper monitoring will be printed in the annual water quality report that will be made available by July 1 of this year. Contact your water supply if you have questions.

If you have questions call:
Water Supply: City of Flint Water Plant

Location: 4500 N. Dort Hwy.

Phone: 810-787-6537 ext. 3501

Or Contact:
Michigan Department of Environmental Quality

Phone: 517-335-8562

(rev. 12/2015)

TO BE COMPLETED BY RESIDENT/CUSTOMER

Name: _____

Address: _____

Phone: _____

A. Which faucet did you use to fill the bottle?

☐ Kitchen ☐ Main bathroom ☐ Other

If OTHER, please describe: _____

_____

B. When was the faucet last used before sampling?

Date _____ TIME _____ AM/PM

Note: If the faucet has been idle more than 24 hours, we might not analyze your sample or be able to use your sample for compliance purposes.

C. When did you fill the bottle?

DATE _____ TIME _____ AM/PM

D. Is there a faucet mount filter? ☐ YES ☐ NO

If YES, was it bypassed? ☐ YES ☐ NO

E. Is this faucet connected to a home treatment device such as a water softener, a reverse osmosis unit, an iron removal device OR is any kind of additive used in the home? ☐ YES ☐ NO

If YES, please describe: _____

_____

Note: If you have a home treatment device OR any kind of additive is used, it is possible we might not analyze your sample or be able to use your sample for compliance purposes.

F. If any plumbing repairs or replacement has been done in the home since the previous sampling event, please note this information here:

If YES, please describe: _____

_____

I have read the Drinking Water Lead and Copper Sampling Instructions and have taken a tap sample in accordance with these directions.

Kendal –

Attached is the information on the filters and cartridges.

We have been working with David Khanuja the Pro Account Representative for The Home Depot - Midwest Region. 248-826-8907 Cell, email David_khanuja@homedepot.com. Home Depot has been working directly with the manufacturers to obtain the inventories. Home Depot had a shipment rerouted to the USA and I am checking to see if we could find out exactly what was on the ship.

FLINT WATER RESPONSE TEAM

NUTRITION

Did you know that some foods will keep lead from being stored in a child's body? These are foods with a lot of calcium, vitamin C and iron.

FREE WATER TESTING

Flint residents who are concerned about their water can obtain free water testing kits at the water resource sites.

USE WATER FILTERS & CARTRIDGES

Water filters can reduce lead and other contaminants by 99 percent when installed and maintained correctly. Free water filters are available at the water resource sites.

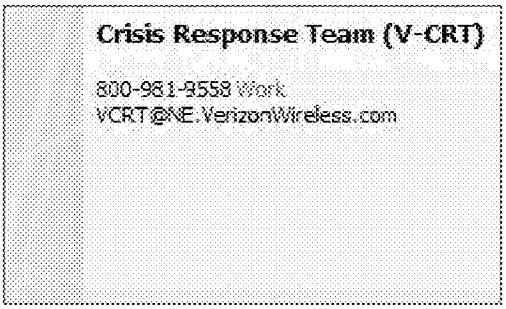
Good morning -

As I shared yesterday, we should have coverage in Flint by this afternoon. Please keep me posted with updates throughout this event with details such as an increase/decrease in the amount of people in the building, timelines etc. Our network team will also remain engaged throughout the event.

I also want to provide our emergency response hotline information for future reference. If I'm ever away on vacation or you can't get a hold of me, you can call our Verizon Crisis Response Team (VCRT) to request support in the event of an emergency. This line is in place for events that are declared state of emergency or natural disaster and placing a call to this hotline will activate our emergency response teams.

Please let me know if I can assist you in any other way.

Thank you,



Shelly Forbes | Government Account Manager

Cc: Knapp, Kathy (DTMB)
Subject: After action items

We always talk about doing an after action meeting and most of the time we get busy with other things, there are a couple of things that we need to improve as we continue working in the SEOC.
First Communication – I wanted to give you a few examples so that you see the issues I am seeing. First when Jeanette asked for the first 20 Ipads Ryan could only find the request for 5. Next when we purchased the 31 iPads and Jeanette texted me if we were getting 5. I have access to all of the MICIMS now but I don't want to feel like I need to go into the system to know or understand the request. Next with communication Jeanette when you asked what Jeff was taking to Flint, Ryan I need you to make sure you are documenting information – if there were other things that needed to go to Flint today Jeff would have been able to assist. Also Jeff tried to reach Ryan last night to know who the iPads should go to and he didn't get a responses. If you don't know who they go to we need to know that! More communication is needed to make sure we are doing things efficiently and effective.
I will be asked about all of the items we have purchased for this emergency and I will need accurate information understanding who has been contacted and we are going to obtain things is necessary. If Ryan worked last night with VTS on the Van issue and now Jeanette is working the same issue with MDOT that's a problem.

We need to take a step back and look at what we can do better! You are both doing a great job and you know I am here to support you in any way possible. I feel it will be better for us if we examine things as we continue to see how we can improve and move forward. If you need more support from me I need to know that, if you want me to make more calls I need to know that. We need to be prepared to be at this for a while and address these things now will be important as we continue.

Subject: FW: Flint Parking - Priority Request
Attachments: Flint Level 3.pdf; Flint Level 4.pdf

Jeanette –

Attached are maps showing 25 RESERVED parking spaces in the Flint ramp that have been assigned to the Flint Water Emergency. Jeff suggested that we create contractor cards for the FEMA employees with pictures. If you can send me names, birthdates (if possible), pictures, and access needs, we'll create the access cards.

Thanks.

Importance: High

Michelle and Tammy –

Please create an account in AIMS for the Flint Water Emergency and assign 25 reserved parking spaces to it (according to the numbers I have, we should have enough vacancies to accommodate this). I will also need parking maps with each of the assigned parking spaces highlighted (one set of maps with all spaces highlighted). I need this electronically…if you are unsure how to do this, please ask Rick for assistance.

I will need to know who completed this request and how much time it took…this is required for overall SEOC emergency cost tracking.

I would like to have this complete today.

Thank you!

Subject: Procurement for Flint Drinking Water Project
Importance: High

Tara, can we please sit down asap and figure out who's doing what in the purchasing process for the Flint project – esp. related to requests from other Departments/Agencies/etc.

As you know, the lab has been ordering bottles and supplies. Today we received an unexpected purchase request via DTMB (from the MSP Emergency Operations center) for an order of bottles to be delivered to Flint, and we want to be sure the proper approvals, tracking and notifications are in place. Delivery of these items in a quick manner is essential, therefore procurement needs to be as streamlined as possible.

Objectives:

1. We need to make sure the lab staff aren't working any more than they absolutely have to on filling out purchasing paperwork/getting quotes as they are very, very busy processing the samples. In regards to bottles, VWR and Sci-Spec can supply the bottles. Who is authoring or the number of bottles needed is unknown to me. No paperwork should be necessary from Kirby to order from either of these contracts, but the DEQ is still responsible for POs, payments, etc.

2. We should look at the p-card as an alternative for further emergency purchases. We've had our lab p-card limits increased temporarily related to one vendor contract; could we check with DTMB to see if they will allow us to continue the exception based on the purchases needs related to the Flint project? (From our understanding, you've asked us to process individual Reqs/PO's for each purchase in order to avoid encumbering large blocks of funding. VWR is a state contract vendor who accepts p-cards. Can we use that instead and/or find out what their minimum limit is for direct billing without having to set up a PO (if any)? The PCard increase was for an emergency purchase of the bottles per Kirby last week from a vendor that was not registered in MAIN. We cannot continue to order the bottles off contract since VRW and Sci-Spec can supply them. I spoke with VRW just within the hour; we do not need to cut a PO for each order; payment can be dealt with by PCard or DV at invoice. DV will be easier to track.

3. We need to avoid duplicate orders or confusion, therefore who should we expect purchase requests from (the lab? the SEMOC?), what are the proper approvals, who is establishing the PO & for which purchases, etc. Who will be verifying that the goods were received and backup documentation is retained? I'm in the dark at this point as to who is authorizing orders from the Emergency Operations center, I am looping in Jeanette Doll, as they will need to be in the conversation to address the concerns you have expressed. Please initiate a meeting for tomorrow morning.

Suggested attendees: yourself, Dawn, Mary Jo, Sylvia R., Lisa R., Melissa S. (DTMB)?

Subject: Request for PO Number for Additional Sample Bottles

Hi Jeanette

The information on what we need a PO today for:

Vendor = VWR
Product ID: 71001-158 32oz (1L) HDPE, Wide Mouth bottle
Contact: Nina Cole 858-210-1543 nina.cole@vwr.com
They are currently on contract for lab supplies.

We need to order 50 cases of 144 bottles/case for shipping Wednesday 1/20 and overnight delivery to 4315 N. Clio Rd. warehouse. I do not have the cost yet. It's likely that we'll also order up to 100 more cases for shipment on 1/22 and hopeful delivery on 1/23.
Thanks

Mitch

Subject: A Suggestion for Handling Water at Flint

Hello, I realize this is not the correct email for this suggestion but it is hard to find an email address and name in emergency management or the sheriff's department or the National Guard (IE, Major John Keelean) or FEMA, David G Samaniego, to share this information with regarding the hauling of water to the city of Flint for a longer period of time. Big Blok is a better solution than bottled water for the long term as it will be cheaper and easier to clean up than thousands of empty bottled water containers and associated packaging. The stackable containers are made of FDA approved material and perfect to function as water
containers for individuals or businesses. Deliveries can be in bulk or
by car, pick up, flat bed, etc. and can act as distribution points.
Please see the attached capability statement.

If you could pas along the material to the correct people I would appreciate it or let me know who to contact. Your assistance is appreciated whether the product is used or not.

Subject: RE: Companies offering to help with infrastructure

I just spoke with Capt. We need to separate the donations information from the business contracted services on any email account. I would suggest that DHHS would then monitor the donations account and the other account would be setup with an autoreply → we will review the information and contact them only if we have assessed the need for their services. We can then periodically review and retain this information in this account as a reference for possible contract use if needed.

Any feedback on this?

Hi Team,

Do you have a place you want us to forward companies offering their product to help with the flint situation. We have been getting an influx of offers on filter systems, construction companies…..

Or maybe we could add a tab at http://www.helpforflint.com/ ?

Please advise:

Subject: RE: Companies offering to help with infrastructure

I just spoke with Capt. We need to separate the donations information from the business contracted services on any email account. I would suggest that DHHS would then monitor the donations account and the other account would be setup with an autoreply → we will review the information and contact them only if we have assessed the need for their services. We can then periodically review and retain this information in this account as a reference for possible contract use if needed.

Any feedback on this?

MSP is working on potentially creating an email account to route those types of offers/recommendations to, which we could then include in releases and the website.

Hi Team,

Do you have a place you want us to forward companies offering their product to help with the flint situation. We have been getting an influx of offers on filter systems, construction companies…..

Or maybe we could add a tab at http://www.helpforflint.com/ ?

Please advise:

Thank you,

If we are getting these phones for the sole purpose of supporting the SEOC, then the requests should go through the DTMB rep a the SEOC, which is Jeanette and I.

With that said, go ahead and let us know the costs associated with the phones.

Thank you,

Subject: Order Contacts - Laboratory Water Testing Bottles and Supplies Need for Flint

Hi Jen,

As we discussed in our conference call, Melissa Sambiagio and I are the points of contact to order water testing bottles or any supplies necessary for the laboratory related to Flint. All individuals listed above are to copied on any order request. In the event of an after office hours need, we can be reached as follows:

Tara Premoe [redacted] Office hours 7:30 am to 4:00 pm

Melissa Sambiagio [redacted] Office hours 7:30 am to 4:00 pm

After office hours contact by phone will be necessary, as neither of us have a state issued phone for which we receive email communications. Once we receive a phone alert, we can access email to determine the course of action.

In order to avoid the enormous shipping costs for overnight delivery of water testing bottles, please keep us apprised on the status of inventory and anticipated need.

Thank you.

Subject: Conference Call ref. Purchases

Can we have a conference call today to discuss? As far as purchasing goes. The lab is still making all of their purchases. This includes test bottles, labels, etc. as this is an activity being conducted for DEQ, not a provision of life services to the public. At times the SEOC rep is involved because it is after hours, on a weekend or like this week, a holiday where shipping needed to be expedited. We should not run into this problem again from here on out as we have provided clearer direction to Command Staff in the SEOC on our target numbers per George Krisztian.

All billing should still be going through the laboratory or RRD as always. If we need resources that our vendors cannot supply then we get with DTMB and possibly FEMA. We should be getting more direction here today on what and when FEMA will be integrating.

Subject: State of Michigan - Penske Donations for Flint

Hello Rob,

I received an email that you would like some clarification on the Penske Trucks that have been donated to the Flint Water Response Team effort. I am in the Recovery Unit and have submitted some of the initial requests for trucks. I show that we have received a total of 11 box/cube trucks which we coordinated through the Local EOC (Jay Eickholt). Below is the breakdown of the dates we received each truck.

Penske Trucks	16ft	8	1/15 - 1/16
Penske Trucks	16ft	3	1/18/2016

Please let me know if this does not line up with what your records show and we can talk.

Thank you,

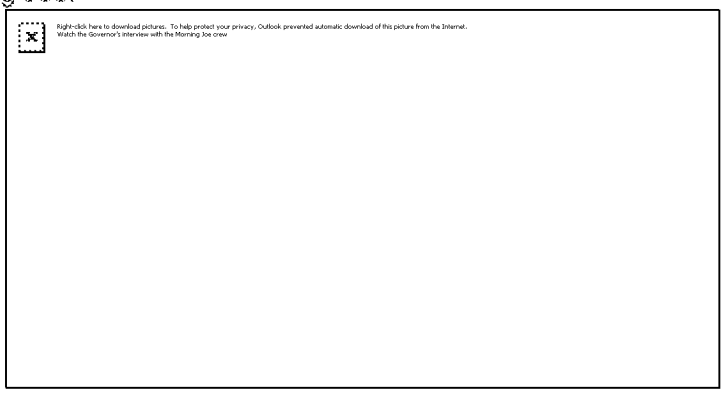
How we are fixing the Flint water crsis

Governor Rick Snyder has committed to spending the rest of his time as Governor to fixing the Flint water crisis. Over the last few days, he has sat down to explain what happened and how we're fixing the Flint water crisis. Watch the interviews below and be sure to read the Governor's Op-Ed in the USA Today.

Governor Snyder on Morning Joe

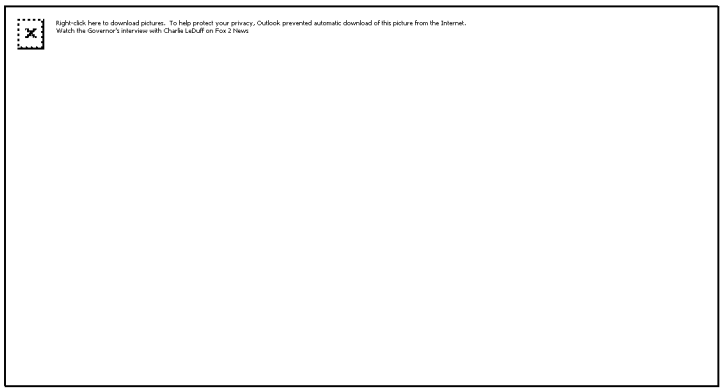
"What is so frustrating and what makes you so angry is you have a handful of experts who were career civil servants that made terrible decisions, in my view. We have to live with the consequences, and they worked for me, so I accept that responsibility. We are going to fix this problem." Watch Governor Snyder address how we are fixing the Flint water crisis on Morning Joe.



Governor Snyder with Charlie LeDuff on Fox 2 Detroit

"I feel awful about this. These are people. They've been harmed. You can't feel good about that. The people of Flint have been harmed and a major influence of that harm

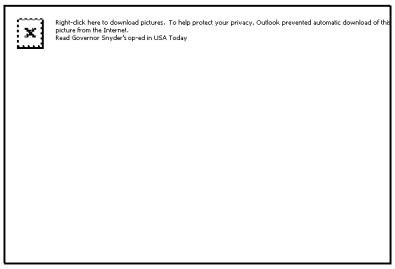
came from people who worked for me, and I feel responsible for that. But I am committed to solving the problem and addressing the damage as much as possible for the rest of the time I'm Governor." Watch Governor Snyder address the Flint water crisis with Charlie LeDuff on Fox 2 News.



Governor Snyder's 2016 State of the State

"Michiganders don't quit, we don't give up, instead we will work with even more passion and commitment to truly improve our state. For everyone who's chosen to make Michigan their home, this is more than a promise, this is my commitment." Watch Governor Snyder's full closing statement from his 2016 State of the State address.

Governor in USA Today: "I will fix this, and I mean it."



"Residents in one of Michigan's proud cities cannot drink their water. That's unacceptable. The crisis in Flint arose from missteps at all levels of government — local, state and federal. But as governor, I take responsibility for what these families are going through, and I'm holding people in my administration accountable for their failures." Click here to read the Governor's full op-ed.

Washington Post: "Michigan Gov. Rick Snyder is in a tough spot, but he's his own best spokesman"

Snyder has born the brunt of criticism in the local health crisis that has turned into a national scandal. But unlike many other politicians facing crises of leadership, Snyder may also be his own best counter-programming. Click here to read the full story in the Washington Post.

>
> Jeff Brownlee has assigned me to help out on the purchasing side based on your conference call Friday with Jeff, Brom, and Kristi Etue.
>
> I have talked with Chris Christensen (DTMB) and will reach out to Penny Berger (MSP), DHHS, DEQ, and other agencies to get a baseline understanding then get back to you.
>
> If you have specific guidance for me or individuals to work with please let me know; otherwise I will work with the individuals above and from Jeff's guidance to:

- Understand the process/procedures for purchasing that all State agencies need to follow in this response
- Draft any necessary documentation
- Develop communications to the agency directors regarding process/procedures
- Understand how DTMB Procurement can support the agency SEOC representatives
- Communicate to the purchasing leaders of each agency

And any other procurement support I can offer.

Thanks,
Dave

Ryan,

As discussed, please work with Brian Walts onsite to have him take your pictures for the ID badges. He will get the information back to us so we can create the ID badges. I already called Brian and he is ready to assist.

If you have any questions, please let me know. Contact information is below.

Thank you,

Todd,

Tony (IT) here in Flint gave me your contact information to see if you could assist me in locating the Building ID's (State) that were generated for the HHS personnel here in Flint.

My understanding from the building representatives here in Flint, they were made and turned over to "someone" in Lansing.

Thank you in Advance.

HI Ryan,

Just to keep you updated:

Brad called her again and talked to her. She doesn't really know how to play messages.
She kinda got one once but others aren't working, she doesn't have time to try more. She said she'd figure it out and just email him if she has issues.

Not sure what more we can do.

Thanks, Linda

We intend to charge purchases temporarily to our original $200,000 amount originally for inspections of schools.

Once the current request of $2,000,000 is approved by the Legislature and signed into law by the Governor we will journal voucher these costs to the new appropriation.

Subject: RE: Flint Issue Questions from DTMB Procurement

I will do what I can to address some of these questions.

1) Since FEMA arrived on-site in the SEOC, they have been procuring the water resources made available through the federal emergency declaration; water, faucet filters, replacement cartridges, filtered pitchers and water testing kits. If going through an established state contract gets a better price, that is how they are ordering items. If they have a better deal or resource, that is what they do.
2) All resources are being delivered to the warehouse located at 4315 N. Clio Road in Flint. Michigan Department of Corrections has warehouse management staff in place to manage the warehouse operations. Receipt of all resources, regardless of who ordered them, is being checked in to the warehouse with packaging slips and I have copies of the FEMA order form as well. We don't do anything special with FEMA purchased resources.
3) The State of Michigan has a 25% match requirement for the FEMA dollars spent. DHHS will not get a bill for 25% of anything from FEMA. I work directly with FEMA on the finances through EMHSD as the State Financial Officer, and at this point we have FEMA assistance for 90 days. We are nowhere close to getting a bill from FEMA yet and that is something that I will take care of working with the State Budget Office as needed. I have never sent a bill for match to another state agency.
4) At this point in time, we only have a federal declaration of emergency that brings FEMA procured resources for 90 days beginning on the date of declaration, which was January 16, 2016. We don't have any other federal awards that would allow for reimbursement of items purchased before the federal declaration. We have a few requests out at the federal level, but it is a long process and there are no guarantees. Our guarantee is that FEMA will buy water and filters for 90 days.

What I need from state agency financial staff are current expenditures for costs for their own agency on a weekly basis so I can update the State Director here in the SEOC. Costs need to be directly related to the emergency, such as staff overtime in the SEOC or in the field responding to the event, contracts required for response, purchases for items necessary for use in the emergency response – water, filters, computers for field teams, etc, and fuel for vehicles. This is not an exhaustive list, but gives you the main items. And we have processes in place here in the SEOC for requesting resources to ensure that all items purchased are approved by SEOC command.

I hope this has answered some questions. The biggest assistance a state agency can provide from a financial aspect is weekly updated reports. If you still have questions, please let me know.

Subject: Re: Flint Issue Questions from DTMB Procurement

Awesome! Jeff Sanford is the right person to be working on the invoices. He and I had several conversations on Friday and will continue to work together on the reconciliation.

Appreciate the FEMA the update. It it so very helpful. Do we know where the FEMA filters are being delivered and if/how the receipt of the filters is being tracked? I assume that DHHS will at some point will receive a billing for 25% of the FEMA filter bill so I want to ensure we are tracking receipt of the product. Do we have any confirmation on how the financial reimbursement to FEMA will work? If you are are not the correct person to answer these questions, please point me in the right direction.

Kim,

There wasn't an actual meeting with Home Depot and DHHS. Last week on Thursday I sent all the receipts and invoices from Home Depot to Jeff Sanford at DHHS. I got Jeff connected with David Khanuja from Home Depot and they have been working through those invoices and Jeff is consolidating that information.

FEMA – FYI. I have been informed from Home Depot that someone from FEMA ordered approximately $330,000 worth of filters last week and approximately another $1,000,000 worth of filters on Saturday night.

Kim - Will do.

Steve - can you please let Kim know which DHHS employees were present at the last Home Depot meeting, and copy her on emails relative to invoices in the future? Thank you for this and all of your hard work.

On Jan 24, 2016, at 9:08 PM, Stephen, Kimberly (DHHS) <STEPHENK@michigan.gov> wrote:

Thank you for the reply tonight. I am not expecting assistance in formulating a response to MSP but rather wanted to make you aware of the request to avoid duplicate reporting. There are many people involved and it is very confusing as to who is responsible for what. The more we can keep the lines of communications open the better. Please include DHHS in any meeting on Home Depot invoice payments since we will be ultimately responsible. We can talk in more detail on Monday.

On Jan 24, 2016, at 8:24 PM, Cook, Rebecca (DTMB) <CookR6@michigan.gov> wrote:

Kim

To clarify, DTMB Procurement is not in a position to track usage and spend, so we are unable to assist in your response to MSP. Please work with Jeanette and Chris. The SEOC has asked everyone to track receipts and enter them into MySims software.

Buyer Steve Rigg is involved to the extent that Home Depot is asking questions about unpaid invoices, and Steve facilitated getting invoice copies and a meeting set up. The State is running close to its account credit limit with Home Depot and needs invoices cleared for payment.

We are still seeking clarification on the new FEMA process, and anticipate more information next week.

I'm happy to talk more on Monday, but thought you may also need an immediate response.

Please call my cell for any emergency requests, instead of or in addition to email.

Hi Sharon,

Would it be possible for Rebecca to include me in her communication on this important matter? It is not clear to me from the e-mail below if she is still seeking clarification on this issue or if I should contact to Jeanette Doll and Chris Christensen myself to obtain answers.

We have received the following request from State Police for information:

From: MSP-seocfgc
Sent: Wednesday, January 20, 2016 4:23 PM
To: Kangas, Susan (DHHS) <KangasS1@michigan.gov>
Subject: Costs for City of Flint

Hi Susan:

Richard Thelen gave me your name as his financial point of contact at DHHS. The immediate need is information on the costs incurred by DHHS for water, water filters, and replacement cartridges. FEMA has asked for this information – even if some of the figures are an estimate – so they have a ballpark idea.

If you could get some numbers to me tomorrow, I'd appreciate it. Please include all of your costs related to Flint, including those that were paid for with the special appropriation that you received in October. I will be providing some guidance on how costs should be tracked for state disaster assistance and possible federal assistance.

If you have any questions, please let me know.

Thanks,
Penny Burger

Subject: Re: Flint Issue Questions from DTMB Procurement

Hi Steve, in the very beginning October I would send 319 to budget to process and order products from Home Depot.

As product begin getting scarce I began working directly with David as to what we needed vs what was available etc. then I would complete the PO but budget always knew what was coming.

When SEOC and got involved Richard or Brian would ask me to order products to maintain consistency and to continue working with David.

I also have a financial specialist Jeff Sanford who works with me and prepares the 319 for processing for all the filter orders.

He received all of the invoices from Home Depot for the product that we received under our existing POs. He will go through and consolidate the product received with our tracking spreadsheet and signed 319s. Once That is completed he can create a payment voucher for Home Depot to get paid.

I also just got a message from David that he has 12,000 Brita filters available. He needs direction as to what we want.

I am not approving any orders at this time per directions that FEMA is now ordering.

I'm am available to do whatever is needed.

On Jan 21, 2016, at 11:36 AM, Rigg, Steve (DTMB) <RiggS@michigan.gov> wrote:
Chris/Jeanette,

My questions only pertain to Home Depot and the procurement of water filters, bottled water, and supplies needed for repairs. I'm trying to sort out the confusion that David from Home Depot and I have regarding the procurement of these items and the processing of payments. We need to finalize a fluid process for this so that we can avoid further confusion. I want to do everything I can to help, but I first need to understand the current process so I can direct what I have control over to the right people. I don't want there to be a disruption in the incoming flow of these items.

1. What is the current process for ordering these items? David from Home Depot is currently getting calls from a minimum of 4 different people.

2. Response: Sheryl had been the lead until EOC came on board.

3. What is FEMA's role in procuring these items? Apparently a FEMA rep called Brita directly to order filters. Home Depot has cornered the market on all filters from Brita and PUR, so it is suggested that we continue to work directly with David from Home Depot.

4. Response: I agree

5. If FEMA does take over the ordering of filters, water, and supplies, will they agree to work with Home Depot and who is the contact person that could work directly with David from Home Depot?

6. Will FEMA be creating contracts directly with manufacturers or will they utilize current contracted vendors?
7. If FEMA takes over, will they be paying invoices directly or will that continue to be done by the State?
8. What happens when FEMA leaves in 3 months? Good question

9. Who is responsible for entering Home Depot receipts into the MySimms tracking system so that David from Home Depot can send these receipts to that person directly? I have attached the receipts that I have received from Home Depot.
10. Right now Home Depot invoices are sent out monthly because of the 60 day terms in the contract. However, we currently have over $10,000,000 in outstanding invoices. We had gotten CitiBank to increase our credit limit to $10,000,000 last week. We requested CitiBank to increase the credit line to $20,000,000, but that has not yet been approved by CitiBank. To keep the credit line open we need to turn around these invoices much quicker. Citi has an EFT program that a State designee could log into and pull invoices from immediately to get them paid. Who would be the person that Citi could set up an account with so that they could log in and download invoices for quicker processing?
11. LARA recently purchased items from Home Depot for plumbing supplies. Moving forward, if LARA is to procure any more items through Home Depot can they work directly with David from Home Depot so as to not cause any more delays?

That is all I have at this point. Thanks for any feedback.

Frequently Asked Questions About Lead in Flint Water

MDHHS Michigan Department of Health & Human Services

- Lead is hard to avoid completely. It can be found in old paint, water pipes and brass water faucets, in dirt, at some job sites, and in metal used for some hobbies.
- The amount of lead found in some Flint homes' drinking water could affect kids' health.
  - Even small amounts of lead can harm kids' health because they are little and still growing.
  - Adults are less likely to be harmed by the levels found in the water.
- Filter your drinking water using a NSF-approved filter.
  - Find a NSF-approved filter at http://www.gchd.us/docs/lead_filter_information.pdf.
  - If you use City of Flint water, you can call 211 to find out where you can pick up a free water filter.
- Some filters can remove up to 99% of the lead in water when used properly. To be sure your filter is removing as much lead as it can, carefully follow the instructions that came with it.
  - Change the filter cartridge as often as you should.
  - Run only cold water through the filter.
- Even after changes to the water system, it may take a while before lead levels in your home's water drop. Use the tips below to know when it's best to use filtered water:

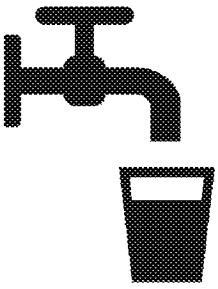
Lead in Water

Although your water may be a different color sometimes, it is not caused by lead. It's important to remember:

- **You can't see, smell, or taste lead in water.**
- **Lead won't change the color of your water.**
- **The only way to know what your home's lead levels are is by having your water tested in a lab.**

Please call the Flint Water Department at 810-787-6537 to request a free or low-cost water test.

In The Kitchen



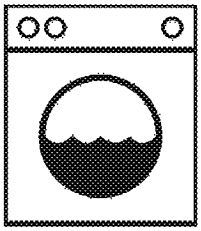
Use filtered tap water for:

- Drinking (including making coffee, drink mixes, juice, baby formula)
- Cooking (even if you boil the water, the lead will stay in the water and food)
- Washing fruits and vegetables

You can use unfiltered tap water for:

- Washing your hands
- Washing dishes
- Wiping down countertops

Cleaning



You can use unfiltered tap water for:

- Mopping floors
- Washing clothes

Your washing machine and dryer won't put lead from the water into the air of your home.

In the Bathroom

Use <u>filtered</u> tap water for:

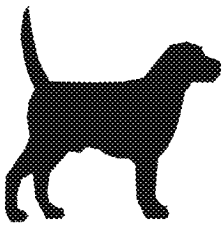
- Brushing kids' teeth

You can use <u>unfiltered</u> tap water for:

- Showers
- Baths (don't let kids drink the water as they play in the tub)
- Brushing your teeth (if you are an adult)

Lead will not cause rashes or other skin problems. However, if chlorine levels or other cleaners are high in the water, it may cause itchy or dry skin (similar to what can happen when you swim in a pool).

Caring for Pets



Use <u>filtered</u> tap water for:

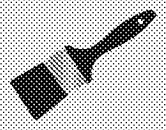
- Pets' water bowls

You can use <u>unfiltered</u> tap water for:

- Baths

If you notice your pet acting differently than normal, please contact your vet.

Other Sources of Lead in Your Home



Lead Paint

- Homes built before 1978 likely have lead paint, both inside and outside.
- Old paint is the most common way that kids are exposed to lead.

Dirt

- If you live in the city, there may be lead in the dirt outside your home.
- Before 1996, gas and the exhaust from cars contained lead. More lead will be found in dirt in busy traffic areas.

Dust

- The dust in your home can contain tiny amounts of both the paint and the dirt that contain lead.

Hobbies & Jobs

- Solder, fishing sinkers, bullets, and stained glass framing materials are some of the items in your home that may contain lead. You could also track home lead dust from your job site.

Have Questions?

For more information about protecting yourself and your family from lead, please visit:

<u>www.michigan.gov/lead</u>

Or you can call the Michigan Department of Health and Human Services at:

1-800-648-6942

The staff at this number will help direct you to the best department that can answer your questions about lead in your home.

To request a free or low-cost water test, please call the Flint Water Department at:

1-810-787-6537

To find out if you can get a free water filter, please call 211.

Genesee County Health Department

Frequently Asked Questions About Lead & Your Body

MDHHS Michigan Department of Health & Human Services

Pregnant Woman

If you are exposed to lead when pregnant, the lead can be passed on to your fetus, possibly causing:

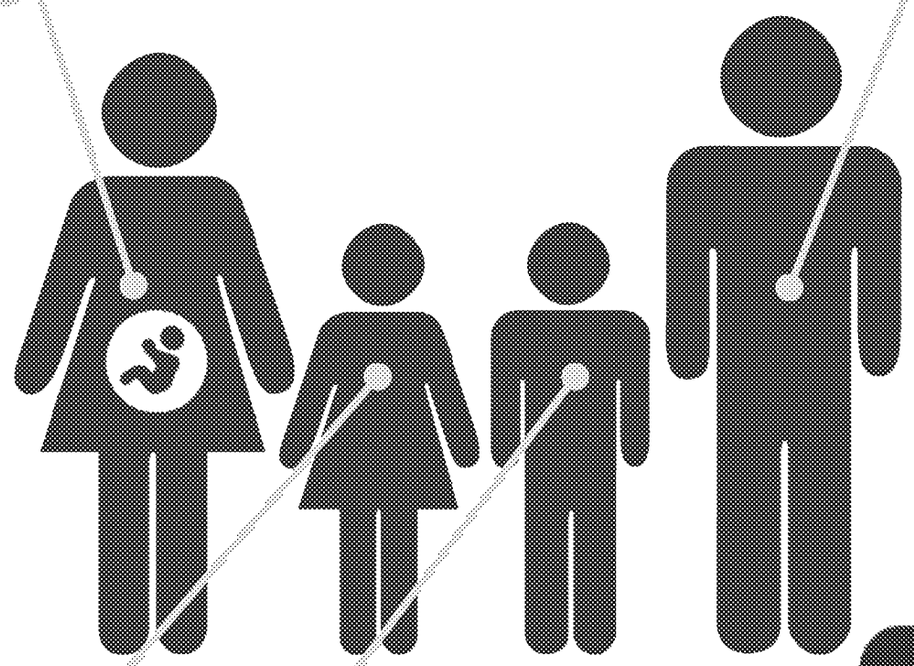
- premature birth
- a smaller baby
- learning difficulties
- slower growth in young kids

Healthy Adult

You are at lower risk of health problems from small amounts of lead.

Most health problems that come from lead in adults are because they are exposed to a lot of it at their job - whether they are in painting or construction or work at a factory where lead is used in a product.

If you work with lead, you should have regular blood tests to make sure you're not getting too much into your body.



Kids

Even small amounts of lead can harm kids' health. Your doctor can do a simple blood test to find out if your child has been exposed to lead. Some possible signs of lead poisoning include:

- a bad stomachache
- muscle weakness
- paleness (caused by anemia)

Over time lead can affect a kid's

- brain development
- growth rate

How Does Lead Get Into Your Body?

Eating and breathing lead dust is the most common way lead gets into your body.

- When kids accidentally eat lead, up to 50% can be absorbed into their bodies, compared to 3 to 10% for adults. This is why protecting kids from even small amounts of lead is important.

Lead does not absorb into your skin quickly or at high levels.

- The CDC reviewed a study where a cream with high levels of lead was put on the skin of adults. The cream was left on their skin for 12 hours. The amount of lead that soaked into their skin was very, very small (less than 0.3 percent).
- Taking a shower or bath in water containing lead at levels found in most tap water in Michigan is unlikely to be a problem for anyone, including kids.

If you think you or your children have been exposed to lead, please talk to your doctor or health department about getting a simple blood test to measure how much lead might be in your body.

For more information on protecting yourself and your family from lead, please visit: www.michigan.gov/lead, or you can call the Michigan Department of Health and Human Services at 1-800-648-6942. We will help direct you to the best department that can answer your questions about lead in your home.

You can also call the Flint Water Department at 810-787-6537 to request a free or low-cost water test.
If you use City of Flint water, you can call 211 to find out where you can pick up a free NSF-approved water filter.

PREGNANT AND NURSING MOTHERS

WHAT YOU NEED TO KNOW ABOUT LEAD POISONING

What causes lead poisoning?

There are many factors that can put a pregnant woman or nursing mother at risk for lead poisoning.

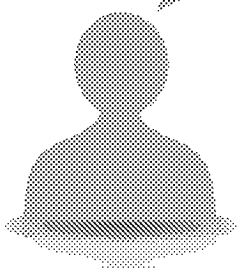
In Michigan, lead paint is still the #1 cause of lead poisoning. It is often found in homes built before 1978 and the older the home, the more likely that painted surfaces like windows, cupboards, doors and porches will contain lead paint.

Other sources of exposure may include soil and water or jobs and hobbies using lead such as factory work, soldering, ammunitions or jewelry making. Some pottery glazes, imported spices and home remedies may also contain lead.

Should I get tested?

Routine blood testing is NOT recommended for all pregnant women or nursing mothers. Talk to your doctor or local health department to learn more.

If I test positive for lead poisoning, can I continue to breastfeed?



In most cases, breastfeeding is safe. However, if your blood lead level goes above 40 ug/dl *or* your level is greater than 20 ug/dl and your baby has a level above 5 ug/dl, you should talk with your doctor about continuing to breastfeed.

Childhood LEAD POISONING prevention program

What can I do to protect myself from lead?

- Wash hands, bottles, pacifiers and toys often.
- Always take off shoes before going into the house.
- Flush your pipes before drinking, and only use cold water for drinking or mixing formula. Flush pipes by running the water for approximately 5 minutes.
- Watch your diet carefully. Foods high in calcium and iron help keep lead from being absorbed by your body.
- Avoid using power sanders, open-flame torches, heat guns, dry scrapers and dry sandpaper on painted surfaces.
- Fix peeling or chipping paint.
- Use a certified Repair and Remodeling Professional when making updates to your home.
- Practice safe cleaning methods.

To learn more about lead poisoning prevention and blood lead testing, call:

To: Strobel, Pamela (MSP)
Subject: IMPORTANT: Informational Update for all State Agency Emergency Management Coordinators and First Alternates
Attachments: GOB Parking and Entrance Map.pdf

Importance: High

Dear State Agency Emergency Management Coordinators:

As you are aware, the State Emergency Operation Center (SEOC) will be relocating from 4000 Collins Road, Lansing to 7150 Harris Drive, Dimondale (known as the General Office Building – GOB) on Friday, January 29, 2016.

All State Agency Emergency Management Coordinators (SEMC) currently working on the Flint Water Emergency need to report to the new facility at 8 a.m. on Friday, January 29, 2016.

Please park in the standard area and enter at the main entrance of the GOB (see attached parking and entrance map). EMHSD staff will be on site by 7:45 a.m. to greet and escort you to the new SEOC.

We ask for your patience as we all learn our way around and with new equipment. It may be necessary for us to assign "temporarily" locations of computers in the SEOC; therefore, you may not be located in your permanent sitting position until early next week.

It has been mentioned to the SEMC or alternate working within the SEOC throughout the week, it is important that you secure documents and files you may have stored on the PC's or desktops at Collins Road by saving to a memory stick or you may also talk to the IT support within the SEOC (Rich or Jaclyn) about saving information to the S Drive. You will most likely be working on a different PC, and we want to ensure you have the files you need to continue operations with as little interruption as possible. If you have manuals specific to your discipline in the current SEOC, please take those with you on Thursday and bring them to the Harris Road SEOC on Friday morning. If you are not working in the SEOC at this time and have manuals specific to your discipline, please stop by before Thursday night to retrieve them. Any materials left behind will be discarded.

Please return your ADT access card for Collins Road, by Thursday. A container will be placed near the SEOC sign in-sheet for this purpose.

New phone numbers will be established in the SEOC and will be provided as soon as permanent locations are set. Until then, we recommend using your cell if someone needs to contact you.

If you have any questions, please contact me.

Thank you,
Pam

Hi Jennifer, and SEOC team:

Attached are the documents I have right now in Word form, to be translated:

Under the "In Your Body Tab":
-Letter for Flint Parents
-Letter for Healthcare Providers
-Letter to Food Establishments

Still waiting to track down these:
-Adding Phosphate to Water
-Blood Lead Level Quick Reference for Primary Care Providers

Would be great if we could move forward with the first three.

Thank you,

Attention: Food Establishments using City of Flint water supply

Dear Food Establishment Operator:

On October 5, 2015, you were sent a document recommending actions to take to avoid the risk of serving lead contaminated water to your customers. Effective immediately, the recommendations have been changed to a legal requirement, and food establishment license enforcement action may be taken if non-compliance is found until the public health emergency declaration has been lifted.

Please see the updated attached requirements sheet. Immediate action may be needed by your establishment to come into compliance.

Your establishment has three options:

1. Demonstrate your establishment is not using the City of Flint water supply for drinking, processing or cooking.
2. Demonstrate your water has been tested and is safe to use. You may request free testing by a regulatory official. To schedule a free collection and analysis of your food establishment's water for lead, call 1-800-292-3939, M-F, and state you're a "Flint food establishment requesting a water test". Be prepared to provide a sampling time when your entire water system won't have been used for at least 6 hours. Sampling appointments between 5 a.m. and 4 p.m. are available. State offices are closed on January 18, 2016
3. Install water filters as needed, and do daily flushing of unfiltered faucets and hard plumbed equipment. (Discontinuing use, flushing, etc. will still be needed until a safe water test is obtained).

Michigan Department of Agriculture and Rural Development inspectors are assisting the Genesee County Health Department in conducting sampling and inspections, so you may work with a different person other than your regular food safety inspector. Inspectors will also be making visits to establishments in the coming weeks to provide assistance and verify compliance.

For additional information, call 1-800-292-3939 or for the latest information on the Flint water response visit www.michigan.gov/flintwater. We look forward to assisting you in any way possible.

Sincerely,

Kevin Besey, Director
Food and Dairy Division
Michigan Department of Agriculture and Rural Development

October 27, 2015

Dear Parent,

To help make sure the children of Flint are safe from lead exposure, the Genesee County Health Department and the Michigan Department of Health and Human Services are providing answers to the following questions:

- Where does lead come from?
- What can I do to protect my family?
- Should I get my child tested for lead?
- Where can I find more information about lead?

Where does lead come from?

Elevated levels of lead have been found in the drinking water from lead pipes in the City of Flint. Kids can also be exposed to lead from old lead paint, soil, pottery, cosmetics and toys and some home remedies. Adult jobs and hobbies, like auto repair, stained glass, jewelry making and ammunitions handling can also put children at risk if they touch clothing or play in areas where lead is found. Lead is a serious health hazard, especially for small children who become lead poisoned when they eat, drink or breathe lead.

Should my child get a blood lead test? Children who live in the City of Flint, live in a home using City of Flint water, or who attend school, childcare or often spend time with a caregiver in the City of Flint should be tested for lead poisoning.
This should be done as soon as possible.

Where should I go to get a blood lead test for my child?

The best place to get your child's blood lead test is your doctor's office. Tests are covered by most health plans. Your doctor will follow up with you on lab tests and provide you with information on what to do next. Your child can also get a free lead test at the Genesee County Health Department. If you need transportation, contact 2-1-1 for help.

Understanding your child's lead test result.

A lead level below 5 means there is a little lead in your child's blood. Use the tips below to help keep your child safe. Your doctor may suggest retesting your child within the next 12 months to make sure the level does not go up.

A lead level of 5-44 means that your child has had some exposure to lead. Work with your doctor and local health department for further guidance on how to limit your lead exposure. Your doctor may retest your child in 1-3 months to make sure the level does not go up.

Children with very high levels of lead **(over 44)** may require treatment at the hospital.

What Can I Do to Keep My Family Safe?

The following steps should be taken right away to help protect you and your child.

Protecting your family from lead in the water:

- Get your water tested for lead. It's free. Call (810) 787-6537 to learn more.
- Use a water filter in your home. Call 2-1-1 for information on free NSF Certified water filters.
- Run only cold water through the filter.
- If you do not have a water filter, use bottled water for drinking and mixing formula.
- Use filtered or bottled water for drinking (including making coffee, drink mixes, juice, baby formula), and cooking (even if you boil the water, the lead will stay in the water and food).
- You can use unfiltered tap water for washing your hands and washing dishes.
- If you have to use unfiltered water for drinking or cooking, run the tap for five minutes before using the water.

Safe cleaning:

Safe cleaning is important. Keeping your home clean and safe from lead hazards will help to protect your family.

- Buildings built before 1978 could have lead paint in them.Use wet paper towels to clean up paint chips and dust in these older buildings. Be sure to clean around windows, play areas, and floors.
- Wash hands and toys often with soap and water.
- You can use unfiltered tap water to wipe down countertops, mop floors, and wash clothes.

Good nutrition:

Some foods will help keep lead from being stored in a child's body. These are foods with a lot of calcium, iron and vitamin C. These foods include:

Calcium Rich Foods	Iron Rich Foods	Foods with Vitamin C
➢ Milk	➢ Beans	➢ Oranges
➢ Cheese	➢ Lean meats like fish and chicken	➢ Orange juice
➢ Yogurt	➢ Whole grain cereals	➢ Grapefruits
➢ Tofu	➢ Peanut butter	➢ Tomatoes
➢ Spinach		➢ Green peppers

Always wash your fruits with filtered water. If you are concerned about your child's diet, talk with your doctor who may also recommend a daily multivitamin.

WIC and SNAP provide assistance to parents and children who need fresh and healthy foods. Contact the **Genesee County WIC office at (810) 237-4537** to learn more. SNAP also offers a Double Bucks program to purchase even more healthy food for no additional costs.

Where can I get more information on lead?

- Genesee County Health Department Lead Program
  (810) 257-3833
  www.gchd.us
- Michigan Department of Health and Human Services
  Childhood Lead Poisoning Prevention Program
  (888) 322-4453
  www.michigan.gov/lead
- United States Environmental Protection Agency
  www.epa.gov/lead
- U.S. Centers for Disease Control and Prevention (CDC) Web site
  www.cdc.gov/nceh/lead

These recommendations will stay in effect until the Genesee County Health Department lifts the restrictions on water usage.

Sincerely,

Eden V. Wells, MD, MPH, FACPM
Chief Medical Executive
Michigan Department of Health and Human Services

Gary K. Johnson, MD, MPH
Medical Director
Genesee County Health Department

October 30, 2015

Dear Provider:

As you may be aware from recent news reports, elevated levels of lead have been found in lead pipes within the City of Flint's water system.

To help protect the children of Flint from the current lead in water exposure, the Genesee County Health Department and Michigan Department of Health and Human Services are contacting you to assist you in providing guidance to support your families.

Children can be exposed to lead from drinking water in that runs through lead pipes, old lead paint, soil, pottery, cosmetics and toys and some home remedies. Adult jobs and hobbies, like auto repair, stained glass and jewelry making, and ammunitions handling can also put children at risk if they touch clothing or play in areas where lead is found.

As a primary care provider, you play a critical role in helping to ensure that children and families exposed to lead receive the care and reassurances they need to manage the potential health impacts of lead poisoning.

Identification. Children suffering from lead poisoning often fail to present outward symptoms. However, early clinical symptoms can include anemia, anorexia, abdominal pain and constipation. Lead is a neuro-toxin, and exposure can result in violent and aggressive behaviors, lead to learning disorders, may cause Attention Deficit Hyperactivity Disorder (ADHD) and has been known to reduce IQ by as many as 5-8 points with levels as low as 10 ug/dL. Lead is metabolized through the gastrointestinal system similar to iron and calcium, with uptake rates depending on the size and weight of the child. The blood half-life of lead is short (approximately 1 month) but the bone half-life can extend into decades.

Due to multiple risk factors facing many residents in the City of Flint (including aging housing conditions and water quality), we recommend that all children under age 6 living in the City of Flint or living in homes that use Flint water, attending school or childcare in Flint, or who spend time with a caregiver in the City of Flint, receive a blood lead test. Blood lead testing should be done through a child's primary care doctor to ensure adequate short-term and long-term follow-up. ***Families should be encouraged to have their children tested immediately either at their doctor's office or the Genesee County Health Department***.

Management of Blood Lead Levels. The following guidance is provided for management of childhood blood lead levels:

- **BLL < 5 ug/dL**
  - A lead level of less than 5 mcg/dL is not typically cause for concern.
  - Provide education and anticipatory guidance to ensure that lead levels do not rise.

  - Consider retesting in 12 months based on risk factors or concerns.
- **BLL >5 ug/dL**
  - **Children with capillary results of 5 ug/dL and higher must have a confirmatory venous blood draw.**
  - Families should receive anticipatory guidance, nutrition counseling, instruction on safe cleaning techniques and appropriate follow-up care from their primary care provider.
  - In-home services including case management and environmental investigations are available for all children with lead levels greater than 5 ug/dL. Refer patients to the Genesee County Health Department for this service.
  - Children with confirmed venous testing results greater than 5ug/dL within the past 18 months must be retested based on Medicaid policy and AAP guidelines. (See attached "Provider Quick Reference). If a child has not been retested within these timeframes, retesting is recommended as soon as possible.
- **BLL > 44 ug/dL.**
  - **Children with capillary results of 5 ug/dL and higher must have a confirmatory venous blood draw.**
  - Lead levels over 44 ug/dL may require hospitalization. Consult with an expert at the Children's Hospital of Michigan in Detroit for additional guidance.
  - Families should receive anticipatory guidance, nutrition counseling, instruction on safe cleaning techniques and appropriate follow-up care from their primary care provider.
  - In-home services including case management and environmental investigations are available for all children with lead levels greater than 5 ug/dL. Refer patients to the Genesee County Health Department for this service.
  - Children with confirmed venous testing results greater than 5ug/dL within the past 18 months must be retested based on Medicaid policy and AAP guidelines. (See attached "Provider Quick Reference). If a child has not been retested within these timeframes, retesting is recommended as soon as possible.

Reminder: All children covered by Medicaid must be tested at age 1 and 2.

Follow-up Care. As providers, there are steps you can take to help support your families:

1. Continue to inform and educate families regarding lead risks and preventative steps that they can take to minimize their risks.
2. Encourage your families to use filtered water for drinking, mixing formula and washing dishes. Families can contact 2-1-1 for information on free NSF Certified water filters.
3. Healthy nutrition is critical for lead-exposed children. Make sure your patients are consuming balanced diets high in iron, calcium and Vitamin C. If you have concerns about their nutrition, consider recommending a multivitamin with iron. WIC and SNAP provide assistance to parents and children who need fresh and healthy foods. Contact the Genesee County WIC office at (810) 237-4537 to learn more. In addition, SNAP offers a Double Bucks program that can provide healthy foods for less.

4. Breastfeeding is highly protective and encouraged. However, if the mother's blood lead level rises above 40ug/dL or her level is greater than 20 ug/dL and the baby has a level above 5 ug/dL breastfeeding is not recommended.
5. Because lead is a neuro-toxin, children with lead poisoning need longitudinal follow-up and may require developmental and behavioral health intervention services. Continue monitoring your patients' development at every visit.
6. Consider additional wrap-around and support services that will benefit your patients such as early childhood home visiting programs, early head start and head start. Call 2-1-1 for more information.

Local Resources. Several local resources are available to you and your patients:

- Blood Testing. Patients are encouraged to contact their primary care provider for testing. The Genesee County Health Department also administers lead tests. Patients in need of transportation should contact 2-1-1 for assistance.
- Water Testing. Water testing is free through the City of Flint Water Testing Plant. Patients can call 810-787-6537 to learn more.
- WIC and SNAP provide assistance to parents and children who need fresh and healthy foods. Contact the Genesee County WIC office at (810) 237-4537 to learn more.
- Child Development. If you have concerns about a child's growth, development or learning contact 2-1-1 for a Home Visiting Program in your area.

Genesee County Health Department

Adding Phosphate to Flint Water

Why is there lead in some homes' water?

- Lead pipes, solder, and faucets used to be common. We now know that lead can harm our health.
- Homes built before 1987 are more likely to have lead service lines and pipes. Some faucets and certain kinds of solder could also have lead in them, even those installed recently.
- The lead found in tap water in homes around Michigan is likely from these older pipes, solder, and faucets.
- Replacing old pipes, service lines, and faucets is the only sure way to limit the lead in your tap water.
- New pipes, solder, and faucets should meet EPA lead-free standards.

Why are we putting phosphate in the water?

- Over the years, minerals in our water have built up inside our water pipes.
- This mineral build-up is called scale.
- This scale helps to keep a lot of lead from the pipes out of our water.
- If something happens to the scale and the water can touch the pipes, lead can get into the water.
- Adding phosphate to the water helps build and maintain scale by collecting on the sides of the pipes and sticking to the metal.

Lead About Phosphate

- Phosphorus is a natural mineral that your body needs. It works with calcium to keep your bones strong and healthy.
- Phosphate is a type of salt that has phosphorus in it.
- Although there already is phosphate in the Detroit drinking water, extra phosphate is being added to the water in the City of Flint to help put more scale in the pipes.
- The City of Flint, MDEQ, and the EPA worked together to find how much more phosphate is needed in the water going to Flint homes.
- Most people likely already eat and drink more phosphate in everyday food than the very small amount that will be found in the tap water.
- Continue to use water filters that remove lead until the Genesee County Health Department's Public Health Emergency Declaration is removed.

What is Phosphoric Acid?

Although there is already some phosphate in the water we get from Detroit, Flint plans to add more to help build up and maintain the scale faster. To get the phosphate needed for this to work, the City of Flint Water Plant will be adding something called phosphoric acid to the city's water. Phosphoric acid is a common food ingredient in things like cola or juice.

The phosphoric acid will quickly dissolve in the water and break down into two parts - hydrogen and phosphate. Hydrogen will become a part of the water and the leftover phosphate will settle out and stick to the walls of the pipes - building up scale like in the picture above.

If you have questions about the phosphate being added to City of Flint water, please call the City of Flint Water Plant at 810-787-6537.

If you have questions about phosphate and your health, please call MDHHS at 1-800-648-6942.

Jeanette,

You were correct, Jeff's hours on 1/15 were for State of the State.

Allie worked 1 hour of overtime.
Elizabeth worked ½ hour of overtime.
Craig B. was the Access control OT.

Brandon, if the above information is incorrect please let Jeanette know.

Thank you,

Kathy

Jeanette,

I was asked to report all hours worked in support of Flint. If more hours are reported to me, I will send you only the overtime hours.

You were provided correct information regarding your overtime hours; you are overtime eligible only after 40 regular hours have been worked in a week. My apologies for not converting Jeff's hours to the same format. Like you and Ryan, he is only overtime eligible after 40 regular hours have been worked.

Jeanette

As we previously discussed, you are my contact to triage and route external inquiries. Bluewater called me this morning, and I requested an email with more information.

It is unclear to me whether this unit meets the standards used for the faucet water filter sourcing. Can a resource be identified to check? If not, someone may want to consider reaching out to the two locations that received donated units.

Thanks for routing this into the correct hands.

Subject: Bluewater water purifiers help Flint

Hi Rebecca,

It was nice talking to you this morning, we will appreciate if you can read this email and forward to related team who in charge of procurement for Flint water crisis.

Bluewater is a Swedish company that has innovated a patented second-generation reverse osmosis technology which turns tap water into healthier drinking water by removing up to 99% of almost all known water-borne contaminants; plus, cuts the water wastage common to traditional reverse osmosis systems by up to 82%.

Bluewater has been selling in the USA for the past 18 months, based out of Overland Park, Kansas, where we also have our warehouse that serves customers across the United States. We are a sister company to Blueair, which is one of the major air purifier companies in the United States, based out of Chicago.

Last week saw us donate and install two of our high performance water purifiers in Flint, Michigan, in response to their crisis as our water purifiers excel at removing lead and other toxic metals from residential drinking water. While we applaud people donating water bottles, it is only a short term solution, whereas as water purifiers are both a short-term and a long term solution.

One Bluewater Pro machine was installed at the Community Center at Catholic Charities of Shiawassee and Genesee Counties, where they serve 1,000 meals every day to local residents. The other unit was installed at Shelter of Flint, the largest shelter at Flint.

Both units were installed by Bluewater's Product Manager who traveled to Flint personally. FYI, many bottled water brands in the USA use reverse osmosis to purify their water. Using a Bluewater unit is a cheaper long-term option that also contributes to a better environment because they negate the need for plastic bottles as they deliver purifier water 'on demand'. (a side note, as you may already know, "Pepsi Admits That Its Aquafina Bottled Water is Just Tap Water, Coca-Cola's Dasani Is Next" see news of today http://healthycures.org/pepsi-admits-that-its-aquafina-bottled-water-is-just-tap-water-coca-colas-dasani-is-next

The Bluewater Pro400 reverse osmosis water purifiers we donated to Flint can produce 52 gallons of purified water per hour, which means we can supply 2,700 people a total of two liters of clean water free of lead and other toxic metals every day. This translates into saving 4,800 one-liter bottles being put into the environment every day!

The compact Pro is designed for professional use, in restaurants, hotels, schools, hospitals and laboratories. Installing just 38 of our units in Flint would deliver the 100,000 residents two liters of totally clean water every day - meeting their basic daily human health need for drinking water.

Bluewater harnesses our own patented second-generation reverse osmosis technology, which removes practically all toxic contamination from tap drinking water including lead. The other contaminates we remove include other heavy metals, pesticides, medical residues, and dioxins and petro chemicals.

What also makes our water purifiers unique is that our unique technology ALSO radically increases the efficiency of water treatment, which translates into a Bluewater unit using 82% less water to generate clean water than a traditional reverse osmosis unit.

Reverse osmosis technology purifies water by forcing untreated water through a semi-permeable filter or 'membrane'. Bluewater membranes will block toxic metals and chemicals down to 0.0001 micron (that's 500,000 times smaller than a human hair). Our technology also delivers water 'on-demand', which means no need for a holding tank

As a business, we cannot afford to donate an endless number of units free to Flint, but due to the special nature of the situation (and the fact that most of us are parents of small children and have huge sympathy for those impacted by the crisis) we want to step up even more by offering Michigan State prices that are very substantially discounted. In fact, we want to offer you a one-off purchase opportunity that sees us offering you our products at the manufacturing price (i.e. we make no margin on the deal).

This would see the products we recommend you consider coming in at:

Pro 400C-HF(high flow) (this is the model we donated to Flint) $1920 + shipping
(suitable for professional use, hospitals, labs, restaurant, coffee shop, office building)
- Superior Osmosis Technology
- Direct flow, no need of tank
- Capacity up to 52 gallon per hour
- Clean water delivery rate of 52 gallon per hour
- Cleaning brackish water, up to 7500 ppm
- water quality monitor
- Calibration of cleanliness
- Advanced leak protection system
-Clean water per kWh: 433L/kWh (114.3gallon/kWh)
-Clean water rate: 222L/hour (58.6 gallons/hour)
-Dimensions: 225 x 466 x 460mm (8.9 x 18.3 x 18.10 inch)
-Weight: 29kgs (64lb)
-Water recovery rate: 60-70%

<u>The other two models we could consider as an alternative (the only difference is that the water flow is less powerful) are:</u>

Spirit 300-HF(high flow) $1350 + shipping
Compact design that fits into any contemporary kitchen
- Designed for Municipal water
- Superior Osmosis Technology
- Capacity up to 43.2 gallon per hour
- Director Flow, no need of tank
- Extra compact Design
- Advanced leak protection system
- Clean water per KWh: 377L/kWh (99.5 gallons/kWh)
- Clean water rate: of 99L/hour (26.2 gallons/hour)
- Dimensions: 150 x 462 x 365 mm(5.9 x 18.2 x 14.4 inches)
- Weight: 15 kgs (33lb)
- Water recovery rate: 40-60%

Spirit 300Cp-HR(high rejection) $1500 + shipping
Compact design that fits into any contemporary kitchen, can connect to dish washer, coffee maker, ice machine/refrigerator
- Designed for Municipal water
- Superior Osmosis Technology
- Capacity up to 43.2 gallon per hour
- Director Flow, no need of tank
- Extra compact Design
- Advanced leak protection system
- Clean water per KWh: 377L/kWh (99.5 gallons/kWh)
- Clean water rate: of 99L/hour (26.2 gallons/hour)
- Dimensions: 150 x 462 x 365 mm(5.9 x 18.2 x 14.4 inches)
- Weight: 15 kgs (33lb)
- Water recovery rate: 40-60%

Please do not hesitate to get back if there is anything additional information you need from us. Attached is our catalog and photo how it looks in the kitchen.

Here are two reference you can contact at Flint, they are using our donated water purifiers now for producing pure water

> > Based on the attached email regarding Home Depot purchases and payment of invoices, it is unclear whether departments are to issue Purchase Orders as a release from the Home Depot BPO to pay for the products being ordered for the Flint project or if all purchases are being made by DTMB or SEOC. LARA has been submitting orders for plumbing supplies purchased at Home Depot through the DTMB Buyer of the Home Depot contract.
> >
> > It also is unclear where invoices are being sent. Is there a central point of contact that Home Depot is sending invoices and then the invoices are distributed to departments for payment? Just want to make sure a process is in place to ensure duplicate payments are not being made. If departments are responsible for paying invoices, we will need to be assured the invoice has been reviewed by SEOC and approved for payment before processing. It is my understanding from the attached emails, the SEOC has a process in place for requesting resources to ensure that all items purchased are approved by SEOC command. If this is an accurate understanding, then SEOC should be able to reconcile the invoices to purchases made.

Let me know if you have any questions.

Thanks!

Cc: Burger, Penelope (MSP) <BurgerP@michigan.gov>
Subject: RE: Flint Issue Questions from DTMB Procurement

I will do what I can to address some of these questions.

1) Since FEMA arrived on-site in the SEOC, they have been procuring the water resources made available through the federal emergency declaration; water, faucet filters, replacement cartridges, filtered pitchers and water testing kits. If going through an established state contract gets a better price, that is how they are ordering items. If they have a better deal or resource, that is what they do.
2) All resources are being delivered to the warehouse located at 4315 N. Clio Road in Flint. Michigan Department of Corrections has warehouse management staff in place to manage the warehouse operations. Receipt of all resources, regardless of who ordered them, is being checked in to the warehouse with packaging slips and I have copies of the FEMA order form as well. We don't do anything special with FEMA purchased resources.
3) The State of Michigan has a 25% match requirement for the FEMA dollars spent. DHHS will not get a bill for 25% of anything from FEMA. I work directly with FEMA on the finances through EMHSD as the State Financial Officer, and at this point we have FEMA assistance for 90 days. We are nowhere close to getting a bill from FEMA yet and that is something that I will take care of working with the State Budget Office as needed. I have never sent a bill for match to another state agency.
4) At this point in time, we only have a federal declaration of emergency that brings FEMA procured resources for 90 days beginning on the date of declaration, which was January 16, 2016. We don't have any other federal awards that would allow for reimbursement of items purchased before the federal declaration. We have a few requests out at the federal level, but it is a long process and there are no guarantees. Our guarantee is that FEMA will buy water and filters for 90 days.

What I need from state agency financial staff are current expenditures for costs for their own agency on a weekly basis so I can update the State Director here in the SEOC. Costs need to be directly related to the emergency, such as staff overtime in the SEOC or in the field responding to the event, contracts required for response, purchases for items necessary for use in the emergency response – water, filters, computers for field teams, etc, and fuel for vehicles. This is not an exhaustive list, but gives you the main items. And we have processes in place here in the SEOC for requesting resources to ensure that all items purchased are approved by SEOC command.

I hope this has answered some questions. The biggest assistance a state agency can provide from a financial aspect is weekly updated reports. If you still have questions, please let me know.

Awesome! Jeff Sanford is the right person to be working on the invoices. He and I had several conversations on Friday and will continue to work together on the reconciliation.

Appreciate the FEMA the update. It it so very helpful. Do we know where the FEMA filters are being delivered and if/how the receipt of the filters is being tracked? I assume that DHHS will at some point will receive a billing for 25% of the FEMA filter bill so I want to ensure we are tracking receipt of the product. Do we have any confirmation on how the financial reimbursement to FEMA will work? If you are are not the correct person to answer these questions, please point me in the right direction.

connected with David Khanuja from Home Depot and they have been working through those invoices and Jeff is consolidating that information.

FEMA – FYI. I have been informed from Home Depot that someone from FEMA ordered approximately $330,000 worth of filters last week and approximately another $1,000,000 worth of filters on Saturday night.

MSP. Please work with Jeanette and Chris. The SEOC has asked everyone to track receipts and enter them into MySims software.

Buyer Steve Rigg is involved to the extent that Home Depot is asking questions about unpaid invoices, and Steve facilitated getting invoice copies and a meeting set up. The State is running close to its account credit limit with Home Depot and needs invoices cleared for payment.

We are still seeking clarification on the new FEMA process, and anticipate more information next week.

I'm happy to talk more on Monday, but thought you may also need an immediate response.

Please call my cell for any emergency requests, instead of or in addition to email.

We have received the following request from State Police for information:

From: MSP-seocfgc
Sent: Wednesday, January 20, 2016 4:23 PM
To: Kangas, Susan (DHHS) <KangasS1@michigan.gov>
Subject: Costs for City of Flint

Hi Susan:

Richard Thelen gave me your name as his financial point of contact at DHHS. The immediate need is information on the costs incurred by DHHS for water, water filters, and replacement cartridges. FEMA has asked for this information – even if some of the figures are an estimate – so they have a ballpark idea.

If you could get some numbers to me tomorrow, I'd appreciate it. Please include all of your costs related to Flint, including those that were paid for with the special appropriation that you received in October. I will be providing some guidance on how costs should be tracked for state disaster assistance and possible federal assistance.

If you have any questions, please let me know.

Thanks,

Subject: Re: Flint Issue Questions from DTMB Procurement

Hi Steve, in the very beginning October I would send 319 to budget to process and order products from Home Depot.

As product begin getting scarce I began working directly with David as to what we needed vs what was available etc. then I would complete the PO but budget always knew what was coming.

When SEOC and got involved Richard or Brian would ask me to order products to maintain consistency and to continue working with David.

I also have a financial specialist Jeff Sanford who works with me and prepares the 319 for processing for all the filter orders.

He received all of the invoices from Home Depot for the product that we received under our existing POs. He will go through and consolidate the product received with our tracking spreadsheet and signed 319s. Once That is completed he can create a payment voucher for Home Depot to get paid.

I also just got a message from David that he has 12,000 Brita filters available. He needs direction as to what we want.

I am not approving any orders at this time per directions that FEMA is now ordering.

I'm am available to do whatever is needed.

On Jan 21, 2016, at 11:36 AM, Rigg, Steve (DTMB) <RiggS@michigan.gov> wrote:

Chris/Jeanette,

My questions only pertain to Home Depot and the procurement of water filters, bottled water, and supplies needed for repairs. I'm trying to sort out the confusion that David from Home Depot and I have regarding the procurement of these items and the processing of payments. We need to finalize a fluid process for this so that we can avoid further confusion. I want to do everything I can to help, but I first need to understand the current process so I can direct what I have control over to the right people. I don't want there to be a disruption in the incoming flow of these items.

1. What is the current process for ordering these items? David from Home Depot is currently getting calls from a minimum of 4 different people.

2. Response: Sheryl had been the lead until EOC came on board.

3. What is FEMA's role in procuring these items? Apparently a FEMA rep called Brita directly to order filters. Home Depot has

cornered the market on all filters from Brita and PUR, so it is suggested that we continue to work directly with David from Home Depot.

4. Response: I agree

5. If FEMA does take over the ordering of filters, water, and supplies, will they agree to work with Home Depot and who is the contact person that could work directly with David from Home Depot?

6. Will FEMA be creating contracts directly with manufacturers or will they utilize current contracted vendors?
7. If FEMA takes over, will they be paying invoices directly or will that continue to be done by the State?
8. What happens when FEMA leaves in 3 months? Good question

9. Who is responsible for entering Home Depot receipts into the MySimms tracking system so that David from Home Depot can send these receipts to that person directly? I have attached the receipts that I have received from Home Depot.
10. Right now Home Depot invoices are sent out monthly because of the 60 day terms in the contract. However, we

currently have over $10,000,000 in outstanding invoices. We had gotten CitiBank to increase our credit limit to $10,000,000 last week. We requested CitiBank to increase the credit line to $20,000,000, but that has not yet been approved by CitiBank. To keep the credit line open we need to turn around these invoices much quicker. Citi has an EFT program that a State designee could log into and pull invoices from immediately to get them paid. Who would be the person that Citi could set up an account with so that they could log in and download invoices for quicker processing?

11. LARA recently purchased items from Home Depot for plumbing supplies. Moving forward, if LARA is to procure any more items through Home Depot can they work directly with David from Home Depot so as to not cause any more delays?

That is all I have at this point. Thanks for any feedback.

Jeanette,
The Lessor for the Kroger store said he will pay the water bill for the complex, will take $3.00 psf. Bernice figures the utility bill will be more like $1.-2. Per square foot.
Just to let you know. He also has a medical facility in the same complex built by Hurley Medical, they moved out, but this would be a great place for a clinic to test children, DHHS is next door. Good square foot rate for 8,000 sq.ft. for a 12 room facility in very good shape.

Subject: Contact information - forklift request [ALAN Case 1186]

Hi Carol –

Thanks for your call tonight. We've started our outreach to locate 3 electric forklifts and 4 manual pallet jacks for your use.

As I mentioned, I'm traveling a good bit of the day tomorrow, so I'm copying ALAN board member Mark Richards for backup until we confirm who will be working this case.

Thanks,
Kathy

Logistics Privileged Communication: Internal Pre-Decisional Analysis

Dear Jeanette,

Good Morning I need your assistance. First the staff at Flint State Office need a turtle phone if possible. Please contact Anthony Hart (312-391-5677) if that is possible.

Secondly, how can I get the access cards for the new location, we want to start moving equipment today.

Third, is there a room that can be lock. According to policy I have to keep the equipment in a controled access room.

Just coordinated with Ryan. The facility POC is unable to provide a VOIP phone for one of the offices and said we would need to put in a request to the state since there is no local IT for the State at this facility to set that up. This would be the request of the need for a VOIP phone for one of the offices that we are utilizing at the Flint Location.

Any questions, HHS contact: Ryan.Goodson@hhs.gov and cell is 706-564-1308

Kendall, Alicia, what I have requested is a turtle phone from the state. Requesting the SEOC approve the facility manager here in Flint, at the DTMB facility that is housing the UCG authority provide us with one of the phones they have here on property.

I am not requesting FEMA provide or purchase a t phone.

Thanks

Subject: RE: 1S Door Access

Thanks Brandon.

Jen: We have decided to activate the swipe card readers that are affiliated with the entrances to the DEQ suites located in 1st floor South Tower of Con Hall. This is an extra precaution of security since both these suites are located near the South exterior entrance. According to Brandon's email below, we need you to submit a request granting all DEQ staff that work in Con Hall per the attached list access to these suites. Let me know if you need more info or have any questions.

Thanks

MK

Subject: RE: 1S Door Access
Importance: High

Mary Kay –

Please see the attached spreadsheet showing all DEQ employees who currently have exterior Con Hall access, but do not have the requested interior door access. I have checked with our Emergency Management Coordinator in the SEOC and she told me that this needs to be requested through your DEQ SEOC representative (probably Jen Wolf).

In the meantime, we will begin adding access to these individuals. Please let me know if you need anyone added or removed from the list.

Thank you.

Subject: 1S Door Access

Hi DTMB Team

Apparently our idea to lock the suites on 1S was premature. Our staff access cards are not allowing them access to the suites so we need to know what it will take to make that happen. Also, Kevin noted that one of the doors appears to have issues with the hardware so could you have your crew take a look at that?

Brandon Pattison is unlocking the doors now until we hear back on when access cards will work.

Brandon Philip is working on access.

Thanks for your help.

Jeanette,

I just wanted to follow up on the voicemail I left you. You received a laptop from our inventory over the weekend for the Flint Water Response with the Service Tag listed below. I am not sure how long this will be needed or if it will be returned so I want to make sure that a physical Inventory is completed.

Please make sure this device is inventoried in your name or someone you designate as the custodian for the equipment. I created a physical Inventory spreadsheet for you to complete. Please complete the HRMN ID, Last Name, First Name, Telephone Number, and Agency fields and send the spreadsheet to me and Kris Wang (DTMB) at wangk1@michigan.gov

Subject: Flint Parking Ramp

Hello –

Could someone check with all individuals working on the Flint Water Emergency to locate owners of vehicles parking in employee paid spaces?

The owner for picture below? They are parked in #156 customer's reserved space. The car needs to be moved to the upper level of the ramp.

We also have a car parked in space #13 that plate number [redacted] AN MICHAEL MYERS who works with DHHS in Grand Rapids, vehicle also needs to be moved.

We appreciate any help you could provide.

Thank you –

Randy –

Could you send me copies of the bill for January 15 and 18th? Working to reconcile our purchases.

Thank you!

Jeanette

Subject: Flint Parking Ramp

Hello –

Could someone check with all individuals working on the Flint Water Emergency to locate owners of vehicles parking in employee paid spaces?

The owner for picture below? They are parked in #156 customer's reserved space. The car needs to be moved to the upper level of the ramp.

We also have a car parked in space #13 that plate number [redacted] IAN MICHAEL MYERS who works with DHHS in Grand Rapids, vehicle also needs to be moved.

We appreciate any help you could provide.

Thank you –

PLOMO EN EL AGUA DE FLINT

INFORMACION GENERAL

- La cantidad de plomo que se encuentra en el agua potable en los hogares de Flint podría afectar la salud de los niños.
  - o Inclusa pequeñas cantidades de plomo pueden dañar la salud de los niños, ya que todavía están creciendo.
  - o Los adultos tienen menos probabilidades de ser perjudicados por los niveles encontrados en el agua.
- Filtre el agua potable utilizando un filtro aprobado por la National Sanitation Foundation (NSF).
  - o Usted puede recibir un filtro aprobado por NSF gratis, si utiliza agua de la Ciudad de Flint.
  - o Llame al 2-1-1 para averiguar adónde puede retirar un filtro de agua gratuito.
- Algunos filtros pueden eliminar hasta el 99% del plomo en el agua cuando se utilizan correctamente. Para asegurarse de que su filtro está eliminando la mayor cantidad de plomo posible, siga cuidadosamente las instrucciones enviadas con éste.
  - o Deje correr agua fría a través del filtro solamente.
  - o Cambie el cartucho del filtro tan a menudo como lo indiquen las instrucciones.
- Incluso después de los cambios en el sistema de agua, puede tomar un tiempo antes de que los niveles de plomo en el agua se reduzcan.
- El plomo es difícil de evitar por completo. Se puede encontrar en las tuberías de agua y grifos de agua de bronce, pintura vieja, en la tierra, en algunos lugares de trabajo, y en el metal usado en algunos pasatiempos.

Hay una serie de pasos que puede tomar para que usted y su familia estén saludables. Utilice los siguentes consejos para aprender más sobre cómo mantenerse saludable:

PLOMO EN EL AGUA

Aunque el agua a veces puede ser de un color diferente, esto no es causado por el plomo. Es importante recordar:

- Usted no puede ver, eler o saborear plomo en el agua.
- El plomo no cambiará el color del agua.
- La única manera de saber cuáles son los niveles de plomo en su hogar es haciendo examinar el agua.

PLOMO EN LA SANGRE

- Si sus hijos viven en Flint o van a la escuela o a una guardería en la ciudad de Flint, sus niveles de plomo en la sangra deben ser examinados.
- Debe comunicarse con su médico para realizarse un examen.
- El examen está disponible de forma gratuita en el Departamento de Salud del Condado de Genesee. Llame al 2-1-1 si necesita ayuda para llegar allí.
- Si está embarazada o amamantando, y ha dado negativo en los niveles altos de plomo en la sangre, es seguro amamantar.
- Si está embarazada o amamantando y ha dado positive en los niveles altos de plomo en la sangre, hable con su médico acerca de la seguridad de la lactancia materna.

CONSEJOS PARA MANTENER SU HOGAR PROTEGIDO DEL PLOMO

FILTROS DE AGUA

- Haga examinar el agua de su casa. Es gratis. Llame al 2-1-1.
- Utilice un filtro de agua. Llame al 2-1-1 para solicitar un filtro gratuito.
- Si usted no tiene un filtro de agua, utilice agua embotellada para beber y para mezclar fórmula.
- Use agua fría y filtrada para cocinar.
- Lave frutas y verduras con agua filtrada.
- Si tiene que usar agua sin filtrar, deje correr el agua durante cinco minutos antes de usarla. Para ahorrar tiempo y agua en el futuro, es una buena idea llenar tantos envases como sea posible, una vez que haya dejado correr el agua durante cinco minutos.
- Drene y purgue los tanques de su calentador de agua regularmente, para eliminar cualquier plomo que haya quedado acumulado. Siga las instrucciones de fabricante para el mantenimiento o póngase en contacto con un profesional autorizado para obtener ayuda.

LIMPIEZA

- Lave platos, botellas y juguetes con agua no filtrada y jabón y deje que se sequen antes de su uso.
- Es seguro usar el agua del grifo sin filtrar para limpiar pisos y mesadas.
- Es seguro lavar la ropa en la lavadora y secadora.
- Utilice un tapete en la puerta. Quítese los zapatos cuando esté dentro.
- Aspirar alfombras puede levantar más polvo de plomo sobre la superficie. Utilice una barredora no motorizada para limpiar alfombras.
- Limpie alféizares y áreas de juego a menudo con toallas de papel y agua con jabón.

CONSEJOS PARA MANTENER SU HOGAR PROTEGIDO DEL PLOMO

EN EL BAÑO

- Utilizar agua filtrada para cepillar los dientes de sus hijos.
- Los adultos pueden usar el agua del grifo sin filtrar para lavarse los dientes.
- Se puede utilizar agua del grifo sin filtrar para bañarse, pero no deje que los niños beban el agua cuando jueguen en la bañera.
- Estudios realizados por los Centros de Control y Prevención de Enfermedades muestran que los padres pueden seguir bañando a sus hijos en la bañera, pero la hora del baño se debe utilizar para el baño solamente, en lugar de permitir que los niños jueguen en el agua durante mucho tiempo.
- El plomo no causa erupciones u otros problemas de la piel. Sin embargo, si los niveles de cloro u otros productos de limpieza son altos en el agua, puede causar picazón en la piel o piel seca (similar a lo que puede suceder cuando usted nada en una piscina).

CUIDADO DE MASCOTAS

- Utilice agua filtrada del grifo para que su mascota beba en su tazón.
- Usted puede utilizar el agua del grifo sin filtrar para bañar a sus mascotas.
- Si usted nota que su mascota actúa de manera diferente de la normal, consulte a su veterinario.

DIETA SALUDABLE

- Coma alimentos ricos en hierro, calcio y vitamina C.
- Lávese las manos con jabón y agua tibia antes de comer.
- Si necesita alimentos frescos y saludables, llame a la oficina de WIC al 810-237-4537, o para la asistencia alimentaria "SNAP" aplique en www.michigan.gov/mibridges o visite su oficina local del Departamento de Salud y Servicios Humanos de Michigan.

BUENAS FUENTES DE HIERRO INCLUYEN:

- Carnes rojas desgrasadas, pescado y pollo
- Cereales con hierro añadido
- Frutas secas (pasas, ciruelas pasas)

BUENAS FUENTES DE CALCIO INCLUYEN:

- Leche
- Yogur
- Queso
- Verduras de hojas verdes (espinaca, col rizada, berza)

BUENAS FUENTES DE VITAMINA C INCLUYEN:

- Naranjas, jugo de naranja
- Toronja, jugo de toronja
- Tomates, jugo de tomate
- Pimientos verdes

INFORMACION DEL PLOMO

El equipo de respuesta de Flint esta enfocado en la crisis de plomo en la agua. Además del agua, cientificos, durante mucho tiempo, han estado preocupados por todas las fuentes de plomo, incluyendo la pintura con

PINTURA CON PLOMO

- Las casas construidas antes de 1978 probablemente tienen pintura con plomo, tanto dentro como fuera.
- La pintura vieja es la forma más común en que los niños son expuestos al plomo.

TIERRA

- Si usted vive en la ciudad, puede haber plomo en la tierra afuera de su casa.
- Antes de 1996, el gas y los gases de escape de los automóviles contenian plomo. Más plomo se encontrará en la tierra de áreas con tránsito intenso.

POLVO

- El polvo en su casa puede tener pequeñas cantidades de plomo de la pintura y suciedad.

AFICIONES Y EMPLEOS

- Las soldaduras, plomadas de pesca, balas y materiales que enmarcan los vitrales son algunos elementos que pueden contener plomo. Usted podría también llevar polvo con plomo a casa de su sitio de trabajo.

¿TIENE PREGUNTAS?

- Para más información sobre cómo protegerse usted y su familia del plomo, visit www.michigan.gov/flintwater.
- Para saber dónde puede obtener un filtro de agua gratuito, llame al 2-1-1.
- Para una examinación de su agua gratis, llame al 2-1-1.
- Para más información sobre el plomo en su casa y lo que puede hacer, llame al Departamento de Salud y Servicios Humanos de Michigan al 1-800-648-6942.
- Para obtener información sobre cómo puede ayudar, visite www.helpforflint.com.

Subject: Re: Flint Water Website - it changed?!

Hi Meegan,

I was asked to coordinate the translation of documents into the various languages. We now have a system in place to have docs translated into Spanish, Arabic, Mandarin and Hmong and there are a number of documents in the pipeline being translated.

When I looked at the revised Flint Water resources where the translated documents are, I noticed at least one (Lead in Water Info Sheet) that has been translated into Spanish. I am also having it translated - per a request.

In order to not duplicate efforts, can we just use one source for translations? Who else is getting Spanish translations?

Finally, the current system will be that I will send Jason the translated doc and he will arrange for it to go on the website. If there is someone I should work with directly for this, please let me know.

Thanks!
Karen

Subject: Dock Access

Jeff,

There are three guys here from Logic dealing with the water issues here in Flint. These gentlemen are going in and out of the dock on a regular basis to load/unload equipment and supplies. They have asked if it is possible for them to get access to the dock door added to their cards. Mike said that he is okay with it as long as you are okay with it.

The three guys are

Are there currently any rental units being used in this effort that you are paying for? As we mentioned, we would love to help in this cause and will be willing to donate the trucks for free. I just wanted to make sure you weren't paying for anything that we can provide at no cost.

No mention of a time limit.

We will need drivers to go with these trucks. The trucks should be low entry as well (not normal box trucks with lift gates as the local WRTs very much prefer the low entry).

Mr. Edge,

Per our conversation, equipment donations are taken care of locally. This is the information that I sent to our logistics desk, they in turn will relay it to the local Emergency Operations Center in Flint.

\\

Mr. Steven Edge is the local POC for the PENSKE Trucks donation. He is Based in Metro Detroit, his phone number is 734-377-4370. His e-mail is steven.edge@penske.com<mailto:steven.edge@penske.com>

I have informed him that coordination of "donations" is an effort that is being coordinated locally. I have also informed him that at this time, it is not requested that the Flint mission needs 14' trucks.

I also informed him that the persons from the local EOC that coordinate logistics will be contacting him to work out the terms of the donations.

Spl/Lt. Mike Garland

\\

Thank you for your support to the people of Flint during this matter!

Spl/Lt. Mike Garland
Michigan State Police

Good morning,
DHHS is requesting we install the current version of Adobe Pro as soon as possible for **Jennifer Eisner, S63919YLRH12**

Jennifer reports to the DHHS director, and is in need of this software to do some redacting while preparing documentation for the Flint Water Crisis.

I will follow up with either an ITRAC (if the agency intends for her to keep it permanently), or a request to remove it as soon as it is no longer needed for this situation.

As always, thank you for your prompt attention to the agency needs.

Subject: Calendar Sharing

Afternoon Dave,
I have been working with Jeff Stampfly and Jason Stephens on getting an incident calendar up and running for the IMT. Jeff got one going but then we can't share with more than 1 or 2 people at a time. At the moment I have populated the FMFM calendar with the people and dates I know of.

Jason is wondering if you know how or who to contact to allow an IMT calendar to be posted so all team members (logistics, IC, Comms) can add/edit their own dates while allowing District supervisors, Fire supervisors, Debbie, etc to look at who is scheduled for planning purposes. See the screen shot below.

We tried to use the fire application in citrix earlier this afternoon but we can only look at one person's schedule at a time and the qualifications are not correct . . .so we would need all that fixed before it could even be populated. We are just looking for a quick fix.

I am at the Wyman office if you need to talk.
906.341.8463
Thanks, Jennifer

Good Morning –

Any update on drivers for next week?

Bill Selleck called me yesterday and asked that I extend his hotel reservation until February 14.

> When we get an Economic Injury declaration for Michigan, I have spoken with Anthony (Tony) Katarsky regarding office space in Flint. Tony and I discussed opening an SBA Disaster Loan Outreach Center (DLOC) soon after the declaration is declared. I advised that we will need free office space for at least 3 Customer Service Representatives, secure computer lines (if available) and easy access for the disaster survivors. Tony does not think that getting office space will be an issue and has a couple of places which he will check on.

Good morning Tina and Bill,

I want to thank you again for all of your advice and guidance on the warehouse operational times. It's so helpful! Can you tell me what your hours are? We are just about there in finalizing our plans. Please see the attached plan that we have drafted up. Let me know your thoughts and also edit your hours as well if I have them incorrect. We have room to be open more often as well, but I didn't want to immediately start off with too many hours until we got a feel for how busy we would be.

Tomorrow we are going to be open from 12-6, but we are not publicizing it just yet as we do not have all the equipment and supplies we need to run a warehouse. But we wanted to be open to receive only, just to give you and us a little relief as Saturday's tend to be our busiest times for the loose donations.

Lastly, your trucks have been extended for a couple of weeks. Please keep us posted if you experience any difficulties with them or you no longer need them.

Thanks again for your help.

Tom,

So nice to speak with you today. I have attached our standard agreement template. As I mentioned, don't be scared by the needs list. I am sure some of the items will not be needed and others we will try to have donated. We will make every effort to keep costs at a minimum.

I will work with my local coordinators to put together a management team. As requested, I will look into possible donated warehouse space.

Please feel free to contact me if you have any questions or concerns. I look forward to collaborating with you.

Hi Charlene,

Jeannie was able to give me your email address to get a discussion going on warehousing support for the Flint water crisis. I'm the State VAL, and we're definitely open to support on the warehousing end of things! A few of the items that are on our list of questions would include:

- Potential commitment to warehouse management for an overflow space
- Length of potential commitment (Suggest, one year?)
- Requirements if committed: Only palletized parcels, or willingness to sort and palletize?
- Capacity of local volunteers and potential managers
- Plan/requirements for on-site training of a local team

o If only staffing option is to bring in a trained team from outside the area, what are the requirements (ie. volunteer housing)?
o Equipment needs/requirements

Again, thanks so much for your interest. I look forward to speaking with you very soon!

Donations Management Template
Developed by
Adventist Community Service

The Seventh-day Adventist Church began providing assistance to disaster survivors in 1874 following a flood in Michigan and continues to respond to disasters under the name of Adventist Community Services (ACS). ACS is a founding member of the National Voluntary Organizations Active in Disaster (NVOAD) and has chosen to focus primary expertise in donations management. This includes managing the collecting, sorting, inventorying, warehousing, and distributing of donated goods, including the massive, unsolicited donations sent by the well-intentioned.

ACS has trained and affiliated thousands of volunteers to support donation management operations in all 50 of the United States. ACS management teams are particularly useful supporting large scale donations operations that necessitate multi-agency warehouses. An ACS managed multi-agency warehouse is one that is managed by ACS and provides goods to all vetted entities providing support to disaster survivors and responders.

ACS has a Statement of Understanding with the Federal Emergency Management Agency (FEMA) and the American Red Cross to provide donations management assistance in times of disaster. ACS has donations management teams available for deployment to support federal, state, local, and tribal agency operations. National subject matter experts are also available to assist during all phases of the disaster cycle.

The template that follows is a suggested starting point for the development of an agreement with ACS to provide donations management support. The attached basic needs list is intended to be adapted based on the type, scale, scope, and particular circumstances of each disaster.

For more information, go to: www.communityservices.org.

(This initial page need not be included in the final written agreement.)

Letter of Agreement between
The State/County of _____ and
Adventist Community Services

Purpose

The purpose of this Letter of Agreement (Agreement) is to describe the working relationship between the State/County of _____ (s/c) and Adventist Community Services (ACS) in managing donations following a state/local disaster event.

Activation

Following a state/local disaster, if the s/c determines that assistance is needed to process donated goods, s/c will submit a request for support to ACS. It is understood that ACS will respond based upon its capacity and resources at the time of the event. At the same time, it is understood that ACS will make every good faith effort to respond given both its regional and national disaster response network.

General Terms of Agreement

Due to both its previous disaster experience managing donated goods and warehouse expertise, ACS is the pre-designated lead agency with s/c for managing large amounts of donated goods following a disaster event. This may include the collecting, sorting, warehousing, and distributing of donated goods.

In an effort to provide support and stability to community-based voluntary agencies distributing donated goods, s/c and ACS agree to the following:

ACS Agrees to:

1. Provide management of a multi-agency warehouse, when needed, and supervise volunteers in receiving, inventorying, sorting, packing, and shipping donated goods.
2. Assist s/c in locating and evaluating a facility to be utilized for warehouse operations.
3. Utilize existing relationships to secure donations of any equipment, supplies, and services needed to support operations; otherwise, s/c will provide the necessary material support.
4. Make goods available to local organizations that are distributing goods and are recognized/approved by s/c.
5. Will provide access to the most current warehouse inventory for FEMA, State, Local, and/or Tribal officials.
6. Incorporate community volunteers to assist with donations management operations as needed.
7. Maintain and report to s/c daily volunteer hours for each operation location.
8. Will turn over operations to local volunteer organizations when they are able to assume and accept this responsibility if needed.
9. Will provide a liaison, when available, to the Emergency Operations Center if requested.
10. Will participate as a member of the s/c Donations Coordination Team.
11. May provide management and operation of distribution sites and/or mobile distribution if needed and when personnel are available.
12. Keep s/c informed of ongoing ACS donations management operations.
13. Assist s/c with operations required to process or dispose of unwanted donations.
14. Make necessary purchases upon receiving written authorization from s/c. These purchases will be in compliance with s/c procurement policy for purchasing such items.
15. Provide workers compensation and/or liability insurance for all ACS employees and registered ACS volunteers. These individuals shall not be considered employees of s/c for the purposes of third party tort claims or personal injury.

s/c Agrees to:

1. Notify ACS of Donations Management Branch activation so that ACS may provide donations management support to s/c.
2. Locate a mutually agreeable site for ACS to set up a multi-agency warehouse if the event requires such a facility.
3. Serve as the responsible party for any costs associated with the opening and operating of the multi-agency warehouse (i.e., lease or rental and utility expenses).
4. Provide all equipment, supplies, services, and software necessary for ACS to run multi-agency warehouse operations (see Attachment 1 for a list of basic warehouse needs). Both s/c and ACS will attempt to fill many of these resource/equipment needs through donations.
5. Provide a liaison to ACS from s/c government.
6. Provide ACS with a list of approved entities to receive donations, including those relief organizations that will act as distribution sites for donated goods.
7. Provide transportation as required by ACS to move donated goods.
8. Provide additional personnel/volunteers, as needed, to support ACS personnel at the multi-agency warehouse.
9. Provide a seat for ACS with the s/c section of the s/c EOC.
10. Invite ACS to participate as a member of the s/c Donations Coordination Team.
11. Reimburse travel, lodging, and per diem expenses for ACS management personnel involved in support of s/c, based on proper and sufficient receipts or other supporting documentation provided by ACS to verify expenses. Lodging, per diem, and mileage will be reimbursed at the s/c rate which will be outlined to ACS at the onset of operations.
12. Provide necessary forms and guidelines necessary to receive reimbursement for expenses.
13. Identify to ACS to whom necessary documents should be submitted to receive reimbursement.
14. Provide ACS with regular situation updates on the status of incoming donations and current identified needs for donations.
15. Allow ACS to retain its own identity and follow its own internal management principles, processes, and procedures during disaster operations.

Notices and Communications

All written communications sent by the parties may be by U.S. mail, email, or fax and shall be addressed as follows:

To s/c:
Name
Title
Agency
Address
Telephone
Cell Phone
Fax
Email

To ACS:
Name
Title
Organization
Address
Telephone
Cell Phone
Fax
Email

Each party agrees to provide to the other party, in a timely fashion, updated information should there be a change in their primary point of contact.

Term

The term of this agreement shall be from _____ through _____, and may be extended by mutual agreement of the parties. The parties shall review the terms of this Agreement annually, and may modify this agreement at any time by written amendment executed by both parties.

Termination

This agreement may be terminated by either party with 30 days advance written notice to the other party.

ATTACHMENT 1

BASIC WAREHOUSE NEEDS

Needs may vary and must be evaluated based on the circumstances, scale and scope of each disaster response.

Facility Specifications:

- 100,000 – 250,000 sq. ft.
- 4 or more loading docks (minimum of 2) with dock plates (1 per dock)
- Forklift access between interior and exterior of warehouse
- Office space to accommodate management team
- Personnel support/break area
- Adequate ventilation and climate control
- Indoor lighting
- Outdoor lighting if night operations are anticipated
- Toilets and sinks
- Safety shower & eye wash station (preferred)
- Showers (preferred)

Utilities/Services:

- Land line or generated electrical power
- Potable water and sanitation
- 6 Phone lines (4 lines rollover) (cell phones may be considered)
- 2 Fax lines
- High speed internet access for 10 devices
- 30-40 cubic yard dumpster with on demand emptying service

Transportation:

- 2 Box trucks with driver, fuel, and lift gate for use in distribution

Equipment:

- 4 Propane forklifts with 6 extra propane tanks and refilling contract (specifications to be determined once warehouse facility is identified)
- 4 Pairs wheel chocks (minimum 1 pair per loading dock)
- 6 Pallet jacks
- 6 Hand trucks (2 appliance, 4 convertible)
- 2 Pallet pullers with chains
- 6 Desks
- 6 Rolling office chairs
- 6 Computers with necessary software (minimum 2 laptops)
- 2 Multi-function printer, copier, fax, and scanner machines with extra toner/ink cartridges
- 6 4-Line phones with hold, forward, speaker, and headset capability
- 4- or 5-Drawer locking file cabinet
- 10 6’ folding tables
- 20 4’x8’x 3/4” Sheets of plywood and 40 sawhorses (or equivalent number of 8’ folding tables for use as sorting tables)
- 30-35 Folding chairs
- Multi-purpose fire extinguishers (number as required by local jurisdiction)
- 10 Communication radios
- 2 Weather alert radios
- 2 Electric Golf Carts (at least one with cargo box)

Supplies:

- 200 Pallets per week (number may vary with activities)
- 100 double or triple wall pallet/Gaylord boxes (re-order capability)

- 1000 Boxes (200 small, 600 medium, 200 large) (re-order capability)
- 24 Rolls 15”x1500’ stretch wrap (re-order capability)
- 2 Stretch wrap handles
- 9 Tape guns
- 9 Cases 2” packing tape (re-order capability)
- 6 Rolls yellow caution tape
- 2 Dozen retractable box knives with extra blades
- 6 30-40 Gallon trash cans
- 6 Wastebaskets
- 2 Push brooms
- 2 Dustpans
- 1 Mop
- 1 Mop bucket
- 1 Basic first aid kit
- Office supplies:
    - 2 4’x8’ White boards
    - 12 Stackable letter trays
    - 1 Case copy paper
    - 2 Dozen 8 ½”x11 ¾” writing pads
    - 6 3” Three-ring binders
    - 2 Sets alphabetical tab dividers
    - 12 3”x3” Post-it notes
    - 1 Dozen clipboards
    - 6 Scissors
    - 1 3-Hole paper punch
    - 2 Standard staplers
    - 2 Boxes standard staples
    - 2 Tape dispensers
    - 1 Dozen rolls ¾” transparent tape
    - 100 File folders
    - 1 Dozen dry erase markers
    - 5 Dozen black permanent markers
    - 4 Dozen pens
    - 1 Pencil sharpener
    - 4 Dozen No. 2 pencils
    - 6 Boxes regular paper clips
    - 2 Boxes jumbo paper clips

Subject: Flint Purchasing Memo

Capt.

Was just talking to Jeanette about that Flint Purchasing Memo that Jeff Brownlee drafted late last week. We discussed it in a meeting that Sherri and I attended on Tuesday with SBO and DTMB and Jeff Brownlee sent it to Department Directors and Purchasing Managers for all state agencies that afternoon. I received it from Jeff Brownlee on Wednesday afternoon and have already forwarded that memo to ALL state EM's, alternate EM's and SEOC staff. I sent it yesterday morning – procurement falls under Finance in the SEOC so I made sure they all got it. There hasn't been any confusion that I am aware of.

Just wanted to let you know there is no need for it to be sent again.

Thanks,
Penny

Subject: FW: GFS Purchase on Jan. 24, 2016 from Okemos Store w/VISA
Attachments: GFS - Flint Disaster (pur. Jan. 24, 2016)--from Okemos location with VISA.pdf

Hi Jeanette
We are not going to Gordons so if you want to use the account again with the Visa that is up to Penny.
They might ask for Carol Wolfinger's approval since she primary on the account, but maybe not if you put it on charge. What office was this for in Flint? It was nice to find out why that happened as Renee Osborne and I didn't know why there was a coffee pot charged to a Visa on the Gordons account.
Thanks
Michelle

Michelle,

Attached is a copy of the invoice/receipt for the Jan. 24, 2016 purchase (which included the coffeemaker) that was paid with a VISA.

Renée

Subject: Employee Time

Kathy –

Please provide regular and overtime worked by OIP employees on the Flint water response effort and enter it on the attached spreadsheet. I have my hours recorded already as my time began January 6. No sure about the regular time, but it is best to provide it now.

If you could provide this on Monday, I will work with Dane on the financials.

Thank you

Jeanette

Subject: printed materials?

Haven't been able to get away from here to be there this morning, so wanted to follow up.

Have we been able to determine if printed copies of the various informative handouts are available for distribution through our people on the street? I you think this is a good way to get information out, we'll be glad to help facilitate it.

Thank you.

John,

The mailbox is created. However there was a problem with the 2pm FIMsync which we are working on. So no one in the cloud is going to be able to see the mailbox and I haven't been able to migrate it yet. I will let you know when we get that fixes and can get it migrated to the cloud.

Good morning Janet-

I just wanted to touch base and let you know that I have not received an insurance certificate from you so at this point I will have to put our insurance on all of the rentals. It will be for $10 per day with a $1,000 deductible. This also does not cover any type of overhead damage. Once I receive your insurance certificate I can take ours off. Please let me know if you have any questions

Subject: Rental Information

Good morning Janet-

I have attached all of the active contracts for the rental units you are still currently in. I have also attached the insurance requirements in order to provide your own insurance on the rentals. Please let me know if you have any questions or corners about that. I do need it by the end of the day tomorrow or I will have to put our insurance on file and bill it at a cost of $10 per day until we receive your insurance. Again, let me know if you have any questions or concerns. Have a great day!

Warm regards,

Taylor Brown
Penske Truck Rental
Branch Rental Manager

Dear Insurance Agent:

The following are the requirements of Penske Truck Leasing Co., L.P. for a certificate of insurance:

VAN/CUBE/STRAIGHT TRUCKS:

- $1,000,000 combined single limit coverage
- $75,000 physical damage insurance
- Penske Truck Leasing Co., L.P. and its partners are listed as additional insured and loss payee for all vehicles leased and / or rented.
- **(THE ABOVE STATEMENT MUST BE IN THE DESCRIPTION SECTION ON THE INSURANCE CERTIFICATE)**

TRACTOR / TRAILER:

- $1,000,000 combined single limit coverage
- $125,000 physical damage insurance
- Penske Truck Leasing Co., L.P. and its partners are listed as additional insured and loss payee for all vehicles leased and / or rented.
- **(THE ABOVE STATEMENT MUST BE IN THE DESCRIPTION SECTION ON THE INSURANCE CERTIFICATE)**

The policy number and the expiration date must accompany all of the above information.

The certificate holder will be Penske Truck Leasing Co., L.P. at the address listed below:

Sincerely,

Ryan Cousineau

THE PURCHASE OF OPTIONAL VEHICLE PROTECTION IS OPTIONAL AND MAY BE DECLINED. YOU ARE ADVISED TO CAREFULLY CONSIDER WHETHER TO PURCHASE THIS PROTECTION IF YOU HAVE A RENTAL VEHICLE COLLISION COVERAGE PROVIDED BY YOUR CREDIT CARD OR AUTOMOBILE INSURANCE POLICY. BEFORE DECIDING WHETHER TO PURCHASE OPTIONAL VEHICLE PROTECTION, YOU MAY WISH TO DETERMINE WHETHER YOUR CREDIT CARD OR VEHICLE INSURANCE AFFORDS YOU COVERAGE FOR DAMAGE TO THE RENTAL VEHICLE AND THE AMOUNT OF DEDUCTIBLE UNDER SUCH COVERAGE.

Customer/Authorized Signatory

From: Caterino, Matt (DTMB)
Sent: Wednesday, February 10, 2016 10:34 AM
To: Doll, Jeanette (DTMB)
Subject: authorized activator email being sent out
Attachments: Call-List-Plan-Agency(5).pdf

To whom it may concern,

Agencies have been building Business Continuity Plans (BCP) using the DTMB Plan Building tool named MiCMS, or Sungard – Living Disaster Recovery Planning System (LDRPS) for some time now. Many of the Business Continuity plans built in MiCMS contain "call lists" that can be used for emergency notifications. We have compiled a list of people that are considered to be the potential "Authorized Activators" of these call lists.

Please note that these BCP's are separate from any call lists in Disaster Recovery plans as these plans are IT Application/Hardware related and are the responsibility of the DTMB representatives that are liaisons to the agency.

You are receiving this email because you have either been part of building a Business Continuity Plan (BCP), you are a designated Continuity of Operations (COOP) representative, you are designated as a Building Closure representative or you are designated as an Emergency Coordinator. Your name is included in an "Authorized Activator" listing located here: http://inside.michigan.gov/sites/dtmb/CIP/mcs/AR/Lists/Agency%20BCP%20Call%20Activation/AllItems.aspx

As a key part of the Call List activation procedures during an emergency, these people would be the ONLY individuals with the authority to authorize the activation of a call list contained in any BCP for their Agency. Data Center Operations (DCO) will work with these individuals and attached is the detailed procedures for the activations. The procedure contains detailed instruction on what number to call as well as the specific information that will be requested if/when a call list would need to be activated. <attach procedure to each email>

Listed below are the names of the BCP's, as well as a listing of each of the call lists that each plan contains that you have the authority to potentially activate. (NOTE: we are working on an automated way in Sharepoint for this same information to be available.) Additional plans can/will be added to the list as they are created in the future.

<insert listing here>

Please "reply all" to this email with any questions and/or concerns about any of the information above or for any additional information.

Hi Michelle!

Could you order the following from the Flint GFS store?

30 cup coffee maker
1 case of coffee
1 case of 12 oz Styrofoam cups
12 tubes of sugar
2 boxes of coffee stirrers

Please reply to this email if you are able to place the order and when it will be available for pickup. Could you let them know that we will be exchanging a 30 cup coffee maker from our purchase on 1/24/16 that does not work?

Thank you!

The Bluewater filters are not NSF/ANSI 53 for lead reduction.

Could we have someone look into the water purifier (attached) to see if it meets NSF standards? The unit was already installed in a couple locations within Flint (below) and would like to make sure the unit will not need to be replaced.

Thank you –

Jeanette

Jeanette

As we previously discussed, you are my contact to triage and route external inquiries. Bluewater called me this morning, and I requested an email with more information.

It is unclear to me whether this unit meets the standards used for the faucet water filter sourcing. Can a resource be identified to check? If not, someone may want to consider reaching out to the two locations that received donated units.

Thanks for routing this into the correct hands.

Rebecca

Subject: Bluewater water purifiers help Flint

Hi Rebecca,

It was nice talking to you this morning, we will appreciate if you can read this email and forward to related team who in charge of procurement for Flint water crisis.

Bluewater is a Swedish company that has innovated a patented second-generation reverse osmosis technology which turns tap water into healthier drinking water by removing up to 99% of almost all known water-borne contaminants; plus, cuts the water wastage common to traditional reverse osmosis systems by up to 82%.

Bluewater has been selling in the USA for the past 18 months, based out of Overland Park, Kansas, where we also have our warehouse that serves customers across the United States. We are a sister company to Blueair, which is one of the major air purifier companies in the United States, based out of Chicago.

Last week saw us donate and install two of our high performance water purifiers in Flint, Michigan, in response to their crisis as our water purifiers excel at removing lead and other toxic metals from residential drinking water. While we applaud people donating water bottles, it is only a short term solution, whereas as water purifiers are both a short-term and a long term solution.

One Bluewater Pro machine was installed at the Community Center at Catholic Charities of Shiawassee and Genesee Counties, where they serve 1,000 meals every day to local residents. The other unit was installed at Shelter of Flint, the largest shelter at Flint.

Both units were installed by Bluewater's Product Manager who traveled to Flint personally. FYI, many bottled water brands in the USA use reverse osmosis to purify their water. Using a Bluewater unit is a cheaper long-term option that also contributes to a better environment because they negate the need for plastic bottles as they deliver purifier water 'on demand'. (a side note, as you may already know, "Pepsi Admits That Its Aquafina Bottled Water is Just Tap Water, Coca-Cola's Dasani Is Next" see news of today http://healthycures.org/pepsi-admits-that-its-aquafina-bottled-water-is-just-tap-water-coca-colas-dasani-is-next

The Bluewater Pro400 reverse osmosis water purifiers we donated to Flint can produce 52 gallons of purified water per hour, which means we can supply 2,700 people a total of two liters of clean water free of lead and other toxic metals every day. This translates into saving 4,800 one-liter bottles being put into the environment every day!

The compact Pro is designed for professional use, in restaurants, hotels, schools, hospitals and laboratories. Installing just 38 of our units in Flint would deliver the 100,000 residents two liters of totally clean water every day - meeting their basic daily human health need for drinking water.

Bluewater harnesses our own patented second-generation reverse osmosis technology, which removes practically all toxic contamination from tap drinking water including lead. The other contaminates we remove include other heavy metals, pesticides, medical residues, and dioxins and petro chemicals.

What also makes our water purifiers unique is that our unique technology ALSO radically increases the efficiency of water treatment, which translates into a Bluewater unit using 82% less water to generate clean water than a traditional reverse osmosis unit.

Reverse osmosis technology purifies water by forcing untreated water through a semi-permeable filter or 'membrane'. Bluewater membranes will block toxic metals and chemicals down to 0.0001 micron (that's 500,000 times smaller than a human hair). Our technology also delivers water 'on-demand', which means no need for a holding tank

As a business, we cannot afford to donate an endless number of units free to Flint, but due to the special nature of the situation (and the fact that most of us are parents of small children and have huge sympathy for those impacted by the crisis) we want to step up even more by offering Michigan State prices that are very substantially discounted. In fact, we want to offer you a one-off purchase opportunity that sees us offering you our products at the manufacturing price (i.e. we make no margin on the deal).

This would see the products we recommend you consider coming in at:

Pro 400C-HF(high flow) (this is the model we donated to Flint) $1920 + shipping
(suitable for professional use, hospitals, labs, restaurant, coffee shop, office building)
- Superior Osmosis Technology
- Direct flow, no need of tank
- Capacity up to 52 gallon per hour
- Clean water delivery rate of 52 gallon per hour
- Cleaning brackish water, up to 7500 ppm
- water quality monitor
- Calibration of cleanliness
- Advanced leak protection system
-Clean water per kWh: 433L/kWh (114.3gallon/kWh)
-Clean water rate: 222L/hour (58.6 gallons/hour)
-Dimensions: 225 x 466 x 460mm (8.9 x 18.3 x 18.10 inch)
-Weight: 29kgs (64lb)
-Water recovery rate: 60-70%

<u>The other two models we could consider as an alternative (the only difference is that the water flow is less powerful) are:</u>

Spirit 300-HF(high flow) $1350 + shipping
Compact design that fits into any contemporary kitchen
- Designed for Municipal water
- Superior Osmosis Technology
- Capacity up to 43.2 gallon per hour
- Director Flow, no need of tank
- Extra compact Design
- Advanced leak protection system
- Clean water per KWh: 377L/kWh (99.5 gallons/kWh)
- Clean water rate: of 99L/hour (26.2 gallons/hour)
- Dimensions: 150 x 462 x 365 mm(5.9 x 18.2 x 14.4 inches)
- Weight: 15 kgs (33lb)
- Water recovery rate: 40-60%

Spirit 300Cp-HR(high rejection) $1500 + shipping

Compact design that fits into any contemporary kitchen, can connect to dish washer, coffee maker, ice machine/refrigerator
- Designed for Municipal water
- Superior Osmosis Technology
- Capacity up to 43.2 gallon per hour
- Director Flow, no need of tank
- Extra compact Design
- Advanced leak protection system
- Clean water per KWh: 377L/kWh (99.5 gallons/kWh)
- Clean water rate: of 99L/hour (26.2 gallons/hour)
- Dimensions: 150 x 462 x 365 mm(5.9 x 18.2 x 14.4 inches)
- Weight: 15 kgs (33lb)
- Water recovery rate: 40-60%

Please do not hesitate to get back if there is anything additional information you need from us. Attached is our catalog and photo how it looks in the kitchen.

Here are two reference you can contact at Flint, they are using our donated water purifiers now for producing pure water

Jennifer,

Thank you for the write up. This will help as I am forwarding these issues onto management. When you have someone in your space call the parking office with the plate number and park your vehicle in the random section. In the meantime,

we will attempt to locate the person parked in your space and notify facilities. Leave a phone number with us so we can call you when the vehicle has moved out of your space.

Happy New Year and make your day exceptional,

Tammy Brennan

Subject: Parking Issues- Genesee County Union St.

Since the Flint water oversight began, it is rare that I am able to park in my assigned parking spot, spot 31. I have had this spot assigned to me since November of 2012. Since the Flint water crisis oversight began, I have had my spot unoccupied about three times, allowing me to park there. Every day I come in, my spot is usually occupied. I report it to building security and will now start reporting it to Central Office, as instructed. The building security is great about handling the situation but new cars park in my spot on a daily basis. I also know that security has been telling people to park on the upper levels, because I see them do it. People aren't listening to them. There has even been one occasion that security has had a car moved from my spot, and another car took that as an opportunity to take my spot before I could, within an hour of the other car moving. I arrived today at 11:30 and the car that was in my spot when I arrived is still there. As a mobile employee, it is frustrating to pay double the parking fee for a covered and reserved spot parking that I cannot use unless I come into the office at 8am, which is rare. I am not the only one having these issues. It is not fair to me to have to pay extra to have to park in a random spot that is uncovered, because people do not want to follow protocol that they are made aware of. I am hoping that some type of compensation can be issued for the difference between what I am paying for parking and the standard parking fee for our office, until I am able to reliably use my assigned spot. Thank you in advance for your assistance.

Subject: RE: Gordon Order
Attachments: Signed Tax Exempt Certificate.pdf

Hi Jeanette
2 options
I spoke with Marie the manager at the Edgewood store as our rep hasn't returned out call yet. She spoke with the manager at the Flint store.

Option 1: The person can go to the Flint store and have them call Renee Osborne at 517-322-5519 to get permission to use the account. If someone is going to access our account I'm sure Renee would appreciate knowing who is going ahead of time so she can approve it. I appreciate the fact that Gordon's is being a little particular as we do want our account to stay secure. Renee is only working until 5 pm.

Option 2: Have them take this tax exempt form and just use their Visa and they wouldn't need our account at all.

I would think the second option would be the least amount of hassle anytime they want to go.

Thanks
Michelle

Subject: Gordon Order

Hi Michelle!

Could you order the following from the Flint GFS store?

30 cup coffee maker
1 case of coffee
1 case of 12 oz Styrofoam cups
12 tubes of sugar
2 boxes of coffee stirrers

Please reply to this email if you are able to place the order and when it will be available for pickup. Could you let them know that we will be exchanging a 30 cup coffee maker from our purchase on 1/24/16 that does not work?

Thank you!

Jeanette Doll, Professional Emergency Manager

Subject: Facility Notification: Flint State Office Building

Flint Drinking Water

Details:

An advisory has been issued by the City of Flint asking water customers within a defined area (see attached notice and map) to boil water before using it. However, the Flint State Office Building does not fall within the identified area. DTMB continues to offer tap and bottled water in public areas on each floor as options in the Flint State Office Building.

Hi Jeanette
2 options
I spoke with Marie the manager at the Edgewood store as our rep hasn't returned out call yet. She spoke with the manager at the Flint store.

Option 1: The person can go to the Flint store and have them call Renee Osborne at 517-322-5519 to get permission to use the account. If someone is going to access our account I'm sure Renee would appreciate knowing who is going ahead of time so she can approve it. I appreciate the fact that Gordon's is being a little particular as we do want our account to stay secure. Renee is only working until 5 pm.

Option 2: Have them take this tax exempt form and just use their Visa and they wouldn't need our account at all.

I would think the second option would be the least amount of hassle anytime they want to go.

Thanks
Michelle

Hi Michelle!

Could you order the following from the Flint GFS store?

30 cup coffee maker
1 case of coffee
1 case of 12 oz Styrofoam cups
12 tubes of sugar
2 boxes of coffee stirrers

Please reply to this email if you are able to place the order and when it will be available for pickup. Could you let them know that we will be exchanging a 30 cup coffee maker from our purchase on 1/24/16 that does not work?

Thank you!

Subject: RE: Gordon Order

I have pre-approval for the state employee to come in and show their ID this one time and use our account. If they need to do this again they would need to get prior approval again. If they have any issues they can ask for Justin the store manager. We just need to make sure our account is secure.

Hope this works for you. I know she has the receipt for the coffee maker to exchange it and the manager said that wouldn't be a problem. That receipt does have our account number on it should they ask. Please make sure she keeps that receipt secure and sends me the cash register receipt so I can attach it to the invoice for payment.

If there are any other issues they can call Renee Osborne at 517-322-5519 who is the one on the account or myself at 517-284-3977.

Thank You
Michelle

Subject: Flint Water Tracking and Reporting

Hello, Everyone.

I am following up to the email that Penny Burger, State Emergency Operations Center sent informing you that the Office of Internal Audit would be contacting you to discuss your department's expenditures related to the City of Flint Water Emergency. We have reviewed the worksheets that you submitted to Penny which summarizes the total expenditures to date. We will use these worksheets as a starting point for reviewing the Flint Water expenditures recorded in MAIN. We be contacting each of you to make arrangements for us to meet and obtain a description of purchases or services you incurred and the MAIN coding used to record the expenditures.

Our objective is to ensure that all agencies are consistent in tracking, monitoring and maintaining sufficient documentation for the Flint Water expenditures.

Carol O'Callaghan, Audit Specialist or myself, will be contacting you this week or early next week. If you have any questions or concerns you may email us or please feel free to contact me at [redacted] or Carol at ([redacted]

Thank you,

Daphne Hobson

Audit Manager

Subject: Inquiry from National TV/Radio Newshour Democracy Now!

Dear Steve Rigg,

My name is Laura Gottesdiener, and I'm a reporter with the national TV/Radio newshour Democracy Now!
I have some questions about the bottled water purchases by the state of Michigan, and I was referred to you and your office by the governor's office.

Specifically, I'm seeking information about bottled water contracts from the $15.5 million appropriated for the Michigan Department of Health and Human Resources for field operations, nutrition support and the purchase of bottled water and filters for Flint.

Who are the primary contractors that the state is purchasing bottled water from, and at what rates? Can you please provide me with (or point me in the direction of) copies of the 2015 and 2016 contracts of all bottled water purchases related to Flint, Michigan?

You can reach me at 646-217-7223.

Gratefully,
Laura Gottesdiener

Hi Henrik, attached is the updated card. Can you look it over to make sure it is up to date please?

SEOC-lgc, this will need to go to DTMB when it has Henrick's approval ASAP.

Jeanette, just a heads up that this will be coming down the pipe.

Sorry this didn't get done sooner, I've been out since Thursday evening. Thanks

Subject: RE: Status of Schupan recycling instruction cards?

- I went ahead and ordered 3000 of the old cards for this weekend, since we have not received the updated card. They should arrive here at 8AM on Saturday just in time for this weekend's volunteer effort.
We really need the updated card for next week though.

- In addition to this, I would also ask that the additional location (comcast) and operating hours be added to the information flyer (see attached).

- Please also put the Spanish language information into the format of the flyer. The other day, we received a not formatted word document from the JIC with the translated information. There is an event with the Hispanic community tomorrow and they requested Spanish-language recycling information, which we cannot provide because we do not have an official-looking document.

- I met with someone from the County Planning Commission yesterday (they are responsible for solid waste management on the county level), and they noted that there is a lack of recycling information in the Flint Water Response Team email updates. I told him that I would expect official press releases related to recycling to be mentioned in the newsletter. He suggested that information on recycling should be in those emails constantly. For example, they include a list of the water resource sites, and he suggested that we could indicate which sites serve as bottle drop offs (for example with an asterisk), and that all sites receive Pur and Brita filter cartridges.

Thanks for your help,

Henrik

Following up on this. Schupan needs these cards ASAP, they are running out of them and can't hand out the bags without the cards. What is the status of getting these cards updated and printed? They really needed them this weekend.

I was just informed that the Volunteer Reception Center is expecting a group of 60 volunteers that could use these cards on the weekend.
Please update the card as soon as possible, so we can go to print.

I apologize for the short notice, just found out myself.
Henrik

All,

I would need another document updated for a print order. Please see the initial recycling information card attached to this email.

For the recycling locations listed on the left, we would need to add a location including operating hours. If we do that, we should also include the hours for the Fire Stations (Daily, 9AM - 9PM).
Here the additional location:
Comcast Service Center
3008 Airpark Dr S
Flint, MI 48507
Monday to Friday, 10AM - 5PM
Saturday, 10AM - 1 PM

Thank you!
Henrik

Hi Henrik, attached is the updated door hanger. Please let me know if I can help further.

I don't know if this is the translated document or not. The formatting has been stripped, but it is a recycling document in Spanish.

Subject: Recycling material update / spanish-language translation

All,

In preparation of a print order, we would need an updated version of the attached recycling door hanger (initially designed by Trevor Hawks):
- The Keep Genesee County Beautiful logo at the bottom of the door hanger needs to be removed (the organization has withdrawn the authorization for use of their logo on any materials that are associated with the state response).
- The information regarding sign-up for curbside recycling ("Call Republic Services at 1-800-438-0966 to have a recycling bin delivered to your door.") needs to include the following times at which the referenced hotline is available: Monday to Friday, 8AM-5PM and Saturday, 8AM-12PM.

Also, a translation into Spanish for the "HOW TO RECYCLE WATER BOTTLES AND WATER FILTERS IN FLINT" flyer attached to this document was being developed through the JIC. Is there an update on the status of a translated version yet?

Thank you very much for your help,

Subject: RE: Status of Schupan recycling instruction cards?

- I went ahead and ordered 3000 of the old cards for this weekend, since we have not received the updated card. They should arrive here at 8AM on Saturday just in time for this weekend's volunteer effort.
We really need the updated card for next week though.

- In addition to this, I would also ask that the additional location (comcast) and operating hours be added to the information flyer (see attached).

- Please also put the Spanish language information into the format of the flyer. The other day, we received a not formatted word document from the JIC with the translated information. There is an event with the Hispanic community tomorrow and they requested Spanish-language recycling information, which we cannot provide because we do not have an official-looking document.

- I met with someone from the County Planning Commission yesterday (they are responsible for solid waste management on the county level), and they noted that there is a lack of recycling information in the Flint Water Response Team email updates. I told him that I would expect official press releases related to recycling to be mentioned in the newsletter. He suggested that information on recycling should be in those emails constantly. For example, they include a list of the water resource sites, and he suggested that we could indicate which sites serve as bottle drop offs (for example with an asterisk), and that all sites receive Pur and Brita filter cartridges.

Thanks for your help,

Henrik

Subject: RE: Status of Schupan recycling instruction cards?
Attachments: 02_15_Informational Card.pdf

All,

The attached card looks good to everyone involved on our end here, so it can go to print. Don't know if we need to obtain approval again from SEOC, since the content changed slightly.
Print of 10,000 cards was requested by JIC when the resource request was entered into MI CIMS. We might as well bump it up to 15,000, if possible. If not, 10,000 will at least last us over the next weekend.

The only additional question that I have is the following: Volunteer Reception Center and Schupan Recycling (they provide the trailers at the stations and donate the recycling bags) are asking if it would be an option to print stickers instead of post cards - that way they would not have to be stapled to the bags, which would mean faster assembly and no potential damage to the bags.
I told them that this would probably not be cost effective, but told them that I would ask either way.

Thanks
Henrik

Subject: RE: Status of Schupan recycling instruction cards?

- I went ahead and ordered 3000 of the old cards for this weekend, since we have not received the updated card. They should arrive here at 8AM on Saturday just in time for this weekend's volunteer effort.
We really need the updated card for next week though.

- In addition to this, I would also ask that the additional location (comcast) and operating hours be added to the information flyer (see attached).

- Please also put the Spanish language information into the format of the flyer. The other day, we received a not formatted word document from the JIC with the translated information. There is an event with the Hispanic community tomorrow and they requested Spanish-language recycling information, which we cannot provide because we do not have an official-looking document.

- I met with someone from the County Planning Commission yesterday (they are responsible for solid waste management on the county level), and they noted that there is a lack of recycling information in the Flint Water Response Team email updates. I told him that I would expect official press releases related to recycling to be mentioned in the newsletter. He suggested that information on recycling should be in those emails constantly. For example, they include a list of the water resource sites, and he suggested that we could indicate which sites serve as bottle drop offs (for example with an asterisk), and that all sites receive Pur and Brita filter cartridges.

Thanks for your help,

Henrik

All,

I would need another document updated for a print order. Please see the initial recycling information card attached to this email.

For the recycling locations listed on the left, we would need to add a location including operating hours. If we do that, we should also include the hours for the Fire Stations (Daily, 9AM - 9PM).
Here the additional location:
Comcast Service Center
3008 Airpark Dr S
Flint, MI 48507
Monday to Friday, 10AM - 5PM
Saturday, 10AM - 1 PM

Thank you!
Henrik

Subject: Recycling material update / spanish-language translation

All,

In preparation of a print order, we would need an updated version of the attached recycling door hanger (initially designed by Trevor Hawks):
- The Keep Genesee County Beautiful logo at the bottom of the door hanger needs to be removed (the organization has withdrawn the authorization for use of their logo on any materials that are associated with the state response).
- The information regarding sign-up for curbside recycling ("Call Republic Services at 1-800-438-0966 to have a recycling bin delivered to your door.") needs to include the following times at which the referenced hotline is available: Monday to Friday, 8AM-5PM and Saturday, 8AM-12PM.

Also, a translation into Spanish for the "HOW TO RECYCLE WATER BOTTLES AND WATER FILTERS IN FLINT" flyer attached to this document was being developed through the JIC. Is there an update on the status of a translated version yet?

Thank you very much for your help,

Henrik Hollaender

TAKING ACTION ON FLINT WATER
www.mi.gov/FlintWater

Schupan recycling
Problem solved.

Recycle.

Do The Right Thing!®

In just three easy steps, you can help keep Flint green by recycling your used water bottles!

Fire Station 1:	Fire Station 5:	Fire Station 8:
310 E 5th St	3402 Western Rd	202 E Atherton Rd
Flint, MI 48502	Flint, MI 48506	Flint, MI 48507

Comcast Service Center
3008 Airpark Dr S
Flint, MI 48507
Monday to Friday, 10AM - 5PM
Saturday, 10AM - 1 PM

HOW TO RECYCLE

1. When you receive your case of water, you will receive a recyclable bag.
2. Fill the bag with your empty water bottles (cap on).
3. Return the bag at one of the listed locations.

Subject: RE: Status of Schupan recycling instruction cards?

All,

The attached card looks good to everyone involved on our end here, so it can go to print. Don't know if we need to obtain approval again from SEOC, since the content changed slightly.
Print of 10,000 cards was requested by JIC when the resource request was entered into MI CIMS. We might as well bump it up to 15,000, if possible. If not, 10,000 will at least last us over the next weekend.

The only additional question that I have is the following: Volunteer Reception Center and Schupan Recycling (they provide the trailers at the stations and donate the recycling bags) are asking if it would be an option to print stickers instead of post cards - that way they would not have to be stapled to the bags, which would mean faster assembly and no potential damage to the bags.
I told them that this would probably not be cost effective, but told them that I would ask either way.

Thanks
Henrik

Thank you very much! I apologize, I overlooked an additional item that would need to changed:
Under 3. on the right side of the card, can we maybe change the message to "Return your bag at one of the listed locations" instead of "Return your bag when you pick up your next case of water"? I think Comcast distributes filters, but not water, so that message might be confusing.

Again, I'm sorry, I did not notice that until now.

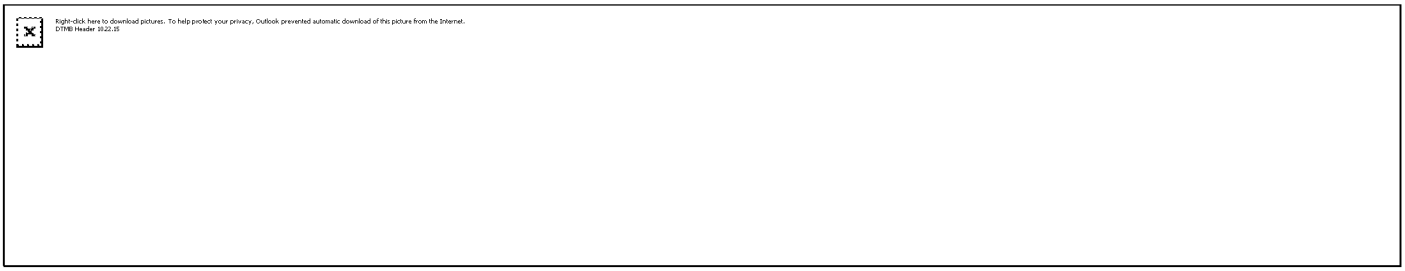
Subject: The Gov. Snyder's Budget Proposal



Good morning everyone. I hope everyone had a great holiday weekend.

I had the good fortune to travel to Marquette on Monday with Chad Laidlaw, DTMB's policy and planning analyst, to meet with city, business and university leaders and to address the Economic Club of Marquette. I told them about the many things DTMB does, placing special emphasis on our work in mobility and cybersecurity. Marquette is really developing and making its mark as an innovative and entrepreneurial community.

Now work.

The executive budget Gov. Snyder presented last week outlined his investment plan for Michigan. Yes, the proposal for fiscal year 2017-18 outlined a strategy to address the critical challenges of addressing the Flint water crisis and turning around Detroit's Public Schools, but the $54.9 billion plan also includes investment in four key areas:

- **Education.** The budget increases investment to K-12 schools, community colleges and the state's public universities. Additional funds are proposed to expand career, technical, science, technology, engineering and math programs.
- **Protecting the Public.** The governor's plan expands the Secure Cities program, which has reduced violent crime in four major Michigan cities. Funds also would support an additional trooper recruit school and an academy to train corrections officers, among other initiatives.
- **Putting People First.** The governor recommends continued expansion of the Healthy Kids Dental Program and funding efforts to ensure residents have access to affordable health care. His proposal boosts funds to help cover new higher cost specialty medications to treat conditions such as hepatitis C and cystic fibrosis, among others.
- **Investing in Infrastructure.** The proposal allocates $1.2 billion to maintain and repair Michigan roads, bridges and other critical infrastructure.

The budget proposal also includes FY 2017-18 funding recommendations for DTMB. Gov. Snyder recommends ongoing funding of $1.3 billion for department operations and a one-time allocation of $32.4 million.

A few highlights include:

- $502 million for information technology support for all state agencies and $132.8 million for 14 high-priority IT projects in seven agencies. He recommends increasing the Information Technology Investment Fund by $7 million, from $65 million to $72 million. This fund supports several major multiyear IT projects and upgrades, including the replacement of outdated legacy systems.
- An additional $5 million to support cybersecurity improvements to safeguard citizens' personal information and protect critical infrastructure and government services.
- IT support of $6.5 million to modernize the Office of Retirement Services' systems and enhance customer service for more than 530,000 current and future retirees.

You can see the full executive budget recommendations, which are posted on the Budget Office website. Details of DTMB's proposed budget begin on page B-75.

We can expect to see many changes before the budgets are signed and become effective Oct. 1. The executive budget will be used by the House and Senate Appropriations Committees as they work on their own budgets and hold committee hearings on the proposals. I'll keep you posted as the process moves ahead.

As always, I welcome your notes, whether about the budget process or any other topic. Please send them to me at behend@michigan.gov.

Thank you again for all the good work you do. I hope you have a great week ahead.

David

Importance: High

Hi Chris,

DHHS needs specific software pushed to two new staff who are working on the blood lead data for Flint as quickly as possible. The software is Lotus Approach 97 (an older relational database) and ZP4 (zip code software). DHHS is in the process of migrating to a new system but, until that migration is complete, they need to use the requested software to work with the data. We requested a standards exemption through the appropriate process; however, as I understand it, the review committee has concerns with the age of the software and the EULA. They have a meeting scheduled for tomorrow afternoon to discuss.

I'd like your direction on how to proceed. 1) receive your approval now and immediately provide the software to customers (we have the discs) or 2) wait for the meeting with the exceptions committee tomorrow afternoon and update you with the results.

Below is the an email from the customer seeking DTMB escalation.

Please let me know if you have any questions.

Susan.

Subject: getting DTMB to approve a software installation for new lead staff
Importance: High

I am requesting an intervention at DTMB to ensure that DTMB approves our request to have Lotus Approach and ZP4 installed on the computers of
Dan Albright and Veronica Tijerina, two new staff working on our blood lead data. This is essential for our timely an accurate response to the lead poisoning problem in Flint. The blood lead surveillance data have been managed using Lotus approach for many years, and although it will be retired once the new surveillance system goes live, in a number of months, it is essential that the new staff have access to the current data management system in order to address all our issues and needs with the Flint water/lead response. In addition we are requesting an exception to have "ZP4" installed, a national file of addresses, which are used to verify and look up addresses; it is essential that we can verify the addresses of individuals reported by laboratories with their blood lead test results.

Because Lotus and DP4 are no longer a DTMB-approved applications, our request has to go to a DTMB "Exceptions Committee" meeting tomorrow. Our request is being presented to the Exceptions Committee by a DTMB staff, Nick Gates, who has been working on this, but I am requesting that MDHHS reach out to Linda Pung (pungL2@michigan.govjand Susan Nordyke (nordykes@michigan.gov), who are higher up than Nick at DTMB, to emphasize the importance of approving this exception and getting the installation of Lotus approach and ZP4 completed ASAP, so that we can get our new Flint lead staff on board now.

Thank you for your consideration.

Martha Stanbury, MSPH

DRINKING WATER LEAD AND COPPER SAMPLING INSTRUCTIONS FOR SENTINEL SITE SAMPLING ONLY

Thank you for helping to monitor for lead and copper in your drinking water.

It is important that you follow these instructions so we obtain an accurate measurement of the lead and copper in your drinking water.

Do not open the bottle until instructed in step 3. Do not touch the inside of cap or bottle.

1. **The water in the house must not have been used for a minimum of six (6) hours prior to sampling.** The best times to sample are early morning or after returning from work. **Do not flush the sample tap before sample collection.**

2. **Select a cold water faucet** in the **KITCHEN** or **BATHROOM** that is commonly used for drinking and has been used within the last 24 hours. **No other faucets are acceptable for collection.**

When was the faucet last used before sampling? Date _____ TIME _____ AM/PM

Is there a faucet-mount filter? ☐ YES ☐ NO If YES, was it bypassed? ☐ YES ☐ NO

Is this faucet connected to a home treatment device such as a water softener, a reverse osmosis unit, an iron removal device OR is any kind of additive used in the home? ☐ YES ☐ NO

If YES, please describe: _____

If YES, was it bypassed? ☐ YES ☐ NO

3. Open sample bottle and place below the faucet and gently open the **COLD** water tap. If you have a single handle faucet, turn it fully to the **COLD** side. Fill the sample bottle to within an inch of the top with the "first draw" of **COLD** water.

4. Tightly cap the sample bottle

If any plumbing repairs or replacement has been done in the home since the previous sampling event, please note this information here:

If YES, please describe: _____

5. Fill out the collection information on the front, answer the questions below and sign the form.

6. Attach this form to the bottle and leave outside your front door for pickup.

7. Thank you again for your help. We will send you your individual results within 30 days of receiving them from the laboratory.

If you have any questions contact:

DEQ's Environmental Assistance Center Phone: 1-800-662-9278

I have read the Drinking Water Lead and Copper Sampling Instructions and have taken a tap sample in accordance with these directions.

LEAD poisoning

Pregnant Mothers

Lead poisoning is caused by swallowing or breathing lead. Lead can pass from a mother to her unborn baby.

Too much lead in your body can:

- Put you at risk of miscarriage
- Cause your baby to be born too early or too small
- Hurt your baby's brain, kidneys, and nervous system
- Cause your child to have learning or behavior problems

1 What you can do:

Get your water tested for lead.

- You can't see, smell, or taste lead in water.
- The only way to know what your home's lead levels are is by having your water tested in a lab.

2 Use bottled water.

- The safest option for pregnant women and children under 6 years old is to use bottled water for drinking, cooking or making formula. Filtered water can be used only if your filter is NSF-certified to remove lead and you follow all instructions on how to use it/when to replace it.

Tip: Bottled water, NSF-approved water filters, and water testing kits are available for free at water resource sites across Flint. Call United Way 2-1-1 for a location near you.

3 Know when to use unfiltered water.

- It's safe to wash dishes, bottles, pacifiers and toys often with unfiltered soapy water as long as you dry fully before use.
- Unfiltered water can still be used to shower and bathe, but be careful to not get water in your child's mouth or let them drink the water in the tub.

4 Eat foods with calcium, iron and vitamin C.

These foods may help protect you and your unborn baby.

- Calcium is in milk, yogurt, cheese, and green leafy vegetables like spinach.
- Iron is in lean red meat, beans, cereals, and spinach.
- Vitamin C is in oranges, green and red peppers, broccoli, tomatoes, and juices.

5 Talk to your doctor.

- Blood lead testing is available. Talk to your doctor or local health department to learn more.

For more information about protecting yourself and your family from lead, visit www.michigan.gov/flintwater.

For more information about lead in your home and what you can do, call the Michigan Department of Health and Human Services at 1-888-322-4453 or visit www.michigan.gov/lead.

Flint residents can call the City of Flint Water Department for a free water test, 810-787-6537, or pick one up at a water resource site.

MEMORANDUM

TO: Tina Richardson

FROM: Jason Nairn, DTMB Office of Infrastructure Protection

SUBJECT: Automated External Defibrillators (AEDs)

The DTMB is committed to providing a safe work environment for all tenants in our buildings. In support of the endeavor, the Office of Infrastructure Protection (OIP) proposes an automated external defibrillator program to facilitate timely response and improve chances of survival when sudden cardiac arrest occurs within a DTMB-managed state-owned facility.

AED's are small portable machines used in conjunction with cardiopulmonary resuscitation and first aid after someone has experienced sudden cardiac arrest. AEDs are safe and easy to use with little or no training and will only work on individuals where there is no heartbeat. The AED will analyze the heart's rhythm and advise whether a shock is necessary.

Based on Red Cross recommendations, placement of an AED in the building lobby will allow the device to be accessed and taken throughout the building in less than three minutes. AED's will be located in unlocked alarmed cabinets next to the fire panel when possible, with a sign identifying the device.

The OIP has researched models available and have chosen the Philips HeartStart FRx defibrillator with its ease of use, loud and clear voice prompting, battery life, infant child key capability, CPR assistance and self-test capabilities.

OIP's responsibilities for the program will include:

- Writing and reviewing an AED policy for the department
- Designating an AED coordinator
- Purchasing, equipping, installing and maintaining AED's
- Coordinating training for employees identified as responders
- Retaining records of maintenance, testing and training
- Providing a Medical Emergency Plan
- Placing an AED back in service after use

Attached is a cost analysis for total equipment expenditures that would be needed to implement an AED program that includes a training device. Maintenance of the units would include purchase of replacement pads every two years.

Automated External Defibrillator Cost Analysis

Description	Units	Cost Per Unit	Totals
Philips® HeartStart FRx Defibrillator	35	$1,100.00	$38,500
35 Defibrillators, one per facility: Cadillac Place, Constitution Hall, Construction & Technology, Emergency Management Homeland Security Training Center, Energy Center, Escanaba State Office Building, Flint State Office Building, G. Mennen Williams Building, General Office Building, General Services Building, George W. Romney Building, Governor's Residence, Grand Rapids State Office Building, Grand Tower, Jackson State Office Building, Jerome T. Hart Building, John A. Hannah Building, Lewis Cass Building, Lottery Building, MDOT Photo Laboratory, MDOT Warehouse, MSP 1st District Post, MSP Forensic Laboratory, MSP Training Academy, Murray D. Van Wagoner Building, Operations Center, Ottawa Building, Records Center Building, Richard H. Austin Building, Secretary of State Building, State Joint Laboratory, Stevens T. Mason Building, Traverse City State Office Building, Vehicle & Travel Services Building, State Surplus Building DTMB-managed state-owned buildings that have an existing AED in the lobby: Hall of Justice, Joint Operations Center, Michigan Library and Historical Center, State Police Headquarters			
Carrying Case FRx Defibrillator	35	$80.40	$2,814.00
Surface Mounted Alarmed AED Cabinet	35	$134.043	$$4,691.51
CRP Fast Response Kit (mask, razor, gloves, etc.)	35	$25.20	$882.00
AED Wall Sign	35	$19.20	$672.00
HeartStart FRx Trainer	1	$207.00	$207.00
Adult Pad Placement Guide (To be used with trainer)	1	$15.60	$15.60
Total Cost Per Unit		$1,358.84	
Program Initial Total Cost			**$47,782.00**
HeartStart SMART Pads II Replacement Pads Every 2 years (all 39 buildings)	39	$37.50	$1,462.50

Subject: AED's in State Owned and Managed Facilities
Capitol Complex/Secondary Complex/Out State Facilities – Flint, Saginaw, Grand Rapids, Detroit, Traverse City, Escanaba State Office Buildings

Department Safety Coordinators,

DTMB- Facilities - Building Operations Division and the Office of Infrastructure Protection, would like to gather information regarding AED's. Many Departments have AED's installed in State Facilities and we would like to get the following information to compile a manual that will be housed with OIP Central Control and used as a tool in case of emergency. Please answer the attached form and return the information to morgand@michigan.gov

As your AED program grows or as time goes by you may have additional information or updates to that information, please share that with us so we can assure we have the most accurate info available. All updates and information can be sent via email.

If you have any questions or concerns please contact Dan Morgan at 517-241-4582 or by email at morgand@michigan.gov.

Thank you,

Dan Morgan

MEMORANDUM

TO: Phil Jeffery

FROM: Jason Nairn, DTMB Office of Infrastructure Protection

SUBJECT: Automated External Defibrillators (AEDs)

The DTMB is committed to providing a safe work environment for all tenants in our buildings. In support of the endeavor, the Office of Infrastructure Protection (OIP) proposes that an automated external defibrillator program be incorporated to facilitate timely response and improve chances of survival when sudden cardiac arrest occurs within a DTMB-managed state-owned facility.

AED's are small portable machines used in conjunction with cardiopulmonary resuscitation and first aid after someone has experienced sudden cardiac arrest. AEDs are safe and easy to use with little or no training and will only work on individuals where there is no heartbeat. The AED analyzes the heart's rhythm and advises whether a shock is necessary.

Based on the Red Cross and Centers for Health and Public Safety recommendations, an AED should be placed in an area that allows time to obtain the device and return to the patient within three minutes or at the absolute longest the device should be at the patient within five minutes. Placement of an AED in the building lobby would allow the device to be accessed and taken throughout the building in less than three minutes and will be located in unlocked alarmed cabinets next to the fire panel when possible, with a sign identifying the device.

DTMB's Safety and Health have begun providing first aid, CPR and AED training to State employees to ensure trained emergency responders are located throughout the buildings. They are also conducting an audit of all AED devices located in DTMB-managed state-owned facilities to include make, model, maintenance program and department responsible for the device.

The OIP has researched AED models available and suggest the Philips HeartStart FRx defibrillator with its ease of use, loud and clear voice prompting, battery life, infant child key capability, CPR assistance, reliability and self-test capabilities.

An AED program should include:

- Writing and reviewing an AED policy for the department
- Designating an AED coordinator
- Purchasing, equipping, installing and maintaining AED's

- Coordinating training for employees identified as responders
- Retaining records of maintenance, testing and training
- Providing a medical emergency plan
- Placement of an AED back in service after use
- Availability and usage for members of the public while in DTMB-managed state-owned facilities if trained responders are unavailable

Attached is a cost analysis for total equipment expenditures that would be needed to implement an AED program in all DTMB-managed state-owned facilities that includes a training device. Maintenance of the units would include purchase of replacement pads every two years.

After Safety and Health reports their audit findings, the number of AEDs required for the facilities may decrease and maintenance costs would increase based on the number of agencies who agree to incorporate their units into the overall program. To ensure that DTMB incorporates a comprehensive AED program, OIP would assign a project manager to ascertain that the AEDs are available and used correctly should the need arise.

Automated External Defibrillator Cost Analysis

Description	Units	Cost Per Unit	Totals
Philips® HeartStart FRx Defibrillator	34	$1,100.00	$37,400
34 Defibrillators, one per facility: Constitution Hall, Construction & Technology, Emergency Management Homeland Security Training Center, Energy Center, Escanaba State Office Building, Flint State Office Building, G. Mennen Williams Building, General Office Building, General Services Building, George W. Romney Building, Governor's Residence, Grand Rapids State Office Building, Grand Tower, Jackson State Office Building, Jerome T. Hart Building, John A. Subject: Re: AED Location

I have to find my cabinets again... With all this remodeling going on in flint they got tucked away in a corner and I forgot what corner?

I will make it a priority to be do this week.

We can do flint as well we know where things are going to layout now.

> Happy Friday!
>
> I know you were waiting for the lobby reconstruction before placing the AED cabinet at Saginaw, did this get completed? I am working on a listing of all AED locations for insidemichigan and need both Sag and Flint. Did you place the Flint one inside of the facilities office until the construction is complete?
>
> Also, we have a couple devices to place at Cadillac Place. Since there is a unit inside the security center – we will skip this floor (this way it won't disappear) and move up a few floors. The goal is to ensure anyone trained can reach the unit within a few minutes during an emergency. I know the AG and Judicial offices have units, so we will skip their floors. I'll probably get Dan Morgan to come and do a site visit so we are ADA compliant, but if you have any suggested sites please let me know.

Subject: BZ Exercise Input

Hi Jim -
As requested, I am providing feedback on the buffer zone exercise for your use:

Lessons Learned -
DTMB needs to ensure that agency emergency management personnel are trained in all aspects of an emergency, this includes security protocols.
DTMB will work on including Capitol Area Security Work Group information into our incident response plan. This will ensure that DTMB emergency management personnel have information available during an incident.
DTMB will work on incorporating additional contact information for DTMB-managed state-owned facilities located in other areas within the state (Grand Rapids State Office Building, Flint, etc.).

What went well / issues resolved -
1. Having DCH personnel available that are knowledgeable of the "Joint Lab" was a great help. They were able to provide feedback on work being performed in the building and how the incident occurring outside may affect performance along with questions on the "suspicious package".
2. Requested information from Emergent and someone from the table called right-away to discuss.

Recommendations -
1. DTMB should have had a presence at the command center. We have two DTMB-managed state-owned buildings in the buffer zone and we were not receiving any information of what was happening.
2. Our table did not receive any information regarding the suspicious package until we made a few calls and finally received a call back that the issue had been cleared already. If this were a real incident, DTMB would have had personnel with the bomb squad until a recommendation was made.
3. The Department of Environmental Quality did not have personnel at the exercise and they could have provided insight on work being performed in the building, as well as at their facility on Filley Street.
4. Suggest providing a cheat sheet on any acronyms that will be used or remind everyone not to use them.
5. An invite was not received by DTMB to the kick-off meeting held prior to the exercise. DCH personnel brought a packet of information received from the meeting and shared it with me (DTMB).
6. It seemed that not everyone was receiving the email notifications or text messages being sent out. One person at our table received a text notification that provided important information on the incident outside the facility. Without this information DTMB would not have called the bomb squad for the "suspicious package". Some boxes received in the facility move (could include a bat that someone thought was dead and in fact was not) and DCH personnel are aware of such happenings and what to do.

Thank you for letting us participate in the exercise, we definitely would like to be included in any future exercises.

Fire Drill Check List Sheet

Alarm notification received into Central Control _____

Ingham County Only

Contact Lansing Fire Dispatch Center and notify them of drill _____
(If fire system is online during drill)

Tenants in the Hall of Justice, Hannah, Ottawa, Constitution Hall, Van Wagoner, Williams, Austin, Library & Historical Center, Lewis Cass, Lottery, Romney, Grand Tower, State Laboratory, and Records Building will receive the following information:

(MSP HQ's will receive a revised notice to reflect the 3:30 PM drill scheduled for the building.)

To promote awareness of preparedness and safety during the severe weather season, the Michigan Committee for Severe Weather Awareness is sponsoring Severe Weather Awareness Week in Michigan from April 12-18, 2015. Attached is a Severe Weather Awareness packet provided by the Michigan Committee for Severe Weather Awareness with information on tornadoes, flooding, winter weather and communication methods. The MCSWA is a group of insurance and law enforcement professionals and meteorologists dedicated to raising awareness regarding severe weather in Michigan.

In conjunction with Severe Weather Awareness Week, the Department of Technology, Management and Budget (DTMB) will be conducting tornado drills in DTMB-managed state-owned facilities on Thursday, April 16 at 2 PM. DTMB will activate the "severe weather" message within the buildings to begin each drill. Once the drill is complete, DTMB will activate the "all-clear" message. Employees and visitors should follow appropriate procedures for their buildings during this drill.

Additionally, the City of Lansing will conduct testing of the city's outdoor sirens during this week.

For specific severe weather response information and procedures for DTMB buildings, please refer to the appropriate DTMB Facility Emergency Preparedness Guide available at: http://michigan.gov/dmb/0,4568,7-150-9141_58786_58788-259185--,00.html.

Flint, Saginaw, Jackson, Traverse City and Escanaba Buildings will receive:

To promote awareness of preparedness and safety during the severe weather season, the Michigan Committee for Severe Weather Awareness is sponsoring Severe Weather Awareness Week in Michigan from April 12-18, 2015. Attached is a Severe Weather Awareness packet provided by the Michigan Committee for Severe Weather Awareness with information on tornadoes, flooding, winter weather and communication methods. The MCSWA is a group of insurance and law enforcement professionals and meteorologists dedicated to raising awareness regarding severe weather in Michigan.

In conjunction with Severe Weather Awareness Week, the Department of Technology, Management and Budget (DTMB) will be conducting tornado drills in DTMB-managed state-owned facilities on Thursday, April 16 at 2 PM. DTMB will activate the "severe weather" message within the buildings to begin each drill. Once the drill is complete, DTMB will activate the "all-clear" message. Employees and visitors should follow appropriate procedures for their buildings during this drill.

For specific severe weather response information and procedures for DTMB buildings, please refer to the appropriate DTMB Facility Emergency Preparedness Guide available at: http://michigan.gov/dmb/0,4568,7-150-9141_58786_58788-259185--,00.html.

Secondary Complex will receive:

To promote awareness of preparedness and safety during the severe weather season, the Michigan Committee for Severe Weather Awareness is sponsoring Severe Weather Awareness Week in Michigan from April 12-18, 2015. Attached is a Severe Weather Awareness packet provided by the Michigan Committee for Severe Weather Awareness with information on tornadoes, flooding, winter weather and communication methods. STATE OF MICHIGAN

CERTIFICATE OF PROCLAMATION

ON BEHALF OF THE PEOPLE OF MICHIGAN

I, Rick Snyder, governor of Michigan, do hereby proclaim
April 12-18, 2015

SEVERE WEATHER AWARENESS WEEK

WHEREAS, Severe weather, in the form of thunderstorms, wind storms, floods and tornadoes, is a threat to the safety and welfare of all Michigan citizens; and,

WHEREAS, Each year, more than 1,000 tornadoes strike the United States, including an average of 15 in Michigan; and,

WHEREAS, Since 1950, 982 tornadoes have been reported in the State of Michigan, resulting in substantial loss of life and property; and,

WHEREAS, Michigan citizens are vulnerable to the devastating effects of tornadoes, flash floods and other severe weather in Michigan; and,

WHEREAS, There were several injuries and three deaths resulting from severe weather in 2014; and,

WHEREAS, Our citizens should be aware of the warning signs of severe weather and proper safety and emergency procedures; and,

WHEREAS, Each year, the State joins with the Michigan Committee for Severe Weather Awareness , other emergency management officials and the media, to educate the public about the dangers of tornadoes and other severe weather events and the precautions that can be taken to save lives and protect families;

NOW, THEREFORE, I, Rick Snyder, governor of Michigan, do hereby proclaim April 12-18, 2015 as Severe Weather Awareness Week in Michigan.

Rick Snyder
Governor

RICK SNYDER
GOVERNOR

2014 Severe Weather Review

Last year, Michigan had a near average number of tornadoes; however, it was the lightning, severe thunderstorm wind, hail, and flooding that was responsible for one death, 13 injuries and the most damaging severe weather season in Michigan's history. While tornadoes are nature's most violent weather, all forms of severe weather can have a huge impact on the State of Michigan. Michigan citizens need to be vigilant whenever severe weather is in the forecast, not only for tornadoes, but also for wind, hail, flooding and lightning.

Michigan experienced the most damaging severe weather event in its history in 2014. On August 11, four to six inches of rain fell over the most populated areas of Wayne, Oakland and Macomb counties in just a three- to four-hour period. The flood affected over 115,000 homes and business, thousands of vehicles and caused $1.8 billion in damages, according to National Weather Service.

According to the National Weather Service (NWS), there was one death and 19 injuries in Michigan from severe weather in 2014. The death occurred from a lightning strike on June 18 in Pittsfield Township in Washtenaw County. Among the reports of injuries, six injuries occurred from a single lightning strike in the Rifle River State Recreation Area in Ogemaw County on June 28, and another six resulted from severe thunderstorm winds on September 5. Five of those injuries occurred as a tent collapsed during a church festival in Dearborn Heights, despite a severe thunderstorm watch being issued by the NWS hours before, and a severe thunderstorm warning being issued over 30 minutes prior to the storm's arrival.

Flooding, severe thunderstorms and tornadoes in 2014 caused over $2 billion in damages, significantly more than the $277 million in damages the year before. 2014 followed a similar pattern as 2013, with fewer days of severe weather activity but, when it hit, the severe weather was more impactful, with higher winds, larger hail and significant damage in the State of Michigan.

Flooding

There were two significant flood events during 2014: the Southeast Michigan floods in August and the spring snowmelt floods in west central Lower and parts of Upper Michigan in April.

Rainfall amounts across Southeast Michigan on August 11 generally ranged from four to six inches, with most of the rain occurring in a three- to four-hour time period. Detroit Wayne County Metropolitan Airport (DTW) recorded 4.57 inches of rain on August 11. This marked the second wettest day in recorded Detroit weather history, which dates back to 1874 (July 31, 1925 – 4.74 inches). Many of the creeks, streams and rivers that feed the two main river systems in Metro Detroit, the Clinton and Rouge Rivers, also flooded. The Clinton River near Clinton Township and Ecorse Creek in Dearborn Heights reached record high stages.

The flooding closed many roads and freeways. Hundreds of vehicles were left stranded on area roads and freeways, necessitating the use of Michigan State Police dive teams to ensure no people were in those stranded vehicles. A few roads, embankments and bridges were damaged or destroyed by the flooding. Over 75,000 homes and businesses were damaged by flood waters, with another 40,000 affected. The total damage from the August 11 floods was estimated to be $1.8 billion. This event qualified for a Presidential Disaster Declaration for individual and public assistance.

A heavy snowpack from the extreme winter of 2013-2014 started to melt in April 2014. This melting snow in combination with some heavy rain resulted in nearly $8 million dollars in damage from flooding for portions of west central Lower and Upper Michigan. The high waters and thawing conditions led to the failure of the Wraco Lodge Dam on Wolf Creek in Roscommon County, and to ice jams along the Tecoosh, Rapid and Escanaba Rivers in Delta County. In all, over 500 homes and business were affected by the flooding with dozens of road closures.

Tornadoes and Severe Thunderstorms

In 2014, there were 13 tornadoes across the state, which is near the average of 15. Two days saw most of the tornado activity: July 6 and September 1. The first tornado on July 6 was an EF0 that moved from Iron County to Marquette County in Upper Michigan. There were four additional tornadoes around the midnight hour as July 6 turned to July 7 across southwest Lower Michigan. The most significant of these was an EF1 tornado in Kentwood that tracked for over 6 miles, damaging homes and causing six injuries. It was a Labor Day to remember across northern Michigan with 4 confirmed tornadoes, including several long-path tornadoes. The largest tornado occurred over eastern Otsego County, cutting a path through several neighborhoods. One person was briefly trapped at home by falling trees but, thankfully, there were no injuries or fatalities. Other damaging EF1 tornadoes occurred with isolated severe thunderstorms. Those tornadoes included June 11 in St. Charles (Saginaw County), June 17 in Hale (Iosco) and September 21 in Rochester Hills (Oakland).

The season's first severe weather event hit portions of southern Lower Michigan on April 12. A warm front that was set up across the state on Saturday served as the focus for multiple storms that traveled east across the middle of Lower Michigan. One storm was able to gather enough strength while moving into a more favorable environment to produce a swath of wind and hail damage from Muskegon to Mt. Clemens. This storm packed high winds up to 75 to 85 mph, and quarter-sized hail as it raced east. Damage included uprooted trees, downed power lines and building damage. April 29 brought a few severe storms to southern Lower Michigan. Up to golf ball size hail was reported with the storms, along with 50-60 mph wind gusts causing downed trees and power lines. These storms formed in association with a warm front that had set up across the area from an associated large low pressure system in the Midwest.

The last day of June and into the first day of July, experienced a line of severe storms form over the plains that quickly raced east across Iowa, Southern Wisconsin, Northern Illinois, Northern Indiana, and into southern Lower Michigan. Southern Michigan saw damaging winds move through during the evening hours on June 30 and the very early morning hours of July 1. A wind gust of 74 mph was measured at Brooks field in Calhoun County as well as in Wixom. A storm survey concluded that winds likely reached 80 to 90 mph just northeast of Albion in Calhoun County.

A powerful upper-level low pressure system dropped southward into the Great Lakes on July 27, sparking several rounds of severe thunderstorms across all of Lower Michigan. Over 120 reports of damaging winds and large hail were reported across Lower Michigan. Some of the storms were prolific hail producers, with hail up to 3" diameter (greater than baseball size) recorded near Midland, up to 2.50" diameter (tennis ball size) near the Highland/White Lake area, and up to 2" diameter in Kalamazoo. The most significant wind damage was reported over Metro Detroit. Total damage across Michigan was estimated to be over 100 million dollars from the severe wind and hail.

Multiple rounds of severe storms rolled across Southern Michigan on September 5, bringing widespread damaging winds. Winds up to 74 mph were reported as the storms raced east ahead of a cold front. The environment was primed for severe weather with temperatures reaching into the upper 80s and lower 90s, along with dewpoint temperatures reaching up into the 70s. About 400,000 homes and businesses in Southern Michigan lost power due to the severe thunderstorms and damage reached over $20 million.

Michigan Tornado History by County

The following is a list of tornadoes experienced by each county in Michigan.

County	1950-2014	2014	County	1950-2014	2014
Alcona	11	0	Lake	2	0
Alger	6	0	Lapeer	21	0
Allegan	29	0	Leelanau	4	0
Alpena	14	0	Lenawee	32	0
Antrim	9	0	Livingston	26	0
Arenac	7	0	Luce	3	0
Baraga	2	0	Mackinac	6	0
Barry	18	0	Macomb	21	1
Bay	13	0	Manistee	2	0
Benzie	4	0	Marquette	9	1
Berrien	31	0	Mason	5	0
Branch	17	0	Mecosta	9	0
Calhoun	16	0	Menominee	8	0
Cass	16	0	Midland	10	0
Charlevoix	4	0	Missaukee	8	0
Cheboygan	7	1	Monroe	33	0
Chippewa	6	0	Montcalm	11	0
Clare	8	0	Montmorency	6	0
Clinton	19	1	Muskegon	8	0
Crawford	12	1	Newaygo	13	0
Delta	11	0	Oakland	32	1
Dickinson	9	0	Oceana	5	0
Eaton	25	0	Ogemaw	14	0
Emmet	5	0	Ontonagon	3	0
Genesee	45	0	Osceola	16	0
Gladwin	9	0	Oscoda	5	0
Gogebic	3	0	Otsego	5	1
Grand Traverse	4	0	Ottawa	19	0
Gratiot	15	0	Presque Isle	6	0
Hillsdale	23	0	Roscommon	8	0
Houghton	1	0	Saginaw	24	1
Huron	13	0	Sanilac	15	0
Ingham	28	0	Schoolcraft	3	0
Ionia	19	2	Shiawassee	28	0
Iosco	13	1	St. Clair	21	0
Iron	7	1	St. Joseph	11	0
Isabella	13	0	Tuscola	17	0
Jackson	17	0	Van Buren	19	0
Kalamazoo	25	0	Washtenaw	27	0
Kalkaska	8	1	Wayne	29	0
Kent	32	1	Wexford	8	0
Keweenaw	2	0			

A single tornado can cross county lines. Therefore, the sum of the counties will not equal the total number of tornadoes statewide.

Thunderstorm and Lightning Safety

Preparing for a tornado or thunderstorm:

- Plan ahead. Be sure everyone in your household knows where to go and what to do in case of a tornado or thunderstorm warning.
- Know the safest location for shelter in your home, workplace and school. Load-bearing walls near the center of the basement or lowest level generally provide the greatest protection.
- Know the location of designated shelter areas in local public facilities, such as schools, shopping centers and other public buildings.
- Have emergency supplies on hand, including a battery-operated NOAA Weather Radio, flashlight, and a supply of fresh batteries, first-aid kit, water and cell phone.
- Keep a three-day supply of food on hand. Keep some food in your supply kit that doesn't require refrigeration. For more information on food safety following an emergency, visit www.bt.cdc.gov/disasters/poweroutage/needtoknow.asp.
- Make an inventory of household furnishings and other possessions. Supplement it with photographs of each room and keep it in a safe place.
- Sign up to receive text or e-mail alerts from your local media, weather provider or through an app.

What to do when a thunderstorm approaches your area:

- Stay tuned to your weather radio or local news station for the latest updates from the National Weather Service or go to the National Weather Service Web site, www.weather.gov
- Seek safe shelter when you first hear thunder, when you see dark threatening clouds developing overhead, or see lightning. Stay inside until 30 minutes after you last hear thunder or see lightning. Remember, lightning can strike more than 10 miles away from any rainfall.
- When you hear thunder, run to the nearest large building or a fully enclosed vehicle (soft-topped convertibles are not safe). It is not safe anywhere outside.
- If you are boating or swimming, get to land and seek shelter immediately.
- Telephone lines and metal pipes can conduct electricity. Any item plugged into an electrical outlet may cause a hazard during a tornado or thunderstorm. Do not use corded (plug-in) telephones except in an emergency.

What to do when a tornado warning is issued for your area:

- Quickly move to shelter in the basement or lowest floor of a permanent structure.
- In homes and small buildings, go to the basement and get under something sturdy, like a workbench or stairwell. If a basement is not available, go to an interior part of the home on the lowest level. A good rule of thumb is to put as many walls between you and the tornado as possible.
- In schools, hospitals and public places, move to the designated shelter areas. Interior hallways on the lowest floors are generally best.
- Stay away from windows, doors and outside walls. Broken glass and wind blown projectiles cause more injuries and deaths than collapsed buildings. Protect your head with a pillow, blanket, or mattress.
- If you are caught outdoors, a sturdy shelter is the only safe location in a tornado.
- If you are boating or swimming, get to land and seek shelter immediately.

After a tornado or thunderstorm:

- Inspect your property and motor vehicles for damage. Write down the date and list the damages for insurance purposes. Check for electrical problems and gas leaks, and report them to the utility company at once.
- Watch out for fallen power lines. Stay out of damaged buildings until you are sure they are safe and will not collapse. Secure your property from further damage or theft.
- Use only chlorinated or bottled supplies of drinking water.
- Check on your food supply. Food stored in a refrigerator or freezer can spoil when the power goes out.

Tornado and Thunderstorm Facts

1. **What is a severe thunderstorm?**
   A severe thunderstorm produces large hail that is one inch in diameter or larger, damaging winds of 58 mph or greater, and/or a tornado.

2. **What is a tornado?**
   A tornado is a column of violently rotating winds extending down from a thunderstorm cloud and touching the surface of the earth.

3. **What is the difference between a tornado and a funnel cloud?**
   A funnel cloud is also a column of violently rotating winds extending down from a thunderstorm; however, it does not touch the earth as a tornado does.

4. **How many tornadoes usually occur in Michigan every year?**
   Michigan experiences an average of 15 tornadoes annually. Since 1950, 243 persons have been killed due to tornadoes. During this same time, Michigan has experienced 995 tornadoes.

5. **When do tornadoes generally occur?**
   Most tornadoes occur during the months of May, June, July, and August primarily in the late afternoon and evening hours. However, tornadoes can occur anytime of the day or night in almost any month during the year.

6. **How fast do tornadoes travel?**
   Tornadoes generally travel from the southwest at an average speed of 30 mph. However, some tornadoes have very erratic paths, with speeds approaching 70 mph.

7. **How far do tornadoes travel once they touch the ground?**
   The average Michigan tornado is on the ground for less than 10 minutes and travels a distance of about five miles. However, they do not always follow the norm and have been known to stay on the ground for more than an hour and travel more than 100 miles.

8. **When is a tornado or severe thunderstorm watch issued?**
   A tornado or severe thunderstorm watch is issued whenever conditions exist for severe weather to develop. Watches are usually for large areas about two-thirds the size of Lower Michigan and are usually two-to-six hours long. Watches give you time to plan and prepare.

9. **When is a tornado or severe thunderstorm warning issued?**
   The local National Weather Service (NWS) office issues a tornado warning whenever NWS Doppler Radar indicates a thunderstorm is capable of producing a tornado or when a tornado has been sighted by a credible source. A severe thunderstorm warning is issued whenever a severe thunderstorm is observed or NWS Doppler Radar indicates a thunderstorm is capable of producing damaging winds or large hail.

   Warnings are issued for even smaller areas, such as parts of counties. These “storm-based” NWS warnings are issued for the threatened area in a shape of a polygon. The “polygon” warnings only include sections of a county or group of counties and usually last for 30 to 90 minutes in length. You must act immediately when you first hear the warning. If severe weather is near you, seek shelter immediately. If not, keep a constant lookout for severe weather and stay near a shelter.

10. **What is a special marine warning?**
    The NWS will issue a special marine warning for the Great Lakes and the connecting waterways when a strong or severe thunderstorm develops or moves over the water. The special marine warning is issued for boaters, both recreational and commercial. For residents and visitors of Michigan’s many coastal communities, the special marine warning provides valuable information about a storm that is about to move onshore.

11. How do I find out about a warning if my electricity is already out?

A NOAA Weather Radio All Hazards with battery back-up capability is your best source to receive the warning. In some areas, civil emergency sirens may be your first official warning. In addition, if your television or radio has battery back-up capability, you may receive NOAA's National Weather Service warnings from local media.

Flood Preparation and Planning

Steps to Prepare for a Flood

Flooding can occur during any season in Michigan. Planning in advance can afford you extra critical time when a flood is coming, and can help you increase the odds of protecting your valuable documents, your real estate and your personal property – including cherished belongings. Developing a flood plan is one of the advance methods your family, business or community can put together to help you respond quickly in the event of a flood near your property. A "rapid-response" plan can be as simple as a one-page plan that answers the following questions:

1. **How will we find out about a coming flood?**
   The first part of a Flood Plan is putting yourself in a position to get some advance warning of an unfolding situation. Large-scale flooding on the main stem of a river may occur over many hours or several days, but flash floods can strike in minutes. Important steps you can take include signing up for flood alerts and monitoring weather patterns and local conditions. Flooding in Michigan can happen any time of year.

   - Sign up for National Weather Service Flood Alerts at www.focusonfloods.org/flood-alerts
   - Monitor river levels via NOAA Watch at wather.weather.gov/ahps/region.php?state=mi
   - Determine your property's proximity to waterways by learning about and reviewing flood hazard maps at www.floodsmart.gov/floodsmart/pages/flooding_flood_risks/understanding_flood_maps.jsp

2. **At what river level does our property begin to flood?**
   First, determine "What's Your Number?" by learning the flood stage at the stream gage nearest you. This information is available through the National Weather Service's Advanced Hydrologic Prediction Services web site at http://water.weather.gov/ahps. Then, determine the level at which floodwaters begin to affect your property. This step may take research or personal experience to determine, such as talking to neighbors to find out how high the river was during recent floods, and at what point flooding began in your neighborhood. Each neighborhood and each property has its own unique terrain and placement to consider when determining this factor, and it is safest to err on the side of caution.

3. **How can we prepare for floods?**
   Preparing your household for a flood involves steps that will improve your readiness for many different types of disasters. Give yourself plenty of time to evacuate by developing an emergency kit including first aid supplies, a three-day supply of non-perishable food, bottled water, a battery-powered radio, flashlights and extra batteries. Also, have personal items ready like rubber boots, a rain jacket, warm clothes and hygiene and sanitation products. Learn additional ways to prepare at www.ready.gov/floods.

4. **How will we learn about evacuation orders?**
   Contact your local emergency management office to find out how your community notifies residents of floods and how it will issue evacuation orders. Make a commitment to follow evacuation orders the first time to help prevent emergency personnel from having to return to the affected area for a rescue when travel is no longer safe.

5. **What access roads can we use to evacuate in the case of rising waters?**
   Research indicates the majority of flood-related fatalities occur when cars become trapped on roads that are known to flood. To prevent this, follow instructions from emergency personnel and before a flood happens talk to neighbors, emergency personnel and others to determine when and where flooding typically occurs on access roads leading to your home. Know what roads you regularly travel and whether or not they will flood, and plan alternate routes when needed.

6. **What steps should we take to prepare our property?**
   Research the flood-proofing options available to you. Can you install a quick-disconnect furnace, or elevate electrical and mechanical equipment? Are there steps you can take to alleviate pressure on your structure and to prevent extensive damage to doors and windows if flooding does occur? For additional information about protecting your property from floods, visit www.mcswa.com.

7. **Where should our family meet if we are separated during a flood event?**
   Before a flood or other emergency strikes, designate a safe place away from your home where your family members can all meet. Make sure that all family members know the location, you have a plan for contacting each other, and you have an emergency kit ready to take with you. In addition, it is important to know whether your child's school or family members' work place is in a flood zone. If so, what provisions are in place to ensure their safety?

8. **How do I keep my family safe during a flood?**
   Floods are among the most frequent and costly natural disasters. For information on keeping your family safe before, during and after a flood, please visit: www.mcswa.com.

Other Considerations

- A written plan is essential for helping individuals and household members to think through important issues in advance. You should also research whether there are similar plans in place for your work and children's daycare and school, as well as to see how they work with your plan.

- Expect roadways to be blocked during a flood. Contact your friends and family to ensure they are safely sheltered. Listen to local media for flood-prone roads as well as making contact with neighbors in your area.

- Remember, the most common things people regret planning to protect during an emergency include pets, photographs and computers. Can you pack all these in a vehicle and drive to higher ground in time? Ensure you have a plan in place to protect your pets and keepsakes before an emergency.

Helpful Flood Terms

- **Flood Watch:** Flooding is possible. Tune in to your NOAA Weather Radio, local radio or television for information and check the flood alert sites on the Internet.

- **Flash Flood Watch:** Flash flooding is possible. Be prepared to move to higher ground and tune in to your NOAA Weather Radio, commercial radio or television for information.

- **Flood Warning:** Flooding is occurring or will occur soon. If advised to evacuate, do so immediately.

- **Flash Flood Warning:** A flash flood is occurring. Seek higher ground immediately.

Flood Insurance

Why Buy Flood Insurance?

Flooding can occur during any season in Michigan. The National Flood Insurance Program (NFIP) estimates that 90 percent of all natural disasters involve flooding. A small amount of water can bring a tremendous amount of damage, and many property owners are unaware that their properties are at risk for flooding. A home located in the floodplain has a four times greater risk of flooding than burning during the course of a 30-year mortgage.

What's worse: many property owners don't realize that their homeowners' or property owners' insurance doesn't cover flood damage. To be covered from flood damage, one must purchase National Flood Insurance through an insurance agent. Consider that even just an inch of water can require a property to replace carpet, drywall, floor boards, moldings, doors and other belongings. Additionally, clean-up of mud and residue can be costly, as can repairing any mold and mildew damage that may occur.

To help calculate flood damage that might occur to your home, visit www.floodsmart.gov, and click on the link to learn more about "What Could Flooding Cost Me?"

1. **Is flood damage covered by my homeowners insurance?**
   Flood damage is excluded in nearly all homeowners and renters insurance policies but, if desired, can be purchased as a separate policy.

2. **Where do I get flood insurance?**
   Any licensed property/casualty insurance agent can sell a flood insurance policy. If you experience trouble in locating an agent, contact the National Flood Insurance Progam's agent referral program at 1-888-CALL-FLOOD. You can also locate an agent by filling out your "One-Step Flood Risk Profile" at www.floodsmart.gov.

3. **Is there a waiting period before my flood insurance policy becomes effective?**
   There is a 30-day waiting period before a new or modified flood insurance policy becomes effective. You can also locate an agent by completing your "One-step risk profile" at www.floodsmart.gov.

4. **Do I need to live in a floodplain to get flood insurance?**
   It is important to note that nearly 30 percent of all flood claims come from outside the "100-year-floodplain" as determined by the National Flood Insurance Program. The fact that a property is outside of the "legal" floodplain does not mean that the river or stream can't still reach that property. You do not need to live in a floodplain to purchase flood insurance – coverage is available to any building located in a community that has qualified for the National Flood Insurance Program. For a listing of Michigan communities participating in the NFIP, you may visit www.fema.gov/cis/MI.html%20.

5. **Is water back up in basements covered by a flood insurance policy?**
   Coverage for water back up in basements (drains/sewers) is excluded from the flood insurance policy.

6. **Can I get coverage for water back up in basements?**
   Although basement water back up is excluded under most homeowners' insurance policies, coverage can be obtained by purchasing an endorsement. Most insurance companies offer sewer and drain back up as optional coverage. Coverage and limits vary by insurance company, so check with your agent/company about specifics. Some insurers include full coverage for sump pump failure while others specify items that are covered.

Lightning Safety

Lightning can provide a spectacular display of light on a dark night, but this awesome show of nature can also cause death and destruction. Lightning is the visible discharge of electrical energy. It is often accompanied by thunder, which is a sonic boom created by the same discharge. If you hear thunder, lightning is a threat, even if the storm seems miles away and the sky is blue. The electrical energy from lightning seeks a path to the ground – your home, the trees in your yard, or even *you* can be the chosen path.

SAFETY TIPS

1. Plan your evacuation and safety measures. At the first sign of lightning or thunder, activate your emergency plan. Lightning often precedes rain, so do not wait for the rain to begin before suspending activities. No place is absolutely safe from lightning; however, some places are much safer than others. The safest location during lightning activity is a large enclosed building. The second safest location is an enclosed metal topped vehicle, but NOT a convertible, bike, or other topless or soft-top vehicle.

2. If outdoors, get inside a suitable shelter **IMMEDIATELY.** Your only safe choice is to get to a protected building or vehicle. Avoid seeking shelter under a tree as a tree can attract lightning. In the event you are outdoors without a safe vehicle or shelter, follow outdoor safety tips at www.lightningsafety.noaa.gov/outdoors.shtml Although these tips will not prevent you from being hit, they can help lessen the odds.

3. If indoors, avoid water, doors, windows, and using the telephone and headsets. Lightning could strike exterior wires, inducing shocks to inside equipment. Any item plugged into an electrical outlet may cause a hazard.

4. Do not resume activities until 30 minutes following the last observed lightning or thunder.

5. Injured persons do not carry an electrical charge and can be handled safely. If you are qualified to do so, apply first aid procedures to a lightning victim. Call 911 or send for help immediately.

For additional information, visit NOAA's lightning safety Web site:
www.lightningsafety.noaa.gov

Disaster Preparedness for Pets

The following information, prepared by the Humane Society of the United States, will help you become better prepared to care for your pets in a disaster or emergency.

Don't Forget Identification

- Your pets should be wearing up-to-date identification at all times.
- In addition to your phone number, include the number of a friend or relative. If your pet is lost, you want to provide a number on the tag that will be answered when you are away from your home.

Find a Safe Place Ahead of Time

- Don't wait until a disaster strikes to do your research.
- Evacuation shelters do not generally accept pets, except for service animals. Plan ahead to ensure your family and pets will have a safe place to stay.
- If you have more than one pet, you may have to prepare to board them separately. Make a list of boarding facilities and veterinary offices that might be able to shelter animals, including 24-hour telephone numbers.
- Ask your local animal shelter if it provides foster care or shelter for pets during an emergency. Animal shelters have limited resources so this should be your last resort.
- Contact hotels and motels outside of your immediate area to check policies on accepting pets. Ask about any restrictions on number of animals, size, and species, as well as whether a "no pet" policy would be waived during an emergency.
- Make a list of pet-friendly places and keep it handy. Call ahead for a reservation as soon as you think you might have to leave your home.
- Check with friends, relatives or others outside of your immediate area. Ask if they would be able to shelter you and/or your animals, if necessary.

If You Evacuate, Take Your Pets

- The single most important thing you can do to protect your pets if you evacuate is to take them with you. If it's not safe for you to stay in the disaster area, then it's not safe for your pets.
- Animals left behind in a disaster can easily be injured, lost or killed.
- Animals left inside your home can escape through storm-damaged areas, such as broken windows.
- Animals turned loose to fend for themselves are likely to become victims of exposure, starvation, predators, contaminated food or water or other accidents.
- Do not leave your animals tied or chained outside during a disaster; this can be deadly.
- If you leave, even if only for a few hours, take your animals. You have no way of knowing if you will be allowed back into the area to care for your pet.
- Leave early; don't wait for a mandatory evacuation order. An unnecessary trip is better than waiting too long, making it unsafe to leave.
- Take pet food, medications and special items with you such as leashes, toys or a litter box.

In Case You Are Not Home

- An evacuation order may be issued, or a disaster may strike, when you're at work or out of the house. Make arrangements well in advance for a trusted neighbor to take your pets and meet you at a specified location.
- If you arrange for someone to take your pets, be sure the person is comfortable with your pets, knows where your animals are likely to be, knows where your disaster supplies are kept and has a way to access your home.
- If you use a pet sitting service, discuss the possibility of getting their assistance well in advance.

Warning Systems

NOAA Weather Radio All Hazards

Voice of NOAA's National Weather Service

NOAA Weather Radio All Hazards is a service provided by the National Weather Service (NWS). It provides continuous broadcasts of the latest weather information and forecasts from your local NWS office. NOAA Weather Radio All Hazards broadcasts important forecast and warning information as quick as possible.

With NOAA Weather Radio All Hazards, you will always have access to potentially life-saving emergency information. During severe weather, NWS personnel can interrupt routine weather broadcasts and insert warning messages concerning immediate threats to life and property. A special alert tone can also be activated that triggers an alerting feature on specifically equipped receivers. In the simplest case, this signal activates audible or visual alarms indicating that an emergency condition exists within the broadcast area of the station. In the most sophisticated alerting system, receivers equipped with Specific Area Message Encoding (SAME) technology allow listeners to choose which counties and for what events their radio will sound an alarm when official NWS watches and warnings are issued.

NOAA Weather Radio All Hazards broadcasts warning and post-event information for all types of emergencies, both natural and technological. Working with other federal and local agencies, NOAA Weather Radio is an "all hazards" radio network. This makes NOAA Weather Radio All Hazards the single source for the most comprehensive weather and emergency information available to the public.

NOAA Weather Radio All Hazards is the voice of the NWS and is provided as a public service by the U.S. Department of Commerce's National Oceanic and Atmospheric Administration (NOAA). These life-saving receivers, that should be as common as home smoke detectors, can be purchased at many retail stores and through web sites that sell electronic merchandise. It provides the timeliest forecast and warning information from your local NWS office. This information can save your life.

For more information, including where you can buy a NOAA Weather Radio, visit www.nws.noaa.gov/nwr.

Wireless Emergency Alerts (WEAs)

Automatic weather warnings on your smart phone: no matter where you are

Imagine being on vacation when a tornado warning is issued for your area. How would you find out? If you own a smart phone or any other cellular phone purchased after January 1, 2013, you no longer have to worry. The Federal Emergency Management Agency, the Federal Communications Commission, the National Weather Service, and CITA-The Wireless Association have developed a cell phone emergency alert system that will automatically notify you through a text-like message about urgent weather warnings, emergency messages from the President of the United States, and amber alerts. If you have a WEA enabled phone, you don't have to sign up or do anything, you already have it. If you are not sure if your phone supports this new technology, then check with your cell phone carrier. In some cases, all you may need to do is update your device's software.

Wireless Emergency Alerts are a point-to-multipoint system, which means alert messages will be sent to those within a targeted area, unlike text messages which are not location aware. For example, if a person with a WEA-capable device from Michigan happened to be in Minnesota when a flash flood threatens in that area, they would receive an "Imminent Threat Alert" on their device.

While these alerts will appear on a person's mobile device similar to a text message, Wireless Emergency Alerts are not text messages. Instead, WEAs use a different kind of technology to ensure they are delivered immediately and are not subjected to potential congestion (or delays) on wireless networks.

You can see additional information on the NWS' Wireless Emergency Alert website at http://www.crh.noaa.gov/news/display_cmsstory.php?wfo=crh&storyid=83063&source=0.

Subject: FW: Flint Drinking Water

From: Walts, Brian (DTMB)

Subject: Flint Drinking Water

Team,

I made contact with the City of Flint to get an update on the potable water issue and found that on the re-test the water met the violated MCL from the test in January. Mr. Wright with the City Water Department told me they have made several changes to their operation and are planning to add charcoal filters to the system late this summer. The department still has to meet the MCL guidelines in their quarterly sample May 16th before reporting the water is all clear but it does look like they are making progress. I thought you guys might like the information to help keep up on the issue.

Thank you,
Brian

Introduction

Emergencies, accidents, injuries, crime, and disasters may occur at anytime, anywhere, and to anyone. Being prepared can reduce fear, anxiety, and losses that accompany these incidents, and potentially eliminate the negative effects altogether.

The Department of Technology, Management and Budget established the Emergency Monitor Program to help plan and prepare tenants for emergencies in DTMB-managed facilities. The program is built on shared responsibilities and active participation from all occupants. Use the information provided as an emergency action plan to guide you when immediate action is necessary. Planning what to do in advance is an important part of being prepared.

A workplace emergency is an unforeseen situation that threatens building occupants, disrupts or shuts down operations, or causes physical or environmental damage. Emergencies may be natural or manmade, and include the following:

Flooding	Tornado
Fire	Winter Storms
Chemical Spills	Radiological Accidents
Explosions	Workplace Violence
Infectious Disease	Medical
Toxic Gas Releases	Suspicious Parcels
Utility Failure	Gas Leaks

The Emergency Monitor Program is designed to provide an organized response and ensure occupant safety during emergencies. Please read the guide thoroughly before an emergency occurs and keep a copy available for your immediate reference. Once you are familiar with the procedures, you will be better prepared to protect yourself and your co-workers.

Each emergency situation is unique; for that reason, no emergency guide can ever be comprehensive. In any emergency, remain calm; be aware of the situation around you; and report emergencies to **Security** as soon as possible.

DTMB Central Control

The DTMB Central Control Unit is a 24/7/365 operation that is responsible for the monitoring of over thirty-nine DTMB-managed buildings throughout the State. Central Control uses multiple computer systems to monitor the buildings. Duties include monitoring fire, security and other life safety alarms in the buildings and contacting the proper authorities and building contacts in the event of an alarm.

The control center summons emergency responders for various life safety incidents, including ambulance calls, bomb or biohazard threats, tornado warnings, and building closures. They monitor over two hundred security cameras from their location and use the cameras during emergencies and major events.

Central Control operators monitor and receive calls from over one hundred emergency call stations, including elevator emergency telephones in Lansing and Saginaw.

DTMB Customer Service Center

The Customer Service Center (CSC) serves as DTMB's central communication link to tenants by providing timely and consistent handling of customer needs. Tenants in leased and DTMB-managed facilities are encouraged to notify the CSC of any non-emergent issue or questions they may have regarding the facility. In DTMB-managed facilities, tenants are notified of building alerts and maintenance updates by email communications distributed by the Customer Service Center.

Customer Service Center representatives are available Monday through Friday, 7 AM until 5 PM at (517) 373-6227, or by email at DTMB-CustomerService@michigan.gov.

Assembly Area

When evacuating outside of the facility, assemble in a location that is at least one hundred feet from the building. Do not block driveways or other access areas that may be used by emergency response personnel and watch for traffic when crossing any roads to the assembly area. Division offices located on the same floor should remain together to allow for head counts.

Monitor Roles and Responsibilities

The facility supervisor has the organizational responsibility and authority to act in an emergency situation. In the facility supervisor's absence, additional DTMB facility personnel will respond on their behalf. To assist facility supervisors in emergency situations, employees located throughout DTMB-managed buildings are designated as emergency monitors. Each floor will have assigned "head monitors" and "section monitors", along with assigned alternates who will respond in their absence. Monitors are to ensure that all occupants located within their designated area are aware of emergency policies and procedures. The primary role of the monitor is to advise and assist as needed.

Facility Supervisor responsibilities include:

- ⇒ Maintains the monitor program
- ⇒ Reports to the building command post or delegates responsibility
- ⇒ Directs overall emergency evacuation
- ⇒ Works with emergency personnel to determine the need for evacuation in an emergency (full or partial)
- ⇒ Ensures all aisles and doorways leading to evacuation routes or exits are clear and negotiable at all times
- ⇒ Request outside assistance
- ⇒ Maintains a list of individuals in the building needing special assistance
- ⇒ Communicates the all clear announcement to tenants
- ⇒ Conduct lessons learned meetings with Monitor Program participants

Head Monitor responsibilities include:

- ⇒ Ensures all new employees within their designated area are aware of emergency procedures
- ⇒ Maintains and provides an up-to-date listing of employees needing assistance on the floor to the facility supervisor
- ⇒ Conducts a sweep of their assigned area during an incident to verify all occupants are aware of the alarm and are proceeding to the correct shelter
- ⇒ Awaits status information from section monitors
- ⇒ Provides the names and last known location of occupants refusing to leave the building during an evacuation to the facility supervisor or delegate
- ⇒ Reports the number of individuals requiring assistance in evacuating the building to the facility supervisor or delegate

It is the emergency monitor's responsibility to inform all occupants within their designated section of primary and secondary escape routes located on the floor. Encourage employees to familiarize themselves with the evacuation routes from other areas of the facility where they go frequently, such as restrooms and break rooms. Once in the shelter area, the monitors keep people moving away from the entrance allowing others to enter the shelter.

Every office should maintain a list of emergency contact telephone numbers for all of their employees. Employee accountability during an emergency is critical and could save someone's life be it the employee, or emergency personnel. Assign a person in your office to verify that all employees have made it to the assembly area. When evacuating outdoors, have employees report in at the designated rally point that is at least 100 feet away from the building.

Section Monitor responsibilities include:

- ⇒ Cover emergency procedures with all new employees in their section
- ⇒ Maintain and provide an up-to-date listing of employees needing assistance to the head monitor
- ⇒ Conduct a sweep of their section during an emergency to verify all occupants are aware of the alarm and are proceeding to the correct shelter
- ⇒ Report section status to the head monitor; include any occupants refusing to leave
- ⇒ Verify the number of individuals needing assistance in evacuating the building and report information to the head monitor

Identifying Program Volunteers

To readily identify monitors during an emergency incident, head monitors are equipped with fluorescent yellow vests, section monitors with orange vests and security and DTMB facilities personnel have yellow vests. Emergency monitors are required to wear their vests during any drill, exercise, or actual emergency. Keep the vest available and in plain sight at your workstation and available to your alternate.

Employee Responsibilities

When there is an emergency, evacuating the building safely may pose a challenge. To help occupants in DTMB-managed facilities, we suggest covering the following with everyone in your respective areas:

- ⇒ Know at least two different alternative exits from their work area
- ⇒ Recognition of the sound/signaling method of alarms
- ⇒ Who to contact in an emergency
- ⇒ Location of pull stations in the building
- ⇒ Who to report a damaged or malfunctioning alarm, pull station or strobe
- ⇒ What to do in an emergency
- ⇒ Designated meeting place when evacuating
- ⇒ Who to report to immediately following an evacuation
- ⇒ Severe weather shelter area
- ⇒ Importance of evacuating during an alarm and awaiting the “all clear”

Fire / Smoke Alarm System

The building is equipped with both audio and visual fire alarms. When activated, a brief intermittent audio alarm (whoop) will sound, followed by a prerecorded evacuation

announcement that will repeat until deactivated. The announcement will be broadcast through speakers located throughout the building. Strobe lights, that are located on the speakers, will also activate on all floors to alert occupants of the alarm. Smoke alarms are part of this system.

Fire alarm pull stations are located in all buildings. To activate the alarm, lift the cover and pull down on the handle. Fire alarm pull stations are connected to a building protection system that sends a signal to the fire department. Once the alarm is activated, promptly call the facility supervisor and report the incident.

When reporting an incident, include the following:
⇒ Nature of the incident
⇒ Location of the incident
⇒ Description of person(s) or property involved
⇒ Your name

When the building's alarm is activated, all occupants are to immediately evacuate the structure by way of the closest evacuation stairwell. Always use the stairs to exit, never an elevator. Encourage employees leaving private offices to close the doors leading into the office. Remind staff to maintain at least one hundred feet from the building during an evacuation.

After the fire department arrives on site, they are in complete command of the situation. The fire department's incident commander will determine if and when the building is safe for re-entry and issue the all clear to the facility supervisor. No one is to reenter the building until the fire department issues the "all clear" for the building. DTMB and emergency personnel will notify tenants when it is safe to reenter the building.

Fire Extinguishers

Each building is equipped with portable fire extinguishers located throughout each floor. The portable fire extinguishers have a limited supply of extinguishing agent and are intended for use on small fires only.

For your safety, it is beneficial to know how a fire extinguisher is used. Remembering the acronym **PASS** will assist in the proper use of a fire extinguisher.

1. **P**ull the pin between the handles.
2. **A**im the nozzle at the base of the fire.
3. **S**queeze the handles together.
4. **S**weep the extinguisher from side to side at the base of the fire.

Although fire extinguishers are available, please leave the firefighting to trained professionals. Your number one priority is to notify building occupants of the emergency and evacuate.

Elevators

Do not use elevators during an evacuation. The potential for electrical or mechanical failure, along with the increased risk of smoke inhalation make elevators unsafe during an evacuation. All persons in an elevator when an alarm sounds will need to exit at the first opportunity and evacuate the building by the nearest evacuation stairway.

In the event of an elevator failure, use the emergency button in the elevator to summon help. Elevators in the building are equipped with an emergency telephone line that connects directly to an emergency call center. The emergency button is located on the elevator panel.

Evacuation Stairwell

All stairways leading to the outdoors or to a shelter area are marked. Stairwells are "buildings within a building" and represent a safe area for individuals needing assistance during an emergency. The safe area allows time for the fire department to assess the situation.

The fire department will evaluate the scene and determine whether or not it is safe to evacuate persons with disabilities from the upper floors by use of elevators, or to remain in the stairwells. If evacuation by the stairs does become necessary, emergency personnel who have received training will assist individuals with disabilities out of the building.

Severe Weather Shelter Areas

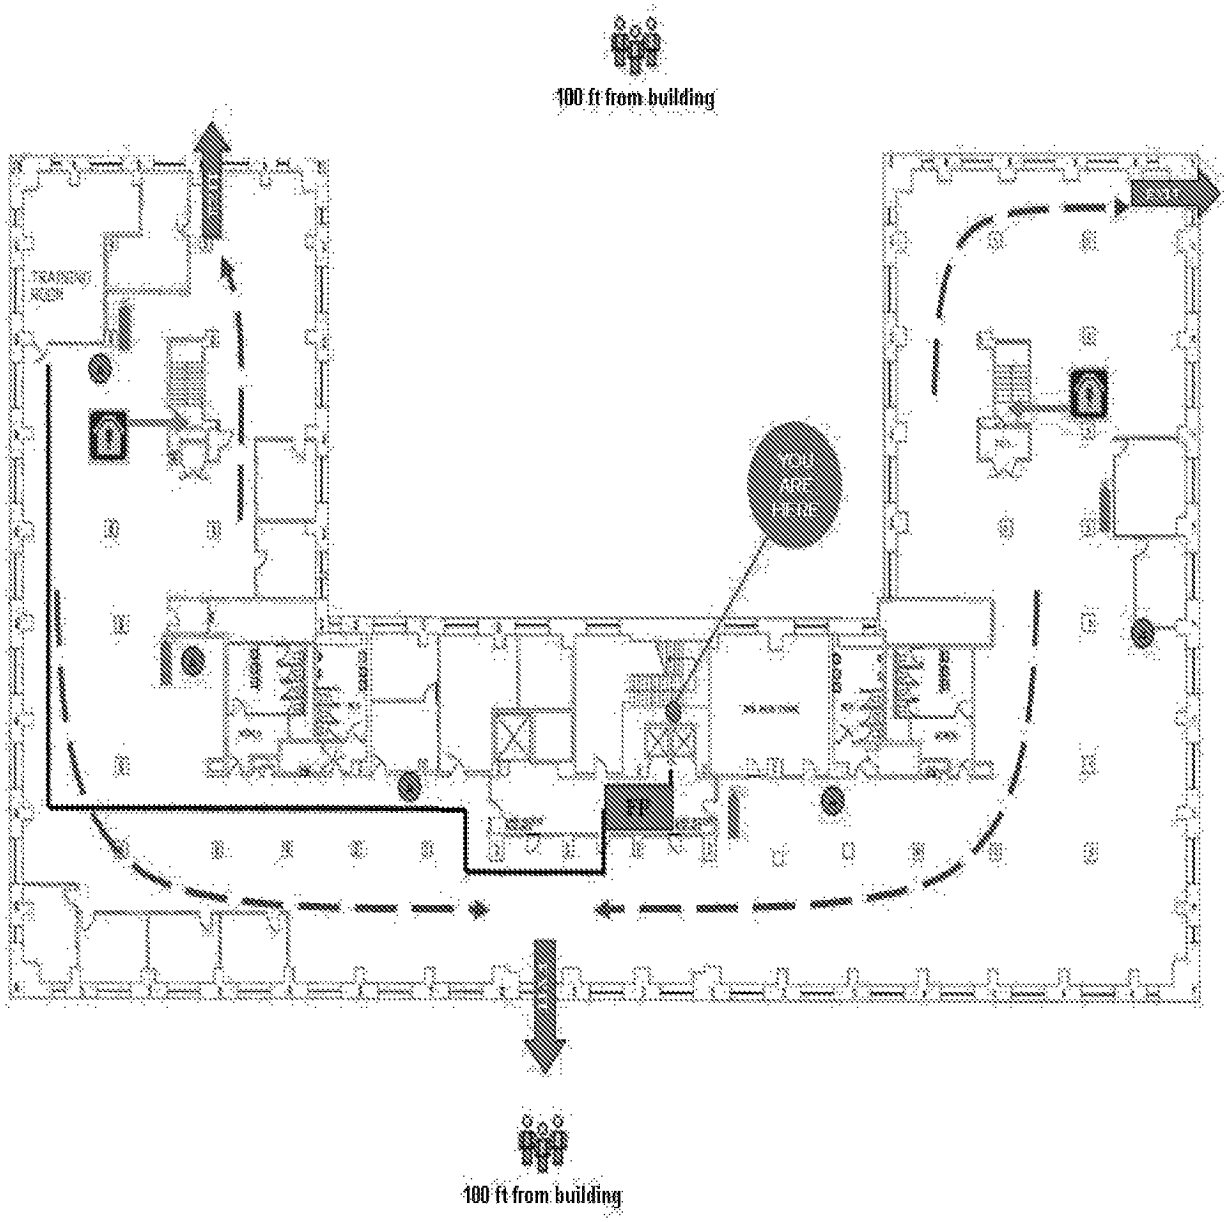
A shelter area is constructed of reinforced concrete, brick, or block, with no windows and a heavy concrete floor or roof overhead. Other shelters areas are small interior rooms and hallways without windows. In some buildings, stairwells are designated shelter areas.

If it is not possible to get to a shelter area, go to the lowest level of the building and look for interior space away from any glass or windows.

Evacuation Floor Plan

Posted on each floor in the lobby area, are building floor plans. The plans identify fire alarm pull stations, fire extinguishers, shelter routes, outside rally points, a "you are here" indicator, exit routes for that floor, and a legend. It is important that everyone familiarize themselves with the evacuation floor plan for the building and their particular area.

When conducting an evacuation in a high rise building, the building may be evacuated in stages. If an alarm is activated on a particular floor, alarms will activate on the floors directly above and below that floor. Emergency personnel will determine if it is necessary to evacuate the remainder of the building.



Persons with Disabilities

Persons with disabilities should familiarize themselves with emergency procedures established for their building. They should plan how to respond in an emergency and discuss the plans with the monitor assigned to their work area.

Disabled persons are dependent upon the monitors and procedures in place for their safety in an emergency. For this reason, a "buddy", and alternates, must be assigned to assist these individuals before the occurrence of an emergency. The “buddy” must be capable and willing to help, able to make contact quickly during an incident, and aware of any absences. If a “buddy” leaves employment, or is no longer able to provide assistance, a new one will need to be assigned.

Monitors must continually keep themselves apprised of the condition of employees within their area(s) of responsibility and update lists and facility supervisors as necessary.

Disabilities May Include*:*	
Physical (Wheelchair, cane)	Visually Impaired
Hearing Impairment	Medical (Respiratory)
Temporary (Cast, crutches)	Advanced Pregnancy

During an emergency incident, persons with disabilities and their buddies are to wait inside evacuation stairwells for emergency personnel. We ask that they wait until all occupants have cleared the stairwell before proceeding into it. If an individual with a disability is on a floor other than their regular floor when an alarm is activated, they are to proceed to the closest evacuation stairwell or exit and notify a monitor of their needs along the way.

Name: _____

Disability: _____

Floor/Pillar: _____

Special Information: _____

Buddy #1: _____

Buddy #2: _____

Ambulance

In the event that emergency medical treatment or an ambulance is required, all tenants are to use the following procedure:

- ⇒ **Call Security**
- ⇒ Provide the nature of the emergency along with the number of people who require medical attention
- ⇒ Include the floor and pillar number
- ⇒ Provide your name and a telephone number where you can be reached

DTMB facility personnel will take control of the freight elevator during the emergency for emergency personnel to use. Emergency monitors are encouraged to clear all moveable obstacles in aisle ways to ensure a direct path for emergency personnel and assist in keeping curious bystanders out of the way.

Every office should have an emergency contact list for their personnel. Include emergency contact names and telephone numbers. Assign someone in the office the responsibility of maintaining the list and place it in a central location.

Medical Emergencies

Medical emergencies may include any life-threatening situation, including:

Broken Bones	Chest Pain
Compound Fractures	Excessive Bleeding
Eye Injuries	Seizure
Serious Allergic Reaction	Unconsciousness
Head Injury	Inhalation of a Toxic Substance
Breathing Difficulties	

If you or someone in your office experiences a medical emergency, **call security** immediately. Do not leave the injured person unless to summon help.

Unless you have received training, do not try to render any first aid or use CPR before trained assistance arrives. Do not move the person unless there is an immediate life-threatening emergency.

Automated External Defibrillators (AEDs) are located in a number of DTMB-managed facilities. An AED is a portable electronic device that automatically diagnoses the heart rhythm and determines if a shock is needed.

All AEDs approved for use in the United States use an electronic voice to prompt users through each step; many now include visual prompts as well. Newer models now include visual prompts as well for users that may be hearing impaired. To verify if your building is equipped with an AED, please check with your facility supervisor.

Emergency Evacuation Alarm Signals

The following evacuation alarms are used to notify building personnel of fire evacuation and tornado warnings in DTMB-managed facilities.

Condition	Alarm	Action to take
Building Evacuation	Slow whoop sound and strobe lights activated on alarms, followed by an automatic pre-selected voice evacuation message: Attention, an emergency has been reported in the building. Please proceed to the nearest evacuation exit. Do not use elevators.	All building occupants must leave the building by the nearest evacuation exit. Assemble outside at the designated area at least 100 feet from the building. Do not reenter the building until the "all clear" signal is given.
Tornado Warning	Civil defense sirens sound **outside** of the building. **Indoors** a message will be broadcast in the building	All building occupants are to proceed to the approved shelter area and remain until the "all clear" signal is given. Do not use the elevators and use only approved shelter routes.

Once a building has been evacuated, it will be secured and no one will be allowed to enter without proper authorization. The facility will remain closed until the decision to reopen is issued by emergency personnel.

Tornado

A tornado is a violent windstorm characterized by a twisting, funnel-shaped cloud. Tornado season is generally March through August; however, they can occur at any time of the year.

Definitions
Tornado **WATCH** indicates that weather conditions are favorable for the development of severe weather that could generate tornados. Remain alert and review actions to take should the situation change to a warning, or if a funnel is sighted. Continue with normal activities, but be alert to the weather outside.

Tornado **WARNING** means a funnel cloud has been sighted, or is indicated by radar. Take immediate action to seek shelter. Proceed to the nearest shelter area. Stay away from windows and other glass.

Remember: A **Warning** can be issued without a **Watch**. If the sirens sound, even without prior notification of a **Watch**, all occupants are to immediately proceed to their designated shelter area.

Tornado Warning Procedures

DTMB has installed an advanced weather monitoring software program in Central Control. The storm tracking system enables DTMB to receive accurate, real-time weather information and storm tracking capabilities. Central Control Operators receive National Weather Service alerts, watches, warnings, and winter weather advisories throughout Michigan. The information is then automatically communicated to DTMB facility supervisors and appropriate staff throughout the State.

When the National Weather Service issues a tornado warning, emergency sirens will be activated outside of the building by the city, county, or township. An announcement will be broadcast throughout the building notifying occupants of the warning. All building occupants are to proceed to the nearest designated severe weather shelter area.

In the event of a tornado warning, the monitor's role is to make sure all individuals in their respective areas are aware of the activated sirens and are proceeding to the designated shelter area in an orderly manner. As in a fire evacuation, monitors will need to check all occupied areas to verify evacuation. Persons with disabilities are to proceed to the closest elevator along with their "buddy" and continue to the shelter area.

Once evacuation is complete for the floor, all monitors are to proceed to the shelter area. Stay in the designated shelter areas until the all clear sounds. For everyone's safety, building occupants must stay in the shelter area until the all-clear sounds, even after their assigned quitting time. For those who shelter in lower level parking ramp areas, we do not encourage seeking shelter in vehicles.

Winter Storms

Severe winter storms are likely to bring ice, strong winds, sleet, freezing rain, or a combination of events. The storms can cause downed trees, falling limbs, structural damage, and power outages. A winter storm watch means there is a potential for heavy snow or significant ice accumulation.

In the event that a building closure is recommended, DTMB will follow Administrative Guide Procedure 0240.01. DTMB will notify designated department representatives for all departments located within the affected facility.

Utility Failure

In the event that power can not be restored, designated department representatives will be contacted and asked to communicate the information to staff. If you are instructed to evacuate the building, proceed cautiously to the nearest exit. Monitors are to report their area status to the facility supervisor before leaving.

Suspicious Packages or Letters

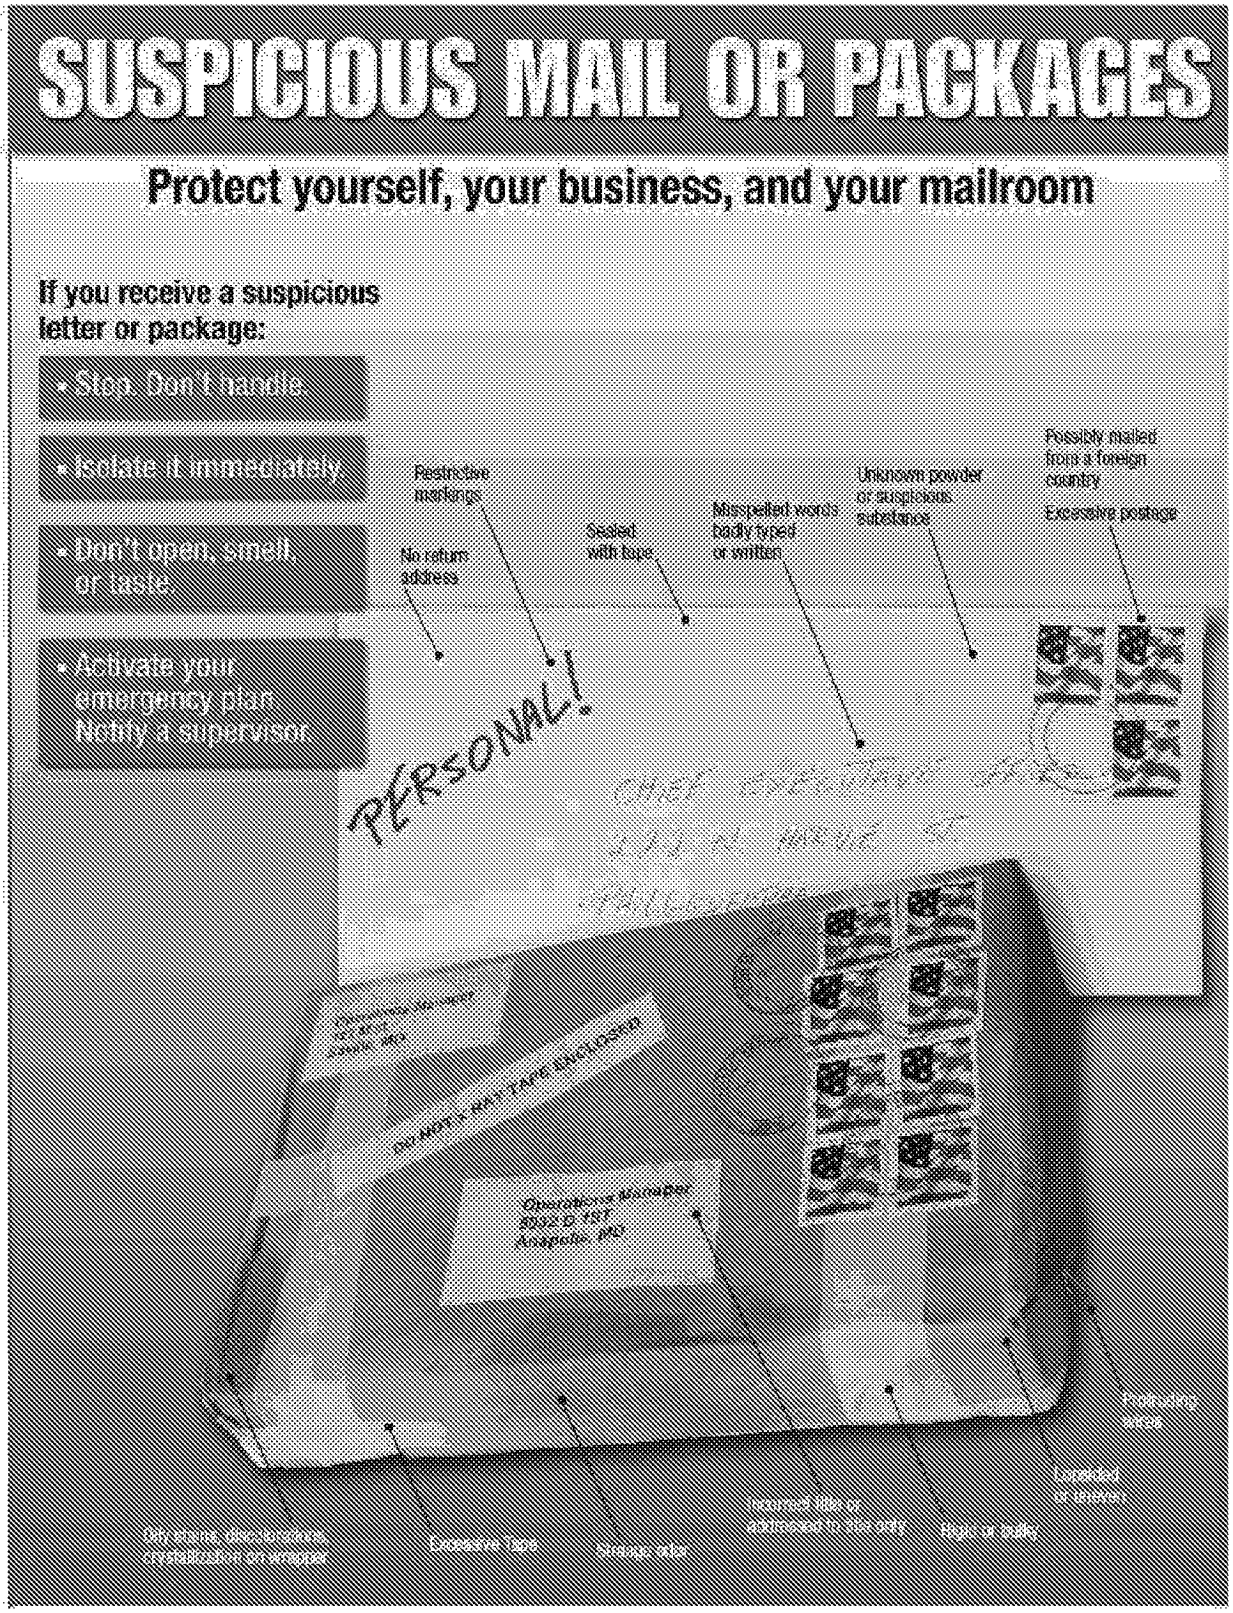
> If you receive, or discover a suspicious package or foreign device, **do not touch it, tamper with it, or move it**. Move yourself and others away from the package. Call the facility manager's office to report the incident.

If a package or letter is opened and it claims to have contaminated you, or there is some sort of foreign substance in it, place everything back into its original packaging. All persons exposed should remain in the room and call **the facility supervisor**.

Do not allow anyone to enter or exit the room until given permission to do so by authorized personnel. Do not use cell phones or radio equipment within one hundred feet of the object.

Characteristics of a Suspicious Package:

- ⇒ Lumps, bulges, or protrusions on package
- ⇒ A lopsided or heavy-sided package or excessive masking tape
- ⇒ Handwritten addresses or labels from companies (check to see if the company exists and if they sent a package or letter)
- ⇒ Packages wrapped in string
- ⇒ Excess postage on small packages or letters
- ⇒ Handwritten notes, such as, "To Be Opened in the Privacy of," "Confidential," "Your Lucky Day Is Here," "Prize Enclosed"
- ⇒ Restrictive markings such as "confidential" or "personal"
- ⇒ Improper spelling of common names, places, or titles
- ⇒ Generic or incorrect titles, titles with no name attached
- ⇒ Leaks, stains, protruding wires, string, tape, etc.
- ⇒ Hand delivered or "dropped off for a friend" packages or letters
- ⇒ No return address or nonsensical return address
- ⇒ Foreign mail, air mail, and special-delivery packages
- ⇒ Any letter or package arriving before or after a phone call from an unknown person asking if the item was received



SUSPICIOUS MAIL OR PACKAGES
Protect yourself, your business, and your mailroom
If you receive a suspicious letter or package:
• Stop. Don't handle.
• Isolate it immediately.
• Don't open, smell, or taste.
• Activate your emergency plan. Notify a supervisor.
Restrictive markings
No return address
Sealed with tape
Misspelled words, badly typed or written
Unknown powder or suspicious substance
Possibly mailed from a foreign country
Excessive postage
PERSONAL!

Bomb Threat

Should an object be discovered that is perceived to be an explosive device, or information is received that an explosive device is somewhere in the building, tenants are to notify the facility supervisor. The facility supervisor will notify the Michigan State Police and request assistance.

The content of bomb threats, and the make-up of each suspected explosive device, can vary widely. Do not handle any suspicious object or package. The Michigan State Police will make the decision to remain in the building and search, or to evacuate immediately.

In the case of a state employee receiving a telephone threat, try to remain calm and obtain as much information as possible from the caller. Enlist a supervisor or co-worker to listen to the conversation with you and try to keep the individual talking as long as possible. As soon as the telephone call ends, call the facility supervisor to report the call.

Try to obtain the following:

a) The location of the device
b) The scheduled time, if any, the device is set to detonate
c) The appearance or type of container used for the device
d) The reason for placing the device in or around the building
e) The type of explosive used in the device and any additional information that may be available

The person receiving the call should note the following:

a) Is it a male or female voice
b) What time was the call received
c) Mood of the caller (excited, nervous, calm, etc.)
d) Listen for any background noises that may be present
e) Approximate age of the caller

If the authorities determine that there is potential danger, they will activate the alarm system to begin evacuating the facility.

The following page contains a checklist to refer to when taking a bomb threat call.

Bomb Threat Call Checklist

Name of Person Taking Call: _____
Date: _____
Time of Call: _____

Write exact wording of the threat as close as possible:

_____
_____
_____

What building is the bomb in? _____
When is the bomb going to explode? _____
Where is it right now? _____
What kind of bomb is it? _____
What will cause it to explode? _____
Did you place the bomb? _____
Why? _____
What is your address? _____
What is your name? _____

CALLER EVALUATION

Threat language:
_____ Well-spoken/Educated
_____ Incoherent
_____ Foul
_____ Taped
_____ Message Read By Threat Maker
_____ Irrational

Describe the Caller's Speech, Voice, and Any Background Noises:

_____ Male or Female
_____ Approximate Age
_____ Calm
_____ Angry
_____ Excited
_____ Slow
_____ Rapid
_____ Soft
_____ Loud
_____ Laughter
_____ Crying
_____ Normal
_____ Distinct
_____ Race
_____ Slurred
_____ Nasal
_____ Stutter
_____ Lisp
_____ Deep
_____ Clearing Throat
_____ Deep Breathing
_____ Cracking Voice
_____ Disguised
_____ Accent
_____ Familiar
_____ Street Noises
_____ Dish Noises
_____ Voices
_____ PA System
_____ Music
_____ House Noises
_____ Motor Sounds
_____ Office Machinery
_____ Factory Machinery
_____ Animal Noises
_____ Clear
_____ Static
_____ Local
_____ Long Distance
_____ Pay Phone
_____ Cell Phone
_____ Caller ID Number

Building Lockdown

Over the last few years, terrorist attacks and hostile intruder situations have emerged as serious threats. In State-owned buildings, all outside perimeter doors remain locked, unless manned by a security guard. The installation of key card access readers allow employees located within the building entrance into the facility.

If an incident requires the locking of all perimeter doors, DTMB has the ability to lock all entrances into the facility and only individuals with building access may enter. This includes stairwells accessed through parking ramps, along with all vehicle and pedestrian ramp entrance doors.

DTMB Office of Infrastructure Protection is continuing work on the development of security technology in lobbies of DTMB-managed facilities. To improve security measures and efficiency in eleven facilities located in the City of Lansing, DTMB has installed electronic access control devices and visitor kiosks that are designed to allow 200 people to exit within one minute. The security measure is intended to control and monitor access into State facilities.

Sheltering In-Place

Some events make going outdoors dangerous. Leaving the area may take too long or put you in harm's way. In these cases, it may be safer for everyone to stay indoors rather than to go outside.

"Sheltering in-place" means to take immediate shelter where you are, at home, work, or in between. It is a way for you to make the area as safe as possible and to protect everyone until help arrives. You should not try to shelter in a vehicle unless you have no other choice. Vehicles are not airtight enough to give you adequate protection from chemicals or gases.

If you are sheltering due to an accidental release of hazardous material containing toxins or gases, the air quality in the building may be threatened. Sheltering in-place keeps you in one area allowing optimal protection from exposure. DTMB's Customer Service Center may communicate the need to shelter in-place to tenants by email. Monitors are to sweep their area to insure occupants are aware of the situation. Employees are to remain sheltered until emergency personnel issue an all clear or ask that you evacuate.

Hazardous Materials

Chemicals are found everywhere and have many uses, but they can be hazardous if used or released improperly. Hazards can occur during production, storage, transporting, use, or disposal of chemicals. In the case of hazardous spills or leaks,

remove yourself from the area and keep others away. Do not walk into or touch any of the spilled substance. Try not to inhale gases, fumes, or smoke. If possible, cover your mouth with a cloth while leaving the area. Stay away from the contaminated area until the hazardous material has been identified. Try to stay upstream, uphill, and upwind of the area. Remember that some toxic chemicals are odorless.

- ⇒ When you smell gas, do not light a match
- ⇒ If you are smoking, extinguish your cigarette immediately
- ⇒ Do not touch an electrical switch or try to find the source yourself

Call the facility supervisor to report an incident. Provide as much information (location, injuries, type of chemicals, etc.) as possible. Leave the location and advise others to stay away from the immediate area.

As every situation is different, emergency personnel may have special instructions to follow. DTMB will work with law enforcement personnel and local fire departments to ensure we communicate the information as soon as possible to tenants.

Threatening and Violent Behavior

Workplace violence often begins with inappropriate behavior or signs that when detected and reported, may help prevent its occurrence. Threats may be statements of intention or expressions of strong emotion. They may be direct, indirect, verbal, or nonverbal. Shaking a fist or pounding the desk, throwing things, and showing a weapon are all examples of nonverbal threats. Verbal threats may be indirect expressions of frustration or anger directed toward a person or office, or they may be direct statements of the intention to harm.

Some risk factors that contribute to workplace violence include:

- ⇒ Termination of employment
- ⇒ Disciplinary actions
- ⇒ Ongoing conflicts between employees
- ⇒ Domestic or family violence
- ⇒ Financial problems

To help prevent workplace violence, be aware of what is going on around you. Awareness is a proven method for increased personal safety. It is important to take any behaviors or words that imply a threat seriously. If the threat is immediate, leave the situation, and call the facility supervisor.

If the threat is not immediate, consult management for help in assessing the level of danger, determining an action plan, and choosing appropriate safety measures. Remind all staff that a safe workplace is everyone's responsibility.

When dealing with an angry or hostile customer or coworker:
⇒ Stay calm
⇒ Listen attentively
⇒ Maintain eye contact
⇒ Be courteous and patient

Armed Entry

Contact security you observe a person with a firearm. Provide the officer with any information you have on the situation, such as description of the shooter, last place you saw them, direction of travel, location of injured/hiding people, or anything else pertinent. After disconnecting with the operator, connect the facility supervisor and report the incident.

If someone is actively shooting, quickly assess the situation, and consider one of the following options:

a. Escape: Can you get out of the building, and away from the shooter? If taking this option, remember that there may be more than one shooter. Once you get to an exterior door, assess the scene outside before going through the door. Once you do exit, keep moving until you are well away from the building, and try to get behind some type of cover (something that will offer protection from bullets).

b. Hide in-place; are you somewhere where you are able to hide from the shooter and can wait until law enforcement personnel rescue you? This may involve locking yourself in an office, closet, or conference room. Try to find a room that does not have glass in the door. If the door does have glass, stay out of sight of someone looking in.

DO NOT ATTEMPT TO CONFRONT THE SHOOTER(S)!
When you encounter law enforcement personnel, follow their instructions exactly. You must remember that in these situations, the responding officers do not know who the shooter(s) are, and they do not know who you are. They have to take certain precautions for everyone's safety. If the shooter is still active, be prepared to have the officers leave you where you are, to shelter in-place. The officers' first concern is to make contact with the shooter(s) and prevent the person from causing anymore harm.

Earthquake

It is not possible to prevent earthquakes or change the likelihood of an earthquake occurring. However, we can greatly increase our chances of safety and survival by being aware and prepared.

The actual movement of the ground in an earthquake is seldom the direct cause of injury or death. Most casualties result from falling objects and debris or collapsing structures. During an earthquake:

> If indoors, remain there. Seek refuge under a sturdy table or in a doorway. Stay away from glass, windows, shelves, and heavy equipment. Do not be alarmed if the fire alarm or sprinklers are activated. Do not use elevators.
>
> **If you are outside**: Move away from buildings and utility poles.

After the initial shock, evaluate the situation to see if emergency assistance is needed. Remain calm and try to reassure others. Do not light matches, cigarettes or turn on electrical switches. Be prepared for aftershocks, while weaker than the main shock, they can cause additional damage and trauma.

Recovering From An Emergency Incident

Safety is a primary issue when recovering from an emergency incident. Not everyone responds the same during an emergency and some may need reassurance and additional information to understand the incident.

After an incident, DTMB personnel will meet and discuss the lessons learned. You may be contacted to provide or clarify information and discuss what you observed during the event. The information gathered is not but the blame on any one person, but rather find out what didn't happen correctly and how we may remedy it in the future. Facility Supervisors may request at this time to hold an after action meeting with monitors to discuss the results from the lessons learned.

DTMB Facilities Emergency Information Card

In DTMB-managed facilities, emergency contact information cards are provided to tenants. Please post or place one next to every telephone in the building. To obtain copies, please contact your facility supervisor.

DTMB Facilities – Emergency Contact Information

PLEASE LEARN THE EMERGENCY PROCEDURES AND THE NAME OF YOUR MONITOR.

For additional information on the emergency monitor program, contact your Facility supervisor.

Type	How to Report	What Will Happen	Procedure
FIRE	Pull the alarm Call **Security** and report location	Alarm will sound ***inside*** of building and fire department will respond.	Evacuate 100 feet from the building. **Do Not Use Elevators**
AMBULANCE	Call **Security**	Facility supervisor and appropriate agency will respond.	Ensure unobstructed access to area.
CRIME	Call **Security**	Law enforcement personnel will respond. Evacuation may be necessary—if so, follow fire evacuation procedures.	Obtain as much information as possible. Be observant and remain calm.
BOMB			
BIOHAZARD			
TORNADO	National Weather Service will issue warning	Civil Defense Sirens will sound ***outside*** of building and severe weather message will sound ***inside*** of building	Evacuate to shelter area. ***Do Not Use Elevators***

Frequently Asked Questions

How do we know when it is safe to enter the building?

DTMB personnel and security will communicate the information to everyone in assembly areas.

During a building evacuation, can we enter another building that is not being evacuated?

Yes, although it is **your** responsibility to know when the all clear is issued allowing employees entrance back into the evacuated building.

I have received certification in Cardiopulmonary Resuscitation (CPR), should I administer it to a victim?

It is your choice to administer CPR.

Is there a designated location to go to during a building evacuation?

DTMB recommends finding a safe location that is at least one hundred feet away from the building and out of the path of emergency vehicles.

I no longer want to be a monitor, how do I find a replacement?

Agencies are responsible for assigning monitors. Please work with your supervisor for a replacement.

Our office is moving to a different building do we need to let anyone know?

You will need to notify the facility supervisor regarding floor and monitor status.

How do we know when it is safe to enter the building?

DTMB personnel will communicate the information to everyone in assembly areas and for those in interior shelter areas, the all clear will be broadcast throughout the building.

Evacuation Procedures / Emergency Monitors

QUICK STEPS

- DTMB personnel and Emergency Monitors will provide directions and assistance in moving to a safe location.
- All building occupants are to evacuate immediately upon receiving notification. **Do Not Use Elevators.**
- All occupants entering the shelter area are requested to remain in the shelter area until the "ALL CLEAR" notification is issued.
- If evacuating outdoors, all occupants must evacuate at least 100 feet away from the building.
- DTMB personnel will provide the "All CLEAR" notification based on direction from emergency first responders.

EMERGENCY NOTIFICATION SYSTEMS: Fire: Alarms, Strobes, Audible Messages
Severe Weather / Tornado: Civil Defense Sirens, Building Public Address System, Audible Messages
(Buildings may or may not have audible messages and Public Address Systems)

OVERVIEW: Emergency Monitors are employee volunteers located strategically within DTMB facilities and on record with the DTMB Facility Supervisor. Monitors will assist with the orderly evacuation of a building during an emergency. Evacuation routes, assembly areas, and shelter locations have been identified and the areas posted.

BUILDING EMPLOYEE / VISITOR RESPONSIBILITIES:

- Follow the directions of Emergency Monitors, remain calm, and proceed to a designated assembly area in a safe and orderly fashion.
- Be familiar with evacuation routes and location of shelter areas for the building.
- Minimize personal calls that might overburden emergency communication systems.

EMERGENCY MONITOR RESPONSIBILITIES:

- Notify employees and visitors in your area of responsibility of an emergency and the need to take action.
- Assist with the movement of area employees and visitors to designated safe locations.
- Be aware of the persons with disabilities within your assigned area and report information to DTMB personnel.
- Notify Head Monitor when an area is cleared, or assistance is needed in relocating individuals.

HEAD MONITOR RESPONSIBILITIES:

- Notify employees and visitors of an emergency situation and the need to take action.
- Inform DTMB personnel on status of the evacuation or sheltering of persons with disabilities, along with their location.
- Act as a communications link between DTMB personnel, employees, and visitors.

DTMB RESPONSIBILITIES:

- Assist first responders in accessing affected locations.
- Assist with relocating building employees and visitors as needed.
- Monitor the situation and communicate incident information to the Head Monitors.
- Encourage employees and visitors to stay in the shelter area and stop people from entering an evacuated building.

Severe Weather / Tornado

QUICK STEPS

Tornado Watch (Weather conditions are considered favorable for the development of a Tornado.)

- *If Inside:* Be ready to move to the designated shelter area. Stay alert and able to receive further notifications.
- *If Outside:* Be alert to changing weather conditions. Take shelter and wait until the immediate storm has passed before resuming your outdoor activities.

Tornado Warning (A Tornado or funnel cloud has been sighted or detected by radar in the area.)

- *If Inside:* Proceed immediately to the designated shelter area.
- *If Outside:* Enter a nearby building, move to an inner room in the basement or on the lowest floor. If there is no nearby building, move to a low-lying area and cover your head to protect yourself from flying debris.

NOTIFICATION: Warning sirens will activate outside when a tornado warning has been issued. Severe weather message will activate inside of the building (in buildings equipped with audible message system). If the siren or message is activated, seek shelter immediately.

BUILDING EMPLOYEE / VISITOR RESPONSIBILITIES:

- Know the location and route to the shelter area before an incident occurs.
- Follow the directions of Emergency Monitors; they may request assistance with persons with disabilities, new employees, or visitors to ensure that in the event of a Tornado Warning all building occupants have received notification and are relocating to a safe area.

DTMB RESPONSIBILITIES:

- DTMB personnel will verify that during a Tornado Warning all building occupants have moved to the shelter area. DTMB personnel and Emergency Monitors will encourage those in the shelter area to remain there until an "ALL CLEAR" notice is issued.
- DTMB personnel and Emergency Monitors will assist persons with disabilities as necessary in their relocation to a safe shelter area.
- DTMB personnel and Emergency Monitors will communicate information to everyone in the shelter area as conditions change.
- DTMB personnel will monitor the incident and, if warranted, summon assistance.

Home

Medical Emergencies

QUICK STEPS

- Stay Calm.
- Call DTMB Central Control (517) 373-0190 and explain the type of emergency, the location, and condition of the victim. Let the operator know of any safety hazards – chemical spill, fire fumes, etc.
  - ***Be sure to tell the operator if the person is unconscious, not breathing, is bleeding profusely, or has chest pain.***
- Do not hang up unless told to do so by the operator.
- Do not move the victim unless there is danger of further injury if they are not moved.
- Do not give the victim anything to eat or drink.

NOTIFICATION: Notify DTMB Central Control (517) 373-0190 of a medical emergency. In DTMB-managed facilities, DO NOT CALL 9-1-1.

BUILDING EMPLOYEE / VISITOR RESPONSIBILITIES:

- Attempt to comfort and stabilize injured parties until medical personnel arrive.
- Provide CPR or other first aid as appropriate according to your level of training.
- Emergency Monitors are to isolate the area around the victim.

DTMB RESPONSIBILITIES:

- DTMB Central Control will summon emergency personnel after receiving request for assistance.
- DTMB personnel will meet and escort emergency personnel to the scene.

Home

Human Bodily Fluids

QUICK STEPS

- Avoid direct contact with bodily fluids. If exposed, wash immediately, and contact DTMB Central Control (517) 373-0190.
- If you come in contact with human bodily fluids, seek medical attention immediately; prompt treatment can reduce the risk of infectious disease.
- DO NOT attempt to clean up bodily fluids unless trained and equipped.

NOTIFICATION: Notify DTMB Central Control (517) 373-0190 to report the hazard. If the hazard involves an injured person, refer to Medical Emergencies page.

BUILDING EMPLOYEE / VISITOR RESPONSIBILITIES:

- Immediately wash with soap and water any areas that come in contact with bodily fluids.
- Seek prompt medical follow-up treatment in order to reduce the risk of serious infection.

DTMB RESPONSIBILITIES:

- DTMB personnel will coordinate and direct the cleanup.

QUICK STEPS

- Remain calm and non-confrontational.
- Contact DTMB Central Control (517) 373-0190 and report incident.
- Notify supervisors and co-workers of a potential threat.
- In the event of a declared facility lockdown, lock all doors and windows, close shades, stay away from windows, stay quiet, and deny access to unauthorized individuals.

***Violence in the Workplace**: Workplace violence can be any act of physical violence, threats of physical violence, harassment, intimidation, or other threatening, disruptive behavior that occurs at the work site.*

NOTIFICATION: Contact DTMB Central Control (517) 373-0190 if one's personal well-being or the well-being of others is threatened.

BUILDING EMPLOYEE / VISITOR RESPONSIBILITIES:

- Have a basic awareness of the warning signs that point to potential violence (see below) and seek early intervention before there is any further escalation of violence.
- Promptly report to supervisor and/or DTMB Central Control (517) 373-0190 any threat or act of violence.

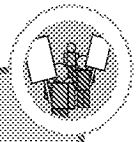
DTMB RESPONSIBILITIES:

- DTMB Central Control will summon emergency personnel as necessary.
- DTMB may call for a "LOCKDOWN" based on the level of threat.

FOR ADDITIONAL INFORMATION ON WORKPLACE VIOLENCE GO TO: WWW.OSHA.GOV

Home

Civil Disturbance



QUICK STEPS

- Notify DTMB Central Control (517) 373-0190 in the event that building employees and visitors feel threatened.
- DO NOT interfere or agitate participants in a public protest.
- Stay within work areas, stay away from windows, close window shades and doors.

NOTIFICATION: Contact DTMB Central Control (517) 373-0190 if access to facilities is obstructed, work operations are disrupted, entry is gained into unauthorized areas, individuals are feeling threatened, or State property is damaged.

BUILDING EMPLOYEE / VISITOR RESPONSIBILITIES:

- Promptly report to DTMB Central Control (517) 373-0190 any observed unauthorized, threatening, or damaging activities by protest participants.
- Follow instructions provided by DTMB personnel.

DTMB RESPONSIBILITIES:

- DTMB personnel and Central Control will monitor conditions and provide information as necessary.
- DTMB will provide instructions to building employees and visitors and summon emergency personnel as necessary.

Home

Bomb Threat / Explosion

QUICK STEPS

- ***Bomb Threat:*** Try to keep caller on the line and try to identify the location and nature of the explosive device.
- ***Explosion:*** Evacuate the building at the direction of emergency responders; be prepared for fire or other hazards, and move to the designated assembly area when directed.
- DO NOT USE CELL PHONES, RADIOS, OR OTHER ELECTRONIC DEVICES; signals may detonate an explosive device.
- If directed to evacuate, take purses and personal packages with you to lessen confusion during the bomb search.
- If you observe a suspicious object or package, DO NOT HANDLE OR TOUCH.

NOTIFICATION: Notify DTMB Central Control at (517) 373-0190 if a suspicious package is observed, or a bomb threat is received.

BUILDING EMPLOYEE / VISITOR RESPONSIBILITIES:

- Inform DTMB Central Control immediately upon observing suspicious activity or learning of a potential threat that might suggest an imminent hazard from an explosive device.
- Upon receipt of a phone threat, document the call and report the incident immediately to DTMB Central Control.
- Upon receiving notice to evacuate the building, follow instructions and immediately proceed to an open assembly area away from locations where a device may be concealed. Refer to Evacuation Procedures.

DTMB RESPONSIBILITIES:

- At the direction of first responders, DTMB will coordinate a preliminary search if a bomb threat is determined to be credible, coordinate an evacuation if warranted, and summon emergency personnel.
- DTMB will monitor conditions until an "All CLEAR" notice is issued.

BOMB THREAT CHECKLIST: Complete all items possible during and immediately following the call. Notify DTMB Central Control at (517) 373-0190.

Home

QUICK STEPS

- Activate fire alarm pull station at first sign of fire or smoke, evacuate the facility, close doors as you leave, and remain in the designated assembly area until "ALL CLEAR" notice is issued.
- Fire extinguishers are to be used by trained personnel and for relatively small fires only. Extinguished fires are to be reported to DTMB Central Control (517) 373-0190.
- DO NOT USE THE ELEVATORS and avoid smoke-filled stairwells.

NOTIFICATION: After a pull station is activated, from a safe location, building occupants are to contact DTMB Central Control (517) 373-0190 to report a fire.

BUILDING EMPLOYEE / VISITOR RESPONSIBILITIES:

- Be familiar with location of fire alarm pull stations, extinguishers, evacuation routes and assembly areas.
- Move to designated assembly areas that are at least one hundred feet from the building.
- Evacuate the building in a calm and orderly fashion to designated assembly areas and remain in that area until the "ALL CLEAR" notice is issued.

DTMB RESPONSIBILITIES:

- DTMB Central Control will summon local fire department and other responders as necessary.
- DTMB personnel will verify that the building has been evacuated and notify emergency personnel regarding the location and condition of persons with disabilities.
- DTMB personnel will assist emergency responders as necessary.

FIRE SAFETY TIPS:

- If smoke begins to enter the room, close door and seal with wet towels or clothing.
- If area fills with smoke, drop to the floor and crawl to a safe area.
- Feel the door before exiting a room, if hot, attempt to find an alternate exit route.
- Do not open windows except to notify responders of your presence or to get fresh air in the presence of excessive smoke.

Home

Suspicious Powder

QUICK STEPS

- DO NOT TOUCH the powder, packaging, or container.
- Report the incident to DTMB Central Control (517) 373-0190. Include a description of the powder and any associated container.
- If contact was made with the substance, immediately wash exposed area with soap and water.
- Isolate the area of the suspicious powder and remove yourself from the immediate vicinity until help arrives.
- Close any windows, doors, or vents that might disperse the powder by air.

NOTIFICATION: Notify DTMB Central Control (517) 373-0190 of any suspicious substance. Provide a description and location of the incident.

BUILDING EMPLOYEE / VISITOR RESPONSIBILITIES:

- Be sure to immediately notify DTMB personnel if you were potentially exposed. You will need to provide your name and contact information.
- Remain alert and stay in contact with your Emergency Monitor or supervisor until the matter is resolved.
- Maintain a list of individuals who may have been exposed.

DTMB RESPONSIBILITIES:

- Until the substance has been identified, immediate isolation of the area is warranted. Emergency personnel will assess the situation before issuing a broader evacuation notice.
- DTMB Central Control will shut down the air handling system in the building and will monitor the incident. If appropriate, DTMB will summon emergency personnel.

UNKNOWING EXPOSURE, NEED TO MONITOR SYMPTOMS:

Physical symptoms from exposure to a bacterial agent or toxin do not typically appear until days after an exposure event. As a precaution, any individual exhibiting physical symptoms (e.g., rash, difficulty breathing, flu-like symptoms) following possible exposure to a suspicious powder should consult with their physician and provide them with the appropriate information.

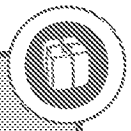
FBI – DHS – HHS/CDC GUIDANCE:

1. **Letter/container with unknown powder-like substance accompanied by a threatening communication:**
   - Assume substance was intentionally introduced.
   - DTMB will coordinate response with FBI, HAZMAT team, and Public Health department.
   - Do not attempt to remove or repackage an unknown powder.
   - Notify DTMB Central Control of any illness or injury possibly related to an exposure.
2. **Letter/container with a threat but no visible powder or substances present:**
   - Assume possible trace amounts of a hazardous power or substance may be present within the container.
   - Follow instructions as in item #1 above.
3. **Letter/container with unknown powder, no articulated threat, and no illness:**
   - If source of substance is deemed reasonable and warranted, no further action is needed, otherwise refer to item #1 above.
4. **Letter/container with no visible powder, no threat, but recipients are ill:**
   - Follow instructions given by public health and medical personnel; initial response similar to #1 above.
5. **Letter/container arrives with no powder, no threat, the recipient is not ill, but the recipient is concerned about the package:**
   - If other threat indicators (excess postage, misspellings, or unusual colors and odors are present), notify DTMB Central Control. If package is viewed as suspicious, follow response instructions listed in item #1 above.

UNITED STATES POSTAL SERVICE GUIDANCE:

1. **Handle with care. Do not shake or bump the package.**
2. **Isolate it immediately.**
3. **Do not open, smell, touch, or taste the package.**
4. **Treat the package as suspect. Notify Central Control (517) 373-0190.**

Suspicious Package



QUICK STEPS

- DO NOT TOUCH OR REMOVE the package from its point of discovery.
- Report the location and description of the package to DTMB Central Control (517) 373-0190.
- DO NOT USE CELL PHONES OR PORTABLE RADIOS as explosive devices may be triggered by an emitted signal.
- DO NOT USE ELEVATORS to evacuate unless directed by DTMB personnel.
- Take purses and personal packages with you to lessen confusion during a suspicious package search.

NOTIFICATION: Notify DTMB Central Control (517) 373-0190 of any suspicious package found on the premises. Provide a description and location of the package.

BUILDING EMPLOYEE / VISITOR RESPONSIBILITIES:

- Inform DTMB Central Control immediately upon observing suspicious activity or learning of a potential threat that might suggest an imminent hazard from a suspicious package.
- Given the possibility that the package might contain a biological or chemical agent, anyone inadvertently touching the package should wash his or her hands with soap and water immediately.
- Upon receiving notice to evacuate the building, follow instructions and immediately proceed to an open assembly area. Refer to Evacuation Procedures.
- Maintain a record of the names and local contact information for those having come in direct contact with the package.

DTMB RESPONSIBILITIES:

- DTMB personnel are to ensure the immediate area is evacuated and prevent others from entering the area.
- DTMB Central Control will shut down the air handling system for the building and summon appropriate emergency personnel.

CHARACTERISTICS OF A SUSPICIOUS PACKAGE:

- Unusual Wording or Symbols
- Protruding Wires or Aluminum Foil
- Excessive Tape or Wrapping
- Location in High-risk or Accessible Area
- Oily Stains or Color Residues
- Observed Strangers in Area or Received Threats
- Mechanized Sounds

FBI – DHS – HHS/CDC GUIDANCE:

1. **Letter/container with unknown powder-like substance accompanied by a threatening communication:**
   - Assume the substance was intentionally introduced.
   - DTMB will coordinate response with FBI, HAZMAT team, and Public Health department.
   - Do not remove or repackage an unknown powder.
   - Notify DTMB Central Control of any illness or injury possibly related to an exposure.
2. **Letter/container with a threat but no visible powder or substances present:**
   - Assume possible trace amounts of a hazardous power or substance may be present within the container.
   - Follow instructions as in #1 above.
3. **Letter/container with unknown powder, no articulated threat, and no illness:**
   - If source of the substance is deemed reasonable and warranted, no further action is needed, otherwise follow instructions listed in item #1 above.
4. **Letter/container with no visible powder, no threat, but recipients are ill:**
   - Follow instructions given by public health and medical personnel; initial response similar to item #1 above.
5. **Letter/container arrives with no powder, no threat, the recipient is not ill, but the recipient is concerned about the package:**
   - If other threat indicators (excess postage, misspellings, or unusual colors and odors are present), notify DTMB Central Control. If package is viewed as suspicious, follow response instructions listed in item #1 above.

UNITED STATES POSTAL SERVICE GUIDANCE

1. **Handle with care. Do not shake or bump the package.**
2. **Isolate it immediately.**
3. **Do not open, smell, touch, or taste the package.**
4. **Treat the package as suspect. Notify Central Control (517) 373-0190.**

Armed Entry / Lockdown

QUICK STEPS

- ***Armed Entry or Threatened Injury:*** DO NOT confront or attempt to disarm the individual; remain calm, stay alert, and do as asked.
- ***Declared Facility Lockdown:*** Lock all doors and windows, close shades, stay away from windows, keep quiet, and deny access to unauthorized individuals.
- ***Discovery of a Weapon:*** DO NOT touch the weapon; isolate area and contact DTMB Central Control (517) 373-0190.

NOTIFICATION: Notify DTMB Central Control at (517) 373-0190 of an attempted entry by armed individuals, a threat of personal injury, or the discovery of a weapon on State property.

BUILDING EMPLOYEE / VISITOR RESPONSIBILITIES:

- Avoid agitating threatening individuals, stay alert, and attempt to comply with demands.
- Stay in "LOCKDOWN" until an "ALL CLEAR" notice is issued by DTMB personnel.
- When contacting DTMB Central Control, provide your name, location of incident, type of situation, number of individuals involved, and any injuries sustained.
- DTMB may ask Emergency Monitors to provide assistance in a lockdown situation.

DTMB RESPONSIBILITIES:

- DTMB personnel will determine the need for "LOCKDOWN" and initiate lockdown procedures from Central Control.
- If appropriate, and where capabilities exist, DTMB will lockdown facilities electronically from Central Control.
- DTMB Central Control will summon emergency personnel and provide information as appropriate.

Home

QUICK STEPS

- All building employees and visitors are to participate in drills and exercises.

NOTIFICATION: Drills and exercises may be announced or unannounced.

BUILDING EMPLOYEE / VISITOR RESPONSIBILITIES:

- All building employees and visitors are to participate in drills and exercises.
- Participate in each exercise as if it were a real event.
- Building employees who do not participate in emergency drills and exercises will be reported to their Human Resources Office.
- Work with Emergency Monitors and DTMB personnel to continuously improve emergency response performance.
- Provide feedback to Emergency Monitors on facility evacuation.

DTMB RESPONSIBILITIES:

- DTMB personnel will schedule and perform the drills and exercises.
- DTMB will debrief with Emergency Monitors following an exercise, making recommendations leading to improved performance in DTMB facilities.

Chemical Attack, Release, or Spill

QUICK STEPS

If release is outdoors and you are outdoors:

- Stay upwind of release, leave area and proceed to closest building. Attempt to minimize exposure to contaminated air by covering nose and mouth with layers of fabric that can filter the air, but still allow breathing.

If release is outdoors and you are indoors:

- Stay indoors, close windows, and doors to minimize exposure.

If the release occurs in the building you are presently in:

- Move away from release. Leave building if instructed by DTMB personnel and follow recommended routes to avoid area of high contaminant concentration.

NOTIFICATION: Contact DTMB Central Control (517) 373-0190 if you observe a possible chemical release.

BUILDING EMPLOYEE / VISITOR RESPONSIBILITIES:

- Follow instructions provided by DTMB personnel and the Emergency Monitors regarding evacuation, sheltering, medical evaluation, or any decontamination procedures.
- Minimize cell phone activity so as not to overtax emergency communications.
- If exposed to contaminates, follow instructions provided by emergency personnel.

DTMB RESPONSIBILITIES:

- DTMB Central Control will turn off all air handling equipment to minimize chemical spread, where appropriate.
- DTMB personnel will communicate information and directions to Emergency Monitors and appropriate agency personnel.
- DTMB personnel will monitor conditions and summon support until an "ALL CLEAR" status is attained.

Home

Biological Attack or Release

QUICK STEPS

If release is outdoors and you are outdoors:

- Stay upwind of release, leave area and proceed to closest building. Attempt to minimize exposure to contaminated air by covering nose and mouth with layers of fabric that can filter the air, but still allow breathing.

If release is outdoors and you are indoors:

- Stay indoors, close windows, and doors to minimize exposure.

If the release occurs in the building you are presently in:

- Move away from release. Leave building if instructed by DTMB personnel and follow recommended routes to avoid area of high contaminant concentration.

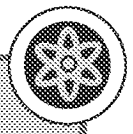
NOTIFICATION: Contact DTMB Central Control (517) 373-0190 if you observe a possible biological release.

BUILDING EMPLOYEE / VISITOR RESPONSIBILITIES:

- Attempt to minimize exposure to contaminated air.
- Employees and visitors should not leave area until cleared by emergency/medical personnel.
- Follow instructions provided by DTMB personnel and the Emergency Monitors regarding evacuation, sheltering, medical evaluation, or any decontamination procedures.
- With some contagious agents (e.g., smallpox) it may be necessary to be vaccinated immediately.

DTMB RESPONSIBILITIES:

- DTMB Central Control will turn off all air handling equipment to minimize the spread of the biological agent, where appropriate.
- DTMB and emergency personnel will advise and coordinate any necessary vaccinations needed.
- DTMB personnel will communicate information and directions to employees and visitors.
- DTMB personnel will monitor the incident and summon emergency personnel as necessary until an "ALL CLEAR" status is issued.



QUICK STEPS

If release is outdoors and you are outdoors:

- Stay upwind of release, leave area and proceed to closest building. Attempt to minimize exposure to contaminated air by covering nose and mouth with layers of fabric that can filter the air, but still allow breathing.

If release is outdoors and you are indoors:

- Stay indoors, close windows, and doors to minimize exposure.

If the release occurs in the building you are presently in:

- Move away from release. Leave building if instructed by DTMB personnel and follow recommended routes to avoid area of high contaminant concentration.

NOTIFICATION: Contact DTMB Central Control (517) 373-0190 if you observe a possible chemical release, or if building occupants become ill.

BUILDING EMPLOYEE / VISITOR RESPONSIBILITIES:

- If release is outdoors, immediately assemble in the shelter area. It is impossible to immediately determine if an attack or release contained radioactive materials. Therefore, one should assume the possibility that radioactive materials were involved and avoid the inhalation of dusts.
- DTMB personnel will provide further information and instructions regarding sheltering and any decontamination procedures.
- Minimize cell phone activity so as not to overtax emergency communications.

DTMB RESPONSIBILITIES:

- DTMB Central Control will turn off all air handling equipment to minimize the spread of radioactive dust, where appropriate.
- DTMB personnel will communicate information and directions to employees and visitors.
- DTMB personnel will monitor the incident and summon necessary support needed until an "ALL CLEAR" status is attained.

"DIRTY" BOMB:

A radiological attack is likely to entail a "dirty bomb" where conventional explosives are used to distribute radioactive materials to the atmosphere. Following the initial blast, the greatest risk involves the exposure to radioactive dust that might be inhaled or deposited on the skin. This exposure would result in an increased cancer risk. If caught outside when the blast occurs, removal of outer clothing and showering can reduce dermal exposure by 90%. Once inside the shelter area, building walls may block much of the harmful radiation resulting from dusts settling in the area.

Home

QUICK STEPS

- Persons with disabilities should voluntarily ensure Emergency Monitors are aware of any special assistance needs.
- Persons with disabilities are to select a "Buddy" and an alternate to provide assistance during an emergency.
- "Buddies" and persons with disabilities must maintain daily contact with one another and be aware of any absences.

NOTIFICATION: During an emergency, "Buddies" are to seek out persons with disabilities and provide assistance as needed.

BUILDING EMPLOYEE / VISITOR RESPONSIBILITIES:

- Persons with disabilities must ensure that there is a "Buddy" and a backup "Buddy" to help them in an emergency.
- Persons with disabilities and all "Buddies" are to familiarize themselves with emergency procedures for the building.
- Persons with disabilities should discuss emergency evacuation plans with their "Buddies" and Emergency Monitors assigned to their area.

DTMB RESPONSIBILITIES:

- Ensure that emergency personnel are aware of individuals needing assistance during an evacuation and provide their location to emergency responders.
- Maintain a list of persons with disabilities within the building.
- Ensure that all aisles and doorways leading to evacuation routes and exits are clear and negotiable at all times.

Home

Utility Failure

QUICK STEPS

- Notify your supervisor whenever a loss of power, heat, water, communication, or computer services creates an unsafe or unproductive worksite.
- Alert supervisor to any actions or measures that might be taken to mitigate any negative consequences of a utility loss (Example: backup of data).
- Notify DTMB Central Control (517) 373-0190 in the event of a major utility failure, or if there is potential danger to building occupants.

NOTIFICATION: Notify DTMB Central Control (517) 373-0190 of lost services when loss might significantly impact normal work operations.

BUILDING EMPLOYEE / VISITOR RESPONSIBILITIES:

- Remain at your workstation unless directed otherwise by supervisor.
- Follow instructions provided by your supervisor and/or DTMB personnel.
- During a power outage, turn off computers and electrical equipment that might be damaged by a surge once power is restored.
- DO NOT USE THE ELEVATORS in any emergency. During a power outage, elevators may not operate.

DTMB RESPONSIBILITIES:

- DTMB will determine the extent of service loss and contact appropriate personnel.
- DTMB will provide an estimated time for resumption of service.
- If warranted, DTMB will assist with finding alternative temporary work locations as part of the State's Continuity of Operations Plan.
- DTMB personnel will communicate incident information to designated department representatives.

QUICK STEPS

- All employees and visitors are to remain vigilant and conduct their activities so as not to compromise the security practices implemented to ensure the safety of all.
- Promptly report all violations to DTMB Central Control (517) 373-0190.

NOTIFICATION: Report any security issues to DTMB Central Control (517) 373-0190.

BUILDING EMPLOYEE / VISITOR RESPONSIBILITIES:

- **Secure Doors:** All outside perimeter doors are to remain closed. DO NOT prop doors open.
- **Facility Access Key Cards and Employee Identification Cards:**
  - DO NOT loan cards to other persons for any reason.
  - Display cards prominently while on State property at all times.
  - Challenge any unidentified visitors.
  - Report lost cards immediately to DTMB's Customer Service Center at (517) 373-6227 or by email at DTMB-CustomerService@michigan.gov.
  - DO NOT leave cards unattended.
  - When entering or leaving by a secure door, never let strangers into the building.
- **Visitor Management System:** Become familiar with visitor management practices. Ensure that all visitors have signed in and that they are escorted as appropriate.
- **Vehicle Access Controls:** DO NOT piggyback on cars entering before you; wait until gate recycles and utilize your access card to gain entrance.
- **Computer Access:** Shut down terminals when leaving the worksite unattended. DO NOT share passwords or other controls.
- **Sensitive Data:** At the end of the workday store sensitive data out of sight in a location with appropriate security. Take care not to leave sensitive data in the printer areas.
- **Mail Inspection:** Inspect all packages received by delivery services (UPS, Federal Express, etc.) to ensure that the package comes from a recognized source and displays no signs of containing a harmful agent.
- **Personal Items**: Secure and store all personal items and sensitive material.

DTMB RESPONSIBILITIES:

- DTMB will provide system administration, maintenance and monitor security equipment in DTMB facilities.

Technology, Management & Budget

May 1, 2015
April 16 and 21, 2015 Tornado Drills
Jeanette Doll

PURPOSE

Conduct annual tornado drills to evaluate the readiness of notification systems, DTMB procedures and building tenants' preparedness actions. The tornado drills receive good response from the tenants, with many questions and concerns received before and after the drills.

Overview

DTMB conducts tornado drills annually to familiarize building occupants and response personnel on what to expect when a tornado warning is issued for the immediate area. The drills provide several important benefits:

- Determine readiness to respond during an incident
- Identify gaps or issues with existing procedures and plans
- Serve as a training tool to familiarize tenants with existing emergency plans
- Identifies needs for additional resources, and
- Serve as a tool to improve existing plans based on the lessons learned

DTMB activates severe weather messages to initiate the drills inside the buildings. Central Control operators provide active monitoring and response during emergency incidents and are able to activate the messages by building or county.

Drill Analysis

- The outdoor civil defense siren on top of the Energy Center at the Secondary Complex did not activate.
- Evacuation plan for 7th floor Grand Tower elevator lobby missing.
- Unable to locate the Construction and Technology evacuation plan in front lobby.
- Shelter sign at reception desk directed visitors to a locked shelter area.
- Tenants in shelter area were very loud making it difficult to hear the all-clear message when it was issued.
- New shelter area identified and needs to be added to building evacuation plans.
- Question was raised regarding security not directing visitors to the shelter are during the drill.
- Confusion among the tenants on what stairwells they are to take to the shelter areas.
- New tenant in Grand Tower unsure who to contact regarding their role as a monitor for the floor.
- All-clear calls into Central Control caused the phone line to transfer to another line and callers were redirected incorrectly.
- Access card readers on stairwell doors did not release slowing egress pathways.

Conclusions and Recommendations

Based on the results of this review and feedback provided, the following recommendations for improvement of DTMB's severe weather preparedness and response program are provided:

- Maintenance provided to siren at Secondary Complex to adjust sensor and repair made. Testing of the system on May 2, 2015 confirmed repairs corrected issues.
- Evacuation maps reprinted and posted for requested buildings.
- New shelter sign way finding map provided for reception desk.
- Facility supervisors are working with emergency monitor volunteers to ensure all-clear notification is communicated throughout the shelter area when issued and evacuation routes are communicated to all tenants.

- Facility supervisors are now meeting with new tenants to cover building evacuation specific information.
- Evacuation plans with additional shelter areas updated.
- Security guards will continue to ask visitors to wait until building drills are complete before taking their information and allowing entrance into the facilities. However, during an actual event all visitors will be allowed in shelter area.
- Central Control will ensure that all all-clear calls received from Building Operations Division personnel are taken and not redirected.
- Office of Infrastructure to review stairwell access card readers to ensure they are on the fire system and are programmed to release during a tornado announcement. OIP's security program coordinator to write a policy regarding installation of readers to ensure readers installed on stairwell doors are programmed to release during fire and severe weather.

The annual tornado drills provide a great opportunity to assess emergency management programs, effectiveness of procedures in place and a refresher to all building occupants. The drills are evaluated and include recommendations for improvement to ensure DTMB's program provides a robust and reliable program for tenants.

DTMB personnel have implemented changes for improvement based on findings from the drills and will continue to research products and resources to assist in providing safe environments for occupants. It is our intention, to use what we have learned to permanently improve the department's emergency programs and provide working conditions for our tenants that are as safe.

Subject: RE: Facility Notification: Flint State Office Building

Jennifer,

I spoke with Jeanette this morning. She informed me….given that this state building has high public traffic (Flint citizens); it was felt prudent to offer an alternative supply of drinking water to citizens entering the building. Jeanette asked me what should be expected with the next round of samples (March time-frame). I explained to her how compliance with TTHMs is determined (based on a running annual average of 4 quarters) and the public notification requirements. The city's next round of samples will be collected around the 3rd week of Feb; however, regardless of sample results, compliance with the TTHM MCL will not be re-achieved due to the high levels detected last summer. Although the city will remain out of compliance, (primarily based on the previous results), the November sample results were substantially lower (7 of 8 locations below the MCL). We anticipate that most (if not all) locations will be in compliance with the February monitoring. The city; however, needs to make a diligent effort to convey TTHM status to their residents as soon as possible after new results become available (regardless of compliance status). Jeanette will pass this information on.

Flint Water Advisory

Date/Time:

Effective Wednesday, January 7, 2015

Details:

The City of Flint recently sent out the attached notice regarding violations to the drinking water standards. While the City of Flint states that corrective actions are not necessary, DTMB is in the process of providing a water cooler on each occupied floor, positioned near the water fountain, so you can choose which water to drink. The coolers will arrive today and will be provided as long as the public water does not meet treatment requirements.

Subject: RE: Facility Notification: Flint State Office Building

I have several questions about this matter. Why does "public traffic" deserve a higher consideration than concern for state workers? How does that reasoning appear to state employees? A visitor may take one drink of water from this site in their lifetime. State workers (like any employees) may get half of the water they consume each day at their place of employment. Which group faces the greater health risk from drinking water in state occupied premises? Are other state owned/occupied facilities in Flint being provided with the same service? How about a Secretary of State's offices or the DHS facilities? Are there any state correctional facilities that receive drinking water from Flint?

What would DTMB have done if the problem had occurred in Lansing? Would the state of Michigan be providing bottled water or an alternate supply of drinking water to all of the state owned or state employee locations that receive Lansing drinking water and allow public access? Who would make that decision? Why wouldn't that decision maker seek the advice of the Office of Drinking Water and Municipal Assistance before deciding? Would it be building by building or one decision be made for state facilities?

How does this action by DTMB impact the answer when ODWMA district staff are asked by others in the media or from the general public about whether Flint residents should continue to consume Flint's drinking water with elevated disinfection byproducts? No doubt it will make it more difficult from a perception standpoint for ODWMA staff.

If this matter were about an acute health threat, such as E.coli or nitrates, then I would applaud the decision. But when we are dealing with a chronic health threat in a community water system, I think the appropriate action is to ensure public awareness and education, establish a reasonable compliance schedule, and allow individuals to make personal choices if they wish. And if someone like GM or the State of Michigan decides to implement such measures as supplying an alternate water supply for a chronic health threat that should be of a limited duration, fine, but it should be uniformly implemented.

If DTMB would like to meet to discuss this issue and procedures for communication and possible actions in future, similar events, we would be willing to participate.

Richard Benzie, P.E., Chief
Field Operations Section
Office of Drinking Water and Municipal Assistance, MDEQ

Subject: RE: Facility Notification: Flint State Office Building

Jennifer,

I spoke with Jeanette this morning. She informed me….given that this state building has high public traffic (Flint citizens); it was felt prudent to offer an alternative supply of drinking water to citizens entering the building. Jeanette asked me what should be expected with the next round of samples (March time-frame). I explained to her how compliance with TTHMs is determined (based on a running annual average of 4 quarters) and the public notification requirements. The city's next round of samples will be collected around the 3rd week of Feb; however, regardless of sample results, compliance with the TTHM MCL will not be re-achieved due to the high levels detected last summer. Although the city will remain out of compliance, (primarily based on the previous results), the November sample results were substantially lower (7 of 8 locations below the MCL). We anticipate that most (if not all) locations will be in compliance with the February monitoring. The city; however, needs to make a diligent effort to convey TTHM status to their residents as soon as possible after new results become available (regardless of compliance status). Jeanette will pass this information on.

Michael Prysby, P.E.
District Engineer
Office of Drinking Water and Municipal Assistance
517 290-8817

Good morning!

My phone call was referencing the advisory our Real Estate Division received from the City of Flint. Just wanted to know if we would know sooner than March 1 on the TTHM levels.

Jeanette

Flint Water Advisory

Date/Time:

Effective Wednesday, January 7, 2015

Details:

The City of Flint recently sent out the attached notice regarding violations to the drinking water standards. While the City of Flint states that corrective actions are not necessary, DTMB is in the process of providing a water cooler on each occupied floor, positioned near the water fountain, so you can choose which water to drink. The coolers will arrive today and will be provided as long as the public water does not meet treatment requirements.

	Since we spend about 40 hours a week at our workplaces, isn't the office the best place to try out some new energy-saving tricks? The Energy Information Administration estimates that if commercial and industrial buildings improved their energy efficiency by 10 percent, our economy could see yearly savings of nearly $20 billion.

Flint Alternate Water Resource

Date/Time:

Monday, October 5, 2015 at 6:00 a.m. until further notice

Details:

Beginning Monday, October 5, 2015, water coolers will be available in common areas on floors 1-6 of the Flint State Office Building. Although the drinking water has been tested and falls within all DEQ and EPA regulation standards, alternate water sources will be offered to accommodate all tenants due to recent concerns regarding the water supply. Water testing will continue and the alternate water source will be available until all quality concerns are addressed.

Thank you for you cooperation.

	According to the Clean Air Council, the average American throws away enough paper each year to build a 12-foot wall from Los Angeles to New York City. Consider going paperless by saving documents and manuals on a common server instead of handing them out in hard-copy form. If you must print a multi-page document, be sure to use the double-sided printing feature.

3212	
3213	
3214	Client states had one installed by Housing Commission, but leaked. Maintenance discovered it had a missing part and referred client to DHS to receive a new one as they no longer had them.

Cash Donations

www.unitedwaygenesee.org

Small donations of water (cases, less than a pallet)
Catholic Charities – Center for Hope
Monday – Friday 9 am – 4 pm
517 E. Fifth

Large donations of water (pallets/truckloads)
Food Bank of Eastern Michigan

FYI – It appears there is frustration regarding not everything is being run through the local EOC and many parties are working on different things – which isn't always requested through the EOC or known to the local EOC.

Fire Station Distribution
Flint Pick-up locations:
1. G-CARD Pick up the pallets of filters and replacement filters. These will be on pallets and each site will get one set of filters and filter replacements.
a. Location: 2727 Lippincott, Flint, MI 48507
b. Pick-up Time: 9:00am
NOTE: These may require several trips to and from the sites.
2. Food Bank of Eastern Michigan. Pick up five pallets of water (3 pallets of liter bottles, 2 of gallon jugs).
a. Location: 2312 Lapeer Road, Flint, MI 48503. Loading dock is located off Lapeer Rd. When you arrive go to the older building and knock on the door. The supervisor on duty (Sally) will assist with loading the pallets.
Deliver one of each items (a filter pallet, a water pallet, test kit bundle) to the following locations:
Fire Station Address
716 West Pierson Rd
1525 Martin Luther King Jr. Blvd
310 East 5th St
3402 Western Rd
202 East Atherton

Please place these in a publically accessible spot that will not hinder first responder duties.

If the boxes could be placed at the loading dock, our driver can palletize them. This will be quicker than having them placed in the building lobby.

This will be a challenge as palitizing materials is typically not something the lab does especially with one day notice. I will contact the lab and see what can be done.

Importance: High

Kirby,

DTMB will palletize the boxes. Please just have the boxes at the loading dock as per the e-mail below, along with the paperwork and rubber bands.

Thank you!
George

The mix and match of colors is fine. We are really in need of the Brita Filter replacements asap. I have also been instructed that if we can't get at least 1500 by tomorrow that we may have to purchase them from another vendor.

Tomorrow starts the major distribution by State employees.

Subject: FW: Filtration Inventory

Good afternoon,

Below are the inventories with the retails of the products available. In addition to the Brita faucet mount (714338) there are 5,000 available which are in transit from another location to the manufacturer. We are not sure of the transit time as of yet on those. All of the products below are certified by the NSF to meet our 53 standards and remove the lead to the acceptable levels. If you will notice, we have given all options which include units in white color as well as chrome. This does not have any effect on the capability of the product, just only is a color change.

Please let me know if you would like to select which you want, or if you would like me to just acquire as much as possible.

Thank you,

Updated with **retails**

Guys,
Here is the latest list of all available inv. Make sure the state is aware residents may have to mix and match white with chrome. (white system/chrome cartridge or chrome system/white cartridge).

Waiting on retails. Let me know what they want and I'll get the trucks rolling.

(1) Claims of capacity or rated service cycle are not applicable for mechanical filtration.
[2] Model available in white, chrome, and black.
[3] As of production code beginning P52120.
[Pb] Product also evaluated and determined to possess weighted average lead content of <=0.25% and complies with lead content requirements for "lead free" plumbing as defined by California, Vermont, Maryland, and Louisiana state laws and the U.S. Safe Drinking Water Act.

NOTE: All replacement elements are components.

The category of VOC (Volatile Organic Chemical) includes a number of chemicals that are both man-made and naturally occurring. Water from wells and utilities may contain some of these contaminants. Some VOCs are pesticides, herbicides, or insecticides that seep into the ground water after application. Other VOCs enter the water supply through industrial or other waste disposal. This category also includes total trihalomethanes, which are a by-product of chlorination.

A VOC reduction claim by the manufacturer means the system reduces the concentration of all of the following contaminants:

alachlor
atrazine
benzene
carbofuran
carbon tetrachloride
chlorobenzene
chloropicrin
2,4-D
dibromochloropropane (DBCP)
o-dichlorobenzene
p-dichlorobenzene
1,2-dichloroethane
1,1-dichloroethylene
cis-1,2-dichloroethylene
trans-1,2-dichloroethylene
1,2-dichloropropane
cis-1,3-dichloropropylene
dinoseb
endrin
ethylbenzene
ethylene dibromide (EDB)
haloacetonitriles
  bromochloroacetonitrile
  dibromoacetonitrile
  dichloroacetonitrile
  trichloroacetonitrile
haloketones
  1,1-dichloro-2-propanone
  1,1,1-trichloro-2-propanone
heptachlor
heptachlor epoxide
hexachlorobutadiene
hexachlorocyclopentadiene
lindane
methoxychlor
pentachlorophenol
simazine
styrene
1,1,2,2-tetrachloroethane
tetrachloroethylene
toluene
2,4,5-TP(silvex)
tribromoacetic acid
1,2,4-trichlorobenzene
1,1,1-trichloroethane
1,1,2-trichloroethane
trichloroethylene
trihalomethanes (TTHM)
  bromodichloromethane
  bromoform
  chlorodibromomethane
  chloroform
xylenes

Facility : Shenzhen, China

DRINKING WATER LEAD AND COPPER SAMPLING INSTRUCTIONS

Thank you for helping to monitor for lead and copper in your drinking water.

It is important that you follow these instructions so we obtain an accurate measurement of the lead and copper in your drinking water.

Do not open the bottle until instructed in step 3. Do not touch the inside of cap or bottle.

1. **The water in the house must not have been used for a minimum of six (6) hours prior to sampling.** The best times to sample are early morning or after returning from work. **Do not flush the sample tap before sample collection.**

2. **Select a cold water faucet** in the **KITCHEN** or **BATHROOM** that is commonly used for drinking and has been used within the last 24 hours. **No other faucets are acceptable for collection.** If the faucet is connected to a faucet mount filter, water softener, iron filter or reverse osmosis system, etc. the treatment device must be removed or bypassed.

When was the faucet last used before sampling? Date _____ TIME _____ AM/PM

Is there a faucet-mount filter? ☐ YES ☐ NO If YES, was it bypassed? ☐ YES ☐ NO

Is this faucet connected to a home treatment device such as a water softener, a reverse osmosis unit, an iron removal device OR is any kind of additive used in the home? ☐ YES ☐ NO

If YES, please describe: _____

If YES, was it bypassed? ☐ YES ☐ NO

3. Open sample bottle and place below the faucet and gently open the **COLD** water tap. If you have a single handle faucet, turn it fully to the **COLD** side. Fill the sample bottle to within an inch of the top with the "first draw" of **COLD** water.

4. Tightly cap the sample bottle

If any plumbing repairs or replacement has been done in the home since the previous sampling event, please note this information here:

If YES, please describe: _____

5. Fill out the collection information on the front, answer the questions below and sign the form.

6. Attach this form to the bottle and return it to either **Flint City Hall or the Flint Water Plant**.

7. Thank you again for your help. We will send you your individual results within 30 days of receiving them from the laboratory. A summary of information on this year's lead and copper monitoring will be printed in the annual water quality report that will be made available by July 1 of this year. Contact your water supply if you have questions.

If you have any questions contact:

City of Flint Water Plant 4500 N. Dort Hwy. Phone: 810-787-6537 ext. 3501

I have read the Drinking Water Lead and Copper Sampling Instructions and have taken a tap sample in accordance with these directions.

Jeanette,

According to David from Home Depot, they can get water by the truckload and on an ongoing basis. 1,596 cases (38,304 bottles) per truck at $3.47 per case ($5,538.12 per truck).

We'll just need to let him know when and where to deliver. Let me know. Thanks.

Subject: RE: Flint Water Contamination Response - NSF Filer Verification

Dear Ms. Wolf,
Thank you for contacting NSF International. Dupont does not have certification for water filters with NSF International.
For reference, here are the filters and RO systems that are NSF certified for lead reduction:
Pour Through Water Pitchers
Faucet Mounted Filters
Under Sink Filters
Reverse Osmosis

If you need additional information or have further questions, please let me know.
Thank you for your inquiry.

Kind regards,
Mindy Costello RS MS

Subject: Fwd: Church locations & Times

BJ,
Thanks for this. I thought there was an earlier time at one church? I have forwarded this to Jeanette to give to the two drivers.
Send me any updates to this so we can keep our schedules current.
Only 8 churches, looks like the last two pallets will be broke down with 50 extra to each (of the 8).
Water is going there too right, handled on your end?
Gabe

Jeanette,
Please see the latest itinerary below as requested by Lt. Rouch. ARC will be taking over the with the distribution after the first delivery is made @ 8:30. This should have your trucks and drivers back earlier to Lansing.
Thanks,
Gabe

> Gabe, this is the plan for church delivery tomorrow: DTMB delivery of filters to Christ Fellowship Baptist Church, Deacon Gilcrest, 317 E. Hamilton Ave., Flint, MI. at 8:30pm. ARC volunteers will be there at that time. After that delivery, I would like DTMB to take the filters to the ARC facility located at 1401 S. Grand Traverse, Flint, and off load the filters into 7 ARC vehs. ARC will deliver them at the determined delivery times with the Pastors. ARC volunteers will stay on scene of all churches to help with distribution. This is due to the later delivery times requested by the 7 churches. I have talked to the Pastors direct ref deliveries tomorrow. Please let me know if you have any questions. BJ
